## See why members love Teladoc

“

"This was my first time using Teladoc and I was surprised how easy it was. Instead of taking time off from work to drive to an urgent care facility and possibly waiting for hours to be seen by a doctor, I asked a physician to contact me. It was great! I was called back immediately and talked to a doctor. A few minutes later, I had a prescription sent to my pharmacy. I would definitely use this service again and recommend to my co-workers."

- Teladoc Member

With 95% of members saying they're happy with Teladoc and 92% of members' conditions resolved after the first visit, you can trust Teladoc to get the quality care you need.
