Plan to Manage Traffic and Noise

by Sivan Harlap and Andrew States

This Plan to Manage Traffic and Noise will show you that we have considered general community concerns and will implement practices that will hopefully minimize any potential negative impact. We are open to further suggestions and we promise to make it our commitment to always work on maintaining a healthy respectful relationship with our neighbors which includes the following considerations.

- All windows and doors will be closed by 9pm nightly.
- Soundproofing has been installed and soundproofing measures will be taken, including:
 - o music volume will be kept at an ambient background level
 - o speakers have been suspended in order to minimize sound and reverberation
 - o energy efficient windows prevent not only air but also sound leaks
 - heavyweight soundproofing curtain around the front door to help eliminate sound escaping with customers coming and going
 - we hired an acoustic engineer to survey the current conditions and help us make smarter soundproofing decisions in the future
- Smokers will be monitored and instructed to stand just south of the entrance, on Clinton. Signage to this effect will also be posted.
- Although we do expect most of our patrons to be local and coming and going on foot or by bicycle, in consideration to vehicular traffic:
 - In effort to reduce noise from exiting patrons looking for taxi cabs, we plan to
 prominently post signage for car service companies in order to call a car for
 customers. Customers will leave our establishment and go directly into their car
 which will prevent customers from roaming the street in search of a cab.
 - Patrons arriving via automobile will be directed toward parking lots at Suffolk and Broome or Allen and Grand.
- Trash pickup will take place at a reasonable hour and not late night or early morning.
- A door person will be employed on Thursday, Friday and Saturday in order to check ids and police patrons who are coming and going, as well as smoking.
- We have already established a good relationship with the community affairs officer and cabaret officer at the 7th Precinct. We plan to ask them to drive by your location at least a couple times every night and at closing. Working with them will not only help us keep an eye and ear on this particular dark corner but their presence will also increase the safety of our patrons and neighbors.
- We also ask for your help and cooperation. Feel free to phone the bar if you find the music or patrons too loud. We will do our best to remedy any disturbance. Thank you!
