April 28, 2021

Honorable Marisa Lago, Chair
City Planning Commission
120 Broadway, 31st Floor
New York, NY 10271

Re: Application No.: N 210095 ZRY (Pre. L.U. No. 765)

Zoning for Coastal Flood Resiliency

Dear Chair Lago:

On April 27, 2021 the Land Use Committee of the City Council, by a vote of 18-0-0 for Application N 210095 ZRY, recommended modifications of the City Planning Commission’s decision in the above-referenced matter.

Pursuant to Section 197-d(d) of the City Charter I hereby file the proposed modifications with the Commission:

Matter underlined is new, to be added.
Matter struck out is to be deleted.
Matter double struck out is old, deleted by the City Council;
Matter double-underlined is new, added by the City Council
Matter within # # is defined in Section 12-10 or other, as applicable.
* * * indicates where unchanged text appears in the Zoning Resolution.

* * *
ARTICLE I
GENERAL PROVISIONS

* * *

Chapter 1
Title, Establishment of Controls, and Interpretation of Regulations

* * *

11-30
BUILDING PERMITS ISSUED BEFORE EFFECTIVE DATE OF AMENDMENT

* * *

11-33
Building Permits for Minor or Major Development or Other Construction Issued Before Effective Date of Amendment

* * *

11-339
Post-Hurricane Sandy construction
Building permits issued in the flood zone

The provisions of this Section shall apply within the flood zones. The provisions of this Section are subject to all provisions of Title 28 of the Administrative Code of the City of New York and Appendix G of the New York City Building Code, or its successors, including those pertaining to expiration, reinstatement, revocation and suspension. Changes in flood maps shall be considered an amendment of the Zoning Resolution for the purposes of applying the provisions of Section 11-30 (BUILDING PERMITS ISSUED BEFORE EFFECTIVE DATE OF AMENDMENT).

(a) Applications for approval of construction documents approved pursuant to Executive Order 230

If an application for approval of construction documents has been approved on or before October 9, 2013, pursuant to Executive Order No. 230 (Emergency Order to Suspend Zoning Provisions to Facilitate Reconstruction in Accordance with Enhanced Flood Resistant Construction Standards), dated January 31, 2013, and its successors,
Executive Order No. 427 in effect on October 9, 2013, relating to #Hurricane Sandy# as defined in Section 64-11 of this Resolution, a building permit authorizing such construction may be issued pursuant to the regulations of this Resolution in effect at the time of such approval of construction documents, and such construction may continue until October 9, 2019. After such date, the vesting provisions of Section 11-30 shall apply.

(b)(a) Construction approved pursuant to previous versions of #flood maps#

If, within one year prior to a change in the #flood maps# affecting a property, the Department of Buildings issued an approval of construction documents or issued a building permit for construction on that property pursuant to the previous #flood maps#, the provisions of Article VI, Chapter 4 (Special Regulations Applying in Flood Hazard Areas), shall be deemed modified so as to substitute the previous #flood maps# for the current #flood maps#, and such construction may continue pursuant to such prior #flood maps# until October 9, 2019—two years after the date of adoption of the new #flood maps#. After this date, the vesting provisions of Section 11-30 shall apply.

(c) Provisions applying in the event that Flood Resilience Zoning Text Amendment expires

This provision shall become effective only upon the expiration of Article VI, Chapter 4, adopted on October 9, 2013. If an application for approval of construction documents has been approved on or before the expiration of Article VI, Chapter 4, a building permit authorizing such construction may be issued pursuant to Article VI, Chapter 4, and such construction may continue until a date six years after the expiration of Article VI, Chapter 4. After such date, the vesting provisions of Section 11-30 shall apply.

(d)(b) Provisions applying when Appendix A (Special Regulations for Neighborhood Recovery) of Article VI, Chapter 4 expires

This provision shall become effective only upon the expiration of Appendix A of Article VI, Chapter 4, adopted on July 23, 2015. If a building permit authorizing construction pursuant to Appendix A has been approved on or before the expiration of such Appendix, construction may continue up to two years after the expiration. After such date, the provisions of Section 11-30 shall apply.

* * *

Chapter 2
Construction of Language and Definitions
12-10 DEFINITIONS

Base flood elevation

[Note: Existing text to be deleted and replaced by the definition of “flood-resistant construction elevation” in Section 64-11]

The "base flood elevation" is the level in feet of the flood having a one percent chance of being equaled or exceeded in any given year, as indicated on the Flood Insurance Rate Map prepared by the Federal Emergency Management Agency.

Base plane

The “base plane” is a plane from which the height of a building or other structure is measured as specified in certain Sections. For buildings, portions of buildings with street walls at least 15 feet in width, or building segments within 100 feet of a street line, the level of the base plane is any level between curb level and street wall line level. Beyond 100 feet of a street line, the level of the base plane is the average elevation of the final grade adjoining the building or building segment, determined in the manner prescribed by the New York City Building Code for adjoining grade elevation. In either case, in the flood zone, either the base flood elevation may be the level of the base plane or building height may be measured from the flood-resistant construction elevation, as provided in Article VI, Chapter 4. For the purposes of this definition, abutting buildings on a single zoning lot may be considered a single building. In addition, the following regulations shall apply:

(a) Within 100 feet of a street line:

(1) The level of the base plane for a building or building segment without a street wall shall be determined by the average elevation of the final grade adjoining such building or building segment.

(2) Where a base plane other than curb level is established, the average elevation of the final grade adjoining the street wall of the building or building segment, excluding the entrance to a garage within the street wall, shall not be
lower than the level of the #base plane#, unless the #base plane# is also the #base flood elevation#.

(3) Where the average elevation of the final grade adjoining the #street wall# of the #building#, excluding the entrance to a garage within the #street wall#, is more than two feet below #curb level#, the level of the #base plane# shall be the elevation of such final grade, unless the #base plane# is also the #base flood elevation#. This paragraph shall not apply to #buildings developed# before June 30, 1989, in R2X, R3, R4 or R5 Districts. Furthermore, this paragraph shall not apply to #buildings# in C1 or C2 Districts mapped within R2X, R3, R4 or R5 Districts, or in C3 or C4-1 Districts, unless such #buildings# are located on #waterfront blocks#.

* * *

Floor area

“Floor area” is the sum of the gross areas of the several floors of a #building# or #buildings#, measured from the exterior faces of exterior walls or from the center lines of walls separating two #buildings#. In particular, #floor area# includes:

* * *

(h) floor space in #accessory buildings#, except for floor space used for #accessory# off-street parking or #accessory# mechanical equipment;

* * *

However, the #floor area# of a #building# shall not include:

* * *

(8) floor space used for #accessory# mechanical equipment, including equipment serving the mechanical, electrical, or plumbing systems of #buildings# as well as fire protection systems, and power systems such as solar energy systems, generators, fuel cells, and energy storage systems. Such exclusion shall also include the minimum necessary floor space to provide for necessary maintenance and access to such equipment, except that such exclusion shall not apply in R2A Districts, and in R1-2A, R2X, R3, R4, or R5 Districts, such exclusion shall be limited to 50 square feet for the first #dwelling unit#, an additional 30 square feet for the second #dwelling unit# and an additional 10 square feet for each additional #dwelling unit#. For the purposes of calculating floor space used for mechanical equipment, #building segments# on a single #zoning lot# may be considered
Honorable Marisa Lago, Chair
Application No.: N 210095 ZRY (Pre. L.U. No. 765)
April 28, 2021
Page 6 of 238

to be separate #buildings#;

* * *

Flood maps

[Note: Existing text moved to Section 64-11 and modified]

“Flood maps” shall be the most recent advisory or preliminary maps or map data released by the Federal Emergency Management Agency (FEMA) after October 28, 2012, until such time as the City of New York adopts new final Flood Insurance Rate Maps. When new final Flood Insurance Rate Maps are adopted by the City of New York superseding the Flood Insurance Rate Maps in effect on October 28, 2012, #flood maps# shall be such new adopted final Flood Insurance Rate Maps.

Flood zone

The “flood zone” is the area that has a one percent chance of flooding in a given year, shall include the #high-risk flood zone# and the #moderate-risk flood zone#, as defined in Section 64-11 (Definitions) and as indicated on the effective Flood Insurance Rate Maps, plus any additional area that has a one percent chance of flooding in a given year, as indicated on the #flood maps#.

* * *

Designated recovery area

A “designated recovery area” shall be an area which experienced physical or non-physical impacts from a #severe disaster#, in accordance with recovery plans, as applicable.

* * *

Severe disaster

A “severe disaster” shall include any event within any boundary of the City of New York, for which the Mayor proclaims a local state of emergency, or the Governor declares a disaster emergency.

* * *
Chapter 3
Comprehensive Off-street Parking and Loading Regulations in the Manhattan Core

* * *

13-20
SPECIAL RULES FOR MANHATTAN CORE PARKING FACILITIES

* * *

13-22
Applicability of Enclosure and Screening Requirements

* * *

13-221
Enclosure and screening requirements

(a) #Accessory# off-street parking facilities

All #accessory# off-street parking spaces shall be located within a #completely enclosed building#, with the exception of parking spaces #accessory# to a hospital, as listed in Use Group 4, and as provided in Section 13-45 (Special Permits for Additional Parking Spaces). In addition, such parking facilities shall comply with the following provisions:

(1) Screening

Any portion of an #accessory# off-street parking facility that is located above #curb level# shall comply with the applicable parking wrap and screening provisions set forth in Section 37-35.

(2) Transparency

Portions of ground floor #commercial# and #community facility uses# screening the parking facility in accordance with the provisions of paragraph (a) of Section 37-35 shall be glazed with transparent materials in accordance with Section 37-34.
However, for buildings where the base flood elevation is higher than the level of the adjoining sidewalk, all such transparency requirements shall be measured from the level of the flood-resistant construction elevation, as defined in Section 64-11, instead of from the level of the adjoining sidewalk.

For zoning lots with multiple street wall frontages, the transparency provisions of this paragraph, (a)(2), need not apply to street walls that are located entirely beyond 100 feet of any portion of the accessory parking facility, as measured in plan view, perpendicular to such parking facility.

Chapter 3
Residential Bulk Regulations in Residence Districts

* * *

23-10
OPEN SPACE AND FLOOR AREA RATIO REGULATIONS

* * *

23-12
Permitted Obstructions in Open Space

R1 R2 R3 R4 R5 R6 R7 R8 R9 R10

In the districts indicated, the following obstructions shall be permitted in any open space required on a zoning lot:

* * *

(h) Parking spaces, off-street, enclosed, accessory, not to exceed one space per dwelling unit, when accessory to a single-family, two-family or three-family residence, provided that the total area occupied by a building used for such purposes does not exceed 20 percent of the total required open space on the zoning lot. However, two such spaces for a single-family residence may be permitted in lower density growth management areas and in R1-2A Districts;

(i) Accessory power systems, including, but not limited to, generators, solar energy systems, fuel cells, batteries and other energy storage systems, provided that:

(1) all equipment shall be subject to the following location, enclosure, and screening requirements, as applicable:
(i) all generators and cogeneration equipment to buildings other than single- or two-family residences shall be completely enclosed within a building or other structure, except as necessary for mechanical ventilation;

(ii) all other types of equipment, including generators and cogeneration equipment serving single- or two-family residences, may be unenclosed, provided that such equipment is located at least five feet from any lot line. However, if the area bounding all such equipment, as drawn by a rectangle from its outermost perimeter in plan view, exceeds 25 square feet, such equipment shall be screened in its entirety on all sides. Such screening may be opaque or perforated, provided that where perforated materials are provided, not more than 50 percent of the face is open;

(iii) where any equipment is located between a street wall, or prolongation thereof, and a street line, the entire width of such portion of the equipment facing a street, whether open or enclosed, shall be fully screened by vegetation; and

(2) the size of all equipment, including all screening and enclosures containing such equipment, any screening or portions of any building or other structure enclosing such equipment, shall not exceed:

(i) an area equivalent to 25 percent of a required open space;

(ii) in R1 through R5 Districts, a height of 10 feet above the adjoining grade; and

(iii) in R6 through R10 Districts, a height of 15 feet above the adjoining grade.

(i) Ramps or lifts for people with physical disabilities;

(k) Solar energy systems:

(1) on the roof of an accessory building, limited to 18 inches in height as measured perpendicular to the roof surface; or

(2) on walls existing on April 30, 2012, projecting no more than 10 inches and
occupying no more than 20 percent of the surface area of the #building# wall (as viewed in elevation) from which it projects;

(j)(l) Swimming pools, #accessory#, above-grade structures limited to a height not exceeding eight feet above the level of the #rear yard# or #rear yard equivalent#;

(k)(m) Terraces, unenclosed, fire escapes or planting boxes, provided that no such items project more than six feet into or over such #open space#.

*   *   *

23-40
YARD REGULATIONS

*   *   *

23-44
Permitted Obstructions in Required Yards or Rear Yard Equivalents

In all #Residence Districts#, the following obstructions shall be permitted within a required #yard# or #rear yard equivalent#:

(a) In any #yard# or #rear yard equivalent#:

   *   *   *

(14) Parking spaces, off-street, open, within a #front yard#, that are #accessory# to a #building# containing #residences#, provided that:

   *   *   *

However, no parking spaces of any kind shall be permitted in any #front yard# in an R4B, R5B or R5D District. Furthermore, no parking spaces of any kind shall be permitted in any #front yard# on a #zoning lot# containing an #attached# or #semi-detached building# in an R1, R2, R3A, R3X, R4A or R5A District, or in any #front yard# on a #zoning lot# containing an #attached building# in an R3-1 or R4-1 District;

(15) Accessory# power systems, including, but not limited to, generators, solar energy systems, fuel cells, batteries and other energy storage systems, provided that:
all equipment shall be subject to the following location, enclosure, and screening requirements, as applicable:

(a) all generators and cogeneration equipment accessory to buildings other than single- or two-family residences shall be completely enclosed within a building or other structure, except as necessary for mechanical ventilation;

(b) all other types of equipment, including generators and cogeneration equipment serving single- or two-family residences, may be unenclosed, provided that such equipment is located at least five feet from any lot line. However, if the area bounding all such equipment, as drawn by a rectangle from its outermost perimeter in plan view, exceeds 25 square feet, such equipment shall be screened in its entirety on all sides. Such screening may be opaque or perforated, provided that where perforated materials are provided, not more than 50 percent of the face is open;

(c) where any equipment is located in a front yard, the entire width of such portion of such equipment facing a street, whether open or enclosed, shall be fully screened by vegetation; and

(ii) the size of all equipment, including all screening and enclosures containing such equipment, any screening or portions of any building or other structure enclosing such equipment, shall not exceed:

(a) an area equivalent to 25 percent of a required yard, or rear yard equivalent, and in addition, in front yards, is limited to an area not exceeding 25 square feet. However, for corner lots, one front yard may be treated as a side yard for the purpose of applying such size restrictions;

(b) in R1 through R5 Districts, a height of 10 feet above the adjoining grade in rear yards, rear yard equivalents and side yards, or a height of five feet above the adjoining grade in front yards; and

(c) in R6 through R10 Districts, a height of 15 feet above the adjoining grade.
(15)(16) Ramps or lifts for people with physical disabilities;

(16)(17) Solar energy systems on walls existing on April 30, 2012, projecting no more than 10 inches and occupying no more than 20 percent of the surface area of the building wall (as viewed in elevation) from which it projects;

(17)(18) Steps, provided that such steps access only the lowest story or cellar of a building fronting on a street, which may include a story located directly above a basement;

(18)(19) Swimming pools, accessory, above-grade structures limited to a height not exceeding eight feet above the level of the rear yard or rear yard equivalent. Accessory swimming pools are not permitted obstructions in any front yard;

(19)(20) Terraces or porches, open;

(20)(21) Walls, not exceeding eight feet in height above adjoining grade and not roofed or part of a building, and not exceeding four feet in height in any front yard, except that for corner lots, a wall may be up to six feet in height within that portion of one front yard that is between a side lot line and the prolongation of the side wall of the residence facing such side lot line;

23-87
Permitted Obstructions in Courts

R1 R2 R3 R4 R5 R6 R7 R8 R9 R10

In all districts, as indicated, the following obstructions shall be permitted within the minimum area and dimensions needed to satisfy the requirements for a court:

*   *   *

(h) Open terraces, porches, steps, and ramps or lifts for people with physical disabilities;

(i) Accessory power systems, including, but not limited to, generators, solar energy systems, fuel cells, batteries and other energy storage systems, provided that:

(1) all equipment shall be subject to the following location, enclosure, and screening requirements, as applicable:

   (i) all generators and cogeneration equipment accessory to buildings other than single- or two-family residences shall be completely enclosed within a building or other structure, except as necessary for mechanical ventilation;

   (ii) all other types of equipment, including generators and cogeneration equipment serving single- or two-family residences, may be unenclosed, provided that such equipment is located at least five feet from any lot line. However, if the area bounding all such equipment, as drawn by a rectangle from its outermost perimeter in plan view, exceeds 25 square feet, such equipment shall be screened in its entirety on all sides. Such screening may be opaque or perforated, provided that where perforated materials are provided, not more than 50 percent of the face is open;

   (iii) where any equipment at the ground floor level is located between a street wall, or prolongation thereof, and a street line, the entire width of such portion of the equipment facing a street, whether open or enclosed, shall be fully screened by vegetation; and

(2) the size of all equipment, including all screening and enclosures containing such equipment, any screening or portions of any building or other structure enclosing
such equipment, shall not exceed:

(i) an area equivalent to 25 percent of any court containing legally required windows;

(ii) in R1 through R5 Districts, a height of 10 feet above the lowest level of such court; and

(iii) in R6 through R10 Districts, a height of 15 feet above the lowest level of such court.

(j) Recreational or drying yard equipment;

(k) Solar energy systems on walls existing on April 30, 2012, projecting no more than 10 inches and occupying no more than 20 percent of the surface area of the building wall (as viewed in elevation) from which it projects.

37-30
SPECIAL GROUND FLOOR LEVEL STREETSCAPE PROVISIONS FOR CERTAIN AREAS
37-31
Applicability

Section 37-30, inclusive, specifies ground floor level requirements that establish consistent standards for a minimum depth for certain uses, a maximum width for certain uses, minimum transparency requirements, and parking wrap and screening requirements, and minimum requirements for blank walls that apply in conjunction with requirements set forth for certain Commercial Districts in the supplemental use provisions of Section 32-40, inclusive, for Quality Housing buildings in certain Commercial Districts subject to supplemental provisions for qualifying ground floors; for certain Manufacturing Districts in Section 42-485 (Streetscape provisions); for zoning lots subject to the off-street parking regulations in the Manhattan Core in Article I, Chapter 3; for zoning lots subject to the special provisions for waterfront areas and FRESH food stores, and flood zones in Article VI, Chapters 2 and 3, and 4 respectively; and for zoning lots subject to the provisions of certain Special Purpose Districts.

*     *     *

37-36
Special Requirements for Blank Walls

[Note: Consolidated and Modified Text from Sections 87-415, 127-412, 135-12, 138-32, and 142-141]

Where visual mitigation elements are required on a blank wall along the ground floor level street wall in accordance with other streetscape provisions in this Resolution, such blank wall shall be covered by one or more of the following mitigation elements set forth in this Section.

37-361
Blank wall thresholds

The height and width of blank walls and the applicable percent coverage of mitigation elements are set forth in this Section. Blank wall surfaces shall be calculated on the ground floor level street wall except in the flood zone, blank wall surfaces shall be calculated between the level of the adjoining sidewalk and the level of the first story above the flood elevation as defined in Section 64-11(Definitions).

The different types of blank walls are established below and the type of blank wall that applies is determined by the provisions of each applicable Section.
(a) Type 1

Where Type 1 blank wall provisions apply, a “blank wall” shall be a street wall, or portions thereof, where no transparent materials or entrances or exits are provided below a height of four feet above the level of the adjoining sidewalk, or grade, as applicable, for a continuous width of at least 50 feet.

For such blank walls, at least 70 percent of the surface or linear footage of the blank wall, as applicable, shall be covered by one or more of the options described in Section 37-362 (Mitigation elements).

The maximum width of a portion of such blank wall without visual mitigation elements shall not exceed 10 feet. In addition, where such blank wall exceeds a street wall width of 50 feet, such rules shall be applied separately for each 50-foot interval.

(b) Type 2

Where Type 2 blank wall provisions apply, a “blank wall” shall be a street wall, or portions thereof, where no transparent materials or entrances or exits are provided below a height of four feet above the level of the adjoining sidewalk, or grade, as applicable, for a continuous width of at least 25 feet.

For such blank walls, at least 70 percent of the surface or linear footage of the blank wall, as applicable, shall be covered by one or more of the options described in Section 37-362. In addition, where such blank wall exceeds a street wall width of 50 feet, such rules shall be applied separately for each 50-foot interval.

(c) Type 3 or Type 4

Where Type 3 or Type 4 blank wall provisions apply, a “blank wall” shall be a street wall, or portions thereof, where no transparent materials or entrances or exits are provided below a height of four feet above the level of the adjoining sidewalk, or grade, as applicable, for a continuous width of at least 15 feet for Type 3 or for a continuous width of at least five feet for Type 4.

For such blank walls, at least 70 percent of the surface or linear footage of the blank wall, as applicable, shall be covered by one or more of the options described in Section 37-362. In addition, where such blank wall exceeds a street wall width of 25 feet, such rules shall be applied separately for each 25-foot interval.
Mitigation elements

The following mitigation elements shall be provided on the #zoning lot#, except where such elements are permitted within the #street# under other applicable laws or regulations.

(a) Surface treatment

Where utilized as a visual mitigation element the following shall apply:

(1) Wall treatment

Wall treatment, in the form of permitted #signs#, graphic or sculptural art, decorative screening or latticework, or living plant material shall be provided along the #street wall#. Each linear foot of wall treatment shall constitute one linear foot of the mitigation requirement.

(2) Surface texture

Surface texture that recesses or projects a minimum of one inch from the remaining surface of the #street wall# shall be provided. The height or width of any individual area that recesses or projects shall not be greater than 18 inches. Each linear foot of wall treatment shall constitute one linear foot of the mitigation requirement.

(b) Linear treatment

Where utilized as a visual mitigation element the following shall apply:

(1) Planting

Planting, in the form of any combination of perennials, annual flowers, decorative grasses or shrubs, shall be provided in planting beds, raised planting beds or planter boxes in front of the #street wall#. Each foot in width of a planting bed, raised planting bed or planter box, as measured parallel to the #street wall#, shall satisfy one linear foot of the mitigation requirement. Such planting bed, or planter boxes shall extend to a depth of at least three feet, inclusive of any structure containing the planted material.
Any individual planted area, including planters spaced not more than one foot apart, shall have a width of at least five feet.

(2) Benches

Fixed benches, with or without backs, shall be provided in front of the #street wall#. Unobstructed access shall be provided between such benches and an adjoining sidewalk or required circulation paths. Each linear foot of bench, as measured parallel to the #street wall#, shall satisfy one linear foot of the mitigation requirement. Any individual bench shall have a width of at least five feet and no more than 20 feet of benches may be used to fulfill such requirement per 50 feet of frontage.

(3) Bicycle racks

Bicycle racks, sufficient to accommodate at least two bicycles, shall be provided in front of the #street wall# as follows. No more than three bicycle racks may be used to fulfill such requirement per 50 feet of frontage.

(i) Where bicycle racks are oriented so that the bicycles are placed parallel to the #street wall#, each bicycle rack so provided shall satisfy five linear feet of the mitigation requirement.

(ii) Where bicycle racks are oriented so that bicycles are placed perpendicular or diagonal to the #street wall#, each bicycle rack so provided shall satisfy the width of such rack, as measured parallel to the #street wall#, of the mitigation requirement.

(4) Tables and chairs

In #Commercial Districts# and M1 Districts, fixed tables and chairs shall be provided in front of the #street wall#. Each table shall have a minimum diameter of two feet and have a minimum of two chairs associated with it. Each table and chair set so provided shall satisfy five linear feet of the mitigation requirement.

(9) Parking spaces for automobiles or bicycles, off-street, open, #accessory#;

(10) Power systems, including, but not limited to, generators, solar energy systems, fuel cells, batteries and other energy storage systems, provided that all equipment shall not exceed a height of 23 feet above #curb level#;

(10)(11) Solar energy systems on walls existing on April 30, 2012, projecting no more than 10 inches and occupying no more than 20 percent of the surface area of the #building# wall (as viewed in elevation) from which it projects;

(11)(12) Steps, and ramps or lifts for people with physical disabilities;

(12)(13) Terraces or porches, open;

(13)(14) Walls, not exceeding eight feet in height and not roofed or part of a #building#. 
ARTICLE VI
SPECIAL REGULATIONS APPLICABLE TO CERTAIN AREAS

Chapter 2
Special Regulations Applying in the Waterfront Area

62-00
GENERAL PURPOSES

The provisions of this Chapter establish special regulations which are designed to guide development along the City's waterfront and in so doing to promote and protect public health, safety and general welfare. These general goals include, among others, the following purposes:

(a) to maintain and reestablish physical and visual public access to and along the waterfront;

(b) to promote a greater mix of uses in waterfront developments in order to attract the public and enliven the waterfront;

(c) to encourage water-dependent (WD) uses along the City's waterfront;

(d) to create a desirable relationship between waterfront development and the water's edge, public access areas and adjoining upland communities;

(e) to preserve historic resources along the City's waterfront; and

(f) to protect natural resources in environmentally sensitive areas along the shore; and

(g) to allow waterfront developments to incorporate resiliency measures that help address challenges posed by coastal flooding and sea level rise.
62-10
GENERAL PROVISIONS

62-11
Definitions

Definitions specially applicable to this Chapter are set forth in this Section. The definitions of other defined terms are set forth in Section 12-10 (DEFINITIONS) and Section 64-11 (Definitions).

Development

For the purposes of this Chapter, a “development” shall also include:

(a) an #enlargement#;

(b) any alteration that increases the height or coverage of an existing #building or other structure#;

(c) an #extension#; or

(d) a change of #use# from one Use Group to another, or from one #use# to another in the same Use Group, or from one #use# listed in Section 62-21 (Classification of Uses in the Waterfront Area) to another such #use#.

However, a #development# shall not include incidental modifications to a #zoning lot#, including but not limited to, the addition of deployable flood control measures and any associated permanent fixtures, the addition of temporary structures such as trash receptacles, food carts or kiosks, and the incorporation of minor permanent structures such as light stanchions, bollards, fences, or structural landscaped berms and any associated flood gates. All such modifications shall remain subject to any associated permitted obstruction allowances, as applicable.

Tidal Wetland Area

A “tidal wetland area” is an area planted with species tolerant of saline water inundation that is located between the mean low water line and the landward edge of the stabilized natural shore or bulkhead. Such area may be used to satisfy requirements for #waterfront yards#, #shore public walkways# and planting in this Chapter.
62-30
SPECIAL BULK REGULATIONS

62-33
Special Yard Regulations on Waterfront Blocks

62-332
Rear yards and waterfront yards

[Note: Text restructured for clarity]

Rear yard regulations shall be inapplicable on waterfront zoning lots. In lieu thereof, a waterfront yard shall be provided along the entire length of the shoreline, bulkhead or stabilized natural shore, whichever is furthest landward, with a depth as set forth in the following table. The minimum depth shall be measured from the landward edge of the bulkhead, landward edge of stabilized natural shore or, in the case of natural shorelines, the mean high water line.

