Dear Mr. Nespoli:

This is to confirm the parties’ mutual understanding concerning the following issues:

1. Unless otherwise agreed to by the parties, the Welfare Fund contribution will remain constant for the length of the successor unit agreements, including the $65 funded from the Stabilization Fund pursuant to the 2005 Health Benefits Agreement between the City of New York and the Municipal Labor Committee.

2. Effective July 1, 2014, the Stabilization Fund shall convey $1 Billion to the City of New York to be used to support wage increases and other economic items for the current round of collective bargaining (for the period up to and including fiscal year 2018). Up to an additional total amount of $150 million will be available over the four year period from the Stabilization Fund for the welfare funds, the allocation of which shall be determined by the parties. Thereafter, $60 million per year will be available from the Stabilization Fund for the welfare funds, the allocation of which shall be determined by the parties.

3. If the parties decide to engage in a centralized purchase of Prescription Drugs, and savings and efficiencies are identified therefrom, there shall not be any reduction in welfare fund contributions.

4. There shall be a joint committee formed that will engage in a process to select an independent healthcare actuary, and any other mutually agreed upon additional outside expertise, to develop an accounting system to measure and calculate savings.
5. The MLC agrees to generate cumulative healthcare savings of $3.4 billion over the course of Fiscal Years 2015 through 2018, said savings to be exclusive of the monies referenced in Paragraph 2 above and generated in the individual fiscal years as follows: (i) $400 million in Fiscal Year 2015; (ii) $700 million in Fiscal Year 2016; (iii) $1 billion in Fiscal Year 2017; (iv) $1.3 billion in Fiscal Year 2018; and (v) for every fiscal year thereafter, the savings on a citywide basis in health care costs shall continue on a recurring basis. At the conclusion of Fiscal Year 2018, the parties shall calculate the savings realized during the prior four-year period. In the event that the MLC has generated more than $3.4 billion in cumulative healthcare savings during the four-year period, as determined by the jointly selected healthcare actuary, up to the first $365 million of such additional savings shall be credited proportionately to each union as a one-time lump sum pensionable bonus payment for its members. Should the union desire to use these funds for other purposes, the parties shall negotiate in good faith to attempt to agree on an appropriate alternative use. Any additional savings generated for the four-year period beyond the first $365 million will be shared equally with the City and the MLC for the same purposes and subject to the same procedure as the first $365 million. Additional savings beyond $1.3 billion in FY 2018 that carry over into FY 2019 shall be subject to negotiations between the parties.

6. The following initiatives are among those that the MLC and the City could consider in their joint efforts to meet the aforementioned annual and four-year cumulative savings figures: minimum premium, self-insurance, dependent eligibility verification audits, the capping of the HIP HMO rate, the capping of the Senior Care rate, the equalization formula, marketing plans, Medicare Advantage, and the more effective delivery of health care.

7. **Dispute Resolution**
   
a. In the event of any dispute under this agreement, the parties shall meet and confer in an attempt to resolve the dispute. If the parties cannot resolve the dispute, such dispute shall be referred to Arbitrator Martin F. Scheinman for resolution.
b. Such dispute shall be resolved within 90 days.
c. The arbitrator shall have the authority to impose interim relief that is consistent with the parties' intent.
d. The arbitrator shall have the authority to meet with the parties at such times as the arbitrator determines is appropriate to enforce the terms of this agreement.
e. If the parties are unable to agree on the independent health care actuary described above, the arbitrator shall select the impartial health care actuary to be retained by the parties.
f. The parties shall share the costs for the arbitrator and the actuary the arbitrator selects.
If the above accords with your understanding and agreement, kindly execute the signature line provided.

Sincerely,

Re: 2016 Agreement between the City of New York and the Municipal Labor Committee Regarding the One-Time Lump Sum Payment of $100 to the Welfare Funds

Dear Harry Nespoli:

As memorialized in a February 19, 2016 written letter agreement (attached) between the City of New York (“City”) and the Municipal Labor Committee (“MLC”), “[t]he City has agreed to authorize the release of $100 per active employee and retiree to the welfare funds from the [Health Benefits] Stabilization Fund”. The one-time lump sum payment of $100 will be paid to the welfare funds as of July 1, 2016, the effective date of the agreed upon changes set forth in the February 19, 2016 letter agreement.

