

New York City, New York

Selected Economic Characteristics: 2007-2009

Data Set: 2007-2009 American Community Survey 3-Year Estimates

Survey: American Community Survey

Geographic Area: New York city, New York

NOTE: Although the American Community Survey (ACS) produces population, demographic and housing unit estimates, it is the Census Bureau's Population Estimates Program that produces and disseminates the official estimates of the population for the nation, states, counties, cities and towns and estimates of housing units for states and counties.

For more information on confidentiality protection, sampling error, nonsampling error, and definitions, see Survey Methodology.

Selected Economic Characteristics	Estimate	MOE	Percent	MOE
EMPLOYMENT STATUS				
Population 16 years and over	6,669,283	2,536	6,669,283	(X)
In labor force	4,228,508	11,402	63.4%	0.2
Civilian labor force	4,224,468	11,446	63.3%	0.2
Employed	3,879,440	11,737	58.2%	0.2
Unemployed	345,028	5,329	5.2%	0.1
Armed Forces	4,040	748	0.1%	0.1
Not in labor force	2,440,775	11,739	36.6%	0.2
Civilian labor force	4,224,468	11,446	4,224,468	(X)
Percent Unemployed	8.2%	0.1	(X)	(X)
Females 16 years and over	3,540,113	1,692	3,540,113	(X)
In labor force	2,039,908	8,726	57.6%	0.2
Civilian labor force	2,039,168	8,721	57.6%	0.2
Employed	1,876,262	8,592	53.0%	0.2
Own children under 6 years	651,169	3,236	651,169	(X)
All parents in family in labor force	371,741	5,450	57.1%	0.8
Own children 6 to 17 years	1,141,403	3,806	1,141,403	(X)
All parents in family in labor force	738,625	7,017	64.7%	0.6
COMMUTING TO WORK				
Workers 16 years and over	3,772,703	12,738	3,772,703	(X)
Car, truck, or van -- drove alone	877,191	8,440	23.3%	0.2
Car, truck, or van -- carpooled	202,833	4,421	5.4%	0.1
Public transportation (excluding taxicab)	2,071,091	13,729	54.9%	0.3
Walked	387,389	6,410	10.3%	0.2
Other means	91,361	3,313	2.4%	0.1
Worked at home	142,838	3,743	3.8%	0.1
Mean travel time to work (minutes)	39.4	0.2	(X)	(X)
OCCUPATION				
Civilian employed population 16 years and over	3,879,440	11,737	3,879,440	(X)
Management, professional, and related occupations	1,459,043	11,535	37.6%	0.3
Service occupations	844,455	8,038	21.8%	0.2
Sales and office occupations	958,127	9,488	24.7%	0.2
Farming, fishing, and forestry occupations	3,284	1,128	0.1%	0.1
Construction, extraction, maintenance, and repair occupations	259,041	5,282	6.7%	0.1
Production, transportation, and material moving occupations	355,490	6,488	9.2%	0.2
INDUSTRY				
Civilian employed population 16 years and over	3,879,440	11,737	3,879,440	(X)
Agriculture, forestry, fishing and hunting, and mining	4,192	1,127	0.1%	0.1
Construction	208,240	5,413	5.4%	0.1
Manufacturing	170,777	4,145	4.4%	0.1
Wholesale trade	104,270	3,206	2.7%	0.1
Retail trade	366,858	5,433	9.5%	0.1
Transportation and warehousing, and utilities	242,525	5,484	6.3%	0.1
Information	155,642	4,482	4.0%	0.1
Finance and insurance, and real estate and rental and leasing	406,453	6,240	10.5%	0.2
Professional, scientific, and management, and administrative and waste management services	479,561	6,713	12.4%	0.2

Educational services, and health care and social assistance	987,986	9,752	25.5%	0.2
Arts, entertainment, and recreation, and accommodation and food services	374,475	7,173	9.7%	0.2
Other services, except public administration	216,932	4,715	5.6%	0.1
Public administration	161,529	4,399	4.2%	0.1
CLASS OF WORKER				
Civilian employed population 16 years and over	3,879,440	11,737	3,879,440	(X)
Private wage and salary workers	3,042,527	13,161	78.4%	0.2
Government workers	577,253	7,617	14.9%	0.2
Self-employed in own not incorporated business workers	254,930	5,322	6.6%	0.1
Unpaid family workers	4,730	861	0.1%	0.1
INCOME AND BENEFITS (IN 2009 INFLATION-ADJUSTED DOLLARS)				
Total households	3,057,132	6,780	3,057,132	(X)
Less than \$10,000	332,137	5,778	10.9%	0.2
\$10,000 to \$14,999	187,343	3,630	6.1%	0.1
\$15,000 to \$24,999	322,355	4,942	10.5%	0.2
\$25,000 to \$34,999	291,114	5,638	9.5%	0.2

