Special Height and Setback Regulations

The special height and setback regulations set forth in this Section shall apply.

116-232
Street wall location

Within the #Special Stapleton Waterfront District#, the #street wall# location regulations shall be modified as follows:

(a) Subareas A and B1

In Subareas A and B1, the underlying #street wall# location regulations shall apply, except that the provisions of paragraph (a)(1) of Section 35-651 (Street wall location) shall be modified to require at least 70 percent of the #aggregate width of street wall# be located with 15 feet of the #street line# and extend to the minimum base heights specified in Section 116-233 (Height and setback), or the height of the #building#, whichever is less.

(b) Subareas B2 through B5 and C

In Subareas B2 through B5 and C, the underlying #street wall# location regulations of a C4-2A District or an R6B District, as applicable, shall be modified as set forth in this Section. Map 3 (Mandatory Front Building Wall Lines) in the Appendix to this Chapter, specifies locations in Subareas B2 through B5 and C where #mandatory front building wall# requirements apply as follows:

(a)(1) Type 1: Front #building# walls shall be coincident with and extend along the entire length of the #mandatory front building wall line#, except, to allow articulation at the intersection of two such lines, the front #building# wall may be located anywhere within 15 feet of their point of intersection.

(b)(2) Type 2: Front #building# walls shall be located within eight feet of and extend along at least 70 percent of the length of the #mandatory front building wall line#. For phased #development#, this requirement may be satisfied by more than one #building#, provided
that upon completion 70 percent of the length of the mandatory front building wall line is occupied by such front building walls.

(c)(3) Wherever Map 3 does not indicate a mandatory front building wall line, the underlying street wall location rules shall apply.

If more than one building is developed in Subareas B1, B2, B3 or B4, the first building shall be located along a Type 1 mandatory front building wall line. Subsequent buildings shall locate along a Type 2 mandatory front building wall line until 70 percent of the length of the mandatory front building wall line is occupied.

[MOVED HEIGHT AND SETBACK PROVISIONS TO 116-233]

All mandatory front building walls shall rise without setback to a maximum height of 40 feet, the minimum base height specified in Section 116-233, or the height of the building, whichever is less. A building may exceed a height of 40 feet, up to the maximum building height specified in Section 116-233, if a setback is provided at a minimum height of 35 feet. Such setback shall have a minimum depth of 10 feet and shall be measured from the front building wall. Recesses shall be permitted on the ground floor where required to provide access to the building. Above the ground floor, up to 30 percent of the aggregate width of the front building wall may be recessed.

However, in Subarea B2, the mandatory front building wall may rise without setback to the permitted maximum height of the building.

116-233
Maximum building height Height and setback

Within the Special Stapleton Waterfront District, the underlying height and setback regulations shall be modified as follows:

(a) Subareas A and B1

(1) Base heights and maximum building heights

Table 1 below sets forth the minimum and maximum base height, the maximum transition height, the maximum height of a building or other structure, and the maximum number of stories for buildings in Subareas A and B1. The maximum building height set forth in the table shall only be permitted in locations where the maximum street wall width of a building above the transition height, or, where applicable, the maximum base height, does not exceed 100 feet. At least 60 feet of separation shall exist between any portions of buildings located above such maximum transition height, or maximum base height, as applicable.
A setback is required for all portions of #buildings or other structures# that exceed the maximum base height specified for the Subarea, and shall be provided in accordance with paragraph (a)(2) of this Section.

Within the Special Bay Street Corridor District, visual corridors shall be provided east of Bay Street, prolonging Swan Street, Clinton Street, Grant Street and Baltic Street, as shown on Map 2 in the Appendix to this Chapter. The location of the visual corridor prolonging Grant Street may be located anywhere within the flexible location designated on Map 2.

Such visual corridors shall be a minimum of 60 feet wide and shall be improved to minimum Department of Transportation (DOT) standards for public streets.

The boundaries of visual corridors shall be considered street lines for the purposes of applying the use, bulk and parking provisions of this Resolution, except that such portion of the zoning lot:

(a) shall continue to generate floor area;

(b) may be included for the purposes of calculating lot coverage; and

(c) shall be permitted to accommodate open, unscreened, tandem (one behind the other) accessory off-street parking spaces provided that any such parking spaces are provided in accordance with DOT standards for on-street parking.

SPECIAL PARKING AND LOADING REGULATIONS

The underlying parking provisions are modified by the provisions of this Section.

135-41
Commercial Parking Requirements

In mixed buildings, the underlying parking requirements shall apply, except that for the purposes of determining the parking requirement for commercial uses other than offices, as listed in Use Group 6B, the equivalent of 0.5 floor area ratio, or the amount of non-office commercial floor area in the building, whichever is less, may be deducted from the floor area used to determine such commercial parking calculation.

135-42
Residential Parking Waivers

The underlying residential parking waivers shall only apply to zoning lots existing both on [date of adoption] and on the date of application for a building permit.
135-43

All accessory off-street parking spaces may be provided within public parking garages. Such spaces may also be provided within parking facilities on zoning lots other than the same zoning lot as the use to which they are accessory, provided:

(a) such parking facilities are located either:

   (1) within the Special Bay Street Corridor District; or

   (2) outside the Special Bay Street Corridor District, subject to the underlying provisions for off-site parking spaces set forth in Sections 25-52 (Off-site Spaces for Residences), 25-53 (Off-site Spaces for Permitted Non-residential Uses), 36-42 (Off-site Spaces for Residences) or 36-43 (Off-site Spaces for Commercial or Community Facility Uses), as applicable;

(b) each off-street parking space within such facility is counted only once in meeting the parking requirements for a specific zoning lot; and

(c) in no event shall the number of accessory parking spaces within such facility exceed that permitted in accordance with the underlying regulations.

135-44
