AUDIO-ONLY RECORDING DEVICES, OVERT:  
IMPACT & USE POLICY

ABSTRACT

The New York City Police Department (NYPD) uses overt audio-only recording devices to create objective real-time acoustic recordings to develop investigations and enhance personnel training.

The NYPD produced this impact and use policy because overt audio-only recording devices are capable of recording acoustic data, including conversations, occurring within the range of the device which allows the acoustic data to be retained by NYPD investigators.

CAPABILITIES OF THE TECHNOLOGY

Overt audio-only recording devices are pieces of acoustic (i.e., sound) data recording equipment; the mechanics of the device are housed in such a way that the device is not hidden, concealed, or disguised. Overt-audio only recording devices are capable of recording any auditory signal that occurs within the devices’ recording range, such as: voices, conversations, gunshots, music, etc. NYPD personnel use overt audio-only recording devices to create a contemporaneous and objective acoustic record.

NYPD investigators conspicuously operate overt audio-only recording devices in situations where undercover office or informant safety is not an issue. For example, an overt audio-recording device may be placed on a table where an interviewee is seated prior to taking a recorded statement.

Overt audio-only recording devices used by the NYPD are not imbedded with real-time audio transmission capabilities. None of the NYPD’s overt audio-only recording devices are imbedded with any kind of editing features, and the devices cannot be used to change an audio recording. Audio-only recording devices do not use artificial intelligence, machine learning, or any biometric measuring technologies.

RULES, PROCESSES & GUIDELINES RELATING TO USE OF THE TECHNOLOGY

NYPD overt audio-only recording device policy seeks to balance the public safety benefits of this technology with individual privacy. Overt audio-only recording devices must be used in a manner consistent with the requirements and protection of the Constitution of the United States, the New York State Constitution, and applicable statutory authorities.

Penal Law Sections 250.00 and 250.05 make New York a one-party consent recording state. A conversation between two or more individuals may be legally recorded if at least one of the parties consents to being recorded. Court authorization is not necessary in order for the NYPD to use overt-audio only recording devices because a member of the NYPD participates in the conversation where the devices are utilized.

Overt audio-only recording devices may be used in any situation the supervisory personnel responsible for oversight deems appropriate. The underlying facts are considered on a case-by-case basis prior to the utilization of the technology, including the legitimate law enforcement purpose to utilize the technology in a given circumstance.
In accordance with the Public Oversight of Surveillance Technology Act, an addendum to this impact and use policy will be prepared as necessary to describe any additional uses of overt audio-only recording devices.

Recordings relevant to an investigation are stored within an appropriate NYPD computer or case management system. All records contained in NYPD computer and case management systems are subject to privacy, confidentiality, and dissemination restrictions according to NYPD policy and applicable federal, state, and local laws and rules. All members of the NYPD must only access computer and case management systems to which authorization has been granted and under circumstances required in the execution of lawful duty relating to official business of the NYPD.

NYPD investigations involving political activity are conducted by the Intelligence Bureau, which is the sole entity in the NYPD that may conduct investigations involving political activity pursuant to the Handschu Consent Decree.

No person will be the subject of police action solely because of actual or perceived race, color, religion or creed, age, national origin, alienage, citizenship status, gender (including gender identity), sexual orientation, disability, marital status, partnership status, military status, or political affiliation or beliefs.

The misuse of overt audio-only recording devices will subject employees to administrative and potentially criminal penalties.

**SAFEGUARD & SECURITY MEASURES AGAINST UNAUTHORIZED ACCESS**

Overt audio-only recording devices are securely stored in NYPD facilities when not in use, in a location that is inaccessible to the public. Additionally, a supervisor must periodically inspect and account for the devices.

Recordings are retained within an NYPD computer or case management system. Only authorized users have access to these recordings. NYPD personnel utilizing computer and case management systems are authenticated by username and password. Access to case management and computer systems is limited to personnel who have an articulable need to access the system in furtherance of lawful duty. Access rights within NYPD case management and computer systems are further limited based on lawful duty.

The NYPD has a multifaceted approach to secure data and user accessibility within NYPD systems. All NYPD computer systems are managed by a user permission hierarchy based on rank and role via Active Directory authentication. The active directory is managed by a Lightweight Directory Access Protocol (LDAP) to restrict/allow port access. Accessing NYPD computer systems remotely requires dual factor authentication. All data is encrypted both in transit and at rest via Secure Socket Layer (SSL)/Transport Layer Security (TLS) certifications which follow industry best practices.