Median earnings for female full-time, year-round workers (dollars)	41,456	232	(X)	(X)
HEALTH INSURANCE COVERAGE				
Civilian Noninstitutionalized Population	(X)	(X)	(X)	(X)
With health insurance coverage	(X)	(X)	(X)	(X)

With private health insurance coverage	(X)	(X)	(X)	(X)
With public health coverage	(X)	(X)	(X)	(X)
No health insurance coverage	(X)	(X)	(X)	(X)
Civilian Noninstitutionalized Population Under 18 years	(X)	(X)	(X)	(X)
No health insurance coverage	(X)	(X)	(X)	(X)
PERCENTAGE OF FAMILIES AND PEOPLE WHOSE INCOME IN THE PAST 12 MONTHS IS BELOW THE POVERTY LEVEL				
All families	15.5%	0.2	(X)	(X)
With related children under 18 years	22.3%	0.4	(X)	(X)
With related children under 5 years only	16.8%	0.8	(X)	(X)
Married couple families	8.9%	0.2	(X)	(X)
With related children under 18 years	11.6%	0.4	(X)	(X)
With related children under 5 years only	9.1%	0.8	(X)	(X)
Families with female householder, no husband present	29.3%	0.5	(X)	(X)
With related children under 18 years	39.0%	0.8	(X)	(X)
With related children under 5 years only	35.9%	2.1	(X)	(X)
All people	18.5%	0.2	(X)	(X)
Under 18 years	27.2%	0.5	(X)	(X)
Related children under 18 years	27.0%	0.5	(X)	(X)
Related children under 5 years	26.9%	0.8	(X)	(X)
Related children 5 to 17 years	27.1%	0.5	(X)	(X)
18 years and over	15.9%	0.2	(X)	(X)
18 to 64 years	15.5%	0.2	(X)	(X)
65 years and over	18.3%	0.5	(X)	(X)
People in families	16.8%	0.2	(X)	(X)
Unrelated individuals 15 years and over	24.3%	0.3	(X)	(X)

Source: U.S. Census Bureau, 2007-2009 American Community Survey

Data are based on a sample and are subject to sampling variability. The degree of uncertainty for an estimate arising from sampling variability is represented through the use of a margin of error. The value shown here is the 90 percent margin of error. The margin of error can be interpreted roughly as providing a 90 percent probability that the interval defined by the estimate minus the margin of error and the estimate plus the margin of error (the lower and upper confidence bounds) contains the true value. In addition to sampling variability, the ACS estimates are subject to nonsampling error (for a discussion of nonsampling variability, see Accuracy of the Data). The effect of nonsampling error is not represented in these tables.

Notes:

-Employment and unemployment estimates may vary from the official labor force data released by the Bureau of Labor Statistics because of differences in survey design and data collection. For guidance on differences in employment and unemployment estimates from different sources go to Labor Force Guidance.

-Workers include members of the Armed Forces and civilians who were at work last week.

-Occupation codes are 4-digit codes and are based on Standard Occupational Classification 2000.

-Industry codes are 4-digit codes and are based on the North American Industry Classification System 2002 and 2007. The 2007 ACS data are coded using NAICS 2002 while the 2008 and 2009 ACS data use NAICS 2007 codes. Categories that differ between 2002 and 2007 NAICS are aggregated so that the 3 years of data are consistent in display and reflect the NAICS 2007 codes. The Industry categories adhere to the guidelines issued in Clarification Memorandum No. 2, "NAICS Alternate Aggregation Structure for Use By U.S. Statistical Agencies," issued by the Office of Management and Budget.

-While the 2007-2009 American Community Survey (ACS) data generally reflect the November 2008 Office of Management and Budget (OMB) definitions of metropolitan and micropolitan statistical areas; in certain instances the names, codes, and boundaries of the principal cities shown in ACS tables may differ from the OMB definitions due to differences in the effective dates of the geographic entities.

-Estimates of urban and rural population, housing units, and characteristics reflect boundaries of urban areas defined based on Census 2000 data. Boundaries for urban areas have not been updated since Census 2000. As a result, data for urban and rural areas from the ACS do not necessarily reflect the results of ongoing urbanization.

