(a) all retail and service establishment uses shall be limited to an aggregate floor area of 900,000 square feet;

(b) if the amount of aggregate floor area for such uses exceeds 120,000 square feet, all additional retail and service establishment uses shall provide parking at the rate of one space per 500 square feet of development, enlargement or change of use; and

(c) art, music, dancing or theatrical studios in Use Group 9A and depositories for storage of office records, microfilm or computer tapes, or for data processing, photographic or motion picture production studios and radio or television studios in Use Group 10A shall be exempt when calculating aggregate retail and service floor area;

(iv) physical culture or health establishments, including gymnasiums. For the purposes of applying the underlying regulations, a physical culture or health establishment shall be considered a Use Group 9A use; and

(v) modifications to the performance standards for distilleries, as listed in Use Group 18A as an alcoholic beverage manufacturing establishment, as follows. In lieu of Sections 42-272 (Classifications) and 42-275 (Regulations applying to Class III materials or products), all distilleries established by this special permit, and the Class III materials they manufacture, store, handle and use, shall be subject to the design, installation, operation and maintenance requirements of the New York City Fire Code and rules, including occupancy group restrictions, floor restrictions, storage limitations, and facility and equipment requirements. An application demonstrating compliance with the New York City Fire Code and rules shall be made to the Fire Department for approval. No distilleries shall be permitted to open or receive a certificate of occupancy by the Department of Buildings and no existing distilleries shall be allowed to expand except with Fire Department approval.

(2) Bulk Modifications
The Commission may permit modifications to all underlying #bulk# regulations other than the permitted #floor area ratio#.

(b) Findings

To grant a special permit, the Commission shall find that:

(1) any modifications will aid in achieving the general purposes and intent of the Special District;

(2) for #uses# modifications:

   (i) such proposed #uses# are compatible with existing #uses# and are appropriate for the location;

   (ii) such #uses# will be located so as to draw a minimum of vehicular traffic to and through local #streets#;

   (iii) access to public #streets# from such #uses# is designed to maximize pedestrian safety and minimize vehicle and pedestrian conflicts;

   (iv) such #uses# will not impair the essential character or future use or development of the surrounding area.

(v) For #uses# in Use Group 3A:

   (a) an adequate separation from air, noise, traffic and other adverse effects is achieved to minimize the potential conflicts from surrounding industrial uses. For #schools#, such separation shall be achieved through the use of sound-attenuating exterior wall and window construction or by the provision of adequate open areas along #lot lines# of the #zoning lot#; and

   (b) in selecting the site for such uses, due consideration has been given to the proximity and adequacy of mass transit facilities;
(c) for #schools#, the movement of traffic through the #street# on which the #school# is located will be controlled so as to protect children going to and from the #school#. The Commission shall refer the application to the Department of Transportation for its report with respect to vehicular hazards to the safety of children within the block and in the immediate vicinity of the proposed site; and

(vi) for #transient hotels# in Use Group 5 or 7A:

(a) an adequate separation from air, noise, traffic and other adverse effects is achieved to minimize the potential conflicts from surrounding industrial #uses#; and

(b) such #use# is appropriate to the needs of business in the #Special Industry City District# and will not impair the essential character or future #use# or #development# of the surrounding area; and

(3) for #bulk# modifications, the Commission shall find that:

(i) the proposed modifications facilitate a good site plan that enhances the streetscape and promotes a harmonious relationship in scale and design with existing #buildings# and the essential character within the #Special Industry City District#;

(ii) such proposed modifications will not unduly obstruct access to light and air of adjoining properties or public #streets#; and

(iii) the distribution of #floor area# and location of #buildings# will not unduly increase the #bulk# of #buildings# in any one #block# or unduly obstruct access of light and air to the detriment of the occupants or users of #buildings# in the #block# or nearby #blocks# or of people using the public #streets#.

(c) Application requirements
An application to the Commission for the grant of this special permit shall include a site plan showing the boundaries and the proposed location of all buildings or other structures on each zoning lot. Any development, enlargement, conversion or change of use shall be on a tract of land which is under the sole control of the applicant(s) as in single fee ownership or in alternate ownership arrangements according to the zoning lot definition in Section 12-10 (DEFINITIONS), or as holders of a written option to purchase at the time of application for this special permit. Such site plans shall provide zoning calculations and proposed use, bulk, parking, and loading for each zoning lot portion. Alternate site plans may be provided for approval by the Commission, which clearly identify all portions in common ownership (single fee ownership or alternate ownership arrangements according to the zoning lot definition in Section 12-10 (DEFINITIONS)) and all portions not in common ownership at the time of application for this special permit. Such plans may include zoning lots within the boundaries of the special district which are not under the sole control of the applicant(s) as fee owners or holders of a written option to purchase at the time of application for this special permit.

(d) Additional restrictions and requirements

Subsequent to the approval of an application for a special permit pursuant to this Section, the following shall apply, where applicable:

(1) Prior to issuing a building permit facilitated by this special permit for a development, enlargement, conversion or change of use on a zoning lot or portion of a zoning lot that was not under the sole control of the applicant(s) at the time of application for this special permit, as represented in an alternate site plan, the Department of Buildings shall be furnished with a certification by the Chairperson of the City Planning Commission that confirms such zoning lot or portion thereof is, at the time of application for such building permit, under the sole control of the applicant(s) as single fee owners or alternate ownership arrangements according to the zoning lot definition in Section 12-10 (DEFINITIONS), or as holders of a written option to purchase.

(2) Where a building contains a use permitted in Use Groups 3A, 5 or 7A through this special permit, such uses may locate in a building, or share a common wall with a building containing commercial uses, or manufacturing uses, other than those listed in Use Group 18, upon certification
by a licensed architect or engineer to the Department of Buildings that any such use listed in Use Group 16 or 17:

(i) does not have a New York City or New York State environmental rating of “A”, “B” or “C” under Section 24-153 of the New York City Administrative Code for any process equipment requiring a New York City Department of Environmental Protection operating certificate or New York State Department of Environmental Conservation state facility permit; and

(ii) is not required, under the City Right-to-Know Law, to file a Risk Management Plan for Extremely Hazardous Substances.

(3) The maximum number of permitted parking spaces in an accessory group parking facility pursuant to Section 44-12 (Maximum Size of Accessory Group Parking Facilities) may be increased to 500 spaces if the Commissioner of Buildings determines that each such facility:

(i) has separate vehicular entrances and exits, located not less than 25 feet apart;

(ii) is located on a street not less than 60 feet wide and has adequate reservoir space at the vehicular entrance to accommodate either 10 automobiles or five percent of the total parking spaces provided by the use, whichever amount is greater.

(4) Accessory off-street parking may be located on zoning lots other than the same zoning lot as the use to which they are accessory, provided that they are located within the boundary of the special permit application.

(5) For the purposes of applying the provisions of Sections 11-42 (Lapse of Authorization or Special Permit Granted by the City Planning Commission Pursuant to the 1961 Zoning Resolution) and 11-43 (Renewal of Authorization or Special Permit) to any special permit granted under this Section including a future certification pursuant to paragraph (d)(1) of this Section, substantial construction shall, in addition to having the meaning set forth in Section 11-42, also mean the issuance by the Department of Buildings of a temporary or permanent certificate
of occupancy, or an equivalent, for any use not permitted by the underlying district regulations.

The Commission may prescribe additional conditions and safeguards to minimize adverse effects on the character of the surrounding area.