NYPD personnel must abide by security terms and conditions associated with computer and case management systems of the NYPD, including those governing user passwords and logon
procedures. NYPD personnel must maintain confidentiality of information accessed, created, received, disclosed or otherwise maintained during the course of duty and may only disclose information to others, including other members of the NYPD, only as required in the execution of lawful duty.

NYPD personnel are responsible for preventing third parties unauthorized access to information. Failure to adhere to confidentiality policies may subject NYPD personnel to disciplinary and/or criminal action. NYPD personnel must confirm the identity and affiliation of individuals requesting information from the NYPD and determine that the release of information is lawful prior to disclosure.

Unauthorized access of any system will subject employees to administrative and potentially criminal penalties.

**POLICIES & PROCEDURES RELATING TO RETENTION, ACCESS & USE OF THE DATA**

Recordings are stored locally, either on the device itself or within a memory card inserted into the device. Once the memory capacity of the overt-audio recording device reaches maximum capacity, the device stops recording. The device cannot continue recording until the memory is cleared. Recordings relevant to an investigation are stored in an appropriate NYPD computer or case management system.

NYPD personnel utilizing computer and case management systems are authenticated by username and password. Access to computer and case management is limited to personnel who have an articulable need to access the system in furtherance of lawful duty. Access rights within NYPD case management and computer systems are further limited based on lawful duty.

Recordings stored within NYPD computer and case management systems are retained in accordance with applicable laws, regulations, and New York City and NYPD policies. Recordings may only be used for legitimate law enforcement purposes or other official business of the NYPD, including in furtherance of criminal investigations, civil litigations, and disciplinary proceedings.

The misuse of any recording will subject employees to administrative and potentially criminal penalties.

**POLICIES & PROCEDURES RELATING TO PUBLIC ACCESS OR USE OF THE DATA**

Members of the public may request recordings obtained from NYPD use of overt audio-only recording devices pursuant to New York State Freedom of Information Law. The NYPD will review and evaluate such requests in accordance with applicable provisions of law and NYPD policy.
AUDIO-ONLY RECORDING DEVICES, OVERT:
IMPACT & USE POLICY

EXTERNAL ENTITIES

If an overt audio-only recording device obtains a recording relevant to a criminal case, the NYPD will turn the recording over to the prosecutor with jurisdiction over the matter. Prosecutors will provide the recording to the defendant(s) in accordance with criminal discovery laws.

Other law enforcement agencies may request recordings contained in NYPD computer or case management systems in accordance with applicable laws, regulations, and New York City and NYPD policies. Additionally, the NYPD may provide the recording or information related to it to partnering law enforcement and city agencies pursuant to on-going criminal investigations, civil litigation, and disciplinary proceedings. Information is not shared in furtherance of immigration enforcement.

Following the laws of the State and City of New York, as well as NYPD policy, the recording or information related to it may be provided to community leaders, civic organizations and the news media in order to further an investigation, create awareness of an unusual incident, or address a community-concern.

Pursuant to NYPD policy and local law, NYPD personnel may disclose identifying information externally only if:

1. Such disclosure has been authorized in writing by the individual to whom such information pertains to, or if such individual is a minor or is otherwise not legally competent, by such individual’s parent or legal guardian and has been approved in writing by the Agency Privacy Officer assigned to the Legal Bureau;
2. Such disclosure is required by law and has been approved in writing by the Agency Privacy Officer assigned to the Legal Bureau;
3. Such disclosure furthers the purpose or mission of the NYPD and has been approved in writing by the Agency Privacy Officer assigned to the Legal Bureau;
4. Such disclosure has been pre-approved as in the best interests of the City by the City Chief Privacy Officer;
5. Such disclosure has been designated as routine by the Agency Privacy Officer assigned to the Legal Bureau;
6. Such disclosure is in connection with an investigation of a crime that has been committed or credible information about an attempted or impending crime;
7. Such disclosure is in connection with an open investigation by a City agency concerning the welfare of a minor or an individual who is otherwise not legally competent.