Explanation of Symbols:

1. An '***' entry in the margin of error column indicates that either no sample observations or too few sample observations were available to compute a standard error and thus the margin of error. A statistical test is not appropriate.
2. An '-' entry in the estimate column indicates that either no sample observations or too few sample observations were available to compute an estimate, or a ratio of medians cannot be calculated because one or both of the median estimates falls in the lowest interval or upper interval of an open-ended distribution.
3. An '-' following a median estimate means the median falls in the lowest interval of an open-ended distribution.
4. An '+' following a median estimate means the median falls in the upper interval of an open-ended distribution.
5. An '****' entry in the margin of error column indicates that the median falls in the lowest interval or upper interval of an open-ended distribution. A statistical test is not appropriate.
6. An '*****' entry in the margin of error column indicates that the estimate is controlled. A statistical test for sampling variability is not appropriate.
7. An 'N' entry in the estimate and margin of error columns indicates that data for this geographic area cannot be displayed because the number of sample cases is too small.
8. An '(X)' means that the estimate is not applicable or not available.

Bronx, New York

Selected Economic Characteristics: 2007-2009
 Data Set: 2007-2009 American Community Survey 3-Year Estimates
 Survey: American Community Survey
 Geographic Area: Bronx County, New York

NOTE: Although the American Community Survey (ACS) produces population, demographic and housing unit estimates, it is the Census Bureau's Population Estimates Program that produces and disseminates the official estimates of the population for the nation, states, counties, cities and towns and estimates of housing units for states and counties.
 For more information on confidentiality protection, sampling error, nonsampling error, and definitions, see Survey Methodology.

Source: U.S. Census Bureau, 2007-2009 American Community Survey

Data are based on a sample and are subject to sampling variability. The degree of uncertainty for an estimate arising from sampling variability is represented through the use of a margin of error. The value shown here is the 90 percent margin of error. The margin of error can be interpreted roughly as providing a 90 percent probability that the interval defined by the estimate minus the margin of error and the estimate plus the margin of error (the lower and upper confidence bounds) contains the true value. In addition to sampling variability, the ACS estimates are subject to nonsampling error (for a discussion of nonsampling variability, see Accuracy of the Data). The effect of nonsampling error is not represented in these tables.

Notes:

-Employment and unemployment estimates may vary from the official labor force data released by the Bureau of Labor Statistics because of differences in survey design and data collection. For guidance on differences in employment and unemployment estimates from different sources go to Labor Force Guidance.

-Workers include members of the Armed Forces and civilians who were at work last week.

-Occupation codes are 4-digit codes and are based on Standard Occupational Classification 2000.

-Industry codes are 4-digit codes and are based on the North American Industry Classification System 2002 and 2007. The 2007 ACS data are coded using NAICS 2002 while the 2008 and 2009 ACS data use NAICS 2007 codes. Categories that differ between 2002 and 2007 NAICS are aggregated so that the 3 years of data are consistent in display and reflect the NAICS 2007 codes. The industry categories adhere to the guidelines issued in Clarification Memorandum No. 2, "NAICS Alternate Aggregation Structure for Use By U.S. Statistical Agencies," issued by the Office of Management and Budget.

-While the 2007-2009 American Community Survey (ACS) data generally reflect the November 2008 Office of Management and Budget (OMB) definitions of metropolitan and micropolitan statistical areas; in certain instances the names, codes, and boundaries of the principal cities shown in ACS tables may differ from the OMB definitions due to differences in the effective dates of the geographic entities.

-Estimates of urban and rural population, housing units, and characteristics reflect boundaries of urban areas defined based on Census 2000 data. Boundaries for urban areas have not been updated since Census 2000. As a result, data for urban and rural areas from the ACS do not necessarily reflect the results of ongoing urbanization.

Explanation of Symbols:

1. An '***' entry in the margin of error column indicates that either no sample observations or too few sample observations were available to compute a standard error and thus the margin of error. A statistical test is not appropriate.
2. An '-' entry in the estimate column indicates that either no sample observations or too few sample observations were available to compute an estimate, or a ratio of medians cannot be calculated because one or both of the median estimates falls in the lowest interval or upper interval of an open-ended distribution.
3. An '-' following a median estimate means the median falls in the lowest interval of an open-ended distribution.
4. An '+' following a median estimate means the median falls in the upper interval of an open-ended distribution.
5. An '****' entry in the margin of error column indicates that the median falls in the lowest interval or upper interval of an open-ended distribution. A statistical test is not appropriate.
6. An '*****' entry in the margin of error column indicates that the estimate is controlled. A statistical test for sampling variability is not appropriate.
7. An 'N' entry in the estimate and margin of error columns indicates that data for this geographic area cannot be displayed because the number of sample cases is too small.
8. An '(X)' means that the estimate is not applicable or not available.