Where a platform projects from the shoreline, stabilized natural shore, or bulkhead, such waterfront yard shall, in lieu of following the shore at that portion, continue along the water edge of such platform until it again intersects the shoreline, stabilized natural shore, or bulkhead, at which point it shall resume following the shoreline, stabilized natural shore, or bulkhead.

The level of a waterfront yard shall not be higher than the elevation of the top of the adjoining existing bulkhead, existing stabilized natural shore or mean high water line, as applicable, except that natural grade level need not be disturbed in order to comply with this requirement. The level of the portion of a waterfront yard on a platform shall not be higher than the abutting level of the non-platformed portion of the waterfront yard, of which it is the continuation, except that the level of a platform existing on October 25, 1993 need not be altered in order to comply with this requirement.

No building or other structure shall be erected above the lowest level of a waterfront yard. Permitted obstructions in waterfront yards in all districts shall include permitted obstructions as
listed in Sections 23-44 (Permitted Obstructions in Required Yards or Rear Yard Equivalents) and 62-611, except that enclosed accessory off-street parking spaces and walls exceeding four feet in height shall not be permitted.

In addition, the following rear yard obstructions shall not be permitted except when accessory to single- or two-family residences in detached, semi-detached or zero-lot line buildings:

Balconies, unenclosed;

Greenhouses, non-commercial, accessory;

Parking spaces, off-street, open or enclosed, accessory;

Swimming pools, accessory;

Terraces or porches, open;

The minimum depth set forth in the preceding table may be reduced at the following locations provided no waterfront yard is reduced to less than 10 feet:

(a) Along those portions of the landward edge of stabilized shore, bulkhead, natural shoreline or along those portions of the water edge of a platform, having a lot
dimension, measured perpendicular and landward from such edge, that is less than 70 feet in the case of districts in Column A or 80 feet in the case of districts in Column B.

For such shallow portions of lots, the minimum depth may be reduced by one foot for each foot that the lot dimension measured from such edge is less than 70 or 80 feet, as applicable.

(b) Along those portions of the water edge of a platform having a dimension, measured perpendicular from such water edge to an opposite water edge that is less than 100 feet in the case of districts in Column A or 120 feet in the case of districts in Column B.

For such narrow portions of platforms, the minimum depth along each opposite edge may be reduced by one-half foot for each foot that the platform dimension is less than 100 or 120 feet, as applicable. WATERFRONT YARD AT STABILIZED SHORELINE (62-332b.1) WATERFRONT YARD (62-332b.2)

---

WATERFRONT YARD AT STABILIZED SHORELINE (62-332b.1)
#Rear yard# regulations shall be inapplicable on #waterfront zoning lots#. In lieu thereof, a #waterfront yard# shall be provided along the entire length of the #shoreline#, bulkhead or stabilized natural shore, whichever is furthest landward. In addition, the following rules shall apply to the #waterfront yard#:

(a) **Depth of the #waterfront yard#**

**[Note: Modified 62-332 text]**

The required minimum depth of a #waterfront yard# is set forth in the following table. Column A sets forth districts where the minimum depth is 30 feet, and Column B sets forth districts where the minimum depth is 40 feet. Such minimum depths shall be measured from the landward edge of the bulkhead, landward edge of stabilized natural shore, or, in the case of natural #shorelines#, the mean high water line.
Where a #platform# projects from the #shoreline#, stabilized natural shore, or bulkhead (see illustration below of Waterfront Yard), such #waterfront yard# shall, in lieu of following the shore at that portion, continue along the water edge of such #platform# until it again intersects the #shoreline#, stabilized natural shore, or bulkhead, at which point it shall resume following the #shoreline#, stabilized natural shore, or bulkhead.

The minimum depth set forth in the preceding table may be reduced at the following locations provided no #waterfront yard# is reduced to less than 10 feet:

1. Along those portions of the landward edge of stabilized shore, bulkhead, natural #shoreline# or along those portions of the water edge of a #platform#, having a lot dimension, measured perpendicular to and landward from such edge, that is less than 70 feet in the case of districts in Column A or 80 feet in the case of districts in Column B. For such shallow portions of lots, the minimum depth may be reduced by one foot for each foot that the lot dimension measured from such edge is less than 70 or 80 feet, as applicable.

2. Along those portions of the water edge of a #platform# having a dimension, measured perpendicular from such water edge to an opposite water edge that is less than 100 feet in the case of districts in Column A or 120 feet in the case of districts in Column B. For such narrow portions of #platforms#, the minimum depth along each opposite edge may be reduced by one-half foot for each foot that the #platform# dimension is less than 100 or 120 feet, as applicable.
Where a tidal wetland area is provided, the depth of the waterfront yard may be reduced by a foot for every foot of stabilized natural shore or intertidal planting area beyond the landward edge of the bulkhead, stabilized natural shore or shoreline up to seven feet. Such reduction in depth shall not extend along more than 30 percent of the shoreline of the waterfront zoning lot.

Waterfront Yard

WATERFRONT YARD
(62-332a.2)
(b) The level of the #waterfront yard#

The level of required #waterfront yards# shall not be higher than the elevation of the top of the adjoining existing bulkhead, existing stabilized natural shore or mean high water line, as applicable, except that natural grade level need not be disturbed in order to comply with this requirement.

The level of the portion of a #waterfront yard# on a #platform# shall not be more than three feet higher than the abutting level of the non-platformed portion of the #waterfront yard#, of which it is the continuation, except that the level of a #platform# existing on October 25, 1993 need not be altered in order to comply with this requirement.

[Note: Text moved from Section 64-82(a) and modified]

However, the level of the #waterfront yard# may be modified as follows:

(1) For #zoning lots# not required to provide #waterfront public access areas# pursuant to Section 62-52 (Applicability of Waterfront Public Access Area Requirements), the level of #waterfront yards# may be raised either to:

   (i) the #flood-resistant construction elevation# or six feet above #shoreline#, whichever is higher; or

   (ii) a higher elevation, provided that the #waterfront yard# complies with the applicable provisions of paragraph (b)(2) of this Section, depending on the condition of the shared #lot line#.

(2) For #zoning lots# with required #waterfront public access areas# pursuant to Section 62-52, the level of #waterfront yards# may be raised to a higher elevation, provided that such elevated #waterfront yard# complies with the following provisions, depending on the condition of the adjacent #zoning lot#:

   (i) where a #waterfront yard# adjoins a #street#, #public park#, or #waterfront public access area# on an adjacent #zoning lot#, the level of the #waterfront yard# within 15 feet of the shared #lot line# shall not exceed three feet above the level of the adjoining #street#, #public park# or #waterfront public access area#, and the width of the circulation path at the #lot line# is greater than that required by paragraph (a) of Section 62-62 (Design Requirements for Shore Public Walkways and Supplemental Public Access Areas). However, the elevation of the required circulation path shall be no higher than the grade of the adjacent #street#, #public park#, or #zoning lot# at the #lot line#.

   (ii) where a #waterfront yard# does not adjoin a #street#, #public park#, or #waterfront public access area# on an adjacent #zoning lot#, the level of the #waterfront yard# at the shared #lot line#, may exceed the level of the adjacent #zoning lot#:

      (a) up to a maximum of six feet above the #shoreline#: or
(b) to a level higher than six feet above the #shoreline#, where the Chairperson of the City Planning Commission certifies, pursuant to Section 62-811 (Waterfront public access and visual corridors) that:

1. the applicant has submitted a plan indicating the proposed level of the #waterfront yard# at the #lot line# of adjacent #zoning lots# and the level of such adjacent #zoning lots# adjacent to the #waterfront yard#; and

2. submitted proof of a legal commitment instrument, executed by the fee owner of any #zoning lot# that is adjacent to the subject #waterfront yard#, and binding upon all necessary parties in interest, that the owner will develop a #waterfront public access area# with a grade that meets that of the adjacent #zoning lots# based on the proposed level of the subject #waterfront yard# as reflected in the submitted plan. Such legal commitment instrument shall run with the land and shall be recorded against all affected parcels of land.

(c) Permitted obstructions

[Note: Modified text]

No #building or other structure# shall be erected above the lowest level of a #waterfront yard#. Permitted obstructions in #waterfront yards# in all districts shall include permitted obstructions as listed in Sections 23-44 (Permitted Obstructions in Required Yards or Rear Yard Equivalents) and 62-611, except that enclosed #accessory# off-street parking spaces and walls exceeding four feet in height shall not be permitted. Where any power systems, including, but not limited to, generators, solar energy systems, fuel cells, batteries and other energy storage systems, are located in a #front yard#, the entire width of the portion of such equipment facing a #street#, whether open or enclosed, shall be fully screened by vegetation.

In addition, the following #rear yard# obstructions shall not be permitted except when #accessory# to #single-# or #two-family residences# in #detached#, #semi-detached# or #zero lot line buildings#:

Balconies, unenclosed;
Greenhouses, non-commercial, #accessory#;
Parking spaces, off-street, open or enclosed, #accessory#;
Swimming pools, #accessory#;
Terraces or porches, open.

*     *     *

62-50
GENERAL REQUIREMENTS FOR VISUAL CORRIDORS AND WATERFRONT PUBLIC ACCESS AREAS

*     *     *

62-51
Applicability of Visual Corridor Requirements

*     *     *

62-512
Dimensions of visual corridors

The width of a #visual corridor# shall be determined by the width of the #street# of which it is the prolongation but in no event shall be less than 50 feet. #Visual corridors# that are not the prolongations of #streets# shall be at least 50 feet wide. For the purposes of establishing the width, vehicular turnarounds at the terminations of such #streets#, including curved or flanged treatments at intersections, shall be omitted.

The lowest level of a #visual corridor# shall be determined by establishing a plane connecting the two points along the #street lines# from which the #visual corridor# emanates at curb elevation with the two points where the prolonged #street lines# intersect the #shoreline#, stabilized natural shore, bulkhead or the #base plane# of a #pier# or #platform#, whichever intersection occurs first. Such plane shall then continue horizontally seaward from the line of intersection. #Visual corridors# that are not prolongations of mapped #streets# shall be determined by establishing a plane connecting the curb elevation at the two points along the #lot line# from which the #visual corridor# emanates with the two points of intersection at the #shoreline#, stabilized natural shore, bulkhead or the #base plane# of a #pier# or #platform#, whichever intersection occurs first.
The level of a visual corridor shall be determined by establishing a plane connecting the two points along the street lines from which the visual corridor emanates at an elevation five feet above curb elevation with the two points where the prolonged street lines intersect the shoreline, stabilized natural shore, bulkhead, or upland edge of a waterfront yard, or the base plane of a pier or platform, whichever intersection occurs first. Such plane shall then continue horizontally seaward from the line of intersection. Visual corridors that are not prolongations of mapped streets shall be determined by establishing a plane connecting an elevation five feet above curb elevation at the two points along the lot line from which the visual corridor emanates with the two points of intersection at the shoreline, stabilized natural shore, bulkhead, upland edge of a waterfront yard, or the base plane of a pier or platform, whichever intersection occurs first.

No obstructions are permitted within a visual corridor, except as set forth in Sections 62-513 and 62-60 (DESIGN REQUIREMENTS FOR WATERFRONT PUBLIC ACCESS AREAS), inclusive, when a visual corridor coincides with an upland connection.
LEVEL OF VISUAL CORRIDOR
(62—512)

* * *

62-53
Requirements for Shore Public Walkways

(a) All #waterfront zoning lots# meeting the criteria set forth in Section 62-52 (Applicability of Waterfront Public Access Area Requirements), or #floating structures#, shall provide a #shore public walkway#, which shall comply with the following requirements:

(1) Such #shore public walkway# shall have a seaward edge contiguous with the seaward edge of the #waterfront yard# as established in Section 62-332 (Rear yards and waterfront yards) with a minimum width measured from such edge as set forth in paragraph (a)(2) of this Section, or for #floating structures#, as set forth in Section 62-55, unless relocation or modification of width is permitted pursuant to this Section;

(2) Such #shore public walkway# shall have a minimum width of 30 feet for #zoning lots developed# with #predominantly community facility# or #commercial uses# in R3, R4, R5 and C3 Districts, and such #uses# in C1 and C2 Districts mapped within R1 through R5 Districts. The minimum width for a #shore public walkway# provided for a #zoning lot developed# with any #use# in all other districts, other than R1 and R2 Districts, shall be 40 feet.

(3) The minimum width of the #shore public walkway# set forth in paragraph (a)(2) of this Section may be reduced at the following locations provided no #shore public walkway# is reduced to less than 10 feet:

(i) on shallow portions of #zoning lots# that are less than 150 feet in depth, the minimum width of a #shore public walkway# may be reduced by one foot for every two feet that the lot dimension, measured from such edge, is less than 150 feet;

(ii) on narrow portions of #platforms# that are less than 150 feet in depth between the water edges located perpendicular to the landward edge of such #platform#, the minimum width of such #shore public walkway# along each
opposite edge may be reduced by one foot for every two feet that the #platform# dimension is less than 150 feet; 

(iii) on #zoning lots# where a #tidal wetland area# is provided, the width of the #shore public walkway# may be reduced by a foot for every foot of #tidal wetland area# along the seaward edge of the #waterfront yard# up to seven feet. Such reduction in depth shall not extend along more than 30 percent of the #shoreline# of the #waterfront zoning lot#.

* * *

62-60
DESIGN REQUIREMENTS FOR WATERFRONT PUBLIC ACCESS AREAS

#Waterfront public access areas# required pursuant to Section 62-52 (Applicability of Waterfront Public Access Area Requirements) shall comply with the provisions of this Section, inclusive.

62-61
General Provisions Applying to Waterfront Public Access Areas

(a) All #waterfront public access areas# shall be unobstructed from their lowest level to the sky, except as set forth in Section 62-611 (Permitted obstructions). The lowest level of any portion of a #waterfront public access area# shall be determined by the elevation of the adjoining portion on the same or an adjoining #zoning lot# or the public sidewalk to which it connects. Reference elevations shall be established from the public sidewalks, #waterfront yard# levels and the elevations previously established by adjoining #zoning lots# at #lot line# intersections of a waterfront public access network, as applicable.

(b) The minimum required circulation path shall be connected and continuous through all #waterfront public access areas# on adjacent #zoning lots#.

(c) #Waterfront public access areas# shall be accessible to persons with physical disabilities in accordance with the Americans with Disabilities Act and the American National Standards Institute (ANSI) design guidelines.

(d) All #waterfront public access areas# improved for public access shall meet the following regulations for site grading:

(1) In required circulation paths:
(i) for cross-sectional grading regulations (perpendicular to the general direction of pedestrian movement), the minimum slope of a required circulation path shall be one and one-half percent to allow for positive drainage and the maximum slope shall be three percent. Steps and stairways accommodating a cross-sectional grade change are only permitted outside of the required circulation path(s).

(ii) for longitudinal grading controls (parallel to the general direction of pedestrian movement), grade changes shall be permitted along the length of a required circulation path by means of steps or ramps in compliance with the requirements for handicapped accessibility.

(2) In required planting areas, including screening buffers:

Within five feet of the edge of any planting area, the grade level of such planting area shall be no more than 18 inches higher or lower than the adjoining level of the pedestrian circulation path.

* * *

62-611
Permitted obstructions

#Waterfront public access areas# shall be unobstructed from their lowest level to the sky except that the obstructions listed in this Section shall be permitted, as applicable. However, no obstructions of any kind shall be permitted within a required circulation path, except as specifically set forth herein.

(a) In all areas

* * *

(7) Structural landscaped berms and associated flood gates, including emergency egress systems that are assembled prior to a storm and removed thereafter, provided the height of such berm does not exceed the #flood-resistant construction elevation# required on the #zoning lot# or five feet above the lowest adjoining grade of the #waterfront yard# established pursuant to Section 62-332 (Rear yards and waterfront yards), whichever is higher;

(8) Temporary flood control devices and associated permanent fixtures, including
emergency egress systems that are assembled prior to a storm and removed thereafter. Permanent fixtures for self-standing flood control devices shall be flush-to-grade, and shall be permitted obstructions within a required circulation path.

* * *

62-62
Design Requirements for Shore Public Walkways and Supplemental Public Access Areas

The design requirements of this Section shall apply to #shore public walkways# and #supplemental public access areas#, except as modified by Section 62-57 (Requirements for Supplemental Public Access Areas).

* * *

(c) Planting

(1) Planting areas

An area equal to at least 50-35% of the area of the #shore public walkway# and #supplemental public access area# shall be planted, except that in R3, R4, R5, C1, C2 and C3 Districts, and in C1 or C2 Districts mapped within R1 through R5 Districts, for #zoning lots# occupied by #predominantly commercial# or #community facility uses#, such area shall be equal to at least 40 percent.

In addition, the following conditions shall apply:

(i) Where a #supplemental public access area# is greater than 1,875 square feet, at least 25-15% of the required planting area of the #shore public walkway# and #supplemental public access area#, combined, shall be provided as lawn;

(ii) Up to 15-30% of the required planting area may be located seaward of a #shore public walkway# provided as #tidal wetland area# and shall be measured in plan view and not along the planted slope; or

(iii) When a dedicated bicycle path is provided within a #supplemental public access area#, a planting area with a width of at least five feet shall be provided between the bicycle path and any paved area for pedestrian use. For the purpose of calculating planting requirements, the area of the bicycle
path may be deducted from the combined area of the #shore public walkway# or #supplemental public access area#.

Such planting areas in this paragraph, (c), may be located anywhere within the #shore public walkway# or #supplemental public access area# and shall comply with the standards of Section 62-655.

(2) Screening buffer

(i) A screening buffer shall be provided within the #shore public walkway# or the #supplemental public access area#, running along the entire upland boundary of such area where it abuts non-publicly accessible areas of the #zoning lot#, except as waived pursuant to paragraph (c)(2)(iii) of this Section. Any screening buffer provided pursuant to this Section may be used to meet the planting requirements of paragraph (c)(1) of this Section.

(ii) The minimum width of the screening buffer shall be 10 six feet. On shallow lots where the width of the #shore public walkway# may be reduced pursuant to Section 62-53, the width of the screening buffer may be reduced proportionally but shall not be less than four feet.

(iii) No screening buffer shall be required:

(a) adjacent to a private drive, a #street# or at the entrances to #buildings#; or

(b) for a #commercial# or #community facility use# within a distance of 15 feet from the sidewalk or #waterfront public access area#, that is glazed with windows, transoms or glazed portions of doors in accordance with the provisions of Section 37-34 (Minimum Transparency Requirements).

* * *

62-65
Public Access Design Reference Standards

* * *
62-655
Planting and trees

Within waterfront public access areas and parking areas where planting or screening is required, the design standards of this Section shall apply.

A detailed landscape plan prepared by a registered landscape architect shall be submitted to the Department of Parks and Recreation prior to seeking certification by the Chairperson of the City Planning Commission, pursuant to the requirements of Section 62-80. Such plans shall include plants suited for waterfront conditions and include a diversity of species with emphasis on native plants, salt tolerance species that are tolerant of salt, sediment, high seasonal water flow, and high winds, as applicable to the location and the facilitation of sustainable wildlife habitats, where appropriate. No species listed on quarantine or as a host species for any disease listed by the Department of Parks and Recreation at the time of application shall be included.

All landscaped areas shall contain a built-in irrigation system or contain hose bibs within 100 feet of all planting areas.

(a) Planting areas

Wherever a minimum percentage of planting area is specified for a waterfront public access area, such requirements shall be met only through the provisions of the types of planting areas listed in paragraphs (a)(1) through (a)(7)(8) of this Section. A curb with a maximum height of six inches is permitted along the perimeter of any planting area. Any edging higher than six inches above adjacent grade shall be considered a retaining wall. Retaining walls shall not exceed 60 percent of the perimeter of a planting area or a maximum height of 18 inches three feet, as measured from the level of the adjoining adjacent grade or planted area below such wall so that no more than three feet of such retaining wall is visible from the waterfront public access areas. At least one continuous length, equal to 40 percent of the planting area’s perimeter, shall have a grade level within six inches of the adjacent grade level. Where not specifically indicated, the minimum planting standard for required planting areas shall be turf grass, other natural grasses or groundcover. All planting areas shall be located on undisturbed subsoil or clean fill.

* * *

(3) Planting beds

Planting beds for turf grass or groundcovers shall have minimum dimensions of two feet in any direction and a minimum depth of two feet. Planting beds for shrubs shall have minimum dimensions of three feet by three feet for each shrub and a
minimum depth of 2 feet, 6 inches. Planting beds containing trees shall have a minimum dimension of five feet and a minimum area of 30 square feet for each tree, with a minimum depth of 3 feet, 6 inches. Trees, shrubs or groundcovers may be combined in a single planting bed only if such bed meets the minimum depth required for the largest plant.

Retaining walls are permitted along the perimeter of a planting bed in accordance with the regulations for planting areas in paragraph (a) of this Section.

(4) Raised planting beds - Terraced planting area

A "raised planting bed" is a planting area with retaining walls along more than 60 percent of its perimeter or a height along any portion greater than 18 inches. A raised planting bed shall comply with the dimensional standards for a planting bed except that the height from the adjacent grade to the top of the retaining wall of a raised planting bed shall be a maximum of 36 inches.

A “terraced planting area” is a planting area with two or more planting beds incorporating retaining walls on a slope with a grade change greater than or equal to three feet. A terraced planting area shall comply with the dimensional standards for a planting bed except that the average depth of the individual planting beds between the two retaining walls shall not be less than three feet, as measured perpendicular to the edge of the retaining wall. In addition, for retaining walls between two or more planting beds, their height may exceed three feet, provided that the front of such retaining walls is screened by plant material.

(5) Berms

A “berm” is a planting area with sloped grade stabilized primarily by plant materials rather than retaining walls or other similar built structures. A berm shall comply with the dimensional standards for a planting bed except that the height from the adjacent grade to the top of the berm shall not exceed 60 inches, the flood-resistant construction elevation on the zoning lot, or five feet above the lowest adjoining grade of the waterfront yard established pursuant to Section 62-332 (Rear yards and waterfront yards), whichever is higher.

* * *

(8) Tidal wetland area

A tidal wetland area may satisfy up to 30 percent of the required planting area for
62-80
SPECIAL REVIEW PROVISIONS

62-811
Waterfront public access and visual corridors

No excavation or building permit shall be issued for any #development# on a #waterfront block#, or any other #block# included within a Waterfront Access Plan, until the Chairperson of the City Planning Commission certifies to the Department of Buildings or Department of Business Services, as applicable, that:

(a) there is no #waterfront public access area# or #visual corridor# requirement for the #zoning lot# containing such #development# due to the following:

(1) the #development# is exempt pursuant to Sections 62-52 (Applicability of Waterfront Public Access Area Requirements) or 62-51 (Applicability of Visual Corridor Requirements); or

(2) the #waterfront public access area# or #visual corridor# requirement has been waived pursuant to Section 62-90 (WATERFRONT ACCESS PLANS);

(b) a site plan and all other applicable documents have been submitted showing compliance with the provisions of Sections 62-332 (Rear yards and waterfront yards), 62-50 (GENERAL REQUIREMENTS FOR VISUAL CORRIDORS AND WATERFRONT PUBLIC ACCESS AREAS), and 62-60 (DESIGN REQUIREMENTS FOR WATERFRONT PUBLIC ACCESS AREAS);
Chapter 4
Special Regulations Applying in Flood Hazard Areas - Flood Zones

64-00
GENERAL PURPOSES

The provisions of this Chapter establish special regulations which are designed to encourage flood-resilient building practices for new and existing buildings and in so doing to promote and protect public health, safety and general welfare. These general goals include, among others, the following purposes:

(a) to facilitate the development and alteration of buildings in flood zones consistent with the latest flood-resistant construction standards of the Federal government and the Appendix G of the New York City Building Code;

(b) to enable buildings to be constructed or retrofitted pursuant to flood-resistant construction standards with a comparable amount of usable interior space to what is generally permitted within the applicable zoning district;

(c) to allow sea level rise to be incorporated into the design of buildings in flood zones in order to provide longer-term and greater protection from flood risk than what is currently required by Appendix G of the New York City Building Code;

(e)(d) to mitigate the effects of elevated and flood-proofed buildings on the streetscape and pedestrian activity; and

(d) to expedite the recovery of neighborhoods that experienced a high concentration of damage to single- and two-family residences from Hurricane Sandy within the Neighborhood Recovery Areas specified in Appendix A of this Chapter; and

(e) to promote the most desirable use of land in accordance with a well-considered plan and thus conserve and enhance the value of land and buildings, and thereby protect the City’s tax revenues.

64-10
GENERAL PROVISIONS

[Note: Existing text to be deleted]
The provisions of this Chapter shall be in effect until one year after the adoption by the City of New York of new final Flood Insurance Rate Maps superseding the Flood Insurance Rate Maps in effect on October 28, 2012.

64-11 Definitions

Definitions specifically applicable to this Chapter are set forth in this Section and may modify definitions set forth in Section 12-10 (DEFINITIONS). Where matter in italics is defined both in Section 12-10 and in this Chapter, the definitions in this Chapter shall govern.

Basement

[Note: Existing text to be deleted]

For #buildings#, or portions thereof, that comply with #flood-resistant construction standards#, a "basement" is a #story# (or portion of a #story#) partly below #flood-resistant construction elevation#, with at least one half of its height (measured from floor to ceiling) above #flood-resistant construction elevation#.

Cellar

[Note: Existing text to be deleted]

For #buildings#, or portions thereof, that comply with #flood-resistant construction standards#, a #cellar# is a space wholly or partly below the #flood-resistant construction elevation#, with more than one half its height (measured from floor to ceiling) below the #flood-resistant construction elevation#.

Cottage envelope building

A “cottage envelope building” is a #single-# or #two-family detached residence# located within R1 through R5 Districts, #developed#, #enlarged#, or altered, pursuant to any of the optional provisions of Section 64-33 (Special Regulations for Cottage Envelope Buildings), provided that:

(a) such #single-# or #two-family detached residence# complies with Section 64-333 (Height and setback regulations for cottage envelope buildings); and
(b) is located within a zoning lot that has a lot area that is less than that required by the applicable district; and

(1) has a lot width that is either:

(i) less than that required under the provisions of Section 23-32 (Minimum Lot Area or Lot Width for Residences) in R1, R2, R3-1, R3-2, R3X, R4, R4A, R5, and R5A Districts; or

(ii) equal to or less than 30 feet in R3A, R4-1, R4B, R5B, and R5D Districts; or

(2) has a depth of less than 95 feet at any point.

All cottage envelope buildings shall also be flood-resistant buildings.

First story above the flood elevation

[Note: Text substituted “Lowest occupiable floor”]

The “first story above the flood elevation” shall be the finished floor level of the first story located at or above the level to at which a building complies with flood-resistant construction standards and, for buildings utilizing the reference plane, shall be no lower than the particular level established as the reference plane.

