

Business Card Replenishment Plan

Pursuant to Local Law 54 of 2018, the NYPD is required to develop a plan to ensure that officers have an adequate number of business cards prior to engaging in any law enforcement activity and that such cards be replenished within 30 business days after such cards become unavailable.

Uniform Members of the Service (UMOS) have been provided with at least 250 personalized business cards. If their supply of pre-printed business cards becomes exhausted, UMOS have been instructed to electronically order new business cards via the business card portal that has been created on the Department Intranet. That order will be fulfilled by the Department's Printing Section within three weeks of the initial order. All commands have been provided with a set of blank business cards and UMOS have been instructed to fill in the relevant information and use those business cards as they await delivery of their personalized business cards.