Brooklyn, New York

Selected Economic Characteristics: 2007-2009
 Data Set: 2007-2009 American Community Survey 3-Year Estimates
 Survey: American Community Survey
 Geographic Area: Kings County, New York

NOTE: Although the American Community Survey (ACS) produces population, demographic and housing unit estimates, it is the Census Bureau's Population Estimates Program that produces and disseminates the official estimates of the population for the nation, states, counties, cities and towns and estimates of housing units for states and counties.
 For more information on confidentiality protection, sampling error, nonsampling error, and definitions, see Survey Methodology.

Data are based on a sample and are subject to sampling variability. The degree of uncertainty for an estimate arising from sampling variability is represented through the use of a margin of error. The value shown here is the 90 percent margin of error. The margin of error can be interpreted roughly as providing a 90 percent probability that the interval defined by the estimate minus the margin of error and the estimate plus the margin of error (the lower and upper confidence bounds) contains the true value. In addition to sampling variability, the ACS estimates are subject to nonsampling error (for a discussion of nonsampling variability, see Accuracy of the Data). The effect of nonsampling error is not represented in these tables.

Notes:

-Employment and unemployment estimates may vary from the official labor force data released by the Bureau of Labor Statistics because of differences in survey design and data collection. For guidance on differences in employment and unemployment estimates from different sources go to Labor Force Guidance.

-Workers include members of the Armed Forces and civilians who were at work last week.

-Occupation codes are 4-digit codes and are based on Standard Occupational Classification 2000.

-Industry codes are 4-digit codes and are based on the North American Industry Classification System 2002 and 2007. The 2007 ACS data are coded using NAICS 2002 while the 2008 and 2009 ACS data use NAICS 2007 codes. Categories that differ between 2002 and 2007 NAICS are aggregated so that the 3 years of data are consistent in display and reflect the NAICS 2007 codes. The industry categories adhere to the guidelines issued in Clarification Memorandum No. 2, "NAICS Alternate Aggregation Structure for Use By U.S. Statistical Agencies," issued by the Office of Management and Budget.

-While the 2007-2009 American Community Survey (ACS) data generally reflect the November 2008 Office of Management and Budget (OMB) definitions of metropolitan and micropolitan statistical areas; in certain instances the names, codes, and boundaries of the principal cities shown in ACS tables may differ from the OMB definitions due to differences in the effective dates of the geographic entities.

-Estimates of urban and rural population, housing units, and characteristics reflect boundaries of urban areas defined based on Census 2000 data. Boundaries for urban areas have not been updated since Census 2000. As a result, data for urban and rural areas from the ACS do not necessarily reflect the results of ongoing urbanization.

Explanation of Symbols:

1. An '***' entry in the margin of error column indicates that either no sample observations or too few sample observations were available to compute a standard error and thus the margin of error. A statistical test is not appropriate.
2. An '-' entry in the estimate column indicates that either no sample observations or too few sample observations were available to compute an estimate, or a ratio of medians cannot be calculated because one or both of the median estimates falls in the lowest interval or upper interval of an open-ended distribution.
3. An '-' following a median estimate means the median falls in the lowest interval of an open-ended distribution.
4. An '+' following a median estimate means the median falls in the upper interval of an open-ended distribution.
5. An '****' entry in the margin of error column indicates that the median falls in the lowest interval or upper interval of an open-ended distribution. A statistical test is not appropriate.
6. An '*****' entry in the margin of error column indicates that the estimate is controlled. A statistical test for sampling variability is not appropriate.
7. An 'N' entry in the estimate and margin of error columns indicates that data for this geographic area cannot be displayed because the number of sample cases is too small.
8. An '(X)' means that the estimate is not applicable or not available.

Source: U.S. Census Bureau, 2007-2009 American Community Survey

Data are based on a sample and are subject to sampling variability. The degree of uncertainty for an estimate arising from sampling variability is represented through the use of a margin of error. The value shown here is the 90 percent margin of error. The margin of error can be interpreted roughly as providing a 90 percent probability that the interval defined by the estimate minus the margin of error and the estimate plus the margin of error (the lower and upper confidence bounds) contains the true value. In addition to sampling variability, the ACS estimates are subject to nonsampling error (for a discussion of nonsampling variability, see Accuracy of the Data). The effect of nonsampling error is not represented in these tables.

Notes:

-Employment and unemployment estimates may vary from the official labor force data released by the Bureau of Labor Statistics because of differences in survey design and data collection. For guidance on differences in employment and unemployment estimates from different sources go to Labor Force Guidance.

