ABSTRACT

The New York City Police Department (NYPD) uses overt audiovisual recording devices to create objective real-time audiovisual recordings to support investigations, enhance the quality of NYPD operations and trainings, and increase transparency of the NYPD’s operations and programs.

The NYPD produced this impact and use policy because overt audiovisual recording devices create recordings containing video images of people, license plates, locations and other visual data, as well as acoustic data occurring within range of the device, and share the recordings with NYPD personnel.

CAPABILITIES OF THE TECHNOLOGY

NYPD overt audiovisual recording devices are cameras capable of recording both acoustic data (i.e., sound) and video images. The mechanics of the camera are housed in such a way that the device is not hidden, concealed, or disguised.

NYPD investigators conspicuously operate overt audiovisual recording devices in situations where undercover officer or informant safety is not an issue. For example, an overt audiovisual recording device may be used to document a suspected intoxicated driver being offered a breathalyzer test. When activated, overt audiovisual recording devices provide an objective acoustic and video record of anything that occurs within recording range of the device.

Overt audiovisual recording devices used by the NYPD are not imbedded with real-time audio and visual transmission capabilities. However, members of the NYPD Technical Assistance Response Unit (TARU) can deploy hardware that allows an overt audiovisual recording device to be used for live-video transmission to a remote location when necessary.

NYPD overt audiovisual recording devices cannot be used to change an audiovisual recording or video transmission. Overt audiovisual recording devices do not use video analytics, artificial intelligence, machine learning, facial recognition, or any other biometric measuring technologies.

RULES, PROCESSES & GUIDELINES RELATING TO USE OF THE TECHNOLOGY

NYPD overt audiovisual recording device policy seeks to balance the benefits of this technology with individual privacy. Overt audiovisual recording devices must be used in a manner consistent with the requirements and protection of the Constitution of the United States, the New York State Constitution, and applicable statutory authorities.

Overt audiovisual recording devices may be used in any situation the supervisory personnel responsible for oversight deems appropriate and consistent with NYPD policy. The underlying facts of each situation are considered prior to the utilization of the technology, including the legitimate law enforcement purpose to utilize the technology in a given circumstance. NYPD investigators may only use overt audiovisual recording devices to execute their lawful duties, which relate only to official business of the NYPD.
The NYPD does not seek court authorization prior to the use of overt audiovisual recording devices since they are generally used to memorialize information under exigent circumstances or under circumstances that do not violate reasonable expectations of privacy.

When used under exigent circumstances, an NYPD investigator must have probable cause to believe: (1) a crime designated under Criminal Procedure Law Section 700.05(8), Penal Law Sections 460.10(1), 215.57, 215.56, or 240.30 has been committed, is in progress or is about to be committed; (2) an emergency exists as result of the criminal conduct; (3) there is an immediate urgent need for assistance due to an imminent danger of serious bodily injury or death to any person; and (4) the effort to locate a suspect is being undertaken with the primary concern of preventing serious injury or death and is not primarily motivated by an intent to arrest and seize evidence. The possibility of flight of a suspect does not on its own constitute exigent circumstances.

When used in circumstances implicating reasonable expectations of privacy, NYPD overt audiovisual recording devices are used pursuant to a warrant and will only be used for the time period authorized. The warrant is obtained with the aid of the prosecutor with proper jurisdiction. The warrant must contain a finding of probable cause by a judge, as well as an explicit authorization for use the devices. Upon expiration of the court order, use of the overt audiovisual recording device(s) in connection to that particular investigation is terminated, and the physical device is returned its command.

In accordance with the Public Oversight of Surveillance Technology Act, an addendum to this impact and use policy will be prepared as necessary to describe any additional uses of overt audiovisual recording devices.

NYPD investigations involving political activity are conducted by the Intelligence Bureau, which is the sole entity in the NYPD that may conduct investigations involving political activity pursuant to the Handschu Consent Decree.

No person will be the subject of police action solely because of actual or perceived race, color, religion or creed, age, national origin, alienage, citizenship status, gender (including gender identity), sexual orientation, disability, marital status, partnership status, military status, or political affiliation or beliefs.

The misuse of overt audiovisual recording devices will subject employees to administrative and potentially criminal penalties.

**SAFEGUARD & SECURITY MEASURES AGAINST UNAUTHORIZED ACCESS**

NYPD overt audiovisual recording devices are kept within NYPD facilities when not in use, and stored in a location that is inaccessible to the public. A supervisor must periodically inspect and account for all overt audiovisual recording devices.
AUDIOVISUAL RECORDING DEVICES, OVERT: IMPACT & USE POLICY

Recordings obtained from overt audiovisual recording devices used for remote streaming may be accessed either on the device itself, or through a private video server located at a NYPD facility. Access to the server is limited to NYPD personnel with a need to access recordings based on a lawful duty. Authorized personnel must be authenticated by a username and password before recordings from the server may be accessed.