Flood map

[Note: Text moved from Section 12-10 and modified]

“Flood map” shall be the most recent map or map data used as the basis for flood-resistant construction standards.

Flood-resistant building

A “flood-resistant building” is a building or other structure, which complies with all applicable flood-resistant construction standards.
Flood-resistant construction elevation

The "flood-resistant construction elevation" is the greater of:

(a) the “design flood elevation” determined pursuant to Appendix G of the New York City Building Code for a building’s structural occupancy category; or

(b) the base flood elevation indicated on the #flood maps#, plus the additional elevation required above base flood elevation for the applicable occupancy category when determining the Design Flood Elevation pursuant to Appendix G of the Building Code.

The “flood-resistant construction elevation” shall be the level of flood elevation required by Appendix G of the New York City Building Code for the “Flood design classification” of a #building or other structure# as set forth therein, or a height of two feet above the lowest grade adjacent to the #building or other structure#, whichever is higher.

Flood-resistant construction standards

“Flood-resistant construction standards” shall:

(a) comply with the standards of Appendix G of the Building Code for “Post-FIRM Construction,” whether construction voluntarily complies with standards for “Post-FIRM Construction” or is required to comply; and

(b) utilize the higher base flood elevation and the more stringent flood hazard area designation, as applicable, of the #flood maps# or the Flood Insurance Rate Maps in effect on October 28, 2012.

“Flood-resistant construction standards” are the construction standards set forth in Appendix G of the New York City Building Code for “Post-FIRM Construction” that aid in protecting #buildings or other structures# in #flood zones# from flood damage, and governs both #building or other structures# that are required to comply with such standards and those that voluntarily comply. For #buildings or other structures# utilizing the provisions of this Chapter, #flood-resistant construction standards# shall be applied up to the #flood-resistant construction elevation# or higher.

High-risk flood zone
The “high-risk flood zone” is the area, as indicated on the flood maps, that has a one percent chance of flooding in a given year.

Hurricane Sandy

“Hurricane Sandy,” a severe storm that occurred on October 28, 2012, causing heavy flooding, power outages, property damage, and disruption of public transportation and other vital services.

Lowest occupiable floor

[Note: Existing text is deleted and substituted by “First story above the flood elevation”]

The “lowest occupiable floor” shall be the finished floor level of the lowest floor that is not used solely for parking, storage, building access or crawl space, where any space below such lowest occupiable floor is wet flood-proofed in accordance with flood-resistant construction standards and used only for parking, storage or building access, or otherwise is not occupiable space.

Lowest usable floor

The “lowest usable floor” of a building is the lowest floor of such building that contains floor area, and may include basements and cellars, as defined in Section 12-10 (DEFINITIONS).

Moderate-risk flood zone

The “moderate-risk flood zone” is the area, as indicated on the flood maps, and not within of the high-risk flood zone, that has a 0.2 percent chance of flooding in a given year.

Predominant or predominantly

[Note: Existing text to be deleted]

"Predominant" or "predominantly" shall mean that a use or a group of uses comprises at least 75 percent of the total floor area of the building or of the area of the zoning lot, as applicable.
Primary street frontage

For the purposes of applying the provisions of Section 64-322(c), a “primary street frontage” shall include:

(a) in #Commercial Districts#, frontages that meet the criteria for a “primary street frontage” as defined in Section 37-311;

(b) in M1 Districts paired with #Residence Districts#, frontages along:
   (1) #wide streets#;
   (2) #narrow streets# within 50 feet of a #wide street#; and
   (3) #narrow streets# where an M1 District paired with a #Residence District# is mapped along an entire #block# frontage; and

(c) frontages where non-#residential uses# are required at the #ground-floor level# pursuant to a Special Purpose District or #waterfront public access area#.

Reference plane

The “reference plane” is a horizontal plane from which the height and setback regulations governing a #building or other structure# may be measured, in accordance with certain provisions of this Chapter. The #reference plane# shall not be located above at or below the #first story above flood elevation#, as applicable.

For #zoning lots# located wholly or partially within the #high-risk flood zone#, the #reference plane# may be established at any level between the #flood-resistant construction elevation# and a height of 10 feet above the #base plane# or #curb level#, as applicable. However, where the #flood-resistant construction elevation# exceeds a height of 10 feet above the #base plane# or #curb level#, as applicable, the #reference plane# may be established at the #flood-resistant construction elevation#.

For #zoning lots# located wholly or partially within the #moderate-risk flood zone#, the #reference plane# may be established at any level between the #flood-resistant construction elevation# and a height of five feet above the #base plane# or #curb level#, as applicable.
64-12
Applicability

The optional provisions of this Chapter shall apply only to #zoning lots# located wholly or partially within the #flood zones#, as follows:

[Note: Existing text in this Section is re-written below]

(a) Except where otherwise stated, all #buildings#, or portions thereof, shall comply with #flood-resistant construction standards# as a condition of construction pursuant to the following optional provisions, as applicable, inclusive:

Section 64-10  GENERAL PROVISIONS
Section 64-20  SPECIAL USE REGULATIONS
Section 64-30  SPECIAL BULK REGULATIONS
Section 64-40  SPECIAL BULK REGULATIONS FOR BUILDINGS EXISTING ON OCTOBER 28, 2012
Section 64-50  SPECIAL PARKING REGULATIONS
Section 64-70  SPECIAL REGULATIONS FOR NON-CONFORMING USES AND NON-COMPLYING BUILDINGS
Section 64-80  MODIFICATION OF SPECIAL REGULATIONS APPLICABLE IN WATERFRONT AREAS
Section 64-90  SPECIAL APPROVALS

(b) The provisions of Section 64-60 (DESIGN REQUIREMENTS) shall apply to all #developments#, all horizontal #enlargements# with new #street walls#, or alterations that increase the height of #street walls#, except that Section 64-65 (Screening Requirements for Parking Within or Below Buildings) shall apply to all #buildings# as provided therein.

(c) Where a #zoning lot# is located partially within a #flood zone#, the regulations of this Chapter shall apply where any portion of a #building# on such #zoning lot# is within such #flood zone#.
(d) In Neighborhood Recovery Areas, shown on maps in Section 64-A80 (NEIGHBORHOOD RECOVERY AREA MAPS) of this Chapter, optional provisions to expedite the vertical elevation or reconstruction of #single # or #two-family residences# shall apply. These provisions are set forth in Appendix A and shall supplement, supersede or modify the provisions of this Chapter. The maps are hereby incorporated and made part of this Resolution, for the purpose of specifying locations where special regulations and requirements set forth in the text of this Chapter may apply.

(a) For all #zoning lots# in the #flood zone#

The provisions of Sections 64-21 (Special Use Regulations for All Buildings), 64-31 (Special Bulk Regulations for All Buildings) and 64-41 (Special Parking Regulations for All Buildings), inclusive, may be applied to all #zoning lots#, regardless of whether #buildings or other structures# on such #zoning lots# comply with #flood-resistant construction standards#.

(b) For #zoning lots# containing #flood-resistant buildings#

The provisions of Sections 64-22 (Special Use Regulations for Flood-resistant Buildings), 64-32 (Special Bulk Regulations for Flood-resistant Buildings), 64-42 (Special Parking Regulations for Flood-resistant Buildings), and 64-60 (SPECIAL REGULATIONS FOR NON-CONFORMING USES AND NON-COMPLYING BUILDINGS), inclusive, may be applied only to #zoning lots# containing #flood-resistant buildings#, including #cottage envelope buildings#, as applicable, and Section 64-33 (Special Bulk Regulations for Cottage Envelope Buildings) may additionally be applied exclusively to #zoning lots# containing #cottage envelope buildings#. Where such provisions are utilized, the provisions of Section 64-50 (STREETSCAPE REGULATIONS), inclusive, shall apply.

(c) For portions of #buildings#

The following provisions may be applied to portions of #buildings# as follows:

(1) the provisions of Section 64-311 (Special floor area modifications for all buildings) and 64-313 (Special height and setback regulations for all buildings) may be applied to portions of #buildings# regardless of whether such portions comply with #flood-resistant construction standards#;

(2) the provisions of Section 64-32 (Special Bulk Regulations for Flood-resistant Buildings), inclusive, may be applied to portions of #buildings#, provided that such portions comply with #flood-resistant construction standards# for the entirety of its vertically contiguous segments. Where such provisions are utilized within portions
of #buildings#, the provisions of Section 64-50 (STREETSCAPE REGULATIONS), inclusive, shall apply.

64-13
Applicability of District Regulations

The regulations of all other Chapters of this Resolution are applicable, except as superseded, supplemented or modified by the provisions of this Chapter. In the event of a conflict between the provisions of this Chapter and other regulations of this Resolution, the provisions of this Chapter shall control.

64-131
Measurement of height

[Note: Existing text to be deleted and replaced by Sections 64-221 and 64-321]

All measurements of height above #curb level#, #base plane#, #base flood elevation#, grade, or other similar ground related datum, shall be from the #flood-resistant construction elevation#. This provision shall not apply to #buildings# that are #accessory# to #single# or #two-family residences#, or to fences, #signs# not affixed to #buildings#, or other structures that are not #buildings#.

In R3, R4A and R4-I Districts within #lower density growth management areas#, the maximum perimeter wall height shall be 21 feet above the #flood-resistant construction elevation# or 26 feet above grade, whichever is greater.

Where different #flood-resistant construction elevations# apply to different portions of a #building#, the highest of such #flood-resistant construction elevations# may apply to the entire #building#.

For #buildings# located partially within and partially outside of the #flood zone#, all measurements of height shall be in accordance with only one of the following provisions:

(a) the #flood-resistant construction elevation# shall apply to the entire #building#;

(b) the height of the portion of the #building# within the #flood zone# shall be measured from the #flood-resistant construction elevation#, and the height of the portion of the #building# outside of the #flood zone# shall be measured from an elevation determined in accordance
with the underlying applicable regulations; or

(c) the elevation of each such portion of the building from where height is measured shall be multiplied by the percentage of the total lot coverage of the building to which such elevation applies. The sum of the products thus obtained shall be the elevation from which the height of the entire building is measured.

64-20
SPECIAL USE REGULATIONS

The provisions of this Section, inclusive, are optional, and may be applied are only applicable to all zoning lots located wholly or partially within flood zones.

The provisions of Section 64-21 (Special Use Regulations for All Buildings), inclusive, may be applied to all zoning lots regardless of whether buildings or other structures on such zoning lots comply with flood-resistant construction standards.

The provisions of Section 64-22 (Special Use Regulations for Flood-resistant Buildings), inclusive, may be applied to zoning lots containing flood-resistant buildings, including cottage envelope buildings.

64-21
Ground Floor Use
Special Use Regulations for All Buildings

[Note: Existing text moved to Section 64-222 and modified]

(a) In all districts, where compliance with the elevation and wet flood-proofing requirements of Appendix G of the New York City Building Code would result in a lowest occupiable floor that is above a level required by the Zoning Resolution without the relief provided by this Section, such requirements shall be modified so that the level of such ground floor shall be the lowest level permitted for uses other than parking, storage and building access as if it were “Post-FIRM Construction,” as defined by Appendix G of the Building Code, using elevation and wet flood-proofing techniques.

(b) In C1, C2 and C4 Districts in the Borough of Staten Island, where flood-resistant construction elevation is more than 10 feet above curb level, the provisions of Section 32-433 (Ground floor use in C1, C2 and C4 Districts in the Borough of Staten Island) shall be modified to allow enclosed parking spaces, or parking spaces covered by a building.
including such spaces accessory to residences, on the ground floor within 30 feet of the street wall of the building, provided that the standards of Section 64-641 (Transparency requirements) are met.

The provisions of this Section, inclusive, are optional, and are only applicable to zoning lots located wholly or partially within flood zones. The provisions of this Section, inclusive, are optional and may be applied to all zoning lots regardless of whether buildings or other structures on such zoning lots comply with flood-resistant construction standards. For such zoning lots, the underlying use regulations shall apply, except where permitted to be modified by the allowances of this Section, inclusive.

64-211
Limitation on floors occupied by commercial uses
C1 C2

For the purposes of this Section, in the districts indicated, the provisions of Section 32-421 (Limitation on floors occupied by commercial uses) may be modified to allow commercial uses listed in Use Group 6, 7, 8, 9 or 14 to occupy the lowest two stories of a mixed building, provided that such mixed building contains no basement or cellar. In addition, such uses listed in Use Group 6, 7, 8, 9 or 14 may occupy the same story occupied in whole or in part by dwelling units, provided that the uses are located in a portion of the mixed building that has a separate access to the street with no direct access to the residential portion of the building at any story.

64-22
Transparency Requirements
Special Use Regulations for Flood-resistant Buildings

[Note: Existing text to be deleted]

In all districts, as an alternative to street wall transparency regulations, the following optional provisions may apply, except where buildings are governed by the provisions of Section 64-64 (Design Requirements for Non-residential and Mixed Buildings in Commercial and Manufacturing Districts).

Street walls shall be glazed with transparent materials which may include show windows, transom windows or glazed portions of doors. Such transparent glazing materials shall occupy at least 50 percent of the surface area of such street wall, measured between the level of the first
finished floor above #curb level# and a height 12 feet above such level.

The provisions of this Section, inclusive, are optional, and are only applicable to #zoning lots# located wholly or partially within #flood zones#. The provisions of this Section, inclusive, are optional and may be applied to #zoning lots# containing #flood-resistant buildings#, including #cottage envelope buildings#. For such #zoning lots#, the underlying #use# regulations shall apply, except where permitted to be modified by the allowances of this Section, inclusive.

64-221 Measurement of height

In all districts, as an alternative to measuring heights from #base plane#, #curb level#, or other applicable datum, all height measurements in #flood zones#, including the number of #stories# permitted, as applicable, may be measured from the #reference plane#. However, this provision shall not apply to #signs# not affixed to #buildings or other structures#.

64-222 Ground floor use

[Note: Text moved from Section 64-21 and modified]

In all districts, any applicable ground floor level requirements of this Resolution including, but not limited to, the location of such ground floor in relation to the adjoining sidewalk level, the height of a #qualifying ground floor#, restrictions of types of #use#, the minimum depth for certain #uses#, maximum width for certain #uses#, minimum transparency requirement, and parking wrap and screening requirements, may be modified as follows:

(a) In locations of the #flood zone# where #flood-resistant construction standards# prohibit dry-flood-proofing, thereby limiting #uses# other than parking, storage and building access from being located below the #flood-resistant construction elevation#, such ground floor level requirements need not apply.

(b) In all other locations of the #flood zone#, all regulations of this Resolution restricting the location of a ground floor in relation to the adjoining sidewalk level need not apply, provided that all other ground floor level regulations are shall be applied to the lowest #story# above grade that is not solely used for parking, storage or building access, and further provided that the finished floor level of such #story# is shall be located either at or below the level of the #flood-resistant construction elevation# or five feet above #curb level#, whichever is higher. All associated transparency requirements may be measured
from such level of the finished floor instead of the level of the adjoining sidewalk.

64-30
SPECIAL BULK REGULATIONS

The provisions of this Section, inclusive, are optional, and may be applied are only applicable to all zoning lots located wholly or partially within flood zones.

The provisions of Section 64-31 (Special Bulk Regulations for All Buildings), inclusive, may be applied to all zoning lots regardless of whether buildings or other structures on such zoning lots comply with flood-resistant construction standards.

The provisions of Section 64-32 (Special Bulk Regulations for Flood-resistant Buildings), inclusive, may be applied to zoning lots containing flood-resistant buildings, including cottage envelope buildings.

The provisions of Section 64-33 (Special Bulk Regulations for Cottage Envelope Buildings), inclusive, may be applied to zoning lots with cottage envelope buildings.

64-31
Special Floor Area Regulations

Special Bulk Regulations for All Buildings

The provisions of this Section, inclusive, are optional, and are only applicable to zoning lots located wholly or partially within flood zones. The provisions of this Section, inclusive, are optional, and may be applied to all zoning lots regardless of whether buildings or other structures on such zoning lots comply with flood-resistant construction standards. For such zoning lots, the underlying bulk regulations shall apply, except where permitted to be modified by the allowances of this Section, inclusive.

64-311
Entryways in single- and two-family residences

Special floor area modifications for all buildings

[Note: Existing text is deleted and substituted by Section 64-322 (c)]

For single # and two family residences# with enclosed entryways below flood resistant construction elevation#, up to 10 square feet of such entryway may be excluded from the definition
of #floor area# for each foot of difference between the #lowest occupiable floor# and #curb level#. This area may be excluded from the definition of #floor area# provided it is not greater than the total area of ramps, stairs, lifts and elevators between grade and the first finished floor, plus an initial entry area of no more than 12 square feet.

For all #buildings#, the definition of #floor area# in Section 12-10 (DEFINITIONS) shall be modified in accordance with the provisions of this Section.

(a) Mechanical equipment

[Note: Existing text moved from Section 64-313]

In R1-2A, R2A, R2X, R3, R4 or R5 Districts, the limitations on exempting #floor area# for mechanical equipment set forth in paragraphs (m) and (8) in the definition of #floor area# in Section 12-10 (DEFINITIONS), shall not apply, provided that all mechanical equipment is located at or above the #flood-resistant construction elevation#.

(b) Flood control devices

In all districts, for every linear foot of protection by temporary flood control devices and associated fixtures, including emergency egress systems that are assembled prior to a storm and removed thereafter, up to 15 square feet of floor space used for the storage of such devices may be excluded from the definition of #floor area#, provided that in no event shall such exempted floor space exceed 1,000 square feet.

(c) Buildings containing non-residential uses

In #Commercial# and #Manufacturing Districts#, where the permitted #commercial# or #manufacturing floor area ratio# does not exceed 1.0 or less, up to 500 square feet of floor space may be excluded from the definition of #floor area#, provided that:

(1) the #building# is used exclusively for #non-residential uses#; and

(2) such floor space is located at or above the #flood-resistant construction elevation#.

64-312

Entryways in all other buildings

Permitted obstructions in required yards, courts, and open spaces for all zoning lots

[Note: Existing text moved to Section 64-322(a) and modified]
For all #buildings# other than #single # and #two-family residences#, with enclosed publicly accessible entryways below #flood-resistant construction elevation#, up to 100 square feet of such entryways may be excluded from the definition of #floor area# for each foot of difference between the #lowest occupiable floor# and #curb level#. This area may be excluded from the definition of #floor area# provided it is not greater than the total area at each publicly accessible entryway of ramps, stairs, lifts and elevators plus an initial entry area of no more than 100 square feet for each entryway.

The regulations for permitted obstructions in #yards#, #courts# and #open space# shall be modified in accordance with the provisions of this Section.

(a) Mechanical equipment

[Note: Text moved from Section 64-421 and modified]

In all districts, the underlying allowances for #accessory# power systems as permitted obstructions in any #open space#, #yard#, #rear yard equivalent#, or #court#, may be expanded to include all #accessory# mechanical equipment, provided that:

(1) all equipment shall be subject to the following enclosure and screening requirements, as applicable:

   (i) all power system equipment shall be enclosed within a #building or other structure#, or screened, as applicable, pursuant to the requirements set forth in the applicable underlying district allowances;

   (ii) all other types of equipment, including all mechanical, electrical and plumbing equipment, shall be completely enclosed within a #building or other structure#, except as necessary for mechanical ventilation; and

(2) the size and location of all #accessory# mechanical equipment, including all screening and enclosures containing such equipment, shall not exceed the size limitations specified in the underlying allowances, except that, where such equipment is elevated above the #flood-resistant construction elevation#, the permitted size and location of such #accessory# mechanical equipment may be modified as follows:

   (i) where any equipment is required to be located at least five feet from any #lot line#, such distance may be reduced to three feet for #zoning lots# that have less than the prescribed minimum #lot area# or #lot width# required by the
applicable district regulations;

(ii) the maximum height of such permitted obstructions for the applicable district:

(a) may be measured from the reference plane instead of the level of the adjoining grade or curb level, as applicable; or

(b) for zoning lots containing residences and a lot area greater than or equal to one and one-half acres, may exceed the applicable height limitations, provided that:

(1) such equipment is contained within a building or other structure that is located at least 30 feet from any legally required window;

(2) any stack associated with heating, ventilation, and air conditioning (HVAC) systems exhausts at a height at least as tall as the tallest building containing residences on the zoning lot; and

(3) such building or other structure complies with one point of the streetscape mitigations set forth in Section 64-52 (Ground floor level mitigation options); and

(iii) the maximum area that such equipment may occupy within a required side yard, rear yard or rear yard equivalent, or any court containing legally required windows need not apply where the height of such obstructions do not exceed the applicable underlying height allowances, as modified by the provisions of paragraph (a)(2)(ii)(a) of this Section.

(b) Berms

In all districts, structural landscaped berms and associated flood gates, including emergency egress systems that are assembled prior to a storm and removed thereafter, shall be permitted obstructions in any required open space, yard or rear yard equivalent on the zoning lot, provided that the height of such berm does not exceed the highest flood-resistant construction elevation required on the zoning lot, or five feet above the lowest adjoining grade, whichever is higher.

(c) Flood control devices
[Note: Text moved from Section 64-323 and modified]

In all districts, temporary flood control devices and associated permanent fixtures, including emergency egress systems that are assembled prior to a storm and removed thereafter shall be permitted obstructions in #yards# and #rear yard equivalents#, #courts#, #open spaces#, #public plazas#, #arcades#, pedestrian circulation spaces and all other publicly accessible open spaces. However, permanent fixtures for self-standing flood control devices installed in #publicly accessible open areas#, #arcades#, and pedestrian circulation spaces shall be flush-to-grade.

(d) Steps

In all #Residence Districts#, the provisions of paragraph (a)(17) of Section 23-44 (Permitted Obstructions in Required Yards or Rear Yard Equivalents) shall be modified to allow steps within a required #yard# or #rear yard equivalent#, provided that such steps access any #story# located at or below the #first story above the flood elevation#.

64-313
Mechanical systems in low-density districts
Special height and setback regulations for all buildings

[Note: Existing text to be deleted and substituted by Section 64-311(a)]

Floor space used for #accessory# mechanical equipment in R1-2A, R2A, R2X, R3, R4 or R5 Districts may be excluded from the definition of #floor area# without the limitations provided in the definition of #floor area#, paragraphs (m) and (8) in Section 12-10 (DEFINITIONS).

[Note: Text moved from Section 64-331 and modified]

The regulations for permitted obstructions to applicable height and setback regulations shall be modified in accordance with the provisions of this Section.

(a) Bulkheads and mechanical equipment in low-density #Residence Districts#

In R3-2, R4, and R5 Districts, except R4-1, R4A, R4B and R5A Districts, for #buildings# other than #single-# and #two-family residences#, the underlying permitted obstructions regulations governing elevator or stair bulkheads (including shafts, and vestibules not larger than 60 square feet in area providing access to a roof), roof water tanks, and
#accessory# mechanical equipment, other than solar or wind energy systems, may be modified as follows:

(1) In R3-2 and R4 Districts, for #buildings#, or portions thereof, subject to the provisions of Article II, Chapter 3, the provisions of Section 23-621 (Permitted obstructions in certain districts) shall be modified to permit such obstructions, provided that:

(i) such obstructions shall be located not less than 10 feet from the #street wall# of a #building#;

(ii) all mechanical equipment shall be screened on all sides;

(iii) the #lot coverage# of all such obstructions and such screening shall not exceed 250 square feet or 10 percent of the #lot coverage# of the #building#, whichever is greater; and

(iv) such obstructions are limited to a height of 15 feet above the maximum height of perimeter walls;

(2) In R3-2 and R4 Districts, for #buildings#, or portions thereof, subject to the provisions of Article II, Chapter 4, the provisions of paragraph (f) of Section 24-51 (Permitted Obstructions) shall apply, except that the maximum #lot coverage# may be increased from 20 percent to 30 percent of the #lot coverage# of the #building#, provided that such obstructions are limited to a maximum height of 25 feet;

(3) In R5 Districts, the provisions of paragraph (g) of Section 23-62 (Permitted Obstructions), and paragraph (f) of Section 24-51 shall apply, as applicable, except that the maximum #lot coverage# may be increased from 20 percent to 30 percent of the #lot coverage# of the #building#, provided that such obstructions are limited to a maximum height of 25 feet.

(b) Bulkheads and mechanical equipment in medium- and high-density #Residence Districts#, #Commercial# and #Manufacturing Districts#

[Note: Text moved from Section 64-332 and modified]
larger than 60 square feet in area providing access to a roof), roof water tanks, and accessory mechanical equipment, other than solar or wind energy systems, may be modified as follows:

(1) where the maximum permitted height of a building, or portion thereof is less than 120 feet:

(i) the maximum lot coverage may be increased from 20 percent to 30 percent of the lot coverage of the building, provided that such obstructions are limited to a maximum height of 25 feet; or

(ii) the maximum permitted height of such volume may be increased from 25 feet to 33 feet, provided that the lot coverage of all such obstructions does not exceed 20 percent of the lot coverage of the building;

(2) where the maximum permitted height of a building, or portion thereof is 120 feet or greater:

(i) the maximum lot coverage may be increased from 20 percent to a maximum lot coverage of 30 percent of the lot coverage of the building, provided that such obstructions are limited to a maximum height of 40 feet; or

(ii) the maximum permitted height of such volume may be increased from 40 feet to 55 feet, provided that the lot coverage of all such obstructions does not exceed 20 percent of the lot coverage of the building.

(c) Dormers

For Quality Housing buildings, or portions thereof, as an alternative to the provisions of paragraph (c) of Section 23-621, dormers may be a permitted obstruction within a required front setback distance above a maximum base height, provided that the aggregate width of all dormers at the maximum base height does not exceed 40 percent of the width of the street wall of the highest story entirely below the maximum base height. Such dormers need not decrease in width as the height above the maximum base height increases.

64-32
Special Yard Regulations
Special Bulk Regulations for Flood-resistant Buildings
The provisions of this Section shall apply without requiring a #building# to comply with #flood-resistant construction standards# as established in paragraph (a) of Section 64-12 (Applicability).

The provisions of this Section, inclusive, are optional, and are only applicable to #zoning lots# located wholly or partially within #flood zones#. The provisions of this Section, inclusive, are optional, and may apply to #zoning lots# containing #flood-resistant buildings#, including #cottage envelope buildings#. For such #zoning lots#, the underlying #bulk# regulations shall apply, except where permitted to be modified by the allowances of this Section, inclusive.

64-321
Level of required yards
Measurement of height for flood-resistant buildings

Underlying #yard# regulations shall be modified to allow #yards# to be higher than #curb level# but in no event higher than #flood resistant construction elevation#. In addition, the following regulations shall apply:

(a) in #Residence Districts# and C1 through C6 Districts, #yards# higher than #curb level# shall comply with the following standards:

(1) final grade shall not penetrate a plane that begins 30 inches above #curb level# at each #lot line# and has a slope extending perpendicular to #lot lines# of one foot vertical for each 2.5 feet horizontal;

(2) retaining walls shall be permitted above #curb level# in #yards# provided the maximum height of each wall above adjacent grade does not exceed 30 inches; and

(3) in #front yards# in Residence Districts, portions of fences greater than four feet above #curb level# shall be required to be no more than 50 percent opaque; and

(b) in C7 and C8 Districts and in #Manufacturing Districts#, #yards# shall be permitted to a maximum grade equal to #flood-resistant construction elevation#. However, for portions of #zoning lots# where Sections 33-29 and 43-30 (SPECIAL PROVISIONS APPLYING ALONG DISTRICT BOUNDARIES) apply, #yards# are permitted above #curb level# only pursuant to paragraph (a) of this Section.
Nothing in this Section shall be construed so as to permit the creation of spaces sub-grade on all sides in a manner inconsistent with Appendix G of the Building Code.

