

Procurement Summary

Basic Information

Procurement Title:	Multi-Systemic Therapy - Problem Sexual Behaviors (MST-PSB)
Agency:	Administration for Children's Services
Agency Email Contact:	MSTPB-CP@acs.nyc.gov
Procurement Description:	<p>The purpose of this RFP is to identify providers that can implement Multi-systemic Therapy Problem Sexual Behaviors (MST-PSB) for justice involved youth ages 12-18 with sexually inappropriate and/or deviant behavior. PSB is a clinical adaptation of standard Multi-systemic Therapy (MST). Standard MST is an evidence-based treatment model for justice involved youth aged 12-18 with decades of research supporting its effectiveness in reducing recidivism and out of home placement and improving family functioning. MST PSB treatment incorporates intensive family therapy, individual therapy, parent training, cognitive-behavioral therapy, skills building and interventions in school and other community based systems. The treatment is individualized for the youth and family with the goals of reducing of parent and youth denial about the sexual offenses and their consequences; promoting the development of friendships and age-appropriate sexual experiences; and modifying the individual's social perspective-taking skills, belief system, or attitudes that contributed to sexual offending. MST-PSB is effective in reducing deviant sexual interest and/or inappropriate behavior, justice involvement and non-specific mental health disorder symptoms as well as improving social connectedness, educational achievement and family cohesion.</p>