-Workers include members of the Armed Forces and civilians who were at work last week.

-Occupation codes are 4-digit codes and are based on Standard Occupational Classification 2000.

-Industry codes are 4-digit codes and are based on the North American Industry Classification System 2002 and 2007. The 2007 ACS data are coded using NAICS 2002 while the 2008 and 2009 ACS data use NAICS 2007 codes. Categories that differ between 2002 and 2007 NAICS are aggregated so that the 3 years of data are consistent in display and reflect the NAICS 2007 codes. The industry categories adhere to the guidelines issued in Clarification Memorandum No. 2, "NAICS Alternate Aggregation Structure for Use By U.S. Statistical Agencies," issued by the Office of Management and Budget.

-While the 2007-2009 American Community Survey (ACS) data generally reflect the November 2008 Office of Management and Budget (OMB) definitions of metropolitan and micropolitan statistical areas; in certain instances the names, codes, and boundaries of the principal cities shown in ACS tables may differ from the OMB definitions due to differences in the effective dates of the geographic entities.

-Estimates of urban and rural population, housing units, and characteristics reflect boundaries of urban areas defined based on Census 2000 data. Boundaries for urban areas have not been updated since Census 2000. As a result, data for urban and rural areas from the ACS do not necessarily reflect the results of ongoing urbanization.

Explanation of Symbols:

1. An '***' entry in the margin of error column indicates that either no sample observations or too few sample observations were available to compute a standard error and thus the margin of error. A statistical test is not appropriate.
2. An '-' entry in the estimate column indicates that either no sample observations or too few sample observations were available to compute an estimate, or a ratio of medians cannot be calculated because one or both of the median estimates falls in the lowest interval or upper interval of an open-ended distribution.
3. An '-' following a median estimate means the median falls in the lowest interval of an open-ended distribution.
4. An '+' following a median estimate means the median falls in the upper interval of an open-ended distribution.
5. An '****' entry in the margin of error column indicates that the median falls in the lowest interval or upper interval of an open-ended distribution. A statistical test is not appropriate.
6. An '*****' entry in the margin of error column indicates that the estimate is controlled. A statistical test for sampling variability is not appropriate.
7. An 'N' entry in the estimate and margin of error columns indicates that data for this geographic area cannot be displayed because the number of sample cases is too small.
8. An '(X)' means that the estimate is not applicable or not available.

Queens, New York

Selected Economic Characteristics: 2007-2009

Data Set: 2007-2009 American Community Survey 3-Year Estimates

Survey: American Community Survey

Geographic Area: Queens County, New York

NOTE: Although the American Community Survey (ACS) produces population, demographic and housing unit estimates, it is the Census Bureau's Population Estimates Program that produces and disseminates the official estimates of the population for the nation, states, counties, cities and towns and estimates of housing units for states and counties.

For more information on confidentiality protection, sampling error, nonsampling error, and definitions, see Survey Methodology.

Data are based on a sample and are subject to sampling variability. The degree of uncertainty for an estimate arising from sampling variability is represented through the use of a margin of error. The value shown here is the 90 percent margin of error. The margin of error can be interpreted roughly as providing a 90 percent probability that the interval defined by the estimate minus the margin of error and the estimate plus the margin of error (the lower and upper confidence bounds) contains the true value. In addition to sampling variability, the ACS estimates are subject to nonsampling error (for a discussion of nonsampling variability, see Accuracy of the Data). The effect of nonsampling error is not represented in these tables.

Notes:

-Employment and unemployment estimates may vary from the official labor force data released by the Bureau of Labor Statistics because of differences in survey design and data collection. For guidance on differences in employment and unemployment estimates from different sources go to Labor Force Guidance.

-Workers include members of the Armed Forces and civilians who were at work last week.

-Occupation codes are 4-digit codes and are based on Standard Occupational Classification 2000.

-Industry codes are 4-digit codes and are based on the North American Industry Classification System 2002 and 2007. The 2007 ACS data are coded using NAICS 2002 while the 2008 and 2009 ACS data use NAICS 2007 codes. Categories that differ between 2002 and 2007 NAICS are aggregated so that the 3 years of data are consistent in display and reflect the NAICS 2007 codes. The industry categories adhere to the guidelines issued in Clarification Memorandum No. 2, "NAICS Alternate Aggregation Structure for Use By U.S. Statistical Agencies," issued by the Office of Management and Budget.

-While the 2007-2009 American Community Survey (ACS) data generally reflect the November 2008 Office of Management and Budget (OMB) definitions of metropolitan and micropolitan statistical areas; in certain instances the names, codes, and boundaries of the principal cities shown in ACS tables may differ from the OMB definitions due to differences in the effective dates of the geographic entities.