[Note: Text to replace Sections 64-131, 64-334, 64-335 and 64-336]

In all districts, as an alternative to measuring heights from #base plane#, #curb level#, or other applicable datum, all height measurements in #flood zones#, including the number of #stories# permitted, as applicable, may be measured from the #reference plane#, except as follows:

(a) for #Quality Housing Buildings#, any minimum base height requirements shall continue to be measured from the #base plane#; and

(b) the provisions of this Section shall not apply:

   (1) to fences or other structures that are not #buildings#; and

   (2) to #buildings# that are #accessory# to #single-# or #two-family residences#, except when mechanical equipment is located within such #building#.

Illustrative Examples

The following examples, although not part of the Zoning Resolution, are included to demonstrate the application of the optional height regulations available to #zoning lots# in #flood zones#. Specially, the examples illustrate how the defined terms #reference plane#, from which height is measured, relates to the #flood-resistant construction elevation# and the #first story above the flood elevation#. All terms are defined in Section 64-11 (Definitions).

EXAMPLE 1
A #zoning lot# located within the #high-risk flood zone# has a #flood-resistant construction elevation# (as defined in Section 64-11) that equates to being located six feet above grade (for illustrative purposes). The owner of a #single-family detached residence# would like to elevate the first habitable floor three feet above the #flood-resistant construction elevation# and wet-floodproof the ground floor up to that same level (nine feet above grade) to account for sea level rise projections.

Pursuant to Section 64-321, height measurements in #flood zones#, including height and setback regulations, may start from the #reference plane#, allowing the owner the necessary flexibility to address long-term climate change. For #zoning lots# located within the #high-risk flood zone#, the #reference plane#, may be established at any level between the #flood-resistant construction elevation# and a height of 10 feet above the #base plane# or #curb level#, as applicable. (Where the #flood-resistant construction elevation# exceeds 10 feet, the #reference plane# may still be established at the #flood-resistant construction elevation#, but that is not the case here.) While there is a level of flexibility built into the #reference plane# definition, the #reference plane# itself must also be located at or below the #first story above flood elevation#.

Considering the owner of such #single-family detached residence# is proposing to wet-floodproof the ground floor up to nine feet above grade, the #first story above flood elevation# becomes the finished floor level of the first #story# located at or
above nine feet, which is, in this case, the second #story#. Therefore, the #reference plane# was able to be situated at that same level (nine feet above grade), but not higher.

EXAMPLE 2

A #zoning lot# located within the #moderate-risk flood zone# has a #flood-resistant construction elevation# (as defined in Section 64-11) of two feet above the lowest grade adjacent to the #building or other structure#. The owner of a #mixed building# that was flooded during Hurricane Sandy, would like to proactively comply with #flood-resistant construction standards# to be better prepared in the event of a future storm. To realize that, the owner decided to elevate the ground floor with a #commercial use# to the #flood-resistant construction elevation#, and dry-floodproof one foot above that for extra safety.

Pursuant to Section 64-321, height measurements in #flood zones#, including height and setback regulations, may start from the #reference plane#, allowing the owner the necessary flexibility to address long-term climate change. For #zoning lots# located within the #moderate-risk flood zone#, the #reference plane# may be established at any level between the #flood-resistant construction elevation# and a height of five feet above the #base plane# or #curb level#, as applicable. While
there is a level of flexibility built within the #reference plane# definition, the #reference plane# must also be located at or below the #first story above flood elevation#.

Considering that the owner of such #mixed building# is proposing to elevate and dry-floodproof the ground floor up to three feet above grade, the #first story above flood elevation# becomes the finished floor level of the first #story# located at or above three feet, which is, in this case, the second #story#. Therefore, the #reference plane# was able to be situated at five feet above the #base plane# or #curb level#, as applicable.

64-322
Permitted obstructions in required yards, courts and open spaces
Special floor area modifications for flood-resistant buildings

[Note: Existing paragraph (a) is modified in paragraph (b) of Section 64-323]
[Note: Existing paragraph (b) is substituted by Sections 23-12(j), and 23-44(a)(16)]
[Note: Existing paragraph (c) moved to Section 64-312(a) and modified]

(a) For #single # and #two-family residences#, where #flood-resistant construction elevation# is five feet or more above #curb level#, roofed porches shall be permitted obstructions in any #open space# required on the #zoning lot# and in #yards#. Balconies for such #residences# may exceed the width and depth standards of Section 23-13 where such balconies are located directly above a porch.

(b) For #single # and #two-family residences#, lifts for persons with disabilities shall be permitted obstructions in any #open space# required on the #zoning lot# and in #courts#, #yards# and #rear yard equivalents#, provided that in #front yards#, such lifts are unenclosed.

(c) For all #buildings#, except #single # and #two-family residences#, #accessory# mechanical equipment shall be a permitted obstruction in #rear yards# and #rear yard equivalents#, provided that such equipment is:

(1) located above #flood-resistant construction elevation#;

(2) enclosed within a #building#, or portion thereof, or within a #structure# that provides screening of such mechanical equipment on all sides by walls consisting of at least 50 percent opaque materials;
(3) in R3, R4 or R5 Districts, limited to a height of 10 feet above flood-resistant construction elevation, including the apex of a pitched roof;

(4) in R6, R7, R8, R9 or R10 Districts, limited to a height of 14 feet above flood-resistant construction elevation; or

(5) in Commercial or Manufacturing Districts, limited to a height of 23 feet above flood-resistant construction elevation.

Accessory mechanical equipment located in rear yards or rear yard equivalents and meeting the standards of this Section shall be a permitted obstruction in any open space required on the zoning lot, provided that the total area occupied by a building used for both enclosed parking and such mechanical equipment does not exceed 20 percent of the total required open space on the zoning lot.

Decks, parapet walls, roof thickness, skylights, vegetated roofs, and weirs, as set forth in Section 23-62 (Permitted Obstructions), and solar energy systems, limited to 18 inches in height, as measured perpendicular to the roof surface, shall be permitted upon the roof of such accessory building within the rear yard or rear yard equivalent.

For all flood-resistant buildings, the definition of floor area may be modified in accordance with the provisions of this Section.

(a) Entryways

[Note: Text moved from Section 64-312 and modified]

In all districts, for buildings other than residential buildings with enclosed entryways below the first story above the flood elevation, up to 100 square feet of such entryways may be excluded from the definition of floor area for each foot of difference between the first story above the flood elevation and the level of the adjoining sidewalk, provided such floor space complies with the flood-resistant construction standards for dry-flood-proofing up to the flood-resistant construction elevation or higher. However, no more than a maximum of 500 square feet may be excluded from the definition of floor area for each entryway.

Such exempted floor space shall be considered floor area for the purposes of satisfying other ground floor use regulations of this Resolution, including, but not limited to, limitations on floor area for certain uses, parking wrap and screening requirements, and requirements for floor area at the ground floor.
(b) Modifications to attic allowances for residential buildings

In R2X, R3, R4, R4A, and R4-1 Districts outside of lower density growth management areas, the provisions of paragraph (a) of Section 23-142 (Open space and floor area regulations in R1 and R2 Districts with a letter suffix and R3 through R5 Districts) shall be modified to allow the floor area ratio set forth in the table of such Section to be exceeded by 20 percent provided that any such increase in floor area is located in any portion of a building covered by a sloping roof that rises at least three and one-half inches in vertical distance for each foot of horizontal distance.

(c) Flood-proofed ground floors

[Note: Text moved from Section 64-411 and modified]

(1) For buildings along primary street frontages, or portions thereof, as defined in Section 64-11, floor space located below the first story above the flood elevation and within 30 feet of the street wall along such primary street frontage may be excluded from the calculation of floor area, provided that:

(i) such floor space complies with the flood-resistant construction standards for dry-flood-proofing up to the flood-resistant construction elevation or higher;

(ii) the level of the finished floor of such floor space is located no more than two feet above nor two feet below curb level;

(iii) such floor space shall be limited to non-residential uses other than accessory parking or public parking garages and subject to the minimum depth requirements set forth in Section 37-32 (Ground Floor Depth Requirements for Certain Uses);

(iv) ground floor level street walls shall be glazed in accordance with the provisions set forth in Section 37-34 (Minimum Transparency Requirements); and

(v) for developments, the level of the first story above the flood elevation is 13 feet or more above the level of the adjoining sidewalk.

However, such floor space shall be considered floor area for the purposes of satisfying other ground floor use regulations of this Resolution, including, but
not limited to, limitations on floor area for certain uses, parking wrap and screening requirements, and requirements for non-residential floor area at the ground floor.

(2) In all districts, floor space located below the first story above the flood elevation may be excluded from the calculation of floor area provided such floor space complies with the flood-resistant construction standards for wet-flood-proofing up to the flood-resistant construction elevation or higher.

(d) Floor area for existing buildings

For zoning lots containing buildings existing prior to [date of adoption], as an alternative to the floor area regulations of this Chapter, the amount of floor area allocated to a basement or cellar in such existing building may be determined in accordance with how those terms were defined prior to [date of adoption].

64-323
Flood panels in required yards and open space
Special regulations for required yards and open spaces for zoning lots with flood-resistant buildings

[Note: Existing text moved to Section 64-312(c) and modified]

Temporary flood control devices and associated emergency egress systems that are assembled prior to a storm and removed thereafter shall be permitted obstructions in yards and rear yard equivalents, courts, open space, waterfront yards as defined in Article VI, Chapter 2, public plazas and all other publicly accessible open areas during such storm event and for a reasonable period prior to and after such storm event, as determined by the Department of Buildings.

For all zoning lots with flood-resistant buildings, the regulations for yards and open space shall be modified in accordance with the provisions of this Section.

(a) Level of required yards

[Note: Text moved from Section 64-321 and modified]

In all districts, the underlying yard regulations shall be modified to allow the level of a yard or a rear yard equivalent to be located higher than curb level, provided that it
does not exceed the #flood-resistant construction elevation#, and the level set forth by the following regulations:

(1) in #Residence Districts#, the final grade of #front yards# and #side yards# shall not penetrate a plane that begins three feet above #curb level# at each #lot line# and has a slope extending perpendicular to #lot lines# of one foot vertical for each 2 feet 6 inches of horizontal distance;

(2) in #Commercial# and in #Manufacturing Districts#, for portions of #zoning lots# where Sections 33-29 and 43-30 (SPECIAL PROVISIONS APPLICATING ALONG DISTRICT BOUNDARIES) apply, the level of #front yards# and #side yards# may be permitted to exceed #curb level# only pursuant to paragraph (a)(1) of this Section.

Nothing in this Section shall be construed so as to permit the creation of spaces below grade on all sides in a manner inconsistent with #flood-resistant construction standards#.

(b) Permitted obstructions

[Note: Text moved from Section 64-322 (a) and modified]

(1) Covered porches, balconies, and covered access areas

In all districts, a porch or access area covered by a roof or other permanent structure shall be permitted obstructions in any required #open space# or #yard# on the #zoning lot#. Where permanent structures such as balconies are located directly above a porch or access area, such balconies may exceed the width and depth standards of Section 23-13 (Balconies).

(2) Retaining walls

In #Residence Districts#, retaining walls shall be permitted in #front yards# and #side yards# provided any retaining wall parallel to, or within 15 degrees of being parallel to, the #street# shall not exceed a maximum height of three feet, as measured from the level of the adjoining grade or planted area below such wall, so that no more than three feet of such retaining wall is visible from the #street#; and

(3) Fences
In #Residence Districts#, portions of fences located in #front yards# with height greater than four feet above #curb level# shall be required to be no more than 50 percent opaque.

(c) Front yard planting requirement

[Note: Text moved from Section 64-422 and modified]

In R1 through R5 Districts, where the distance between the #street wall# and the #street line# is 10 feet or less, or for #zoning lots# with #front yards# that are shallower than the minimum required pursuant to the applicable district regulations, stairs, ramps or lifts that access the #first story above the flood elevation# shall be exempted from the area of a #front yard# for the purpose of calculating the planting requirements of Section 23-451 (Planting requirement).

64-324
Street wall location for flood-resistant buildings

[Note: Text to replace Section 64-333]

For all #buildings#, where the #street wall# location regulations of this Resolution require the #street wall# to be located within eight feet of the #street line#, such regulations may be modified to accommodate exterior stairs and ramps for access to the #building#, to comply with the requirements of Section 64-50 (Streetscape Regulations), or to provide temporary flood control devices and associated fixtures, as follows:

(a) no #street wall# need be located closer to the #street line# than eight feet;

(b) for #buildings# on #zoning lots# with a #lot width# greater than or equal to 50 feet, up to 50 percent of the #aggregate width of street walls# may be recessed beyond eight feet of the #street line#, provided that any such recesses deeper than 10 feet along a #wide street# or 15 feet along a #narrow street# are located within an #outer court# and the height of such recess shall not be less than the height of the first #story# located completely above the level of the adjoining grade; and

(c) for #buildings# on #zoning lots# with a #lot width# of less than 50 feet:

(1) for the first #story# above the #flood-resistant construction elevation#, or #reference plane#, as applicable, and any #street wall# below such first #story#, the
(2) For the remaining aggregate width of street walls above such stories, up to 50 percent of the aggregate width of street walls may be recessed beyond eight feet of the street line, provided that any such recesses deeper than 10 feet along a wide street or 15 feet along a narrow street are located within an outer court.

For all buildings where the aggregate width of exterior stairs, ramps, or elevated platforms in front of a street wall exceeds 70 percent or more along the ground floor of the street wall, such stairs, ramps, or elevated platforms shall be screened by living plant material or by the provisions of paragraph (b)(1) of Section 64-521 (Options available for all buildings).

64-33
Special Height and Setback Regulations
Special Bulk Regulations for Cottage Envelope Buildings

[Note: Text moved from Section 64-A30 and modified]

The provisions of this Section, inclusive, are optional, and are only applicable to zoning lots located wholly or partially within flood zones. The provisions of this Section, inclusive, are optional, and may be applied to zoning lots with cottage envelope buildings. For such zoning lots, the underlying bulk regulations shall apply, except where permitted to be modified by the allowances of this Section, inclusive.

No building that utilizes the provisions of this Section shall subsequently be enlarged pursuant to Section 73-622 (Enlargements of single- and two-family detached and semi-detached residences).

64-331
Permitted obstructions for multi-family buildings in R3-2 and R4 Districts
Modifications to the attic allowance for cottage envelope buildings

[Note: Existing text moved to Section 64-313(a) and modified]

The provisions of this Section shall apply without requiring a building to comply with flood-resistant construction standards as established in paragraph (a) of Section 64-12 (Applicability).

In R3-2 and R4 Districts, for all buildings, or portions thereof, subject to Section 23-60 (HEIGHT AND SETBACK REGULATIONS), except single- and two-family residences,
elevator or stair bulkheads (including shafts, and vestibules not larger than 60 square feet in area providing access to a roof), roof water tanks and accessory mechanical equipment (including enclosures), other than solar or wind energy systems, shall be considered permitted obstructions to height and setback regulations, provided that:

(a) such obstructions shall be located not less than 10 feet from the street wall of a building;

(b) all mechanical equipment shall be screened on all sides;

(c) the lot coverage of all such obstructions and screening does not exceed 250 square feet or 10 percent of the lot coverage of the building, whichever is greater; and

(d) such obstructions are limited to a height of 15 feet above the maximum height of perimeter walls.

[Note: Text moved from Section 64-A312 and modified]

R3 R4A R4-1

In lower density growth management areas in the districts indicated, the provisions of paragraph (b) of Section 23-142 (Open space and floor area regulations in R1 and R2 Districts with a letter suffix and R3 through R5 Districts) shall be modified to allow the floor area ratio set forth in the table of such Section to be exceeded by 20 percent, provided that any such increase in floor area is located in any portion of a cottage envelope building covered by a sloping roof that rises at least three and one-half inches in vertical distance for each foot of horizontal distance.

64-332
Permitted obstructions for buildings in medium and high density districts
Special regulations for required yards, courts and open spaces on zoning lots with cottage envelope buildings

[Note: Existing text moved to Section 64-313 (b) and modified]

The provisions of this Section shall apply without requiring a building to comply with flood-resistant construction standards as established in paragraph (a) of Section 64-12 (Applicability).

In R5 through R10 Districts, and in all Commercial and Manufacturing Districts, for all buildings, the underlying regulations governing permitted obstructions to height and setback shall be modified to increase the permitted volume for elevator or stair bulkheads (including shafts,
and vestibules not larger than 60 square feet in area providing access to a roof), roof water tanks
and accessory mechanical equipment (including enclosures), other than solar or wind energy
systems, from a maximum lot coverage of 20 percent of the lot coverage of the building to
a maximum lot coverage of 30 percent of the lot coverage of the building, provided that
where the maximum permitted height of a building is less than 120 feet, such obstructions are
limited to a maximum height of 25 feet, and where the maximum permitted height of a building is
120 feet or greater, such obstructions are limited to a maximum height of 40 feet.

R1 R2 R3 R4 R5

In the districts indicated, for zoning lots containing cottage envelope buildings, the following
yards, courts and open space regulations may be modified in accordance with the provisions of this Section.

(a) Lot Coverage and Open Space

[Note: Text moved from Section 64-A311 and modified]

In R1-2A, R2A, R3-1, R3-2, R4, R4-1, and R4A Districts, the lot coverage and open
space regulations need not apply. In lieu thereof, the yard requirements of this Section
shall apply.

(b) Front Yards

[Note: Text to replace Section 64-A351]

For buildings that are utilizing the provisions of this paragraph, the provisions of
paragraphs (b) and (c) of Section 23-45 (Minimum Required Front Yards) need not apply.

For the purpose of this Section, the area between the street line and the street wall line
of adjacent buildings containing residences on the same or adjoining zoning lots
fronting on the same street shall be considered adjacent front yards.

Where an adjacent front yard is shallower than the minimum required pursuant to the
applicable district regulations, then the front yard of the zoning lot containing cottage
envelope buildings may be as shallow as the shallowest adjacent front yard.

(c) Side Yards

[Note: Text moved from Section 64-A352 and modified]
The #side yard# provisions for the applicable district shall apply, except that the required total width of #side yards# for a #zoning lot# may be reduced by four inches for each foot by which the width of a #zoning lot# is less than the minimum widths set forth in the definition of #cottage envelope building# in Section 64-11 (Definitions). However, in no event shall the required width of a #side yard# be less than three feet.

In addition, for #buildings# utilizing the provisions of this paragraph, the provisions of paragraph (c) of Section 23-461 (Side yards for single- or two-family residences) need not apply, provided such open area does not serve as access or contain #accessory# off-street parking spaces serving existing #buildings# that remain on the #zoning lot#, or an adjoining #zoning lot#.

(d) Rear Yards

[Note Text moved from Section 64-A353 and modified]

(1) Where an #interior lot# is less than 95 feet deep at any point, the depth of a required #rear yard#, or portion thereof, for such #interior lot#, may be reduced by six inches for each foot by which the depth of a #zoning lot#, or portion thereof, is less than 95 feet. However, in no event shall the minimum depth of a required #rear yard#, or portion thereof, be reduced to less than 10 feet.

(2) Where a #through lot# is less than 180 feet deep at any point, the depth of a required #rear yard equivalent#, or portion thereof, for such #through lot#, may be reduced by one foot for each foot by which the depth of a #zoning lot#, or portion thereof, is less than 180 feet. However, in no event shall the minimum depth of a required #rear yard equivalent#, or portion thereof, be reduced to less than 20 feet.

(c) Corner Lots

[Note: Text moved from Section 64-A354 and modified]

Where a #corner lot# has a #lot area# equal to or less than 3,000 square feet, only one #front yard# need be provided, and the remaining #front lot line# may be treated as a #side lot line#.

64-333

Street wall location in certain districts

Height and setback regulations for cottage envelope buildings
The provisions of this Section shall apply without requiring a building to comply with flood-resistant construction standards as established in paragraph (a) of Section 64-12 (Applicability).

In all districts, where underlying street wall location regulations require the ground floor of a street wall to extend along the entire street frontage of a zoning lot and be located on the street line, such regulations are modified as follows:

(a) recesses, not to exceed five feet in depth from the street line, shall be permitted on the ground floor where required to provide access to the building; and

(b) up to 30 percent of the aggregate width of street walls may be recessed beyond the street line, provided any such recesses deeper than 10 feet along a wide street, or 15 feet along a narrow street, are located within an outer court. However, no recesses shall be permitted within 30 feet of the intersection of two street lines.

In the districts indicated, all #cottage envelope buildings# shall be subject to the height and setback provisions set forth in paragraph (b) of Section 23-631 (General provisions), except that:

(a) the maximum height of a perimeter wall of a #cottage envelope building# before setback shall be 21 feet;

(b) the maximum height of a ridge line shall be 25 feet; and

(c) all heights may be measured from the #reference plane#.

In addition, the maximum number of #stories# in any #cottage envelope building# shall not exceed two #stories# above the #reference plane#. For the purposes of this Section, attic space providing structural headroom of less than eight feet shall not be considered a #story#.

64-334
Alternative height measurement for single- and two-family residences

[Note: Existing text to be deleted and substituted by Sections 64-221 and 64-321]
In the districts indicated, as an alternative to Section 64-131 (Measurement of height), for #single-# and #two-family residences# where #flood-resistant construction elevation# is between six and nine feet above #curb level#, #building# height may be measured from a reference plane nine feet above #curb level#, provided that at least two mitigating elements are provided from the list in Section 64-61 (Design Requirements for Single— and Two-family Residences).

64-335
Alternative height measurement for other buildings in Residence Districts

[Note: Existing text to be deleted and substituted by Sections 64-221 and 64-321]

In the districts indicated, as an alternative to Section 64-131 (Measurement of height), for all #buildings# other than #single-# and #two-family residences#, where #flood-resistant construction elevation# is between five and 10 feet above #curb level#, #building# height may be measured from a reference plane 10 feet above #curb level#, and any minimum base height requirements may be measured from #curb level#. Where the provisions of this Section are utilized, the standards of Section 64-622 (Lobby or non-residential use) shall be met.

64-336
Alternative height measurement in Commercial and Manufacturing Districts

[Note: Existing text to be deleted and substituted by Sections 64-221 and 64-321]

(a) In the districts indicated, as an alternative to Section 64-131 (Measurement of height), for all #residential buildings# other than #single-# and #two-family residences#, where #flood-resistant construction elevation# is between five and 10 feet above #curb level#, #building# height may be measured from a reference plane 10 feet above #curb level#, and any minimum base height requirements may be measured from #curb level#. Where the provisions of this Section are utilized, the standards of Section 64-622 (Lobby or non-residential use) shall be met.
(b) In the districts indicated, as an alternative to Section 64-131, for all buildings other than residential buildings and buildings containing predominantly Use Group 16, 17 or 18 uses, where street walls are within 50 feet of a street line and flood-resistant construction elevation is between five and 12 feet above curb level, building height may be measured from a reference plane 12 feet above curb level, and any minimum base height requirements may be measured from curb level. Where the provisions of this Section are utilized, the standards of Section 64-642 (Transparency requirements for buildings utilizing alternative height measurement) shall be met.

64-40

SPECIAL BULK REGULATIONS FOR BUILDINGS EXISTING ON OCTOBER 28, 2012
SPECIAL PARKING REGULATIONS

[Note: Existing text to be deleted]

The following provisions shall apply to buildings existing on October 28, 2012, and to the reconstruction of such buildings.

[Note: Text moved from Section 64-50 and modified]

The underlying parking regulations of this Resolution may be modified in accordance with the provisions of this Section inclusive. The provisions of this Section, inclusive, are optional, and may be applied are only applicable to all zoning lots located wholly or partially within flood zones.

The provisions of Section 64-41 (Special Parking Regulations for All Buildings), inclusive, may be applied to all zoning lots regardless of whether buildings or other structures on such zoning lots comply with flood-resistant construction standards.

The provisions of Section 64-42 (Special Parking Regulations for Flood-resistant Buildings), inclusive, may be applied to zoning lots containing flood-resistant buildings, including cottage envelope buildings.

64-41

Special Floor Area Regulations for Buildings Existing on October 28, 2012
Special Parking Regulations for All Buildings

The provisions of this Section, inclusive, are optional, and are only applicable to zoning lots located wholly or partially within flood zones. The provisions of this Section, inclusive are
optional and may apply to all zoning lots regardless of whether buildings or other structures comply with flood-resistant construction standards. For such zoning lots, the underlying parking regulations shall apply, except where permitted to be modified by the allowances of this Section, inclusive.

64-411
Floors below the flood-resistant construction elevation
For residential buildings with below-grade parking

[Note: Existing text moved to Section 64-321(c) and modified]

(a) Dry flood-proofing

In C1 and C2 Districts mapped within R1 through R6 Districts, and in C3, C4 1, C4 2 and C4 3 Districts, where the level of any finished floor above adjacent grade that existed on October 28, 2012, is below flood-resistant construction elevation, such floor space may be exempted from the definition of floor area provided that such floor space, as well as any space below such floor space, complies with the flood-resistant construction standards for dry flood-proofing. The certificate of occupancy, if required, shall note that such floor space has been dry flood-proofed and must comply with the provisions of Appendix G of the New York City Building Code, and that the number of dwelling units or rooming units shall be limited to no more than the number existing on October 28, 2012.

In addition, the following provisions shall apply:

(1) such floor space exempted from the definition of floor area shall not exceed 10,000 square feet;

(2) such floor space exempted from the definition of floor area shall be used for a community facility use or commercial use permitted by the underlying zoning district;

(3) no floor space shall be exempted if parking spaces within such building are located within 30 feet of the street wall; and

(4) the building shall contain no more dwelling units or rooming units than existed on October 28, 2012.

(b) Wet flood-proofing
This paragraph shall not apply to buildings containing non-residential uses where the flood-resistant construction elevation is less than two feet above the level of the first finished floor above curb level.

Where the level of any finished floor above adjacent grade that existed on October 28, 2012, is below flood-resistant construction elevation, such floor space may be exempted from the definition of floor area provided that such floor space, as well as any space below such floor space, complies with the flood-resistant construction standards for wet flood-proofing. The certificate of occupancy, if required, shall note that such floor space has been wet flood-proofed and must comply with the provisions of Appendix G of the Building Code.

The floor area which has been flood-proofed pursuant to the provisions of this Section need not be rebuilt prior to sign-off by the Department of Buildings or issuance of a certificate of occupancy for such alteration to the flood-proofed floor space in order for such floor area to be preserved as long as an application for construction documents for the reconstruction of such floor area has been approved by the Department of Buildings prior to the issuance of such sign-off or certificate of occupancy for the alteration associated with the flood-proofing. Such construction documents shall acknowledge that the non-complying floor area is being preserved and shall depict its use within the same building in a manner complying with flood-resistant construction standards.