Government agencies at the local, state, and federal level, including law enforcement agencies other than the NYPD, have limited access to NYPD computer and case management systems. Such access is granted by the NYPD on a case by case basis subject to the terms of written agreements between the NYPD and the agency receiving access to a specified system. The terms of the written agreements also charge these external entities with maintaining the security and confidentiality of information obtained from the NYPD, limiting disclosure of that information without NYPD approval, and notifying the NYPD when the external entity receives a request for that information pursuant to a subpoena, judicial order, or other legal process. Access will not be given to other agencies for purposes of furthering immigration enforcement.
The NYPD purchases overt audio-only recording devices and associated equipment or Software as a Service (SaaS)/software from approved vendors. The NYPD emphasizes the importance of and engages with vendors and contractors to maintain the confidentiality, availability, and integrity of NYPD technology systems.

Vendors and contractors may have access to NYPD overt audio-only recording devices associated software or data in the performance of contractual duties to the NYPD. Such duties are typically technical or proprietary in nature (e.g., maintenance or failure mitigation). In providing vendors and contractors access to equipment and computer systems, the NYPD follows the principle of least privilege. Vendors and contractors are only allowed access on a “need to know basis” to fulfill contractual obligations and/or agreements.

Vendors and contractors providing equipment and services to the NYPD undergo vendor responsibility determination and integrity reviews. Vendors and contractors providing sensitive equipment and services to the NYPD also undergo background checks.

Vendors and contractors are legally obligated by contracts and/or agreements to maintain the confidentiality of NYPD data and information. Vendors and contractors are subject to criminal and civil penalties for unauthorized use or disclosure of NYPD data or information.

**TRAINING**

NYPD personnel utilizing overt audio-only recording devices receive command level training on the proper operation of the technology and the associated equipment. NYPD personnel must use overt audio-only recording devices in compliance with NYPD policies and training.

**INTERNAL AUDIT & OVERSIGHT MECHANISMS**

The use of an overt audio-only recording device, including the reasons for its use, must be discussed with a supervisor. Supervisors of personnel utilizing audio-only recording devices are responsible for security and proper utilization of the technology and associated equipment. Supervisors are directed to inspect all areas containing NYPD computer systems at least once each tour and ensure that all systems are being used within NYPD guidelines.

All NYPD personnel are advised that NYPD computer systems and equipment are intended for the purposes of conducting official business. The misuse of any system or equipment will subject employees to administrative and potentially criminal penalties. Allegations of misuse are internally investigated at the command level or by the Internal Affairs Bureau (IAB).

Integrity Control Officers (ICOs) within each Command are responsible for maintaining the security and integrity of all recordings in the possession of the NYPD. ICOs must ensure all authorized users of NYPD computer systems in their command understand and comply with computer security guidelines, frequently observe all areas with computer equipment, and ensure
security guidelines are complied with, as well as investigating any circumstances or conditions which may indicate abuse of the computer systems.

Requests for focused audits of computer activity from IAB, Commanding Officers, ICOs, Investigations Units, and others, may be made to the Information Technology Bureau.

HEALTH & SAFETY REPORTING

There are no known health and safety issues associated with overt audio-only recording devices or the associated equipment.

DISPARATE IMPACTS OF THE IMPACT & USE POLICY

The safeguards and audit protocols built into this impact and use policy for overt audio-only recording devices mitigate the risk of impartial and biased law enforcement. Overt audio-only recording devices record real time acoustic information occurring in close proximity to the device. NYPD overt audio-only recording devices do not use artificial intelligence, machine learning, or any other biometric measurement technologies.

The NYPD is committed to the impartial enforcement of the law and to the protection of constitutional rights. The NYPD prohibits the use of racial and bias-based profiling in law enforcement actions, which must be based on standards required by the Fourth and Fourteenth Amendments of the U.S. Constitution, Sections 11 and 12 of Article I of the New York State Constitution, Section 14-151 of the New York City Administrative Code, and other applicable laws.

Race, color, ethnicity, or national origin may not be used as a motivating factor for initiating police enforcement action. Should an officer initiates enforcement action against a person, motivated even in part by a person’s actual or perceived race, color, ethnicity, or national origin, that enforcement action violates NYPD policy unless the officer’s decision is based on a specific and reliable suspect description that includes not only race, age, and gender, but other identifying characteristics or information.
