Procurement Description:

The Department of Social Services (DSS) / Human Resources Administration (HRA) and the Department of Homeless Services (DHS) is committed to the reduction of poverty and income inequality in New York City. Toward this end, DSS/HRA provides public benefits to economically disadvantaged individuals and families to meet basic needs, including, but not limited to, Cash Assistance, accorded through the federal government's Temporary Assistance to Needy Families (TANF) and New York State's Safety Net. Since these benefits are temporary, DSS/HRA provides employment services that are intended to strengthen skills, improve work-readiness, and increase access to opportunities so that Cash Assistance clients may obtain meaningful employment. The goal of DSS/HRA's employment services is to support successful attachment to the labor market for Cash Assistance clients so that they may no longer require public benefits and be in a position to manage and maintain their household independently.

DSS/HRA and DHS is seeking to enter into a contract with a qualified proposer to develop a program that will provide clients with the training and skills necessary to gain fulltime employment in order to achieve independent living outside the shelter system as they transition from subsidized employment to unsubsidized employment.