Recordings are retained within an NYPD computer or case management system. Only authorized users have access to these recordings. NYPD personnel utilizing computer and case management systems are authenticated by username and password. Access to case management and computer systems is limited to personnel who have an articulable need to access the system in furtherance of lawful duty. Access rights within NYPD case management and computer systems are further limited based on lawful duty.

The NYPD has a multifaceted approach to secure data and user accessibility within NYPD systems. All NYPD computer systems are managed by a user permission hierarchy based on rank and role via Active Directory authentication. The active directory is managed by a Lightweight Directory Access Protocol (LDAP) to restrict/allow port access. Accessing NYPD computer systems remotely requires dual factor authentication. All data is encrypted both in transit and at rest via Secure Socket Layer (SSL)/Transport Layer Security (TLS) certifications which follow industry best practices.

NYPD personnel must abide by security terms and conditions associated with computer and case management systems of the NYPD, including those governing user passwords and logon procedures. NYPD personnel must maintain confidentiality of information accessed, created, received, disclosed or otherwise maintained during the course of duty and may only disclose information to others, including other members of the NYPD, only as required in the execution of lawful duty.

NYPD personnel are responsible for preventing third parties unauthorized access to information. Failure to adhere to confidentiality policies may subject NYPD personnel to disciplinary and/or criminal action. NYPD personnel must confirm the identity and affiliation of individuals requesting information from the NYPD and determine that the release of information is lawful prior to disclosure.

Unauthorized access of any systems will subject employees to administrative and potentially criminal penalties.

POLICIES & PROCEDURES RELATING TO RETENTION, ACCESS & USE OF THE DATA

Most recordings are stored locally, either to the device itself, to a removable memory card inserted into the device, or to an external hard drive. Once the memory capacity of the overt audiovisual recording device reaches maximum capacity, the device stops recording. The device cannot continue recording until the memory is cleared.

DRAFT FOR PUBLIC COMMENT: POSTED JANUARY 11, 2021
Remotely-streamed audiovisual recordings are stored on a private video server and deleted on what is known as a first-in-first-out basis; when newly recorded data needs to be stored, it is automatically recorded over the oldest data currently on the server.

Length of retention varies and depends on size of storage, type of device used to create the recording, amount of movement in field of view, quality of the recordings and similar factors.

Recordings relevant to an investigation are stored in an appropriate NYPD computer or case management system. NYPD personnel utilizing computer and case management systems are authenticated by username and password. Access to computer and case management is limited to personnel who have an articulable need to access the system in furtherance of lawful duty. Access rights within NYPD case management and computer systems are further limited based on lawful duty.

Recordings stored within NYPD computer and case management systems are retained in accordance with applicable laws, regulations, and New York City and NYPD policies. Recordings may only be used for legitimate law enforcement purposes or other official business of the NYPD, including in furtherance of criminal investigations, civil litigations, and disciplinary proceedings.

The misuse of any recording will subject employees to administrative and potentially criminal penalties.

**POLICIES & PROCEDURES RELATING TO PUBLIC ACCESS OR USE OF THE DATA**

Members of the public may request recordings obtained from NYPD use of overt audiovisual recording technology pursuant to New York State Freedom of Information Law. The NYPD will review and evaluate such requests in accordance with applicable provisions of law and NYPD policy.

**EXTERNAL ENTITIES**

If an overt audiovisual recording device obtains a recording related to a criminal case, the NYPD will turn the recording over to the prosecutor with jurisdiction over the matter. Prosecutors will provide the recording to the defendant(s) in accordance with criminal discovery laws.

Other law enforcement agencies may request recordings obtained using overt audiovisual recording devices from the NYPD in accordance with applicable laws and regulations, and NYPD policies. Additionally, the NYPD may provide the recording, or information related to it, to partnering law enforcement and city agencies pursuant to on-going criminal investigations, civil litigation and disciplinary proceedings. Information is not shared in furtherance of immigration enforcement.

Following the laws of the State and City of New York, as well as NYPD policy, the recording or information related to it may be provided to community leaders, civic organizations and the news
media in order to further an investigation, create awareness of an unusual incident, or address a community-concern.

Pursuant to NYPD policy and local law, members of the NYPD may disclose identifying information externally only if:

1. Such disclosure has been authorized in writing by the individual to whom such information pertains to, or if such individual is a minor or is otherwise not legally competent, by such individual’s parent or legal guardian and has been approved in writing by the Agency Privacy Officer assigned to the Legal Bureau;
2. Such disclosure is required by law and has been approved in writing by the Agency Privacy Officer assigned to the Legal Bureau;
3. Such disclosure furthers the purpose or mission of the NYPD and has been approved in writing by the Agency Privacy Officer assigned to the Legal Bureau;
4. Such disclosure has been pre-approved as in the best interests of the City by the City Chief Privacy Officer;
5. Such disclosure has been designated as routine by the Agency Privacy Officer assigned to the Legal Bureau;
6. Such disclosure is in connection with an investigation of a crime that has been committed or credible information about an attempted or impending crime;
7. Such disclosure is in connection with an open investigation by a City agency concerning the welfare of a minor or an individual who is otherwise not legally competent.

