In other Districts

In C2-1, C2-2, C2-3, C2-4, C4-1, C4-2, C4-3, C4-4, C4-5D, C7, C8-1, C8-2, C8-3, M1-1, M1-2, M1-3, M2-1, M2-2 or M3-1 Districts, the City Planning Commission may permit #public parking garages# or #public parking lots# with more than 150 spaces, provided that the applicable
regulations set forth in Sections 36-53 (Width of Curb Cuts and Location of Access to the Street) or 44-43 (Location of Access to the Street), Sections 36-55 or 44-44 (Surfacing) and Sections 36-56 or 44-45 (Screening) are met. The Commission may permit some of such spaces to be located on the roof of such #public parking garage#, or may permit floor space on one or more #stories# and up to a height of 23 feet above #curb level# to be exempted from the definition of #floor area# as set forth in Section 12-10 (DEFINITIONS). As a condition of permitting such #use#, the Commission shall make the following findings:

(a) that the principal vehicular access for such #use# is located on an arterial highway, a major #street# or a secondary #street# within one-quarter mile of an arterial highway or major #street#, except that in C5 or C6 Districts such access may be located on a local #street#;

(b) that such #use# is so located as to draw a minimum of vehicular traffic to and through local #streets# in nearby residential areas;

(c) that such #use# has adequate reservoir space at the vehicular entrances to accommodate either 10 automobiles or five percent of the total parking spaces provided by the #use#, whichever amount is greater, but in no event shall such reservoir space be required for more than 50 automobiles;

(d) that the #streets# providing access to such #use# will be adequate to handle the traffic generated thereby;

(e) that, where roof parking is permitted, such roof parking is so located as not to impair the essential character or future use or development of adjacent areas; and

(f) that, where any floor space is exempted from the definition of #floor area#, such additional floor space is needed in order to prevent excessive on-street parking demand and relieve traffic congestion.

The Commission may prescribe appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding area, including limitations on #signs# or requirements for shielding of floodlights, for locations of entrances and exits, or for setback of any roof parking areas from #lot lines#.

This Section shall not apply to the #Manhattan Core# where the regulations set forth in Article I, Chapter 3, shall apply, except as provided in Section 13-06 (Previously Filed or Approved Special Permits or Authorizations).

For existing #public parking garages# located within a C4-4 District in Community District 4 in the Borough of Queens where such garage facility existed before [date of adoption] and was previously granted a special permit pursuant to this Section, the finding set forth in paragraph (c) of this Section shall not apply. In lieu thereof, the number of reservoir spaces required shall be
consistent with a finding that the permitted parking facility will not create or contribute to serious traffic congestion and will not unduly inhibit vehicular traffic and pedestrian flow in the surrounding area.

NOTICE

On Wednesday, July 31, 2019, at 10:00 a.m., in the Concourse Level at 120 Broadway, a public hearing is being held by the City Planning Commission to receive comments related to a Draft Environmental Impact Statement (DEIS) concerning an application by New York City Department of Parks and Recreation (NYC Parks), as Lead Agency under SEQRA/CEQR, together with New York City Office of Management and Budget (OMB), as Lead Agency under the National Environmental Policy Act (NEPA), for approval of discretionary actions including a zoning text amendment and acquisition of property, to implement a reliable coastal flood protection system and to improve open spaces and enhance access to the waterfront in Manhattan Community Districts 3 and 6.

The proposed project area begins at Montgomery Street to the south and extends north to East 25th Street and is composed of two sub-areas: Project Area One and Project Area Two. Project Area One extends from Montgomery Street to the north end of John V. Lindsay East River Park (East River Park) at about East 13th Street. Project Area One is approximately 61 acres and consists primarily of East River Park, the Franklin Delano Roosevelt East River Drive (the FDR Drive) right-of-way, a portion of Pier 42, Corlears Hook Park. Project Area Two is approximately 21 acres and extends north and east from Project Area One, from East 13th Street to East 25th Street. In addition to the FDR Drive right-of-way, Project Area Two includes the Consolidated Edison Company of New York (Con Edison) East 13th Street
Substation and the East River Generating Station, Murphy Brothers Playground, Stuyvesant Cove Park, Asser Levy Recreational Center and Playground, and several in-street segments. The DEIS analyzes several project alternatives. Alternative 4, the Flood Protection System with a Raised East River Park Alternative (Preferred Alternative) best meets the principal objectives for the project and therefore was selected as the Preferred Alternative. The Preferred Alternative would raise the majority of East River Park and would limit the length of exposed wall between the community and the waterfront in Project Area One to provide for enhanced neighborhood connectivity. In addition, three pedestrian bridges would be reconstructed and two embayments would be relocated to improve access and enhance the park user experience. Furthermore, Stuyvesant Cove Park, Murphy Brothers Playground, and Asser Levy Playground would be reconstructed and improved. The Preferred Alternative includes the construction of a shared-use flyover bridge linking East River Park and Captain Patrick J. Brown Walk. This bridge will address a long-standing circulation deficiency along the East River Greenway and would substantially improve the City’s greenway network. The selection of this alternative allows for the shortest construction duration and park closure, earlier deployment of the flood protection system (expected to be completed mid-2023), and reduced construction disruption along the FDR Drive. The proposed project triggers three land use actions, subject to the City’s Uniform Land Use Review Procedure (ULURP), for the acquisition of real property by the City in the form of easements, a zoning text amendment to exempt a segment of the proposed project from the requirements of the City’s waterfront zoning regulations, and a future City Map change. The City Map change action would be needed for the reconstruction of the pedestrian bridges and would be carried through at a later date once final design and implementation are completed to record grade and treatment line adjustments, if needed.

Written comments on the DEIS are requested and will be received and considered by NYC Parks and OMB, the Lead Agencies, until Thursday, August 15, 2019, at 5:00 p.m.

This hearing is being held pursuant to the National Environmental Policy Act (NEPA), State Environmental Quality Review Act (SEQRA), and City Environmental Quality Review (CEQR), CEQR No. 15DPR013M.