-Estimates of urban and rural population, housing units, and characteristics reflect boundaries of urban areas defined based on Census 2000 data. Boundaries for urban areas have not been updated since Census 2000. As a result, data for urban and rural areas from the ACS do not necessarily reflect the results of ongoing urbanization.

Explanation of Symbols:

1. An '***' entry in the margin of error column indicates that either no sample observations or too few sample observations were available to compute a standard error and thus the margin of error. A statistical test is not appropriate.
2. An '-' entry in the estimate column indicates that either no sample observations or too few sample observations were available to compute an estimate, or a ratio of medians cannot be calculated because one or both of the median estimates falls in the lowest interval or upper interval of an open-ended distribution.
3. An '-' following a median estimate means the median falls in the lowest interval of an open-ended distribution.
4. An '+' following a median estimate means the median falls in the upper interval of an open-ended distribution.
5. An '****' entry in the margin of error column indicates that the median falls in the lowest interval or upper interval of an open-ended distribution. A statistical test is not appropriate.
6. An '*****' entry in the margin of error column indicates that the estimate is controlled. A statistical test for sampling variability is not appropriate.
7. An 'N' entry in the estimate and margin of error columns indicates that data for this geographic area cannot be displayed because the number of sample cases is too small.
8. An '(X)' means that the estimate is not applicable or not available.

Staten Island, New York

Selected Economic Characteristics: 2007-2009

Data Set: 2007-2009 American Community Survey 3-Year Estimates

Survey: American Community Survey

Geographic Area: Richmond County, New York

NOTE. Although the American Community Survey (ACS) produces population, demographic and housing unit estimates, it is the Census Bureau's Population Estimates Program that produces and disseminates the official estimates of the population for the nation, states, counties, cities and towns and estimates of housing units for states and counties.

For more information on confidentiality protection, sampling error, nonsampling error, and definitions, see Survey Methodology.

Selected Economic Characteristics	Estimate	MOE	Percent	MOE
EMPLOYMENT STATUS				
Population 16 years and over	388,085	669	388,085	(X)
In labor force	234,802	2,590	60.5%	0.7
Civilian labor force	234,106	2,634	60.3%	0.7
Employed	221,066	2,838	57.0%	0.7
Unemployed	13,040	1,084	3.4%	0.3
Armed Forces	696	230	0.2%	0.1
Not in labor force	153,283	2,762	39.5%	0.7
Civilian labor force	234,106	2,634	234,106	(X)
Percent Unemployec	5.6%	0.5	(X)	(X)
Females 16 years and over	201,204	520	201,204	(X)
In labor force	107,424	1,837	53.4%	0.9
Civilian labor force	107,327	1,848	53.3%	0.9
Employed	101,522	1,961	50.5%	1
Own children under 6 years	34,605	966	34,605	(X)
All parents in family in labor force	18,694	1,335	54.0%	3.6
Own children 6 to 17 years	75,204	956	75,204	(X)
All parents in family in labor force	43,159	1,808	57.4%	2.2
COMMUTING TO WORK				
Workers 16 years and over	216,953	2,695	216,953	(X)
Car, truck, or van -- drove alone	118,030	2,687	54.4%	1.1
Car, truck, or van -- carpooled	19,225	1,326	8.9%	0.6
Public transportation (excluding taxicab)	67,889	2,395	31.3%	1
Walked	5,242	643	2.4%	0.3
Other means	1,994	406	0.9%	0.2
Worked at home	4,573	797	2.1%	0.4
Mean travel time to work (minutes)	42.5	0.7	(X)	(X)
OCCUPATION				
Civilian employed population 16 years and over	221,066	2,838	221,066	(X)
Management, professional, and related occupation:	77,216	2,337	34.9%	0.9
Service occupations	41,995	2,596	19.0%	1.1
Sales and office occupations	62,813	2,010	28.4%	0.9
Farming, fishing, and forestry occupations	16	25	0.0%	0.1
Construction, extraction, maintenance, and repair occupation:	22,033	1,500	10.0%	0.7
Production, transportation, and material moving occupation:	16,993	1,145	7.7%	0.5
INDUSTRY				
Civilian employed population 16 years and over	221,066	2,838	221,066	(X)
Agriculture, forestry, fishing and hunting, and mining	99	58	0.0%	0.1
Construction	17,036	1,346	7.7%	0.6
Manufacturing	6,494	855	2.9%	0.4
Wholesale trade	4,780	661	2.2%	0.3
Retail trade	21,394	1,410	9.7%	0.6
Transportation and warehousing, and utilities:	15,945	1,176	7.2%	0.5
Information	5,629	662	2.5%	0.3
Finance and insurance, and real estate and rental and leasing	26,702	1,381	12.1%	0.6
Professional, scientific, and management, and administrative and waste management service	23,288	1,555	10.5%	0.7

