While Medicare Parts A and B cover hospital and medical care, most benefits are subject to deductibles or coinsurance. This Medicare Supplement plan helps retirees with Medicare Parts A and B avoid out-of-pocket costs by reimbursing the deductible and coinsurance amounts.

For example, if you are hospitalized because you need surgery, the plan's hospital coverage, combined with Medicare Part A, provides benefits for room, board, general nursing, and other hospital services. The plan's medical coverage, with Medicare Part B, provides benefits for physician services and supplies.
