DEP is also responsible for reducing air, noise, and hazardous materials pollution. DEP is unique because it is the only Construction agency that does work in upstate New York, serving more than 70 upstate communities in counties such as Ulster, Orange, Putnam and Westchester. DEP performs an essential service for all residents, by protecting their health and the environment.

Agency Indicators 2019: Department of Homeless Services (DHS)

The Department of Homeless Services (DHS) works to prevent homelessness before it occurs, address street homelessness and assist homeless New Yorkers in transitioning from shelter and the street to permanent housing. DHS collaborates with not-for profit partners to provide temporary shelter and services that homeless New Yorkers need to achieve and maintain housing permanency. In April 2016 Mayor de Blasio announced a major restructuring of homeless services in New York City, followed by the release of a comprehensive plan in February 2017 to turn the tide on homelessness, neighborhood by neighborhood. The plan's guiding principle is community and people first; giving homeless New Yorkers, who come from every community across the five boroughs, the opportunity to be sheltered closer to their support networks and anchors of life in the communities they called home in order to more quickly stabilize their lives. Learn more about how DHS is turning the tide on homelessness, neighborhood by neighborhood, at nyc.gov/tide.