Educational services, and health care and social assistance	58,220	2,033	26.3%	0.8
Arts, entertainment, and recreation, and accommodation and food service	14,190	1,441	6.4%	0.6
Other services, except public administration	10,375	1,099	4.7%	0.5
Public administration	16,914	1,204	7.7%	0.5
CLASS OF WORKER				
Civilian employed population 16 years and over	221,066	2,838	221,066	(X)
Private wage and salary workers	162,758	3,264	73.6%	1.1
Government workers	47,746	2,478	21.6%	1.1
Self-employed in own not incorporated business workers	10,324	1,163	4.7%	0.5
Unpaid family workers	238	193	0.1%	0.1
INCOME AND BENEFITS (IN 2009 INFLATION-ADJUSTED DOLLARS)				
Total households	167,296	1,454	167,296	(X)
Less than \$10,000	11,105	1,078	6.6%	0.6
\$10,000 to \$14,999	6,514	868	3.9%	0.5
\$15,000 to \$24,999	12,502	969	7.5%	0.6
\$25,000 to \$34,999	12,554	1,077	7.5%	0.6
\$35,000 to \$49,999	17,275	1,098	10.3%	0.6
\$50,000 to \$74,999	29,267	1,466	17.5%	0.9
\$75,000 to \$99,999	25,380	1,364	15.2%	0.8
\$100,000 to \$149,999	29,018	1,633	17.3%	1
\$150,000 to \$199,999	14,620	1,117	8.7%	0.7
\$200,000 or more	9,061	837	5.4%	0.5
Median household income (dollars)	69,870	1,597	(X)	(X)
Mean household income (dollars)	84,461	1,493	(X)	(X)
With earnings	133,614	1,587	79.9%	0.7
Mean earnings (dollars)	86,922	1,540	(X)	(X)
With Social Security	47,252	1,293	28.2%	0.7
Mean Social Security income (dollars)	16,242	324	(X)	(X)
With retirement income	35,643	1,278	21.3%	0.7
Mean retirement income (dollars)	26,860	1,810	(X)	(X)
With Supplemental Security Income	7,551	703	4.5%	0.4
Mean Supplemental Security Income (dollars)	8,706	529	(X)	(X)
With cash public assistance income	3,990	592	2.4%	0.4
Mean cash public assistance income (dollars)	3,855	656	(X)	(X)
With Food Stamp/SNAP benefits in the past 12 months	14,192	1,059	8.5%	0.6
Families				
Families	124,352	1,673	124,352	(X)
Less than \$10,000	5,158	853	4.1%	0.7
\$10,000 to \$14,999	3,061	602	2.5%	0.5
\$15,000 to \$24,999	6,787	758	5.5%	0.6
\$25,000 to \$34,999	8,115	841	6.5%	0.7

\$75,000 to \$99,999	20,721	1,198	16.7%	1
\$100,000 to \$149,999	25,451	1,518	20.5%	1.2
\$150,000 to \$199,999	13,127	1,014	10.6%	0.8
\$200,000 or more	8,382	801	6.7%	0.7
Median family income (dollars)	81,488	1,718	(X)	(X)
Mean family income (dollars)	95,142	1,765	(X)	(X)
Per capita income (dollars)	30,045	489	(X)	(X)
Nonfamily households				
Nonfamily households	42,944	1,613	42,944	(X)
Median nonfamily income (dollars)	36,584	1,567	(X)	(X)
Mean nonfamily income (dollars)	49,847	1,991	(X)	(X)
Median earnings for workers (dollars)	40,373	653	(X)	(X)
Median earnings for male full-time, year-round workers (dollars)	57,616	1,971	(X)	(X)
Median earnings for female full-time, year-round workers (dollars)	45,393	1,429	(X)	(X)
HEALTH INSURANCE COVERAGE				
Civilian Noninstitutionalized Population	(X)	(X)	(X)	(X)
With health insurance coverage	(X)	(X)	(X)	(X)

