Portions of a #building# facing the Western Open Space that exceed the maximum base height shall be set back from the #street wall# of a #building# facing the Western Open Space a
minimum of 30 feet. However, in both cases, no such setback shall be required within 150 feet of Twelfth Avenue.

Above the maximum base height a #street wall# may rise to a maximum transition height equal to one-half the height of the #street wall# of the #building# base facing the Western Open Space. Such a transition height shall not exceed a maximum height of 135 feet.

(1) Required setbacks

All towers, or portions of a transition height located beneath a tower, shall be set back at least 15 feet from the #street line# of West 33rd Street and from the #street walls# of the #building# facing the Northern Street, except that the depth of such set back distance may include the depth of any permitted recesses. However, no setbacks shall be required within 150 feet of Twelfth Avenue, along the Western Open Space, or along the Midblock Connection to allow portions of towers that comply with the provisions of sub-paragraphs (2) and (3) of this paragraph (c) to rise without setback.

(2) Maximum floor plate

If more than one tower is provided on Site 1, the aggregate gross area of any such tower #stories#, measured at any height, shall not exceed 24,000 square feet.

(3) Maximum length and height

The outermost walls of all #stories# of a tower, when viewed from above, shall be inscribed within a rectangle where the east-west dimension shall not exceed a length of 110 feet and the north-south dimension shall not exceed a length of 160 feet. Where more than one tower is located on Site 1, each tower shall comply independently with such maximum dimensions.

If more than one tower is located on Site 1, the height of the easternmost tower shall be a minimum of 100 feet greater than the height of the westernmost tower.

All #buildings# that exceed a height of 300 feet shall provide articulation in accordance with Section 93-569 (Tower Top Articulation).
In addition to the applicable requirements set forth in Section 93-562, the provisions of this Section 93-564 shall apply to buildings on Site 2.

(ii) A transitional lawn area may be provided for a maximum of 25 percent of the required one acre of lawn area. Such area need not be continuous, and shall have a maximum slope of 15 degrees. Trees and other plantings shall be permitted in such area.

(2) #High Line# connection

Access to the #High Line# shall be provided along a minimum of 75 feet and a maximum of 150 feet of #High Line# frontage length. Such frontage need not be continuous, however, in order to qualify as unobstructed access that contributes to the minimum 75 foot requirement set forth in this paragraph, a minimum frontage width of five feet is required. Such access need not be opened to the public until the #High Line# is reconstructed as public open space in accordance with the provisions of Section 93-756.

(3) Supplemental area

Any space provided in the Western Open Space which does not meet the criteria for lawn area set forth in paragraph (c) (1) of this Section or the criteria for the #High Line# connection set forth in paragraph (c) (2) of this Section shall be designated as supplemental area and shall comply with the requirements set forth in this paragraph (c) (3).

A minimum of 50 percent of the supplemental area shall be landscaped with soft ground cover, and the remaining 50 percent may be paved. At least one tree shall be provided for every 2,000 square feet of supplemental area. Such trees may be distributed anywhere within the supplemental area.
A minimum of two unimpeded paved pedestrian accesses, each with a minimum width of 12 feet, shall be provided in the supplemental area. One such pedestrian access shall link the Northern Street’s allee to the #High Line#, and the second such pedestrian access shall link the Southern Street to the #High Line#.

Permanent structures such as food or information kiosks, pavilions or public restrooms, may be placed within the supplemental area provided the height of such structures does not exceed 20 feet. The maximum #lot coverage# that all such permanent structures may occupy shall be 400 square feet, and shall be exempt from the definition of #floor area#.

(d) Transparency

For portions of #buildings# on Site 1 and Site 5 fronting upon the Western Open Space, a minimum of 50 percent of the surface area of the ground floor #street wall# fronting upon the open space shall be treated with clear, un-tinted transparent material.

(e) Permitted encroachments from private streets and pedestrian ways

The Connector and the terminus of the Northern Street shall be permitted to encroach upon the supplemental area of the Western Open Space, provided that a Site Plan incorporating the private street or pedestrian way is approved in conjunction with the Western Open Space pursuant to Section 93-78.

93-752
General Requirements for the Central Open Space

A publicly accessible open space, (henceforth referred to as the ‘Central Open Space’), shall be provided in Subdistrict F. (3) To provide areas that offer varied programs, supplemental spaces between amenities and surrounding #buildings# and connections between surrounding publicly accessible open spaces.
(b) Location and dimensions

The Central Open Space shall be located within the area bounded by the Northern Street, the Southern Street, the Connector and Eleventh Avenue, and shall also be comprised of any portion of Sites 3 and 4 which are not covered by buildings at the ground level as shown on Map 7.

The Central Open Space shall have a minimum dimension in the north-south direction as measured from the southerly street line of the Northern Street to the northerly street line of the Southern Street of 175 feet. In addition, the minimum dimension of the Central Open Space in the north-south direction between the northern boundary of Site 3 and the southerly street line of the Northern Street shall be 55 feet.

The Central Open Space shall have a minimum dimension in the east-west direction as measured from the easterly street line of the Connector to the westerly street line of Eleventh Avenue of 545 feet. In addition, the minimum dimension of the open space in the east-west direction between the eastern boundary of Site 3 and the western boundary of Site 4 shall be 265 feet.

Within 350 feet of the Eleventh Avenue street line, the maximum height of the finished grade of the Central Open Space shall be 45 feet above the Manhattan Datum, which is 2.75 feet above Sea Level.