[Note: Text moved from Section 64-51 and modified]

R1 R2 R3 R4 R5

In the districts indicated, other than R4B and R5B Districts, where existing below-grade off-street parking facilities within residential buildings are eliminated and, in compliance with flood-resistant construction standards, are filled in, accessory off-street parking spaces may be relocated from such garages to the side or rear of such buildings, or to the front yard driveway that accessed the former garage, or to a shared driveway along a common side lot line, and such relocated parking spaces need not comply with the underlying parking location, curb cut spacing or permitted obstruction regulations that limit parking, provided that:

(a) no more than two parking spaces may be located in tandem (one behind the other);

(b) each relocated parking space shall have a dimension that conforms with the minimums set forth in Section 25-62 (Size and Location of Spaces); and

(c) where eliminated garages were accessed by a driveway less than 18 feet long, such
driveway and curb cut shall be eliminated, and the former driveway planted to the extent necessary to comply, or increase compliance, with the provisions of Section 23-451 (Planting requirement) as if the #building# on the #zoning lot# was constructed after April 30, 2008.

Notwithstanding the modifications above, no modification to the maximum number of curb cuts on a #zoning lot# or the minimum or maximum width of a curb cut, shall be permitted.

In the event that there is no way to arrange relocated required parking spaces on the #zoning lot# in compliance with the provisions of this Section, given that #buildings# existing on [date of adoption] will remain, the Commissioner of Buildings may waive the requirement for such spaces.

### 64-412
Lowest story of a residential building
Surfacing

[Note: Existing text to be deleted]

In all districts, where the #floor area# of a #single# or #two-family residence# existing on October 28, 2012, did not include the lowest #story# because such #story# complied with the criteria set forth in paragraph (9) of the definition of “floor area” in Section 12-10, any space used for dwelling purposes within such #story# shall continue to be exempt from the definition of #floor area#, notwithstanding such criteria, provided such #story# is elevated or reconstructed at or above the #flood-resistant construction elevation#.

[Note: Text moved from Section 64-53 and modified]

R1 R2 R3 R4 R5

In the districts indicated, Section 25-65 (Surfacing) may be modified to allow dustless gravel on all open off-street parking spaces and on portions of driveways beyond the #front lot line# that access #single-# or #two-family residences# on a #zoning lot#.

### 64-42
Yards, Courts and Open Space for Buildings Existing on October 28, 2012
Special Parking Regulations for Flood-resistant Buildings
64-421
Permitted obstructions
Parking modifications

[Note: Existing text moved to Section 64-312(a) and modified]

The provisions of this Section shall apply without requiring a #building# to comply with #flood-resistant construction standards# as established in paragraph (a) of Section 64-12 (Applicability).

(a) For existing #single# and #two family residences#, and for the reconstruction of such #residences#, mechanical equipment including but not limited to #accessory# heating and cooling equipment and emergency generators, shall be permitted obstructions in #open space# required on the #zoning lot#, in any #side yard#, #rear yard# or #rear yard equivalent#, and in #courts#, provided such equipment is:

1. located above #flood-resistant construction elevation#; and
2. located at least five feet from any #lot line#; and
3. screened on all sides by walls consisting of at least 50 percent opaque materials; and
4. in compliance with the standards of either paragraph (a)(5) or (a)(6) of this Section; and
5. the mechanical equipment and all structure and screening are located no more than seven feet from the wall of a #building# and limited to a height of no more than 10 feet above #flood-resistant construction elevation#; or
6. the mechanical equipment is located within a detached garage or on the roof of a detached garage, provided that:
   i. where covered by a sloping roof that rises at least seven inches in vertical distance for each foot of horizontal distance, no portion of the roof shall exceed a height of 14 feet above the adjoining grade, measured to the midpoint of a sloping roof; or
(ii) for all other conditions, no portion of the garage, screening or the mechanical equipment shall exceed a height of 12 feet above the adjoining grade.

(b) For existing buildings, except single- and two-family residences, accessory mechanical equipment shall be permitted obstructions in courts and open space; provided such equipment is:

1. located above flood-resistant construction elevation;
2. within a structure that provides screening of such mechanical equipment on all sides by walls consisting of at least 50 percent opaque materials;
3. limited to a height established in Section 64-322 (Permitted obstructions in required yards, courts and open space), paragraph (c), for mechanical equipment as permitted obstructions in a rear yard; and
4. located at least 30 feet from any legally required window.

(c) For existing buildings, except single- and two-family residences, lifts for persons with disabilities, where permitted pursuant to provisions of the New York City Building Code, shall be permitted obstructions in yards, courts and open space.

[Note: Text moved from Section 64-52 and modified]

R1 R2 R3 R4 R5

In the districts indicated, except R4B and R5B Districts, the provisions of this Section shall apply to zoning lots containing single- or two-family residences. For such zoning lots, where off-street parking spaces are required pursuant to Section 25-20 (REQUIRED ACCESSORY OFF-STREET PARKING SPACES FOR RESIDENCES) inclusive, the underlying parking regulations may be modified as follows:

(a) the regulations governing parking location, curb cut location, or permitted obstruction that limit parking need not apply, provided that all parking spaces are either located beneath the first story above the flood elevation within buildings or driveways directly in front of a garage opening. Such spaces shall have a dimension that conforms with the minimums set forth in Section 25-62 (Size and Location of Spaces). However, within lower density growth management areas the provisions of paragraph (c) of Section 25-632 (Driveway...
and curb cut regulations in lower density growth management areas) shall continue to apply; and

(b) the underlying curb cut spacing regulations for #zoning lots# existing on [date of adoption] with a frontage of less than 35 feet along a #street# need not apply, provided that at least four feet of curb space is provided between a new curb cut and an existing curb cut on the same or an adjacent #zoning lot#.

Notwithstanding the modifications above, no modification to the maximum number of curb cuts on a #zoning lot# or the minimum or maximum width of a curb cut, shall be permitted.

All #zoning lots# utilizing this Section shall comply with the provisions of Section 23-451 (Planting requirement) as if the #building# on the #zoning lot# was constructed after April 30, 2008.

64-422
Front yard planting requirement

[Note: Existing text moved to Section 64-322(c) and modified]

R1 R2 R3 R4 R5

In the districts indicated, the provisions of Section 23-451 (Planting requirement) are modified for existing #buildings#, where the distance between the #street wall# and the #street line# is six feet or less, to allow stairs, ramps or lifts that access the #lowest occupiable floor# to be counted as planted area for the purposes of fulfilling the requirements of such provisions.

64-43
Special Height and Setback Regulations for Buildings Existing on October 28, 2012

64-431
For existing single- and two-family residences

[Note: Existing text to be deleted]

#Single # and #two-family residences# existing on October 28, 2012, may be vertically elevated, or reconstructed to a higher elevation, in order to raise the lowest floor level containing habitable space, located at or above the adjoining grade as of October 28, 2012, to #flood-resistant
Honorable Marisa Lago, Chair
Application No.: N 210095 ZRY (Pre. L.U. No. 765)
April 28, 2021
Page 92 of 238

...construction elevation#, and in so doing so, may create a #non-compliance# as to height and setback to the extent that such lowest floor level is elevated or reconstructed to #flood-resistant construction elevation#.

Where the elevation requirements of Appendix G of the New York City Building Code apply to the lowest horizontal structural member, #single-# and #two-family residences# existing on October 28, 2012, may be vertically elevated, or reconstructed to a higher elevation, in order to raise the lowest horizontal structural member supporting the lowest floor containing habitable space, located at or above the adjoining grade as of October 28, 2012, to #flood-resistant construction elevation#, and in so doing so, may create a #non-compliance# as to height and setback to the extent that such lowest horizontal structural member is elevated or reconstructed to #flood-resistant construction elevation#.

This Section shall not preclude the construction of complying #enlargements# or other complying structures on the #zoning lot#.

#Buildings# that were complying on October 28, 2012, and vertically elevated or reconstructed to a higher elevation, pursuant to this Section, shall be considered legal #non-complying buildings#.

64-432
Permitted obstructions for certain existing buildings

[Note: Existing text to be deleted]

The provisions of this Section shall apply without requiring a #building# to comply with #flood resistant construction standards# as established in paragraph (a) of Section 64-12 (Applicability).

In R5 through R10 Districts, and in #Commercial# and #Manufacturing Districts#, for all existing #buildings#, the regulations for permitted obstructions to height and setback regulations shall be modified to increase the permitted volume for elevator or stair bulkheads (including shafts, and vestibules not larger than 60 square feet in area providing access to a roof), roof water tanks and #accessory# mechanical equipment (including enclosures), other than solar or wind energy systems, as follows:

(a) where the maximum #building# height is less than 120 feet, the maximum permitted height of such volume may be increased from 25 feet to 33 feet, provided that the #lot coverage# of all such obstructions does not exceed 20 percent of the #lot coverage# of the #building#; and

(b) where the maximum #building# height is 120 feet or greater, the maximum permitted
height of such volume may be increased from 40 feet to 55 feet, provided that the #lot coverage# of all such obstructions does not exceed 20 percent of the #lot coverage# of the #building#.

64-44
Special Minimum Distance Regulations for Buildings Existing on October 28, 2012

[Note: Existing text to be deleted]

For #single# and #two-family residences# existing on October 28, 2012, if such #buildings# are elevated, relocated or reconstructed pursuant to Sections 64-131 (Measurement of height), 64-722 (Single and two-family residences in required front yards) and 64-431 (For existing single- and two-family residences), the provisions of Section 23-86 (Minimum Distance Between Legally Required Windows and Walls or Lot Lines) shall not apply.

64-50
SPECIAL PARKING REGULATIONS
STREETScape REGULATIONS

[Note: Existing text moved to Section 64-40 and modified]

Sections 64-51 (For Residential Buildings with Below-grade Parking) and 64-52 (For Elevated Buildings) shall apply to #buildings# existing on October 28, 2012, and to the reconstruction of such #buildings#. Section 64-51 shall apply without requiring a #building# to comply with #flood-resistant construction standards# provided in paragraph (a) of Section 64-12 (Applicability).

Section 64-53 (Surfacing) shall apply to all #zoning lots# within the #flood zone#.

The underlying parking location, curb cut spacing, permitted obstruction and surfacing regulations are modified in accordance with the provisions of this Section.

The provisions of this Section, inclusive, shall apply to #zoning lots# containing #flood-resistant buildings#, as set forth in paragraphs (b) and (c) of Section 64-12 (Applicability), that have a #street wall# within 50 feet of the #street line# in #Residence Districts#, #Commercial Districts# and M1 Districts#. However, the provisions shall not apply to such #buildings# containing #uses# predominantly listed in Use Group 18.

All #buildings# shall provide streetscape mitigations elements in the categories of access or ground floor level, in order to comply with achieve the total points required in the following table. The total points required differs by varies based upon the level of the #first story above the flood
elevation#, as measured from #curb level#. The individual mitigation options are set forth in Sections 64-51 (Building Access Mitigation Options) and 64-52 (Ground Floor Level Mitigation Options). Cells marked with an “x” designate mandatory categories to fulfill at least one point out of the total points requirement.

The points awarded for compliance with each individual mitigation are set forth in parentheses after the title to each paragraph describing a mitigation element.

For #corner lots#, the total points requirement set forth in this Section shall apply separately along each #street frontage# of a #corner lot#, except where the #street wall# width along one of the #street frontages# is 25 feet or less, the requirements need only apply to one frontage.

Where #zoning lots# are required to provide streetscape elements in accordance with other provisions of this Resolution, such elements may also be utilized towards meeting the requirements of this Section, provided that such elements comply with the applicable standard herein.

In addition, all #buildings# shall meet the requirements set forth in Section 64-53 (Screening Requirements for Parking Within or Below Buildings) as applicable.

<table>

1 #Single-# and #two-family residences# on a #zoning lot# less than 25 feet wide with a #first story above the flood elevation# at five feet or above need only satisfy a total of two points instead of the three points set forth in the above table.

2 If the requirements of this Section apply to only a portion of the #building# with a #first story above the flood elevation# at five feet or above, and such portion of the #building# does not have a principal entrance, #primary entrance#, the total points required shall be two, and they need only be satisfied through the ground floor level category.

64-51
For Residential Buildings With Below-grade Parking
Building Access Mitigation Options

[Note: Existing text moved to Section 64-411 and modified]

R1 R2 R3 R4 R5

In the districts indicated, other than R4B and R5B Districts, where below-grade garages within residential buildings are eliminated in order to comply with Appendix G of the New York City Building Code, accessory off-street parking spaces may be relocated from such garages to the side or rear of such buildings, or to the front yard driveway that accessed the former garage, or to a shared driveway along a common side lot line. Where such parking spaces are so relocated, each such space shall have a dimension at least 18 feet long and eight feet wide, and such spaces shall be allowed without regard to underlying parking location, curb cut spacing or permitted obstruction regulations. No modifications of the number of curb cuts on a zoning lot or the minimum or maximum width of a curb cut shall be allowed. Where eliminated garages were accessed by a driveway less than 18 feet long, such driveway and curb cut shall be eliminated, and the former driveway planted to the extent necessary to comply, or increase compliance, with the provisions of Section 23-451 (Planting requirement) as if the building on the zoning lot was constructed after April 30, 2008.

In the event there is no way to arrange relocated required parking spaces on the zoning lot in compliance with the provisions of this Section, given that existing buildings will remain, the Commissioner of Buildings may waive such spaces.

64-511
Options available for all buildings

The streetscape mitigations options of this Section may be applied to all buildings. Where provided as a required streetscape mitigation element, the following shall apply:

(a) Entrance close to grade
(one point)

The principal primary entrance for the principal use for the building shall be located within two feet of the level of the adjoining sidewalk. However, for mixed buildings in Commercial Districts the primary entrance for the non-residential use on the ground floor shall be located within two feet of the level of the adjoining sidewalk, regardless of whether it is the principal use.

(b) Recessed access
(one point)
Recesses in the #street wall# shall accommodate the principal #primary entrance# to the #building#, including stairs or ramps to such entrance. However, recesses shall not exceed 50 percent of the #aggregate width of street wall# for the #building#.

(c) Wide stairs
(one point)

The principal #primary entrance# to a #building# along the #street wall# shall include stairs:

(1) with a minimum width of five feet where the #aggregate width of street walls# of the #building# is less than or equal to 25 feet; and

(2) with a minimum width of eight feet where the #aggregate width of street walls# of the #building# is greater than 25 feet.

In both cases, the run of such stairs shall be oriented perpendicular, or within 15 degrees of being perpendicular, to such principal #primary entrance# for at least 50 percent of the height of such stairs.

(d) Covered access
(one point)

The principal #primary entrance# to a #building# shall have a porch or access area covered by a roof or other permanent structure, provided that all structural elements shall have a minimum width or depth of at least three inches. Such roof or other permanent structure shall be located at a minimum height at least eight feet above the finished floor of the principal #primary entrance#. In addition, such covering shall have a depth of at least three feet measured perpendicular to the #street wall# and shall extend along at least 50 percent of the #aggregate width of the street wall#.

64-512
Additional options available for single-family, two-family, or three-family residences

The streetscape mitigations options of this Section may be applied to all #single-#, #two-#, or #three-#family residences#. Where provided as a required streetscape mitigation element, the following shall apply:

(a) Porch or landing
The principal primary entrance to a building shall have a porch or landing with a depth of at least three feet and a width that is at least 50 percent of the aggregate width of the street wall. However, such porch or landing need not exceed a width of 25 feet.

(b) Stair turn or stair landing

The principal primary entrance shall be accessed by stairs or ramps that, at a point no higher or lower than two feet from the beginning and end of the stair run, respectively, either change direction in plan or incorporate at least one landing.

64-513
Additional options available for all buildings except single-, two-family, or three-family residences

The streetscape mitigations options of this Section may be applied to all buildings except single-, two-, or three-family residences. Where provided as a required streetscape mitigation element, the following shall apply:

Multiple entrances

Multiple entrances into the building shall be provided, with at least one entrance per every 50 linear feet of street frontage. Fractions equal to or greater than one-half resulting from this calculation shall be considered one entrance.

64-52
For Elevated Buildings

Ground Floor Level Mitigation Options

[Note: Existing text moved to Section 64-421 and modified]
In the districts indicated, except R4B and R5B Districts, the provisions of this Section shall apply to single- or two-family residences with a flood-resistant construction elevation at least nine feet above curb level, and to other single- or two-family residences utilizing the provisions of Section 64-334 (Alternative height measurement for single- and two-family residences). For such residences, where at least two accessory off-street parking spaces are provided beneath the lowest occupiable floor, such spaces shall be allowed without regard to the underlying parking location, curb cut spacing or permitted obstruction regulations. However, no modification of the number of curb cuts on a zoning lot or the minimum or maximum width of a curb cut shall be allowed.

For the purposes of this Section, where there is a reference to a “blank wall,” the following shall apply:

(a) For manufacturing buildings, the provisions of Type 2 blank walls set forth in Section 37-361 (Blank wall thresholds) shall apply.

(b) For commercial buildings, community facility buildings and mixed buildings, the provisions of Type 3 blank walls set forth in Section 37-361 shall apply.

(c) For residential buildings, the provisions of Type 4 blank walls set forth in Section 37-361 shall apply.

Such blank walls shall be covered by one or more options in Section 37-362 (Mitigation elements) or by options as described in this Section, inclusive. In addition, any surface area of a wall which bounds stairs, ramps, landings, or chair lifts facing a street and that exceeds a height and width of four feet shall constitute a blank wall and comply with the standards of Type 3 blank wall. Such blank wall surfaces shall be calculated between the level of the adjoining sidewalk and the level of the first story above the flood elevation. In addition, any surface area of a wall which bounds stairs, ramps, landings, or chair lifts facing a street and that exceeds a height and width of four feet shall constitute a blank wall and comply with the standards of Type 3 blank wall. Such blank wall surfaces shall be calculated between the level of the adjoining sidewalk and the level of the first story above the flood elevation.

64-521
Options available for all buildings

The streetscape mitigations options of this Section may be applied to all buildings. Where provided as a required streetscape mitigation element, the following shall apply:
(a) Surface treatment
(one point)

Surface treatment shall be provided for blank walls in the form of wall treatment, surface texture, or any combination thereof, pursuant to the provisions set forth in paragraphs (a)(1) or (a)(2) of Section 37-362 (Mitigation elements).

If the level of the first story above flood elevation is greater than 10 feet, surface treatment shall only be required to a height of 10 feet above the level of the adjoining sidewalk.

(b) Linear treatment
(one or, where noted, two points)

Linear treatment shall be provided for blank walls in the form of planting, pursuant to the provisions set forth in paragraph (b)(1) of Section 37-362, pursuant to one of the following options below, or any combination thereof. Where the options of this Section are utilized, the percentage requirement associated with the applicable type of blank wall set forth in Section 37-36 (Special Requirements for Blank Walls) shall not apply.

(1) Raised front yards and open space

[Note: Text moved from Section 64-61 (c) and modified]

For residential buildings in Residence Districts where the distance between the street wall and the street line is 10 feet or more, the grade between the street line and blank walls, and their prolongations, shall be elevated above the level of the adjoining sidewalk so that the height of such grade that is midway between the street line and blank walls and prolongations is at least 18 inches above curb level at all points, except for pedestrian ways, vehicular access and off-street parking spaces permitted pursuant to 64-40 (SPECIAL PARKING REGULATIONS). The area with final grade above the level of the adjoining sidewalk shall be greater than 30 percent of the total area between the street line and blank walls and their prolongations.

Raised front yards and open spaces shall be planted in accordance with applicable planting requirements in this Resolution.

This option shall satisfy two points if the area with final grade above curb level is greater than 50 percent of the total area between the street line and blank walls and their prolongations.
(2) Terraced front #yards# and #open spaces#

For #residential buildings# in #Residence Districts#, terraced planting areas shall be provided. The retaining walls of such areas shall not be less than an average height of three feet and exceed an average height of six feet, as measured from the level of the adjoining sidewalk below such wall, and the retaining wall closest to the #street line# shall not exceed a height of three feet. The area with the retaining walls shall be greater than 30 percent of the total area between the #street line# and blank walls and their prolongations. Planting shall also be provided for at least 50 percent of the linear footage above and below the retaining walls, through a combination of perennials, annual flowers, decorative grasses or shrubs.

This option shall satisfy two points if the area with the retaining walls is greater than 50 percent of the total area between the #street line# and blank walls and their prolongations.

64-522
Additional options available for single-, two-, or three-family residences #two-family#, or three-family residences#

The streetscape mitigations options of this Section may be applied to all #single-#, #two-#, or #three-family residences#. Where provided as a required streetscape mitigation element, the following shall apply:

(a) Transparency
(one point)

Transparent glazing materials shall occupy at least 20 percent of the surface area of the #street wall# of the ground floor, measured between a height of two feet and 10 feet, or the height of the ground floor ceiling, whichever is higher, as measured from the adjoining sidewalk.

(b) Additional fenestration
(one point)

In addition to the principal #primary entrance#, one or more doors, including garage doors, shall be provided.
64-523
Additional options available for all buildings except single-, two-, or three-family residences

The streetscape mitigations options of this Section may be applied to all buildings except single-family, two-family, or three-family residences. Where provided as a required streetscape mitigation element, the following shall apply:

(a) Transparency with use
(one point)

One or more of the following options may apply:

(1) Lobby
(one point)

In all districts, a lobby that complies with the standards of Type 1 lobbies set forth in Section 37-33 (Maximum Width of Certain Uses), shall be provided. Transparent glazing materials shall occupy at least 40 percent of the surface area of the street wall of the lobby, measured between a height of two feet and 10 feet, or the height of the ground floor ceiling, whichever is higher, as measured from the adjoining sidewalk.

(2) Community facilities and accessory residential uses
(one point)

In all districts, for buildings containing residences with three or more dwelling units, at least 50 percent of the ground floor level street wall shall be allocated to accessory residential uses other than accessory off-street parking, or community facilities uses, including, but not limited to, recreation space or bicycle storage, that extends to a minimum depth of 15 feet from the street wall. Transparent glazing materials shall occupy at least 40 percent of the surface area of the street wall of such uses, measured between a height of two feet and 10 feet, or the height of the ground floor ceiling, whichever is higher, as measured from the adjoining sidewalk. Where the spaces for such uses need not be fully enclosed, decorative screening or latticework may be substituted for transparent glazing materials.

(3) Non-residential uses
(one point)

In Commercial Districts, uses on the ground floor level, to the minimum
depth set forth in Section 37-32 (Ground Floor Depth Requirements for Certain Uses), shall be limited to non-residential uses, except for Type 2 lobbies and entrances and exits to accessory parking spaces provided in accordance with Section 37-33. Ground floor level street walls shall be glazed in accordance with Section 37-34 (Minimum Transparency Requirements) except that the transparent materials may begin higher than 2 feet, 6 inches, above the level of the adjoining sidewalk.

If group parking facilities are provided, they shall be wrapped by floor area, in accordance with paragraph (a) of Section 37-35 (Parking Wrap and Screening Requirements).

(b) Transparency close to grade
(one point)

In all districts, transparent materials provided to satisfy street wall transparency requirements shall not begin higher than 2 feet, 6 inches above the level of the adjoining sidewalk. The floor level behind such transparent glazing materials shall not exceed the level of the window sill for a depth of at least four feet, as measured perpendicular to the street wall.

(c) Linear treatment
(one point)

Linear treatment shall be provided for blank walls in the form of benches, bicycle racks, tables and chairs, or any combination thereof, as set forth in paragraph (b) of Section 37-362 (Mitigation elements).

64-53
Surfacing
Screening Requirements for Parking Within or Below Buildings

[Note: Existing text moved to Section 64-412 and modified]

R1 R2 R3 R4 R5

In the districts indicated, Section 25-65 (Surfacing) shall be modified to allow dustless gravel driveways that access one single or two-family residence on a zoning lot, provided that all portions of such driveway located between the curb and the front lot line shall be surfaced with asphaltic or Portland cement concrete, or other hard-surfaced dustless material, at least four inches thick, and public sidewalks shall be constructed to Department of Transportation standards.
Honorable Marisa Lago, Chair  
Application No.: N 210095 ZRY (Pre. L.U. No. 765)  
April 28, 2021  
Page 103 of 238

[Note: Text moved from Section 64-65 and modified]

The provisions of this Section shall apply to all buildings other than:

(a) single# or two-family residences#; and

(b) buildings# containing predominantly Use Group 18 uses# in M1 Districts.

Where the first story above the flood elevation# is five or more feet above curb level# and the street wall# of a building# is within 50 feet of the street line#, for any level where off-street parking is provided within or below a building#, such parking shall be either wrapped by floor area# or screened pursuant to the provisions of Section 37-35 (Parking Wrap and Screening Requirements).

Buildings# in existence prior to [date of adoption] shall not be altered in any way that will create a new non-compliance# or increase the degree of non-compliance# with the provisions of this Section.

64-60  
DESIGN REQUIREMENTS  
SPECIAL REGULATIONS FOR NON-CONFORMING USES AND NON-COMPLYING BUILDINGS

[Note: Existing text to be deleted]

The following Sections shall apply to all developments# and to all horizontal enlargements# with new street walls# or alterations increasing the height of street walls#, or as otherwise referenced within this Chapter:

Section 64-61 — Design Requirements for Single- and Two-family Residences

Section 64-62 — Design Requirements for Other Buildings in Residence Districts

Section 64-63 — Design Requirements for Residential Buildings in Commercial Districts

Section 64-64 — Design Requirements for Non-residential and Mixed Buildings in Commercial and Manufacturing Districts

Section 64-65 — (Screening Requirements for Parking Within or Below Buildings) shall
apply to any zoning lot occupied by a building, other than a single- or two-family residence constructed after October 9, 2013. Any zoning lot occupied by a building constructed prior to such date shall not be altered in any way that will either create a new non-compliance or increase the degree of non-compliance with the provisions of Section 64-65.

The provisions of this Section, inclusive, are optional, and may be applied to buildings with non-conforming uses, or to non-complying buildings or other structures, as applicable, that are also flood-resistant buildings.

64-61
Design Requirements for Single- and Two-family Residences
Special Provisions for Non-conforming Uses

[Note: Existing text to be deleted and substituted by Section 64-50]

R1 R2 R3 R4 R5 R6

In R1, R2, R3, R4 and R5 Districts, for single and two-family residences that have a street wall within 50 feet of the street line, and in R6 Districts, for detached and semi-detached single and two-family residences that have a street wall within 50 feet of the street line, where the level of the lowest occupiable floor is five feet or more above curb level, at least one of the following visual mitigation elements shall be provided. For such residences where the level of the lowest occupiable floor is nine feet or more above curb level, at least two of the following visual mitigation elements shall be provided.