Government agencies at the local, state, and federal level, including law enforcement agencies other than the NYPD, have limited access to NYPD computer and case management systems. Such access is granted by the NYPD on a case by case basis subject to the terms of written agreements between the NYPD and the agency receiving access to a specified system. The terms of the written agreements also charge these external entities with maintaining the security and confidentiality of information obtained from the NYPD, limiting disclosure of that information without NYPD approval, and notifying the NYPD when the external entity receives a request for that information pursuant to a subpoena, judicial order, or other legal process. Access will not be given to other agencies for purposes of furthering immigration enforcement.

The NYPD purchases overt audiovisual recording devices and associated equipment or Software as a Service (SaaS)/software from approved vendors. The NYPD emphasizes the importance of and engages with vendors and contractors to maintain the confidentiality, availability, and integrity of NYPD technology systems.

Vendors and contractors may have access to NYPD overt audiovisual recording devices associated software or data in the performance of contractual duties to the NYPD. Such duties are typically technical or proprietary in nature (e.g., maintenance or failure mitigation). In providing vendors and contractors access to equipment and computer systems, the NYPD follows the principle of least privilege. Vendors and contractors are only allowed access on a “need to know basis” to fulfill contractual obligations and/or agreements.
AUDIORVISUAL RECORDING DEVICES, OVERT:
IMPACT & USE POLICY

Vendors and contractors providing equipment and services to the NYPD undergo vendor responsibility determination and integrity reviews. Vendors and contractors providing sensitive equipment and services to the NYPD also undergo background checks.

Vendors and contractors are legally obligated by contracts and/or agreements to maintain the confidentiality of NYPD data and information. Vendors and contractors are subject to criminal and civil penalties for unauthorized use or disclosure of NYPD data or information.

TRAINING

NYPD personnel using overt audiovisual recording devices receive command level training on the proper operation of the technology. NYPD personnel must operate overt audiovisual recording devices in compliance with NYPD policies and training.

INTERNAL AUDIT & OVERSIGHT MECHANISMS

Supervisors of personnel utilizing overt audiovisual recording devices are responsible for security and proper utilization of the technology and associated equipment. Supervisors are directed to inspect all areas containing NYPD computer systems at least once each tour and ensure that all systems are being used within NYPD guidelines.

NYPD personnel are advised that NYPD computer systems and equipment are intended for the purposes of conducting official business. The misuse of any system or equipment will subject employees to administrative and potentially criminal penalties. Allegations of misuse are internally investigated at the command level or by the Internal Affairs Bureau (IAB).

Integrity Control Officers (ICOs) within each Command are responsible for maintaining the security and integrity of all recordings in the possession of the NYPD. ICOs must ensure all authorized users of NYPD computer systems in their command understand and comply with computer security guidelines, frequently observe all areas with computer equipment, and ensure security guidelines are complied with, as well as investigating any circumstances or conditions which may indicate abuse of the computer systems.

Requests for focused audits of computer activity from IAB, Commanding Officers, ICOs, Investigations Units, and others, may be made to the Information Technology Bureau.

HEALTH & SAFETY REPORTING

There are no known health and safety issues with overt audiovisual recording devices or associated equipment.

DISPARATE IMPACTS OF THE IMPACT & USE POLICY

The safeguards and audit protocols built into this impact and use policy for overt audiovisual recording devices mitigate the risk of impartial and biased law enforcement. Overt audiovisual
recording devices are conspicuously utilized and only record audio and visual information that occurs within the recording range of the device in real time. Overt audiovisual recording devices do not use artificial intelligence, machine learning, facial recognition, or any other biometric measurement technologies.

The NYPD is committed to the impartial enforcement of the law and to the protection of constitutional rights. The NYPD prohibits the use of racial and bias-based profiling in law enforcement actions, which must be based on standards required by the Fourth and Fourteenth Amendments of the U.S. Constitution, Sections 11 and 12 of Article I of the New York State Constitution, Section 14-151 of the New York City Administrative Code, and other applicable laws.

Race, color, ethnicity, or national origin may not be used as a motivating factor for initiating police enforcement action. Should an officer initiates enforcement action against a person, motivated even in part by a person’s actual or perceived race, color, ethnicity, or national origin, that enforcement action violates NYPD policy unless the officer’s decision is based on a specific and reliable suspect description that includes not only race, age, and gender, but other identifying characteristics or information.