With private health insurance coverage	(X)	(X)	(X)	(X)
With public health coverage	(X)	(X)	(X)	(X)
No health insurance coverage	(X)	(X)	(X)	(X)
Civilian Noninstitutionalized Population Under 18 years	(X)	(X)	(X)	(X)
No health insurance coverage	(X)	(X)	(X)	(X)
PERCENTAGE OF FAMILIES AND PEOPLE WHOSE INCOME IN THE PAST 12 MONTHS IS BELOW THE POVERTY LEVEL				
All families	8.1%	0.9	(X)	(X)
With related children under 18 years	12.2%	1.5	(X)	(X)
With related children under 5 years only	13.1%	3.5	(X)	(X)
Married couple families	4.4%	0.8	(X)	(X)
With related children under 18 years	5.5%	1.2	(X)	(X)
With related children under 5 years only	6.3%	3.1	(X)	(X)
Families with female householder, no husband present	22.2%	3.1	(X)	(X)
With related children under 18 years	34.5%	4.9	(X)	(X)
With related children under 5 years only	42.9%	12.8	(X)	(X)
All people	10.3%	0.9	(X)	(X)
Under 18 years	14.5%	2	(X)	(X)
Related children under 18 years	14.2%	2	(X)	(X)
Related children under 5 years	16.2%	3.4	(X)	(X)
Related children 5 to 17 years	13.5%	1.9	(X)	(X)
18 years and over	9.0%	0.7	(X)	(X)
18 to 64 years	8.9%	0.8	(X)	(X)
65 years and over	9.2%	1.2	(X)	(X)
People in families	8.3%	1	(X)	(X)
Unrelated individuals 15 years and over	24.2%	2	(X)	(X)

Source: U.S. Census Bureau, 2007-2009 American Community Survey

Data are based on a sample and are subject to sampling variability. The degree of uncertainty for an estimate arising from sampling variability is represented through the use of a margin of error. The value shown here is the 90 percent margin of error. The margin of error can be interpreted roughly as providing a 90 percent probability that the interval defined by the estimate minus the margin of error and the estimate plus the margin of error (the lower and upper confidence bounds) contains the true value. In addition to sampling variability, the ACS estimates are subject to nonsampling error (for a discussion of nonsampling variability, see Accuracy of the Data). The effect of nonsampling error is not represented in these tables.

Notes:

-Employment and unemployment estimates may vary from the official labor force data released by the Bureau of Labor Statistics because of differences in survey design and data collection. For guidance on differences in employment and unemployment estimates from different sources go to Labor Force Guidance.

-Workers include members of the Armed Forces and civilians who were at work last week.

-Occupation codes are 4-digit codes and are based on Standard Occupational Classification 2000.

-Industry codes are 4-digit codes and are based on the North American Industry Classification System 2002 and 2007. The 2007 ACS data are coded using NAICS 2002 while the 2008 and 2009 ACS data use NAICS 2007 codes. Categories that differ between 2002 and 2007 NAICS are aggregated so that the 3 years of data are consistent in display and reflect the NAICS 2007 codes. The Industry categories adhere to the guidelines issued in Clarification Memorandum No. 2, "NAICS Alternate Aggregation Structure for Use By U.S. Statistical Agencies," issued by the Office of Management and Budget.

-While the 2007-2009 American Community Survey (ACS) data generally reflect the November 2008 Office of Management and Budget (OMB) definitions of metropolitan and micropolitan statistical areas; in certain instances the names, codes, and boundaries of the principal cities shown in ACS tables may differ from the OMB definitions due to differences in the effective dates of the geographic entities.

-Estimates of urban and rural population, housing units, and characteristics reflect boundaries of urban areas defined based on Census 2000 data. Boundaries for urban areas have not been updated since Census 2000. As a result, data for urban and rural areas from the ACS do not necessarily reflect the results of ongoing urbanization.

Explanation of Symbols:

1. An '***' entry in the margin of error column indicates that either no sample observations or too few sample observations were available to compute a standard error and thus the margin of error. A statistical test is not appropriate.
2. An '-' entry in the estimate column indicates that either no sample observations or too few sample observations were available to compute an estimate, or a ratio of medians cannot be calculated because one or both of the median estimates falls in the lowest interval or upper interval of an open-ended distribution.
3. An '-' following a median estimate means the median falls in the lowest interval of an open-ended distribution.
4. An '+' following a median estimate means the median falls in the upper interval of an open-ended distribution.
5. An '****' entry in the margin of error column indicates that the median falls in the lowest interval or upper interval of an open-ended distribution. A statistical test is not appropriate.
6. An '*****' entry in the margin of error column indicates that the estimate is controlled. A statistical test for sampling variability is not appropriate.
7. An 'N' entry in the estimate and margin of error columns indicates that data for this geographic area cannot be displayed because the number of sample cases is too small.
8. An '(X)' means that the estimate is not applicable or not available.