(a) Porch

Where provided as a mitigating element, a porch shall have a finished floor at least six inches below the lowest occupiable floor and have a width at least 70 percent of the aggregate width of all street walls within 25 feet of the street line. The depth of the porch must be at least five feet, and the porch may not be closer to the street line than five feet. Open porches shall count as one mitigating element and roofed porches shall count as two mitigating elements, provided that for such roofed porches, all structural elements shall have a minimum width or depth of at least three inches, and such roof shall have a depth of at least five feet measured perpendicular to the street wall and extend along at least 70 percent of the width of the street wall. A balcony directly above a porch and a trellis or arbor with structural members spaced no further than 30 inches on center that cover such porch may be considered a porch roof for the purposes of this Section.
(b) Stair direction change

Where provided as a mitigating element, stairs shall be constructed between-grade and the #lowest occupiable floor# or porch, as applicable, which shall change direction at least 90 degrees in plan at a point no lower or higher than two feet from the beginning and end of the stair run.

c) Raised front yard

Where provided as a mitigating element, the grade between the #street line# and #street walls# within 25 feet of the #street line#, and their prolongations, shall be elevated above #curb level# so that a line drawn midway between the #street line# and such #street walls# and prolongations is at least 18 inches above #curb level# at all points, except for pedestrian ways, vehicular access and off-street parking spaces permitted pursuant to Section 64-50 (SPECIAL PARKING REGULATIONS). The area with final grade above #curb level# must be greater than 50 percent of the total area between the #street line# and #street walls# within 25 feet of the #street line# and their prolongations. Such raised #yards# shall be planted to comply with Section 23-451.

d) Trees or shrubs at least three feet high

Where provided as a mitigating element, trees or shrubs that attain a height of at least three feet shall be provided between the #street line# and #street walls# within 25 feet of the #street line# and their prolongations. Planting beds shall be at least three feet wide in plan, measured parallel and perpendicular to the #street line#. The length of each planted area shall be measured by inscribing each planted area within a rectangle and measuring the longest dimension of such rectangle. The total length of planted areas shall be greater than 60 percent of the #lot width#, and be planted to screen at least 50 percent of the length of the #street wall#.

However, no mitigation shall be required where more than 50 percent of the #street wall# of a #building# is within three feet of the #street line#.

[Note: Text to substitute Section 64-71]

For all #buildings# with #non-conforming uses#, the provisions of Sections 52-20 (REPAIRS OR ALTERATIONS), 52-40 (ENLARGEMENTS OR EXTENSIONS), and 52-50 (DAMAGE OR DESTRUCTION), inclusive, shall be modified to allow a #non-conforming use# to be continued, and a #building# with #non-conforming uses# to be altered, #enlarged#, relocated or reconstructed to comply with #flood-resistant construction standards#, pursuant to the provisions of this Section.
Where a building with non-conforming uses is also non-complying with the applicable bulk regulations, non-compliances may be continued, increased or newly created only in accordance with the provisions of Section 64-612 (Special floor area regulations for buildings with non-conforming uses), Section 64-613 (Special height regulations for buildings with non-conforming uses), and Section 64-614 (Process for establishing non-conforming uses), except that Section 64-622 (Special open area regulations for non-complying buildings) and Section 64-624 (Process for establishing non-compliances) may also apply, if applicable.

In addition, damage and destruction provisions set forth in Section 64-611 (Special regulations for damage or destruction provisions for buildings with non-conforming uses) shall apply to such buildings.

**64-611**

**Special regulations for damage or destruction provisions for buildings with non-conforming uses**

The provisions set forth in Sections 52-53 (Buildings or Other Structures in All Districts) and 52-54 (Buildings Designed for Residential Use in Residence Districts) shall be modified to allow all buildings containing non-conforming uses to be reconstructed, provided that:

(a) for non-conforming single- and two-family residences in Residence Districts and Commercial Districts, except C8 Districts, such reconstruction may exceed 75 percent of the total floor area of the building;

(b) for non-conforming single- and two-family residences in C8 Districts or Manufacturing Districts, such reconstruction may exceed 75 percent of the total floor area of the building provided that 25 percent or more of the aggregate length of the block frontage on both sides of the street facing each other is occupied by zoning lots containing residential or community facility uses;

(c) for all other buildings with non-conforming uses, the extent of reconstructed floor area shall not exceed 75 percent of the total floor area of the building.

**64-612**

**Special floor area regulations for buildings with non-conforming uses**

The maximum amount of non-conforming floor area in the altered, enlarged, relocated or
reconstructed #building# shall not exceed the amount of #non-conforming floor area# existing prior to the alteration or reconstruction work.

64-613
Special height regulations for buildings with non-conforming uses

The maximum height of such altered, #enlarged#, relocated or reconstructed #building# with #non-conforming uses#, shall not exceed the maximum height permitted by the applicable district regulations, except that for #non-conforming residences# in C8 Districts or #Manufacturing Districts#, the maximum height of such altered, #enlarged#, relocated or reconstructed #building#, shall comply with one of the following options:

(a) for #single# or #two-family residences#, a horizontal plane equivalent to a height of 35 feet, and for #buildings# other than #single# or #two-family residences#, the applicable #sky exposure plane# for the district; or

(b) for all #residences# a horizontal plane equivalent to the pre-existing height of such #building#, as measured from the top of the #lowest usable floor#, to the highest point of such pre-existing #building#, as measured from the #reference plane#.

64-614
Process for establishing non-conforming uses

For all #buildings# with #non-conforming uses# utilizing any of the provisions of this Section, the amount of pre-existing #non-conforming floor area# and pre-existing #non-compliances#, as applicable, shall be based either on construction documents for such #building# that were previously approved by the Department of Buildings at the time of construction, #enlargement#, or subsequent alteration, as applicable, of the #building# or, where an approved set of construction documents does not exist for such #building#, an as-built drawing set completed by a professional engineer or architect. The Department of Buildings may request additional information to substantiate proof of #non-conformances# and #non-compliances#, as applicable. Verification by the Department of Buildings of such pre-existing #non-conformances# and built conditions, as well as any pre-existing #non-complying# conditions, as applicable, documentation shall be a pre-condition prior to any demolition for reconstruction work, or alteration permit issued by the Department of Buildings for a #zoning lot# altering or reconstructing #buildings# with #non-conforming uses# and #non-compliances#, as applicable, pursuant to the provisions of this Section.
64-62
Design Requirements for Other Buildings in Residence Districts
Special Provisions for Non-complying Buildings

[Note: Existing text to be deleted and substituted by Section 64-50]

R1 R2 R3 R4 R5 R6 R7 R8 R9 R10

In the districts indicated, for all #buildings#, except #single # and #two-family residences#, where #street walls# are within 50 feet of the #street line#, the provisions of this Section, inclusive, shall apply.

[Note: Text to substitute Sections 64-722, 64-723, 64-724, 64-A12, 64-A22, 64-A23]

For all #non-complying buildings or other structures#, the provisions of Sections 54-20 (REPAIRS OR ALTERATIONS), 54-30 (ENLARGEMENTS OR CONVERSIONS), and 54-40 (DAMAGE OR DESTRUCTION IN NON-COMPLYING BUILDINGS), inclusive, shall be modified to allow a #non-compliance# to be continued, and such #non-complying building or other structure# to be altered, #enlarged#, relocated or reconstructed to comply with #flood-resistant construction standards#, subject to the permitted thresholds of Sections 54-41 (Permitted Reconstruction) and 54-42 (Use of Alternate Formula), and the provisions of this Section.

In addition, such altered, #enlarged#, relocated or reconstructed #building or other structure# may create a new #non-compliance# with, or increase the degree of existing #non-compliance# with the applicable #bulk# regulations for the district, subject to the applicable provisions of this Section, inclusive.

64-621
Planting requirement
Special floor area regulations for non-complying buildings

[Note: Existing text to be deleted and substituted by Section 64-50]

Where the level of the #lowest occupiable floor# is five or more feet above #curb level#, the area between the #street line# and all #street walls# of the #building# shall be planted at ground level, or in raised planting beds that are permanently affixed to the ground. Such planting shall consist of trees or shrubs within six feet of the #street wall# that attain a height of at least three feet. Such planting shall not be required at the entrances to and exits from the #building#, within driveways accessing off-street parking spaces located within, to the side, or rear of such #building#, or between #commercial uses# and the #street line#. Any such planted area shall have a depth of at
least three feet. Where ramps or stairs are located parallel to a street wall and within six feet of such street wall, minimum planting beds shall be provided between such ramps or stairs and the street line.

However, where street wall location rules would require a street wall to be located such that planting beds would be less than three feet in width, the provisions of this Section shall not apply.

For buildings with non-complying floor area, the maximum amount of floor area in the altered, enlarged, relocated or reconstructed building shall not exceed the amount of pre-existing floor area, nor shall it exceed the maximum floor area permitted by the applicable district regulations by more than 20 percent. In addition, subsequent to such alteration, enlargement, relocation or reconstruction, no extension or change of use may create a new non-compliance or increase the degree of existing non-compliance with floor area.

64-622
Lobby or non-residential use
Special open area regulations for non-complying buildings

[Note: Existing text to be deleted and substituted by Section 64-50]

Where the flood-resistant construction elevation is ten or more feet above curb level, a lobby with a minimum width of 20 feet shall be provided along the street wall at the level of the adjoining sidewalk or other publicly accessible open area, with a depth of at least 20 feet. For buildings with an aggregate width of street wall of more than 65 feet, such lobby width shall be at least 30 percent of the aggregate width of street wall, but need not be wider than 35 feet. For zoning lots with less than 25 feet of frontage along a street, a five-foot wide service corridor may be exempted from the requirements of this Section. Transparent glazing materials shall occupy at least 40 percent of the surface area of the street wall of the lobby, measured between a height of two feet above the level of the adjoining sidewalk or other publicly accessible open area and a height ten feet above the level of the first finished floor above curb level.

Any permitted non-residential use, other than accessory off-street parking or storage, may be substituted for lobby area required pursuant to this Section, provided that the required width, depth and transparency shall apply to such use.

However, where flood-resistant construction standards prohibit glazing due to the location of the building in a zone subject to wave action as indicated on flood maps, the glazing requirements of this Section shall not apply.

The following provisions may apply to non-complying buildings or other structures.
(a) Relocation allowances

Non-complying buildings or other structures may continue an existing non-compliance, increase the degree of an existing non-compliance, or create a new non-compliance with yards, open space, open space ratio, lot coverage, courts, minimum distances between two or more buildings, or minimum distances between legally required windows and walls or lot lines, in order to relocate or alter the footprint of the building, provided that:

(1) the resulting lot coverage shall be less than or equal to that of the pre-existing building or other structure as it existed prior to the alteration, enlargement, relocation or reconstruction work or the amount permitted by the district, as applicable, whichever is greater, except that, where the provisions of paragraph (b) of this Section are utilized, the first story above the flood elevation and any stories below, may be exempted from such calculation;

(2) a new or increased non-compliance into an open area shall not exceed a horizontal distance of five feet, as measured perpendicular to the outermost edge of the non-complying building or other structure, as it existed prior to the alteration, enlargement, relocation or reconstruction work, except that such limitation shall not apply:

(i) where the pre-existing building or other structure is located either partially or entirely seaward of the shoreline, and such building or other structure will be altered, enlarged, relocated or reconstructed to be repositioned landward of the shoreline on the same zoning lot; or

(ii) where additional distance is necessary to accommodate access, including stairs, ramps or lifts in a required yard, provided that any additional encroachment is limited to the depth of such access;

(3) any new or increased non-compliance shall not result in an open area of:

(i) less than five feet between the wall of a building or other structure and a rear lot line;

(ii) less than three feet between the wall of a building or other structure and a front lot line, in districts with yard requirements; and

(iii) three feet between the wall of a building or other structure and a side lot
Honorable Marisa Lago, Chair
Application No.: N 210095 ZRY (Pre. L.U. No. 765)
April 28, 2021
Page 111 of 238

line# for #detached buildings# in districts that do not allow #zero lot line buildings#: and

(4) the height of #buildings or other structures# within #non-complying yards# or #open space#, as measured from the #reference plane#, shall not exceed the height set forth in paragraph (a) of Section 64-623 (Special height regulations for non-complying buildings).

(b) Allowances for horizontal expansions

The #first story above the flood elevation# and #stories# located below such #story#, may create a new #non-compliance# with, or increase the degree of existing #non-compliance# with the applicable #rear yards#, #open space#, #open space ratio#, or #lot coverage# regulations for the district, provided that:

(1) the increased #lot coverage# does not exceed an additional 20 percent of such #lot coverage# permitted by the underlying regulations in R1-2A, R2A, R3-1, R3-2, R4, R4B, R5, R5B, and R5D Districts;

(2) the increased #lot coverage# does not exceed an additional 20 percent of the maximum footprint permitted by applying the applicable district #rear, side and front yard# regulations in R2X, R3A, R3X, R4-1, R4A, and R5A Districts;

(3) for #single-# or #two-family residences#, the encroachment into a #rear yard# does not result in a #rear yard# with a depth of less than 20 feet; and

(4) in all districts, the encroachment into a required open area does not exceed a height of 15 feet, as measured from the #first story above the flood elevation#.

Nothing in this Section shall affect the permitted obstruction allowances set forth by the district regulations.

64-623
Special height regulations for non-complying buildings

For #buildings or other structures# that are #non-complying# with the applicable district height and setback regulations, the maximum height of such altered, #enlarged#, relocated or reconstructed #building or other structure#, shall not exceed the height permitted pursuant to either paragraph (a) or (b) of this Section, as applicable. An alteration, #enlargement#, relocation or reconstruction pursuant to this Section may continue an existing #non-compliance#, increase the
degree of an existing #non-compliance#, or create a new #non-compliance# with height and setback regulations, and may continue or increase a #non-compliance# with other #bulk# regulations associated with such #non-complying# height, subject to the limitations of this Section. All permitted obstruction allowances shall be measured with respect to the modified envelopes of this Section.

(a) For pre-existing #buildings or other structures# that do not exceed the overall permitted height

Where the height of a pre-existing #building or other structure# does not exceed the overall height permitted by the applicable district regulations, as measured from the top of the #lowest usable floor# to the highest point of such pre-existing #building#, the height of such altered, #enlarged#, relocated or reconstructed #building or other structure# shall not exceed:

(1) the applicable #sky exposure plane#, for #buildings# governed by #sky exposure planes# as measured from the #reference plane#; or

(2) a horizontal plane equivalent to the maximum #building# height permitted by the applicable district for all other #buildings# as measured from the #reference plane#.

(b) For pre-existing #buildings or other structures# that exceed the overall permitted height

Where the height of a pre-existing #building or other structure# exceeds the overall height permitted by the applicable district regulations, as measured from the top of the #lowest usable floor# to the highest point of such pre-existing #building#:

(1) the height of such altered, #enlarged#, relocated or reconstructed #building or other structure# as measured from the #reference plane# shall not exceed a horizontal plane equivalent to the pre-existing height of such #building#, as measured from the top of the #lowest usable floor#, to the highest point of such pre-existing #building#, provided also that such height shall not exceed the overall height permitted by the applicable district regulations by 10 percent, or 10 feet, whichever is less; and

(2) for #single# or #two-family residences# in R1-2A, R2A, R2X, R3, R4, R4-1, R4A, or R5A Districts, where the degree of the alteration or reconstruction exceeds 75 percent of the #floor area#, the height of a perimeter wall of such altered, #enlarged#, relocated or reconstructed #building or other structure# as measured from the #reference plane# shall not exceed the higher of the maximum perimeter wall height for the district, or the pre-existing height of such perimeter wall, as
measured from the top of the #lowest usable floor# to the highest point in such pre-existent #building# before setback.

However, the height allowances of this Section shall not apply to #single# or #two-family residences# that are not #non-complying# with #floor area# requirements, or where the provisions of paragraph (b) Section 64-622 (Special open area regulations for non-complying buildings) are utilized.

64-624
Process for establishing non-compliances

For all #non-complying buildings or other structures# utilizing any of the provisions of this Section, the amount of pre-existing #non-compliances# shall be based either on the construction documents of such #building or other structure# previously approved by the Department of Buildings at the time of construction, #enlargement#, or subsequent alteration of such #building or other structure#, as applicable, or, where an approved set of construction documents does not exist for such #building or other structure#, an as-built drawing set completed by a professional engineer or architect. The Department of Buildings may request additional information to substantiate proof of #non-compliances#. Verification by the Department of Buildings of such pre-existing #non-complying# conditions documentation shall be a pre-condition prior to any demolition for reconstruction work, or alteration permit issued by the Department of Buildings for a #zoning lot# altering or reconstructing #non-compliances# pursuant to the provisions of this Section.

64-63
Design Requirements for Residential Buildings in Commercial Districts

[Note: Existing text to be deleted and substituted by Section 64-50]

C1 C2 C3 C4 C5 C6

In the districts indicated, and in #Special Mixed Use Districts#, for all #residential buildings#, except #single# and #two-family residences#, where #street walls# are within 50 feet of the #street line#, and where the level of the #lowest occupiable floor# is five feet or more above #curb level#, the provisions of Section 64-62 (Design Requirements for Other Buildings in Residence Districts) shall apply.
Design Requirements for Non-Residential and Mixed Buildings in Commercial and Manufacturing Districts

Transparency requirements

[Note: Existing text to be deleted and substituted by Section 64-50]

C1 C2 C3 C4 C5 C6 C7 C8 M1 M2 M3

In the districts indicated, the provisions of this Section shall apply to all buildings, other than:

(a) residential buildings; and

(b) in C8 Districts and Manufacturing Districts, other than Special Mixed Use Districts, buildings containing predominantly Use Group 16, 17 or 18 uses.

Where street walls are within 50 feet of the street line, and where flood-resistant construction elevation is ten feet or more above curb level, a portion of the street wall with a minimum of 20 feet in width shall provide transparent glazing materials occupying a minimum of 50 percent of the surface area of such street wall portion, measured between a height of two feet above the level of the adjoining sidewalk or other publicly accessible open area and a height 12 feet above the level of the first finished floor above curb level. The floor level behind such transparent glazing materials shall not exceed the level of the window sill for a depth of at least four feet, as measured perpendicular to the street wall. For buildings with an aggregate width of street wall of more than 65 feet, such transparent portion of the street wall shall be at least 30 percent of the aggregate width of street wall, but need not be wider than 35 feet.

However, where flood-resistant construction standards prohibit glazing due to the location of the building in a zone subject to wave action as indicated on flood maps, the glazing requirements of this Section shall not apply.

Transparency requirements for buildings utilizing alternative height measurement

[Note: Existing text to be deleted and substituted by Section 64-50]

C1 C2 C3 C4 C5 C6 C7 C8 M1 M2 M3
In the districts indicated, for all #buildings# utilizing the provisions of Section 64-346 (Alternative height measurement in Commercial and Manufacturing Districts), paragraph (b), #street walls# shall be glazed with transparent materials which may include #show windows#, transom windows or glazed portions of doors. Furthermore, such transparent glazing materials shall occupy at least 50 percent of the surface area of such #street wall#, measured between a height of two feet above the level of the adjoining sidewalk or other publicly accessible open area and a height of 12 feet above the level of the first finished floor above #curb level#. The floor level behind such transparent glazing materials shall not exceed the level of the window sill for a depth of at least four feet, as measured perpendicular to the #street wall#.

64-65
Screening Requirements for Parking Within or Below Buildings

[Note: Existing text moved to Section 64-53 and modified]

The provisions of this Section shall apply to all #buildings#, other than:

(a) #single# or #two-family residences#; and

(b) in C8 Districts and #Manufacturing Districts#, other than #Special Mixed Use Districts#, #buildings# containing #predominantly# Use Group 16, 17 or 18 #uses#.

#Buildings# in existence prior to October 9, 2013, shall not be altered in any way that will create a new #non-compliance# or increase the degree of #non-compliance# with the provisions of this Section.

Where the #flood-resistant construction elevation# is five or more feet above #curb level# and the #street wall# of a #building# is within 50 feet of the #street line#, for any level where off-street parking is provided within or below a #building#, such parking shall be screened from the #street line# with a #street wall# that is at least 50 percent opaque. Each one-foot square portion of such #street wall# shall comply individually with this requirement.

In case of a conflict between the provisions of this Section and the provisions of another Chapter, the more restrictive provisions shall apply.

64-70
SPECIAL REGULATIONS FOR NON-CONFORMING USES AND NON-COMPLYING
BUILDINGS

[Note: Section 64-70 to be deleted and substituted by Section 64-60]

64-71
Non-Conforming Uses

64-711
Reconstruction of buildings damaged more than 50 percent

[Note: Existing text to be deleted and substituted by Section 65-21 (a)]

Section 52-53 (Buildings or Other Structures in All Districts), inclusive, shall be modified to allow the reconstruction of a #non-conforming use# where a #building# containing such #use# is damaged to the extent of 50 percent or more due to the effects of #Hurricane Sandy#, provided such reconstruction is the subject of an application for approval of construction documents that has been approved by the Department of Buildings no later than one year following the City’s adoption of new final Flood Insurance Rate Maps that supersede the Flood Insurance Rate Maps in effect on October 28, 2012. Construction pursuant to such approval may continue until a date six years after the adoption of such superseding Flood Insurance Rate Maps. After such date, the vesting provisions of Section 11-30 (Building Permits Issued Before Effective Date of Amendment) shall apply as if the change in #flood map# were a change in provisions of the Zoning Resolution.

However, this provision shall not apply to #non-conforming residences# in C8 Districts or #Manufacturing Districts#, or to #non-conforming manufacturing uses# located in #Residence Districts# or #Commercial Districts# other than C8 Districts.

64-712
Single- and two-family buildings

[Note: Existing text to be deleted and substituted by Section 64-61]

For #non-conforming single-# and #two-family residences#, except #non-conforming residences# in C8 Districts or #Manufacturing Districts#, reconstruction shall be permitted, provided such reconstruction is the subject of an application for approval of construction documents that has been approved by the Department of Buildings no later than six years following the City’s adoption of new final Flood Insurance Rate Maps that supersede the Flood Insurance Rate Maps in effect on October 28, 2012. Construction pursuant to such approval may continue until a date ten years after
the adoption of such superseding Flood Insurance Rate Maps. After such date, the vesting
provisions of Section 11-30 (Building Permits Issued Before Effective Date of Amendment) shall
apply as if the change in #flood map# were a change in provisions of the Zoning Resolution.

64-72
Non-Complying Buildings

64–721
Reconstruction of buildings damaged more than 75 percent

[Note: Existing text to be deleted and substituted by Section 65-21 (b)]

Section 54-40 (DAMAGE OR DESTRUCTION IN NON-COMPLYING BUILDINGS) shall be
modified to allow the reconstruction of a #non-complying building# where such #building# is
damaged to the extent of 75 percent or more due to the effects of #Hurricane Sandy#, provided
such reconstruction is the subject of an application for approval of construction documents that
has been approved by the Department of Buildings no later than one year following the City’s
adoption of new final Flood Insurance Rate Maps that superseded the Flood Insurance Rate Maps
in effect on October 28, 2012. Construction pursuant to such approval may continue until a date
six years after the adoption of such superseding Flood Insurance Rate Maps. After such date, the
vesting provisions of Section 11-30 (Building Permits Issued Before Effective Date of
Amendment) shall apply as if the change in #flood map# were a change in provisions of the Zoning
Resolution.

64–722
Single- and two-family residences in required front yards

[Note: Existing text to be deleted and substituted by Section 64-62]

The provisions of Article V, Chapter 4, shall be modified in order to accommodate stair access in
a #front yard#, #Single# and #two-family residences# with #non-complying front yards# existing
on October 28, 2012, may be relocated or reconstructed in a location further from the #front lot
line# on the same #zoning lot#, and thereby create or increase an encroachment in a #side yard#,
#rear yard# or #rear yard equivalent#, provided that:

(a) any encroachment or further encroachment into a required #side# or #rear yard# or #rear
yard equivalent# at the rear of the original #building# location is limited to a depth equal
to the reduction of encroachment of the #building#, excluding stairs in the #front yard#;
Honorable Marisa Lago, Chair
Application No.: N 210095 ZRY (Pre. L.U. No. 765)
April 28, 2021
Page 118 of 238

(b) a distance of at least eight feet shall be maintained between the rear wall of the building and all other residences on the same or adjoining zoning lots; and

c) at least four feet of a rear yard shall be free of any encroachment, measured perpendicular to the rear lot line or, in a rear yard equivalent, at least eight feet shall be free of encroachment.

64-723
Non-complying single-and two-family residences

[Note: Existing text to be deleted and substituted by Section 64-62]

(a) The provisions of Article V, Chapter 4, shall be modified to permit single and two-family residences that are non-complying and existing on October 28, 2012, to be vertically elevated, or reconstructed to a higher elevation in order to raise the lowest floor level containing habitable space that was located at or above the adjoining grade as of October 28, 2012 to flood-resistant construction elevation.

Where the elevation requirements of Appendix G of the New York City Building Code apply to the lowest horizontal structural member, the provisions of Article V, Chapter 4, shall be modified to permit single and two-family residences that are non-complying and existing on October 28, 2012, to be vertically elevated, or reconstructed to a higher elevation, in order to raise the lowest horizontal structural member supporting the lowest floor containing habitable space that was located at or above the adjoining grade as of October 28, 2012, to flood-resistant construction elevation.

Such vertical elevation or reconstruction may create a new non-compliance as to height and setback, or increase any existing non-compliances as to height and setback, required open space and yard regulations to the extent that such lowest floor level is elevated or reconstructed to flood-resistant construction elevation. However, all other provisions of Article V, Chapter 4, shall apply without modification.

This Section shall not preclude the construction of complying enlargements or other complying buildings or other structures on the zoning lot.

Furthermore, the provisions of Section 23-86 (Minimum Distance Between Legally Required Windows and Walls or Lot Lines) shall not apply to such elevated, relocated or reconstructed buildings.
(b) For non-complying single and two-family residences, reconstruction shall be permitted, provided such reconstruction is the subject of an application for approval of construction documents that has been approved by the Department of Buildings no later than six years following the City’s adoption of new final Flood Insurance Rate Maps that supersede the Flood Insurance Rate Maps in effect on October 28, 2012. Construction pursuant to such approval may continue until a date ten years after the adoption of such superseding Flood Insurance Rate Maps. After such date, the vesting provisions of Section 11-30 (Building Permits Issued before Effective Date of Amendment) shall apply as if the change in flood map were a change in provisions of the Zoning Resolution.

64-724
Special provisions for other buildings within flood zones

[Note: Existing text to be deleted and substituted by Section 64-62]

Non-complying buildings may be elevated or reconstructed to an increased height, which at all points does not exceed the difference between flood-resistant construction elevation and the applicable datum from which height is measured pursuant to the underlying regulations. Such elevation or reconstruction may create a new non-compliance or increase the degree of an existing non-compliance.

64-80
MODIFICATION OF SPECIAL REGULATIONS APPLYING IN WATERFRONT AREAS

[Note: Existing text to be deleted]

The following regulations shall apply in flood zones and shall modify regulations set forth in Article VI, Chapter 2 (Special Regulations Applying in Waterfront Areas).

