Here are your
new PICA
ID cards.

Starting July 1, 2020, please use the enclosed PICA Prescription ID cards showing your new member PICA ID number to use your prescription drug plan.

These cards, with your new PICA ID number, replace any previous PICA Express Scripts member ID cards you may have, and should be used by all covered family members. Please give this card to your pharmacy the next time you have a prescription filled for an injectable or chemotherapy medication. This will allow the pharmacy to process your prescription correctly.

SMPICA is a prescription drug benefit program, administered by Express Scripts, that is provided to you and your eligible dependents. It is made available through the joint efforts of the City of New York Office of Labor Relations and the Municipal Labor Committee. All employees, non-Medicare retirees, and their non-Medicare dependents enrolled in a health plan offered by the City's Health Benefits Program receive coverage for self-injectable and chemotherapy medications through the PICA Program.

As of July 1, please use the new PICA Prescription ID card when you fill specialty medications through Accredo, an Express Scripts specialty pharmacy. Accredo will need your new PICA ID number to process your prescriptions.¹

You will also use your new PICA ID number if you fill medications at a network retail pharmacy or from the Express Scripts Home Delivery Pharmacy.

If you have any questions about your PICA prescription plan, please register or log in at express-scripts.com or call the number on your PICA Prescription ID card. We're glad to help.

Please see other side for more information about home delivery with free standard shipping. >>>

Manage your prescriptions and other important information online:

- Find opportunities to save money
- Set up automatic health and safety alerts
- Locate a nearby retail pharmacy
- Manage your communication preferences
- View your prescription coverage including copayment/coinsurance information
