Zoning, Special Purpose District, New York City, NYC, Department of City Planning, DCP

Summary
Special purpose districts have regulations that supplement and modify the underlying zoning for distinctive neighborhoods with particular issues and goals.

Description
Special purpose districts have regulations that supplement and modify the underlying zoning for distinctive neighborhoods with particular issues and goals. The district designation is indicated in the SDNAME attribute. The abbreviation as shown on the zoning map is indicated in the SDLBL attribute. See also Special Purpose Subdistricts, which contains both the main special purpose district boundaries and the internal subdistricts. Subdistrict data has not been fully digitized and may be incomplete. See the Zoning Resolution for a complete description of the special purpose district. Where appropriate, the Zoning Resolution includes a district map showing subdistricts and subareas within the special purpose district.

Use limitations
1. Zoning data changes frequently. The downloadable zoning data will be updated monthly. Updates will include recent zoning changes adopted by City Council.

2. These features are not intended for determining zoning at the individual tax lot level.

3. This dataset is being provided by the Department of City Planning (DCP) on DCP’s website for informational purposes only. DCP does not warrant the completeness, accuracy, content, or fitness for any particular purpose or use of the dataset, nor are any such warranties to be implied or inferred with respect to the dataset as furnished on the website. DCP and the City are not liable for any deficiencies in the completeness, accuracy, content, or fitness for any particular purpose or use the dataset, or applications utilizing the dataset, provided by any third party.

The data were developed using DCP’s Tax Block Base Map Files, DOITT’s NYMap planimetric street centerlines and 2006 orthophotos as reference sources. Measurements and dimensions for location of zoning features were obtained from DCP zoning maps. The estimated horizontal accuracy is +/- 20 feet.