64-81
Modification of Waterfront Public Access and Visual Corridor Regulations for Substantially Damaged Buildings

[Note: Existing text to be deleted and substituted by Section 65-21]

Sections 62-50 (GENERAL REQUIREMENTS FOR VISUAL CORRIDORS AND WATERFRONT PUBLIC ACCESS AREAS), inclusive, and 62-811 shall not apply to the
reconstruction of #buildings# that sustained substantial damage, as defined in Appendix G of the New York City Building Code, due to the effects of #Hurricane Sandy#, provided that:

(a) such #buildings# had no more than 20,000 square feet of #floor area# prior to October 28, 2012;

(b) the dimensions of the #building# footprint are no greater than the footprint that existed on October 28, 2012;

(c) if such #building# is repositioned on the #zoning lot#, such repositioning does not newly encroach, or further encroach into a required #yard#, #rear yard equivalent#, #visual corridor# or existing #public access area#, as defined in Article VI, Chapter 2; and

(d) the reconstruction does not result in a change of #use# from that existing on October 28, 2012.

The provisions of this Section shall apply to #buildings# that are the subject of an application for approval of construction documents that has been approved by the Department of Buildings no later than one year after the adoption of new final Flood Insurance Rate Maps that supersede the maps in effect on October 28, 2012. Construction pursuant to such approval may continue until a date six years after the adoption of such superseding Flood Insurance Rate Maps. After such date, the vesting provisions of Section 11-30 (Building Permits Issued Before Effective Date of Amendment) shall apply as if the change in #flood map# were a change in provisions of the Zoning Resolution.

64-82
Modification of Waterfront Regulations Relating to Level of Yards, Visual Corridors and the Ground Floor

[Note: Existing text to be deleted]

The provisions of paragraphs (a) and (b) of this Section shall apply to all #zoning lots#, without requiring a #building# to comply with #flood-resistant construction standards# as established in paragraph (a) of Section 64-12 (Applicability).

Within the area that has a one percent chance of flooding in a given year, as determined by the Federal Emergency Management Agency (FEMA) in #flood maps# or by earlier adopted Flood Insurance Rate Maps, certain provisions regarding #waterfront yards# and #visual corridors#, as defined in Section 62-11, and ground floor #uses#, are modified as follows:
(a) **#Waterfront yards#**

[Note: Existing text moved to Section 62-332 and modified]

Section 62-332 (Rear yards and waterfront yards) shall be modified to allow the level of a #waterfront yard# to be raised above the elevation of the top of the adjoining existing bulkhead, existing stabilized natural shore or mean high water line, as applicable, provided that:

1. where a #waterfront yard# terminates at a #lot line#, the grade of the #waterfront yard# shall be no higher than the grade of the adjacent #street# or #zoning lot#, except that natural grade need not be disturbed to comply with this requirement;

2. for #zoning lots# without a #shore public walkway#, as defined in Section 62-11, the maximum grade of the #waterfront yard#, measured parallel to the #shoreline#, shall not exceed three percent; and

3. for #zoning lots# with a #shore public walkway#, as defined in Section 62-11, the maximum grade shall be determined by the maximum permitted grade of the circulation path and the provisions of Section 62-60 (DESIGN REQUIREMENTS FOR WATERFRONT PUBLIC ACCESS AREAS).

(a) **#Visual corridors#**

[Note: Existing text moved to Section 62-512 and modified]

Section 62-512 (Dimensions of visual corridors) shall be modified so that the lowest level of a #visual corridor# shall be determined by establishing a plane connecting the two points along the #street lines# from which the #visual corridor# emanates at an elevation three feet above #curb level# with the two points where the prolonged #street lines# intersect the #shoreline#, stabilized natural shore, bulkhead, upland edge of a #waterfront yard# raised pursuant to the provisions of paragraph (a) of this Section, or the #base plane# of a #pier# or #platform#, whichever intersection occurs first. Such plane shall then continue horizontally seaward from the line of intersection. #Visual corridors# that are not prolongations of mapped #streets# shall be determined by establishing a plane connecting an elevation three feet above #curb level# at the two points along the #lot line# from which the #visual corridor# emanates with the two points of intersection at the #shoreline#, stabilized natural shore, bulkhead, upland edge of a #waterfront yard# raised pursuant to the provisions of paragraph (a) of this Section, or the #base plane# of a #pier# or #platform#, whichever intersection occurs first.
(c)——Ground-floor

[Note: Existing text to be deleted]

Section 62-341 (Developments on land and platforms), paragraph (c)(6), shall be modified so that “ground-floor level” shall mean the lowest level permitted for habitable use as if it were “Post-FIRM Construction” as defined by Appendix G of the New York City Building Code, using elevation and wet flood-proofing techniques, provided that where such lowest permitted level would be less than five feet above the finished level of the adjacent sidewalk, such level need not be lower than five feet above the finished level of the adjacent sidewalk.

64-90 SPECIAL APPROVALS

64-91 Modification of Certain Certification Requirements in the Special South Richmond Development District

[Note: Existing text to be deleted]

The provisions of this Section shall apply without requiring a building to comply with flood-resistant construction standards as established in paragraph (a) of Section 64-12 (Applicability).

In the Special South Richmond Development District, Sections 107-22 (Designated Open Space), inclusive, and 107-23 (Waterfront Esplanade) shall not apply to the reconstruction or repair of buildings that were damaged due to the effects of Hurricane Sandy, provided that:

(a) the dimensions of the building footprint are no greater than the footprint that existed on October 28, 2012; and

(b) there is no increase in impervious surfaces on the zoning lot.

In addition, the provisions of Section 107-22, inclusive, shall not apply to a site alteration that is not a development or enlargement where the Commissioner of Buildings determines it is the minimum necessary to enable the reconstruction of a building.

These provisions shall not affect the terms of a certification previously made by the City Planning Commission. The provisions of this Section shall apply to buildings that are the subject of an application for approval of construction documents that has been approved by the Department of
Buildings no later than one year after the adoption of new final Flood Insurance Rate Maps that supersede the maps in effect on October 28, 2012. Construction pursuant to such approval may continue until a date six years after the adoption of such superseding Flood Insurance Rate Maps. After such date, the vesting provisions of Section 11-30 (BUILDING PERMITS ISSUED BEFORE EFFECTIVE DATE OF AMENDMENT) shall apply as if the change in flood map were a change in provisions of the Zoning Resolution.

64-92
Special Permit for Modification of Certain Zoning Regulations

[Note: Existing text moved to Section 73-71 and modified]

In order to allow for the alteration of existing buildings in compliance with flood-resistant construction standards and for developments and enlargements in compliance with flood-resistant construction standards, the Community Board of Standards and Appeals may permit modification of Section 64-60 (DESIGN REQUIREMENTS), the bulk regulations of Sections 64-30, 64-40 (SPECIAL BULK REGULATIONS FOR BUILDINGS EXISTING ON OCTOBER 28, 2012) and 64-70 (SPECIAL REGULATIONS FOR NON-CONFORMING USES AND NON-COMPLYING BUILDINGS), as well as all other applicable bulk regulations of the Zoning Resolution, except floor area ratio regulations, provided the following findings are made:

(a) that there would be a practical difficulty in complying with flood-resistant construction standards without such modifications, and that such modifications are the minimum necessary to allow for an appropriate building in compliance with flood-resistant construction standards;

(b) that any modification of bulk regulations related to height is limited to no more than 10 feet in height or 10 percent of permitted height as measured from flood-resistant construction elevation, whichever is less; and

(c) the proposed modifications will not alter the essential character of the neighborhood in which the building is located, nor impair the future use or development of the surrounding area in consideration of the neighborhood’s potential development in accordance with flood-resistant construction standards.

The Community Board may prescribe appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding area.
Appendix A
Special Regulations for Neighborhood Recovery

[Note: Appendix A to be deleted, unless otherwise noted]

64-A00
GENERAL PROVISIONS

The provisions of this Resolution shall apply as modified by this Chapter and by the special regulations set forth in this Appendix. The provisions of this Appendix are optional, but when utilized, shall be applied in their entirety. This Appendix shall be in effect until July 23, 2020, at which time it shall automatically expire.

64-A01
Applicability of Special Regulations for Neighborhood Recovery

The provisions of this Appendix shall only be applicable to #buildings# containing #residential use# whose vertical elevation or reconstruction will result in a #single-# or #two-family residence# that complies with #flood-resistant construction standards#, where such #building# is located in a Neighborhood Recovery Area (Section 64-A80), inclusive.

64-A02
Special Requirements for Application

Prior to the approval of any application to the Department of Buildings pursuant to this Appendix, an applicant shall submit the following documents in order to establish that there was a #building# on the subject lot that contained a #residential use# on October 28, 2012:

(a) — an aerial photograph taken up to one year prior to October 28, 2012, establishing that a #building# existed on the subject lot on October 28, 2012; and

(b) — a 2012 tax bill or assessment roll for the subject lot stating that such #building# contained a #residential use#.

Where the documents specified in this Section are unavailable or inconclusive, the Department of Buildings may accept alternative documentation to satisfy the requirements of paragraphs (a) or (b).
64-A03
Zoning Lots in Neighborhood Recovery Areas

The definition of #zoning lot# set forth in Section 12-10 (DEFINITIONS) shall apply in this Appendix. However, as an option, where a tax lot contained one or more #buildings# on October 28, 2012, or where a #building# or #buildings# occupied more than one tax lot on October 28, 2012, such tax lot may be provisionally considered a #zoning lot# for the sole purpose of demonstrating compliance with the #bulk# requirements of this Resolution, and shall be referred to as a #zoning lot# in this Appendix, provided that the proposed application will not affect compliance with any applicable provisions of the New York City Building Code or Fire Code with respect to access to the same or other #zoning lots# on the same #block#, unless a waiver or modification is obtained from the Department of Buildings or the Fire Department, respectively.

64-A10
SPECIAL REGULATIONS FOR ESTABLISHING NON-CONFORMANCE AND NON-COMPLIANCE

64-A11
Special Regulations for Establishing Non-conformance of Residences

In all #districts#, for a #zoning lot# that contained two or more #dwelling units# on October 28, 2012, and does not have lawful documentation indicating that more than one #dwelling unit# existed on the #zoning lot# on such date, the Community Board of Standards and Appeals may permit the vertical elevation or reconstruction of #buildings# containing such #dwelling units# and may establish #non-conformance# of such #buildings#, pursuant to Section 64-A71 (Special Permit for Establishing Non-conformance).

64-A12
Special Regulations for Establishing Non-compliance of Existing Buildings

In all districts, a #building# containing #residences#, and any other structure that is attached to such #building#, including porches, stairs, terraces or balconies, that existed both on October 28, 2012, and on the date of application for a building permit, may be considered #non-complying# for the purpose of utilizing the applicable provisions of Article V, Chapter 4 and Article VI, Chapter 4 of this Resolution relating to #non-complying buildings or other structures#, provided that:

(a) — a survey, prepared by a licensed land surveyor, specifying the location and height of such
and any other structures that are attached to such building, is submitted as documentation of such non-compliance; and

(b) such building shall either be vertically elevated in compliance with the bulk provisions of Section 64-A20 (SPECIAL BULK REGULATIONS FOR THE VERTICAL ELEVATION OF EXISTING BUILDINGS), or be reconstructed in compliance with the bulk provisions of Section 64-A30 (SPECIAL BULK REGULATIONS FOR THE RECONSTRUCTION OF BUILDINGS EXISTING ON OCTOBER 28, 2012).

Upon completion and sign-off of work completed pursuant to the provisions of this Appendix, the building shall be considered non-complying.

64-A20
SPECIAL BULK REGULATIONS FOR THE VERTICAL ELEVATION OF EXISTING BUILDINGS

The provisions of this Section shall apply to the vertical elevation of buildings containing residences that existed on October 28, 2012. Except as specifically modified by the provisions of this Section, inclusive, the applicable bulk regulations of this Chapter, the regulations of Article V of this Resolution and the applicable zoning district shall remain in effect.

No building that is vertically elevated pursuant to this Section shall subsequently be enlarged pursuant to paragraph (b) of Section 54-313 (Single- or two-family residences with non-complying front yards or side yards) or Section 73-622 (Enlargements of single- and two-family detached and semi-detached residences).

64-A21
Special Regulations for Rebuilt Portions of Vertically Elevated Buildings

A portion of a building that is being vertically elevated pursuant to this Appendix may be rebuilt, provided that:

(a) the rebuilt portion does not exceed 75 percent of the existing floor area of such building; and

(b) except as specifically allowed by this Chapter, no new non-compliance shall be created, nor shall the degree of any existing non-compliance be increased beyond that established pursuant to Section 64-A10 (SPECIAL REGULATIONS FOR ESTABLISHING NON-CONFORMANCE AND NON-COMPLIANCE).
If the rebuilt portion of a #building# exceeds 75 percent of the existing #floor area# of the #building#, such #building# shall be subject to the regulations of 64-A30 (SPECIAL BULK REGULATIONS FOR THE RECONSTRUCTION OF BUILDINGS EXISTING ON OCTOBER 28, 2012).

64-A22
Special Regulations for Space Partially Below Grade

For a #building# where the lowest floor containing habitable space is partially below adjoining grade, and at least one-half of the floor-to-ceiling height of such floor is above adjoining grade, such #building# may be vertically elevated in order to raise the lowest floor containing habitable space to the #flood-resistant construction elevation#, provided that:

(a) the elevated #building# does not exceed two #stories#, except that attic space providing structural headroom of less than eight feet shall not be considered a #story# for the purposes of this Section; and

(b) the height of such elevated #building#, including the apex of a pitched roof, does not exceed 25 feet, as measured from the #flood-resistant construction elevation#.

Any floor space that becomes #floor area# in excess of the maximum permitted #floor area ratio# for such #zoning lot#, as a result of the vertical elevation, shall be considered #non-complying floor area#. Such vertical elevation may increase any existing #non-compliances# with respect to required #open space# and #yard# regulations to the extent that such #non-compliance# results from the elevation of the lowest floor to the #flood resistant construction elevation#. All other provisions of Article V, Chapter 4 (Non-complying Buildings), shall apply without modification.

The level of the adjoining grade shall be the average elevation of the grade adjoining the building, before it is elevated, determined in the manner prescribed by the Building Code of the City of New York for adjoining-grade elevation.

64-A23
Special Regulations for Existing Buildings Located Over Water

For a #building# that will be vertically elevated and is located either partially or entirely seaward of the #shoreline#, such #building# may be relocated landward of the #shoreline# on the same #zoning lot#. Such relocation may create a new #non-compliance# or increase the degree of any existing #non-compliance# as to #side yards#, waterfront yards, #rear yards# or #rear yard.
equivalents#, provided that:

(a) an open area of at least three feet shall be maintained between the exterior wall of the #building# and any #lot line#; and

(b) except as specifically allowed by this Chapter, no new #non-compliance# shall be created, nor shall the degree of any existing #non-compliance# be increased, beyond that established pursuant to Section 64-A12 (Special Regulations for Establishing Non-compliance of Existing Buildings).

64-A24
Permitted Obstructions in Required Open Space, Yards and Courts

The provisions of Sections 23-12 (Permitted Obstructions in Open Space), 23-44 (Permitted Obstructions in Required Yards or Rear Yard Equivalents) and 64-421 (Permitted obstructions) shall be modified such that:

(a) mechanical equipment including, but not limited to, #accessory# heating and cooling equipment, fuel oil tanks and emergency generators shall be permitted obstructions in #open space# required on the #zoning lot#, in any #side yard#, #rear yard# or #rear yard equivalent# and in #courts#, provided such equipment is:

(1) located at least three feet from any #lot line#;

(2) screened on all sides by walls consisting of at least 50 percent opaque materials; and

(3) in compliance with the standards of either of the following provisions:

(i) all structures and screening are located no more than 10 feet from the wall of a #building# and limited to a height of no more than 12 feet above #flood-resistant construction elevation#; or

(ii) is located on the roof of a #building or other structure#, provided that the height of such equipment and screening does not exceed six feet, as measured from the finished level of a flat roof or, for a sloping roof, as measured from the midpoint of such roof. Such equipment shall be located not less than 15 feet from any #street wall# of a #building or other structure#.
(b) – visual mitigation elements, provided pursuant to Section 64-A50 (SPECIAL DESIGN REQUIREMENTS) shall be permitted obstructions in any #open-space# required on the #zoning-lot#, in any #yard# and in #courts#.

64-A30
SPECIAL BULK REGULATIONS FOR THE RECONSTRUCTION OF BUILDINGS EXISTING ON OCTOBER 28, 2012

[Note: Existing text moved to Section 64-33 and modified]

The #bulk# regulations of this Section shall apply only to the permitted reconstruction of a #building# that existed on October 28, 2012, and results in a #single-# or #two-family detached residence#. Except as specifically modified by the provisions of this Section, inclusive, the #bulk# regulations of this Chapter and the applicable zoning district shall remain in effect. #Buildings# reconstructed pursuant to this Section shall not be considered #developments# or #enlargements#.

No #building# that is reconstructed pursuant to this Section shall subsequently be #enlarged# pursuant to paragraph (b) of Section 54-313 (Single- or two-family residences with non-complying front yards or side yards) or Section 73-622 (Enlargements of single- and two-family detached and semi-detached residences).

64-A31
Special Regulations for Minimum Required Open Space, Maximum Lot Coverage and Maximum Floor Area

64-A311
Lot coverage and open-space

[Note: Existing text moved to Section 64-332 (a) and modified]

R1-2A R2A R3-1 R3-2 R4 R4-1 R4A

In the districts indicated, for #zoning lots# that do not meet the required minimum #lot area# or #lot width# of the applicable district, #lot coverage# and #open space# shall be governed by the #yard# requirements set forth in Section 64-A35 (Special Yard Regulations).
64-A312
Floor area

R2X R3 R4 R4-1 R4A

In the districts indicated, the floor area ratio set forth in Section 23-142 (Open space and floor area regulations in R1 and R2 Districts with a letter suffix and R3 through R5 Districts) may be increased by 20 percent provided that any such increase in floor area is located in any portion of a building covered by a sloping roof that rises at least seven inches in vertical distance for each foot of horizontal distance.

64-A313
Special open space, lot coverage and floor area regulations for small lots

R1 R2 R3 R4 R5 R6

In the districts indicated, for zoning lots with a lot area of less than 1,800 square feet, open space, lot coverage and floor area ratio regulations shall not apply. In lieu thereof, the yard requirements set forth in Section 64-A35 (Special Yard Regulations) and the height and setback requirements of Section 64-A36 (Special Height and Setback Regulations) shall govern.

64-A32
Special Regulations for Maximum Number of Dwelling Units and Minimum Size of Dwelling Units

64-A321
Maximum number of dwelling units

R1 R2 R3 R4 R5 R6

In the districts indicated, the provisions of Section 23-22 (Maximum Number of Dwelling Units) shall not apply. In lieu thereof, not more than one single-family detached residence or, where permitted in the applicable zoning district pursuant to Section 22-12 (Use Group 2), one two-family detached residence, may be reconstructed. However, any two-family detached residence may only be reconstructed if such zoning lot contained two or more dwelling units on October 28, 2012, as indicated on the certificate of occupancy or upon approval by the Community Board of Standards and Appeals pursuant to Section 64-A71 (Special Permit for Establishing Non-conformance).
64-A322
Minimum size of dwelling units

R3-R4-1-R4A

In the districts indicated, the minimum size of a dwelling unit as set forth in paragraph (b) of Section 23-23 shall not apply to the permitted reconstruction of a two-family detached residence.

64-A33
Special Regulations for Minimum Lot Area or Lot Width for Residences

In all districts, including lower density growth management areas, either one single-family detached residence or, where permitted in the applicable zoning district pursuant to Section 22-12 (Use Group 2) one two-family detached residence, may be reconstructed upon a zoning lot that:

(a) has less than the prescribed minimum lot area or lot width as required by the applicable district regulations; and

(b) if reconstructed as a two-family detached residence, either:

(1) complies with the maximum number of dwelling units requirement of the applicable zoning district; or

(2) such zoning lot contained two or more dwelling units on October 28, 2012, as indicated on the certificate of occupancy or upon approval by the Community Board of Standards and Appeals pursuant to Section 64-A71 (Special Permit for Establishing Non-conformance).

64-A34
Permitted Obstructions in Required Open Space, Yards and Courts

The provisions of Sections 23-12 (Permitted Obstructions in Open Space), 23-44 (Permitted Obstructions in Required Yards or Rear Yard Equivalents) and 64-421 (Permitted obstructions) shall be modified as follows:
Honorable Marisa Lago, Chair  
Application No.:  N 210095 ZRY (Pre. L.U. No. 765)  
April 28, 2021  
Page 132 of 238

(a) Mechanical equipment, including, but not limited to, accessory heating and cooling equipment, fuel oil tanks and emergency generators, shall be permitted obstructions in any open space required on the zoning lot, in any side yard, rear yard or rear yard equivalent, and in courts, provided that such equipment is:

(1) located at least three feet from any lot line;

(2) screened on all sides by walls consisting of at least 50 percent opaque materials; and

(3) in compliance with the standards of either of the following provisions:

(i) all structures and screening are located no more than 10 feet from the wall of a building and limited to a height of no more than 12 feet above flood-resistant construction elevation; or

(ii) is located on the roof of a building or other structure, provided that the height of such equipment and screening does not exceed six feet, as measured from the finished level of a flat roof or, for a sloping roof, as measured from the midpoint of such roof. Such equipment shall be located not less than 15 feet from any street wall of a building or other structure.

(b) Eaves, gutters or downspouts shall be permitted obstructions in any open space required on the zoning lot, in any yard and in courts, provided that such eave, gutter or downspout does not project further than 16 inches into such required open space, yard or court.

(c) Visual mitigation elements, provided pursuant to Section 64-A50 (SPECIAL DESIGN REQUIREMENTS) shall be permitted obstructions in any open space required on the zoning lot, in any yard and in courts.

64-A35  
Special Yard Regulations

64-A351  
Special provisions for front yards

[Note: Existing text to be deleted and substituted by Section 64-332(b)]
R1 R2 R3 R4 R5

(a) In the districts indicated, the #front yard# provisions of the applicable district shall apply, except that in R4 and R5 Districts, a #front yard# may have a depth of any dimension equal to or exceeding 10 feet.

(b) In the districts indicated, where an enclosed garage fronts upon a #street#, there shall be an unobstructed area at ground level, between the garage door and the #street line#, which is at least eight and one half feet in width by 18 feet in depth, except no such space shall be required in R5D Districts. Where an unenclosed #accessory# off-street parking space is provided in an open area on a #zoning lot#, or provided beneath an elevated #building#, an unobstructed area at ground level which is at least eight and one half feet in width by 18 feet in depth shall be provided between the #street line# and such space.

(c) For #buildings# that are reconstructed pursuant to this Section 64 A30, inclusive, the provisions regulating the depth of #front yards# in relation to adjacent #buildings#, set forth in paragraphs (b) and (c) of Section 23-45, shall not apply.

64-A352
Special provisions for narrow lots

[Note: Existing text moved to Section 64-332(c) and modified]

R1 R2 R3 R4 R5 R6

(a) In the districts indicated, the #side yard# provisions of the applicable district shall apply, except that the required total width of #side yards# for a #single-# or #two-family detached residence# may be reduced by four inches for each foot by which the width of a #zoning lot# is less than that required under the provisions of Section 23-32 (Minimum Lot Area or Lot Width for Residences). In no event shall the required width of a #side yard# be less than three feet. For #zoning lots# with less than 21 feet in #lot width#, the required total width of #side yards# shall be six feet.

(b) In the #Special South Richmond Development District#, the provisions of Sections 107-42 (Minimum Lot Area and Lot Width for Residences) and 107-462 (Side yards) shall not apply. In lieu thereof, the regulations of the applicable underlying #Residence District# shall apply pursuant to Section 23-32 (Minimum Lot Area or Lot Width for Residences) and Section 23-46 (Minimum Required Side Yards) and may be modified, as applicable, by the regulations of this Appendix.
For the permitted reconstruction of detached buildings, the provisions of paragraph (c) of Section 23-461 (Side yards for single-or two-family residences) shall not apply, provided such open area does not serve as access to required accessory off-street parking.

64-A353
Special provisions for shallow lots

[Note: Existing text moved to Section 64-332(d) and modified]

In the districts indicated, if at any point the depth of a zoning lot is less than 95 feet, the depth of a required rear yard or waterfront yard may be reduced by six inches for each foot by which the mean lot depth is less than 95 feet. In no event shall the required depth of a rear yard be less than 10 feet.

64-A354
Special provisions for corner lots

[Note: Existing text moved to Section 64-332(e) and modified]

For corner lots in R1-2 Districts, if one front yard has a depth of 20 feet, then the other front yard may have a depth of 15 feet. For corner lots in R3 Districts, if one front yard has a depth of 15 feet, then the other front yard may have a depth of 10 feet.

In all districts, for corner lots with less than the minimum lot area required pursuant to the applicable district regulations, the following provisions shall apply:

(a) one front yard shall be provided along the full length of either front lot line;

(b) the remaining front lot line shall be treated as a side lot line; and

(c) any side lot line that is parallel to, or within 45 degrees of being parallel to the front lot line selected pursuant to paragraph (a) of this Section, shall be treated as a rear lot line and a rear yard shall be provided along the full length of such lot line.

The rear and side yards provided pursuant to this Section may be reduced pursuant to Sections 64-A352 (Special provisions for narrow lots) and 64-A353 (Special provisions for shallow lots).
Honorable Marisa Lago, Chair
Application No.: N 210095 ZRY (Pre. L.U. No. 765)
April 28, 2021
Page 135 of 238

64-A36
Special Height and Setback Regulations

[Note: Existing text moved to Section 64-333 and modified]

R1 R2 R3 R4 R5 R6

In the districts indicated, the height and setback regulations of the applicable district shall not apply. In lieu thereof, all buildings shall be subject to the height and setback provisions set forth in paragraph (b) of Section 23-631 (General provisions), except that the maximum height of a perimeter wall before setback shall be 19 feet, the maximum height of a ridge line shall be 25 feet and all heights shall be measured from the flood-resistant construction elevation. In no event shall any building exceed two stories, except that attic space providing structural headroom of less than eight feet shall not be considered a story for the purposes of this Section.

64-A40
SPECIAL PARKING PROVISIONS

64-A41
Waiver of Requirements for Certain Zoning Lots

R1 R2 R3 R4 R5 R6

In the districts indicated, the requirements set forth in Section 25-22 (Requirements Where Individual Parking Facilities Are Provided) shall be waived for a single or two-family residence on an interior zoning lot that has a lot width along a street of less than 25 feet, and where the flood-resistant construction elevation is less than six feet above curb level.

64-A42
For Elevated Buildings

The provisions of Section 64-52 (For Elevated Buildings) shall be modified to allow the accessory off-street parking spaces, required pursuant to that section, to be located anywhere on the zoning lot.
64-A50
SPECIAL DESIGN REQUIREMENTS

R1 R2 R3 R4 R5 R6

In the districts indicated, the provisions of Section 64-61 (Design Requirements for Single- and Two-family Residences) shall apply, except as expressly modified by this Section. Visual mitigation elements shall be required unless more than 50 percent of the street wall is within 18 inches of the street line.