The payment to the welfare funds shall be made on behalf of each full time per annum employee and retiree or other applicable equivalent for other than full time per annum employees or retirees eligible for welfare fund contributions on July 1, 2016. For other than full time per annum employees and retirees, payment shall be in accordance with the applicable welfare fund agreement.

In order to implement the payment to the welfare funds, as referenced in the February 19, 2016 letter agreement, kindly indicate your agreement to modify your individual Welfare Fund agreement, in accordance with what was previously agreed to by the City and the MLC, and to incorporate such amendment into your Welfare Fund agreements by affixing your signature in
the space provided below. Please return the signed letter to Georgette Gestely, Director, Employee Benefits Program.

Thank you for your cooperation.

Very truly yours,

Mr. Harry Nespoli  
Chair, Municipal Labor Committee  
125 Barclay Street  
New York, NY 10007  

Dear Mr. Nespoli:

I am extremely pleased that the City and the Municipal Labor Committee have reached another agreement regarding securing the health savings for Fiscal Year 2016 and 2017. I want to thank you and all of the members of the Municipal Labor Committee Health Insurance Policy Committee for the exhaustive efforts to get this finalized. We should all be especially proud of having achieved these unprecedented savings in a collaborative working relationship, and in the context of providing access to plans that emphasize the health of our employees through a focus on access to primary and preventive care.

Attached is a chart that itemizes the total savings projections for the benefit plan design changes agreed upon. There is also a chart that demonstrates how the changes get us to the FY 2016 and 2017 health care savings targets. The savings estimates have been agreed upon by both Milliman, the City’s actuary, and Segal, the Municipal Labor Committee’s actuary.

The total of the carryover from FY 2016 savings to FY 2017, along with our other new programs, is expected to be approximately $851.8 million before the plan design changes. We are projecting the new plan design changes to result in $149.1 million savings, allowing us to achieve the $1 billion target for Fiscal Year 2017.

For FY 2016, we expect to achieve $553 of the $700 million target if we implement the changes June 1, and there will have to be a $47 million adjustment paid from the Stabilization Fund. If the implementation of the plan design changes is delayed to July 1, 2016, the FY 2016 savings will be reduced to $642 million and will require a $58 million adjustment from the Stabilization Fund.

As we have done previously, the savings are based on estimates and there will be a true up process after the end of each fiscal year. When the final savings are determined, they will be accounted for in the following two ways:

Direct Savings: These savings are from healthcare programs and initiatives that result in a lower amount directly paid by the City through a reduction for employee healthcare costs in the HIP-HMO and the GHI Senior Care rates, and the City headcount resulting from the Dependent Eligibility Verification Audit (DEVA).
Savings Off the Equalization Payment: These savings are from healthcare programs and initiatives that do not accrue directly to the City and will be deemed as an offset to the equalization payment due by the City to the Stabilization Fund. The equalization payment, due from the City to the Stabilization Reserve Fund, represents the difference between the HIP-HMO rate and the GHI-CBP rate.

The cost estimates are also based on the HIP HMO retaining its status as a grandfathered plan, as supported by the attached letter from Emblem Health which indicates that "the contemplated changes should not adversely affect the CNY HMO Plan's grandfather health plan status."

I have also attached a letter from the City of New York Law Department indicating that the proposed changes to the HIP- HMO Preferred Plan comport with the requirements of Administrative Code Section 12-126(b)(l).

As agreed previously, the ongoing cost of the preventive procedures, visits and drugs incurred as the result of the CBP losing its grandfathered status, will be paid from the Stabilization Fund (estimated at $48.3 million for FY 2017).

The City has agreed to authorize the release of $100 per active employee and retiree to the welfare funds from the Stabilization Fund effective June 1, 2016 (or whenever the proposed changes go into effect), primarily to provide relief for the escalating costs of prescription drugs. It was also agreed that the Stabilization Fund would release an equivalent amount to the City as of that date.

We look forward to continuing our work on health care savings and the very real potential of being able to share some of the savings with employees should we exceed the $3.4 billion target.

Sincerely,
