

# International Equity Fund Profile

Information current as of 09/30/2016

## Investment Objective

The investment objective of the International Equity Fund is to provide exposure to the broad international stock market. The International Equity Fund may provide diversification when combined with US equity funds over the long-term. However, the Fund is subject to major volatility, or risk (higher standard deviation) as this fund is invested across the developed and emerging world and each market has its own currency changes and stock market movements.

## Investment Guidelines

The International Equity Fund will invest in companies located outside the U.S. The primary emphasis of the portfolio will be on relatively large to mid-capitalization stocks in developed countries (countries included in the Europe, Australia and Far East EAFE Index) and investment of a moderate portion of the portfolio's assets will be in international small capitalization stocks and in companies domiciled in developing countries not included in the EAFE Index (the international emerging markets).

## Investment Managers

The International Equity Fund is comprised of the following managers: Baillie Gifford (Growth), Mondrian (Value), Copper Rock Capital (Small Cap) and State Street Global Advisors [SSgA] (Index).