64-A51
Special Regulations for Corner Lots

The design requirements set forth in Section 64-61 shall apply separately along each street frontage of a corner lot, except as modified below:

(a) For corner lots, where the level of the lowest occupiable floor is nine feet or more above curb level, and more than 50 percent of the street wall of a building is within six feet of a street line, only one visual mitigation element shall be required along such street frontage.

(b) For corner lots, where trees or shrubs are provided as visual mitigation elements along both street frontages pursuant to paragraph (d) of Section 64-61, the required total length of planted areas shall be reduced to a minimum of 45 percent of the aggregate length of street walls, provided that the planting bed is continuous for the minimum required length, measured along such street walls, and at least six feet of planting bed is provided facing each street.

64-A52
Special Regulations for Narrow Lots

For interior zoning lots that have a lot width less than 25 feet, the design requirements of paragraph (d) of Section 64-61 shall be modified to require the total length of planted areas to be greater than 40 percent of the lot width and to be planted to screen at least 40 percent of the length of the street wall.
64-A53
Special Regulations for Zoning Lots With Shallow Yards

For #zoning lots# where more than 50 percent of the #street wall# of a #building# is located within six feet of a #street line#, one or more of the following visual mitigation elements may be provided in lieu of paragraph (d) of Section 64-61:

(a) Climbing vines

Where provided as a visual mitigation element, climbing vines shall be planted along 40 percent of the aggregate width of #street walls# in a planting bed that is at least 18 inches in width, measured perpendicular to the #street wall# and allows a soil depth of at least two feet. A framework for the climbing vines shall be provided for the full length of the planting bed to a height of at least four feet. Such framework may be freestanding or attached to the #building#.

(b) Green wall

Where provided as a visual mitigation element, a green wall or landscaped fence shall extend along 40 percent of the aggregate width of #street walls# to a height of at least four feet. Hanging plants, potted plants or plant material shall be distributed along the entire length of such green wall or landscaped fence. The supporting structure may be freestanding or attached to the #building# and shall be considered a permitted obstruction in any required #yard#, #court# or #open space#.

(c) Planter box or raised planting bed

Where provided as a visual mitigation element, planter boxes or raised planting beds may be used in place of planting beds at grade. The top of such planter boxes shall be located between 18 and 36 inches above adjacent grade. Raised planting beds shall be at least 18 inches in height and shall not exceed 36 inches above adjacent grade. For planter boxes and raised planting beds, the minimum soil width shall be at least one foot, measured perpendicular to the street line, and the minimum soil depth shall be 18 inches. The planted area may be comprised of any combination of groundcover, perennials, annuals, shrubs, trees or other living plant material, and must attain a height of at least six inches. Planter boxes may be freestanding or attached to the #building#.
64-A61
Special Regulations for Non-conforming Single- or Two-family Residents in Manufacturing Districts

[Note: Existing text to be deleted and substituted by Section 64-61]

The provisions of Section 64-712 (Single- and two-family buildings), shall be modified to allow the vertical elevation or reconstruction of a #non-conforming single# or #two-family residence# in a #Manufacturing District#. Reconstructions of such #residences# shall utilize the applicable #bulk# regulations of an R4-1 District, as modified by Section 64-A30 of this Appendix.

64-A70
SPECIAL APPROVALS

The special permit and variance provisions of this Resolution shall apply to properties in the Neighborhood Recovery Areas.

64-A71
Special Permit for Establishing Non-conformance

In all districts, for a #zoning lot# that contained two or more #dwelling units# on October 28, 2012, and does not have a certificate of occupancy, or other lawful documentation, indicating that more than one #dwelling unit# existed on the #zoning lot# on such date, the Community Board of Standards and Appeals may permit the vertical elevation or reconstruction of up to two #dwelling units# on such #zoning lot# in accordance with this Appendix, and all applicable requirements of the New York City Construction Codes, provided that the Community Board of Standards and Appeals determines that more than one #dwelling unit# existed on the site on October 28, 2012, based on evidence submitted to the Community Board of Standards and Appeals, which may include, but shall not be limited to, Department of Finance tax records, utility bills or an affidavit from a licensed architect or engineer that documents an on-site inspection of the #zoning lot# performed under the auspices of a governmental agency.

Such #buildings# which are vertically elevated shall comply with the #bulk# provisions of Section 64-A20, and such #buildings# that are reconstructed shall comply with the #bulk# provisions of Section 64-A30.

Upon completion and sign-off of work completed under the provisions of this Appendix, such #building# shall be considered #non-conforming#.
64-A80
NEIGHBORHOOD RECOVERY AREA MAPS

Neighborhoods that experienced a high concentration of damage to single- and two-family residences from Hurricane Sandy are defined as Neighborhood Recovery Areas.

Chapter 5
Special Regulations Applying in Designated Recovery Areas

65-00
GENERAL PROVISIONS

The provisions of this Resolution shall apply as modified by this Chapter and by the special regulations set forth herein. The provisions of this Chapter establish optional special regulations which are designed to facilitate, on a temporary basis, the recovery of areas impacted by a severe disaster and in so doing promote and protect public health, safety and general welfare. These general goals include, among others, the following purposes:

(a) to expedite the recovery of neighborhoods that have experienced physical or non-physical impacts from a severe disaster:
(b) to enable the reconstruction and alteration of buildings damaged by a severe disaster, by removing disincentives; and

(c) to promote the most desirable use of land in accordance with a well-considered plan and thus conserve the value of land and buildings, and thereby protect the City’s tax revenues.

65-01
Applicability of Article VI, Chapter 5

The provisions of this Chapter shall apply based on the type of impacts caused by each #severe disaster#, and such applicability shall be determined at the time such provisions are added to the Chapter’s applicability. #Designated recovery areas# shall be determined based on the extent of the impacts caused by the #severe disaster# and recovery plans, as applicable. For each of the #designated recovery areas#, applicable recovery provisions will be set forth in this Chapter based on the type of impacts caused by the #severe disaster#. The #designated recovery areas# shall be listed in Appendix A of this Chapter, and the applicable time duration shall be set forth in the following table.

<table>
<thead>
<tr>
<th>#Designated Recovery Area# Number and #severe disaster#</th>
<th>Effective Date</th>
<th>Applicable Sections</th>
<th>Time Duration (after effective date)*</th>
</tr>
</thead>
<tbody>
<tr>
<td>1: COVID-19</td>
<td></td>
<td>X</td>
<td>X</td>
</tr>
</tbody>
</table>

* Such time duration limitation may be modified by the specific provision located in this Chapter.

The regulations of all other Chapters of this Resolution are applicable, except as superseded, supplemented or modified by the provisions of this Chapter. In the event of a conflict between the provisions of this Chapter and other regulations of this Resolution, the provisions of this Chapter shall control.
65-10  
SPECIAL TIME-BASED PROVISIONS

The modifications to time limits associated with this Resolution and set forth in this Section, inclusive, may be applied to #zoning lots# within #designated recovery areas#, as set forth in Section 65-01 (Applicability of Article VI, Chapter 5).

65-11  
Vesting Provisions

In all districts, the provisions of Section 11-30 (BUILDING PERMITS ISSUED BEFORE EFFECTIVE DATE OF AMENDMENT), inclusive, and any other provision that requires a building permit to be submitted, or a particular amount of construction to be completed within a certain timeframe, shall be suspended. Subsequent to the expiration of the applicable time duration as set forth in Section 65-01 (Applicability of Article VI, Chapter 5), the time period established by the applicable provisions of this Resolution shall be resumed, and the remaining time associated with submitting a building permit, or completing a particular amount of construction shall be the amount existing prior to the #severe disaster#.

65-12  
Authorizations or Special Permits Granted by the City Planning Commission

In all districts, for special permits or authorizations granted by the City Planning Commission where substantial construction has not taken place and such approval would lapse after a total of 10 years within the applicable time duration set forth in Section 65-01 (Applicability of Article VI, Chapter 5), the provisions of Section 11-42 (Lapse of Authorization or Special Permit Granted by the City Planning Commission Pursuant to the 1961 Zoning Resolution) and 11-43 (Renewal of Authorization or Special Permit) shall be modified to allow the renewal of such authorization or special permit without public hearing, for one additional three-year term, provided that the Commission finds that the facts upon which the authorization or special permit was granted have not substantially changed. An application for a renewal of authorization or special permit shall be filed with the Commission before it lapses.

65-13  
Discontinuance Provisions

In all districts, where a #non-conforming use# has been discontinued, the time limits associated
with restoring active operations of such #use# to retain its #non-conforming# status shall be suspended. Subsequent to the expiration of the applicable time duration as set forth in Section 65-01 (Applicability of Article VI, Chapter 5), the time period established by the applicable provisions of this Resolution shall be resumed, and the remaining time associated with restoring active operations shall be the amount existing prior to the #severe disaster#.

65-20
SPECIAL DAMAGE AND DESTRUCTION PROVISIONS

The following modifications to damage and destruction provisions associated with this Resolution may be applied to #zoning lots# within #designated recovery areas#, as set forth in Section 65-01 (Applicability of Article VI, Chapter 5).

65-21
Reconstruction Provisions

In all districts, where the provisions of this Section are utilized, the provisions of Article V, Chapters 2 (Non-Conforming Uses) and 4 (Non-Complying Buildings) shall be modified to allow the reconstruction of #buildings or other structures# containing #non-conforming uses# and #non-complying buildings or other structures#, that were damaged due to the effects of the #severe disaster#, as follows:

[Note: Text moved from Sections 64-711 and 64-721 and modified]

(a) Section 52-53 (Buildings or Other Structures in All Districts), inclusive, shall be modified to allow the reconstruction of a #non-conforming use# where a #building or other structure# containing such #use# is damaged to the extent of 50 percent or more due to the effects of a #severe disaster#. In addition, for the purpose of this paragraph, the provisions of Section 52-60 (DISCONTINUANCE) shall not apply to such damaged #building or other structure# with #non-conforming uses#; and

(b) Section 54-40 (DAMAGE OR DESTRUCTION IN NON-COMPLYING BUILDINGS) shall be modified to allow the reconstruction of a #non-complying building or other structure# where such #building or other structure# is damaged to the extent of 75 percent or more due to the effects of a #severe disaster#.

For the purpose of applying waterfront and parking regulations, #buildings# reconstructed pursuant to this Section shall not be considered #developments# or #enlargements#.
65-30
SPECIAL USE REGULATIONS

The following modifications to #use# regulations set forth in this Section, inclusive, may be applied to #zoning lots# within #designated recovery areas#, as set forth in Section 65-01 (Applicability of Article VI, Chapter 5).

65-31
Temporary Uses

In all districts, where the provisions of this Section are utilized, the #use# provisions of this Resolution, including any supplemental use regulations and provisions regulating size limitations, change of #non-conforming uses#, #enlargement# or #extension# of #non-conforming uses#, shall be modified to allow a temporary #non-conforming use# to be created, and a #non-conforming use# to be #enlarged# or #extended#, on a temporary basis, to aid in the immediate restoration and recovery of an area adversely impacted by a #severe disaster#.

The creation of a new #non-conforming use# shall be subject to the following limitations:

<table>
<thead>
<tr>
<th>#Severe Disaster#</th>
<th>District</th>
<th>Use Group of permitted new #non-conformance#</th>
<th>Time Duration (if different from Section 65-01)</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td></td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td></td>
<td></td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

Subsequent to the expiration of the applicable time duration as set forth in this Section, any #non-conforming use# that was created, or any portion of a #non-conforming use# that was #enlarged# or #extended# on a #zoning lot#, shall be terminated and, thereafter, such #zoning lot# shall be reinstalled, restored to its pre-existing degree of #non-conformity#, or used only for a conforming #use#.

65-40
SPECIAL BULK REGULATIONS

The following modifications to #bulk# regulations set forth in this Section, inclusive, may be
applied to #zoning lots# within #designated recovery areas#, as set forth in Section 65-01 (Applicability of Article VI, Chapter 5).

65-41
Reconstruction and Alteration of Disaster-Damaged Buildings

In all districts, where the provisions of this Section are utilized, the #bulk# provisions of this Resolution, and the provisions regulating the reconstruction, #enlargement# and alteration of #buildings# with #non-conforming uses# and #non-complying buildings or other structures# shall be modified to allow the reconstruction, #enlargement#, relocation and alteration of #buildings or other structures# that were damaged due to the effects of the #severe disaster#, including #non-conformances# to be continued, and #non-compliances# to be created, continued, or increased, provided the #building or other structure# is subject to the following provisions, as applicable:

(a) Floor area

The maximum amount of #floor area# shall not exceed the amount of pre-existing #floor area# as it existed prior to the reconstruction, #enlargement#, relocation or alteration work or the amount permitted by the district, whichever is greater. Furthermore, no #extension# or change of #use# may create a new #non-conformance# or a new #non-compliance#, or increase the degree of existing #non-conformance# or #non-compliance# with #floor area#.

(b) Building footprint

The resulting #lot coverage# shall be less than or equal to that of the pre-existing #building or other structure# as it existed prior to the reconstruction, #enlargement#, relocation or alteration work or the amount permitted by the district, as applicable, whichever is greater. Furthermore, a #building or other structure# may continue an existing #non-compliance#, increase the degree of an existing #non-compliance#, or create a new #non-compliance# with respect to open areas required through regulations for #yards#, #open space#, #open space ratio#, #lot coverage#, #courts#, and minimum distance between #buildings#, in order to relocate or alter the footprint of the #building or other structure#, provided that:

(1) a new or increased #non-compliance# into an open area shall not exceed a horizontal distance of five feet, as measured perpendicular to the outermost edge of the #non-complying building or other structure#, as it existed prior to the reconstruction, #enlargement#, relocation or alteration work; and

(2) any new or increased #non-compliance# shall not result in an open area of:
(i) less than five feet between the wall of a building or other structure and a rear lot line;

(ii) less than three feet between the wall of a building or other structure and a front lot line, in districts with front yard requirements; and

(iii) less than three feet between the wall of a building or other structure and a side lot line for detached buildings in districts that do not allow zero lot line buildings.

Nothing in this Section shall affect the permitted obstruction allowances set forth by the district regulations.

(c) Building height

The resulting height and setback may continue an existing non-compliance, provided that the height of such reconstructed, enlarged, relocated or altered building or other structure as measured from curb level, base plane or other applicable underlying datum, does not exceed the pre-existing height of such building, as measured from the top of the lowest floor that contains floor area, to the highest point of such pre-existing building. All permitted obstruction allowances shall be measured with respect to the modified height and setback regulations set forth in this Section.

For the purpose of applying waterfront and parking regulations, buildings or other structures reconstructed pursuant to this Section shall not be considered developments or enlargements.

65-42
Properties with Disaster-Damaged Buildings

[Note: Text moved from Section 64-A03 and modified]

In all districts, the definition of zoning lot set forth in Section 12-10 (DEFINITIONS) may be modified to allow a tax lot containing one or more buildings that were damaged by the severe disaster, or where a building or buildings that were damaged by the severe disaster occupied more than one tax lot on the date of the severe disaster, to be provisionally considered a zoning lot for the sole purpose of demonstrating compliance with the bulk requirements of this Resolution, including the provisions of Section 65-31 (Reconstruction and Alteration of Disaster-Damaged Buildings), as applicable.
65-50
SPECIAL DOCUMENTATION PROVISIONS

The following modifications to documentation procedures may be applied to #zoning lots# within #designated recovery areas#, as set forth in Section 65-01 (Applicability of Article VI, Chapter 5).

65-51
Documentation Provisions

For #buildings or other structures# that were damaged due to the effects of the #severe disaster# and do not have a certificate of occupancy, construction documents, or other lawful documentation filed with the Department of Buildings indicating the existence of such #building or other structure# prior to the #severe disaster# and the presence and extent of #non-conforming uses# or #non-compliances# as to #bulk#, as applicable, in order to receive a building permit to reconstruct, #enlarge#, relocate or alter #buildings or other structures# pursuant to the provisions of this Resolution, inclusive of this Chapter, the Commissioner of Buildings may determine alternate and appropriate documentation necessary to substantiate proof of such #non-conformances# or #non-compliances#, as applicable.

Appendix A
Designated Recovery Areas

The boundaries of each #designated recovery area# are described in this Appendix, and are subject to the temporary provisions of this Chapter, as specified in Section 65-01 (Applicability of Article VI, Chapter 5).

Designated Recovery Area 1: COVID-19 [date of adoption]

The #designated recovery area 1# shall include all #zoning lots# located within the City of New York.

Eating or Drinking Places

*     *     *

73-242
In C3 Districts

In C3 Districts, the Community Board of Standards and Appeals may permit eating or drinking establishments (including those which provide outdoor table service or musical entertainment but not dancing, with a capacity of 200 persons or less, and including those which provide music for which there is no cover charge and no specified showtime) for a term not to exceed five 10 years, provided that the following findings are made:

(a) that such use is so located as not to impair the essential character or the future use or
development of the nearby residential neighborhood; and

(b) that such use will generate a minimum of vehicular traffic to and through local streets in residential areas.

The Community Board may modify the regulations relating to signs in C3 Districts to permit a maximum total surface area of 50 square feet of non-illuminated or illuminated non-flashing signs, provided that any illuminated sign shall not be less than 150 feet from the boundary of any Residence District.

For eating and drinking establishments for which special permits have previously been granted, the term may exceed 10 years at the discretion of the Community Board.

The Community Board may prescribe appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding area, including requirements for shielding of floodlights or adequate screening.

73-622
Enlargements of single- and two-family detached and semi-detached residences

The Community Board of Standards and Appeals may permit an enlargement of an existing single- or two-family detached or semi-detached residence, except cottage envelope buildings, as such term is defined in Section 64-11 (Definitions), utilizing the provisions of Section 64-33 (Special Bulk Regulations for Cottage Envelope Buildings), within the following areas:

* * *
A special permit for a specified use or for a modification of the use or bulk regulations granted under the provisions of this Resolution shall automatically lapse if substantial construction, in accordance with the plans for which such permit was granted, has not been completed within four years from the date of granting such permit by the Community Board of Standards and Appeals or, if judicial proceedings have been instituted to review the Community Board's decision, the four-year lapse period shall commence upon the date of entry of the final order in such proceedings, including appeals.

The following Sections shall apply to zoning lots located wholly or partially within the flood zone.

### Special Permit for Modification of Certain Zoning Regulations

[Note: Text moved from Section 64-92 and modified]

In flood zones, for all districts, the Community Board of Standards and Appeals may permit modification of the provisions of Article VI, Chapter 4 (Special Regulations Applying in Flood Zones), and any other applicable ground floor use, supplementary use, bulk, and parking regulations of the Zoning Resolution, provided that the conditions of paragraph (a) of this Section, and the findings of paragraph (b) are met.

For the purposes of this Section, defined terms include those in Section 12-10 and those in Section 64-11.

**Conditions**

All applications shall be subject to the following conditions:

1. the building complies with flood-resistant construction standards;
2. any modification of height and setback regulations related to increasing the permitted overall height shall not exceed the maximum height permitted by the
applicable underlying district regulations by 10 percent, or 10 feet, whichever is greater, as measured from the reference plane; and

(3) any increase in the amount of permitted floor area shall be limited to no more than 20 percent of the floor area permitted on the zoning lot, and in no event more than 10,000 square feet of floor area. However, such restriction shall not apply to non-complying buildings with non-complying floor area, provided that the total floor area of the altered, enlarged, relocated, or reconstructed building, does not exceed the amount of existing floor area of such pre-existing building.

(b) Findings

In order to grant the special permit, the Community Board shall find that:

(1) there would be a practical difficulty in complying with flood-resistant construction standards without such modifications, and that such modifications are the minimum necessary to allow for an appropriate building in compliance with flood-resistant construction standards;

(2) any modification related to an increase in the amount of permitted floor area is the minimum necessary to address practical difficulties in retaining pre-existing habitable space;

(3) any modification related to parking regulations to permit a reduction in the number of accessory off-street parking spaces and the change in location of accessory off-street parking spaces, will:

(i) facilitate an improved site plan;

(ii) not cause traffic congestion; and

(iii) not have undue adverse effects on residents, businesses or community facilities in the surrounding area, as applicable, including the availability of parking spaces for such uses; and

(4) the proposed modifications will not alter the essential character of the neighborhood in which the building is located, nor impair the future use or development of the surrounding area in consideration of the neighborhood’s potential development in accordance with flood-resistant construction standards.
The Community Board may prescribe appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding area.

73-72
Special Permit for Ground Floor Uses in Residence Districts

In all #Residence Districts#, for #buildings# containing #residential uses#, the Community Board of Standards and Appeals may permit offices, as listed in Use Group 6B, provided that the conditions of paragraph (a) of this Section, and the findings of paragraph (b) of this Section are met:

(a) **Conditions**

All applications shall be subject to the following conditions:

1. the #building# complies with #flood-resistant construction standards#;

2. the office #use# is located on the lowest #story# above grade within the #building#;

3. access to such office #use# is from a separate entrance than that serving the #residential# portion of the #building#;

4. the #floor area# associated with such office #use# shall be considered as #community facility use# for the purposes of determining compliance with the applicable district #floor area ratio# regulations, and amount of #floor area# attributed to such office #use# shall not exceed 10,000 square feet;

5. the office #use# complies with the #accessory# off-street parking regulations for ambulatory diagnostic or treatment health care facilities, as listed in Section 22-14 (Use Group 4), in accordance with Article II, Chapter 5 (Accessory Off-Street Parking and Loading Regulations); and

6. such office #use# complies with #accessory signs# regulations for #buildings# containing #residences#, as set forth in Section 22-32 (Permitted Non-Illuminated Accessory Signs).

(b) **Findings**

In order to grant the special permit, the Community Board shall find that:
(a) such office #use# will generate a minimum of vehicular traffic to and through local #streets# and will not create traffic congestion;

(b) such office #use# will not produce objectionable effects; and

(c) such office #use# will not alter the essential character of the neighborhood in which the #building# is located.

The Community Board may prescribe appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding area.

73-80
LAPSE OF PERMIT

[Note: Text moved from Section 73-70 and not edited]

A special permit for a specified #use# or for a modification of the #use# or #bulk# regulations granted under the provisions of this Resolution shall automatically lapse if substantial construction, in accordance with the plans for which such permit was granted, has not been completed within four years from the date of granting such permit by the Community Board of Standards and Appeals or, if judicial proceedings have been instituted to review the Community Board's decision, the four-year lapse period shall commence upon the date of entry of the final order in such proceedings, including appeals.

Chapter 4
Special Permits by the City Planning Commission

74-00
POWERS OF THE CITY PLANNING COMMISSION

*     *     *

74-90
USE AND BULK MODIFICATIONS FOR CERTAIN COMMUNITY FACILITY USES
Long-term care facilities

The City Planning Commission may permit long-term care facilities in locations where they are not permitted as-of-right, in accordance with paragraph (a) or (b) of this Section.

(b) In certain Community Districts

The Commission may permit the development of nursing homes, as defined in the New York State Public Health Law, or enlargements of existing nursing homes that increase the existing floor area by 15,000 square feet or more, in Community District 11 in the Borough of the Bronx, Community District 8 in the Borough of Manhattan, Community District 14 in the Borough of Queens, and Community District 1 in the Borough of Staten Island, provided that the Commission finds that the development of additional nursing home beds will not unduly burden such community district. However, such special permit shall not apply to developments or enlargements that are subject to the restrictions set forth in Section 22-16 (Special Regulations for Nursing Homes).

Where such use is permitted by the Commission, it may be eligible for bulk modification, pursuant to the provisions of Section 74-902 (Certain community facility uses in R1 and R2 Districts and certain Commercial Districts), or Section 74-903 (Certain community facility uses in R3 to R9 Districts and certain Commercial Districts), as applicable.

The Commission may prescribe appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding area.
Floor area increase and public plaza modifications in Industrial Business Incentive Areas

In Industrial Business Incentive Areas, the City Planning Commission may increase the maximum floor area ratio on a zoning lot in accordance with the Table in this Section.

* * *

(a) Application requirements

All applications for a special permit pursuant to this Section shall include the following:

(1) site plans and elevations which shall establish distribution of floor area, height and setback, sidewalk widths, primary business entrances, including parking and loading, yards and public plazas, signage and lighting;

(2) floor plans of all floors which shall establish the location, access plan and dimensions of freight elevators and loading areas and the location of floor area dedicated to required industrial uses and incentive uses;

(3) drawings that show, within a 600 foot radius, the location and type of uses, the location, dimensions and elements of off-site open areas including streets, waterfront and upland parcels, elements of a Waterfront Access Plan, as applicable, and the location of street trees and street furniture and any other urban design elements. The plans shall demonstrate that any public plaza provided meets the requirements of paragraph (b)(5) of this Section; and

(4) for zoning lots in flood zones, flood protection plans, which shall show base flood elevations and advisory base flood elevations, as applicable, location of mechanical equipment, areas for storage of any hazardous materials and proposed structural or design elements intended to mitigate the impacts of flood and storm events.

Application requirements

All applications for a special permit pursuant to this Section shall include the following:

(a) site plans and elevations which shall establish distribution of floor area, height and setback, sidewalk widths, primary business entrances, including parking and loading, yards and publicly accessible open space, signage and lighting;
(b) floor plans of all floors which shall establish the location, access plan and dimensions of freight elevators and loading areas and the location of #floor area# dedicated to #required industrial uses# and #incentive uses#;

c) drawings that show, within a 600-foot radius, the location and type of #uses#, the location, dimensions and elements of off-site open areas including #streets#, waterfront and #upland# parcels, elements of a Waterfront Access Plan, as applicable, and the location of #street# trees and #street# furniture and any other urban design elements. Where applicable, for applications in Industrial Business Incentive Area 1, the plans shall demonstrate that any publicly accessible open space provided meets the requirements of paragraph (f) of Section 74-965 (Conditions); and

d) for #zoning lots# in #flood zones#, flood protection plans, which shall show #base flood elevations# and advisory #base flood elevations#, as applicable, location of mechanical equipment, areas for storage of any hazardous materials and proposed structural or design elements intended to mitigate the impacts of flood and storm events.

*     *     *

(b) Conditions

*     *     *

(1) Ground floor design

(i) The ground floor level #street walls# and ground floor level walls fronting on a #public plaza# of a #development# or horizontal #enlargement# shall be glazed in accordance with the provisions of Section 37-34 (Minimum Transparency Requirements), with transparent materials which may include #show windows#, transom windows or glazed portions of doors. Such transparent materials shall occupy at least 50 percent of the surface area of such #street wall#, measured between a height of two feet above the level of the adjoining sidewalk or #public plaza# and a height of 12 feet above the level of the first finished floor above #curb level#. The floor level behind such transparent materials shall not exceed the level of the window sill for a depth of at least four feet, as measured perpendicular to the #street wall#. The ground floor transparency requirements of this paragraph (b)(4)(i) shall not apply to #uses# listed in Use Groups 11, 16, 17 and 18, or to #accessory# loading berths or garage entrances, or provided that any portion of the
Honorable Marisa Lago, Chair  
Application No.: N 210095 ZRY (Pre. L.U. No. 765)

Page 168 of 238

#ground floor level street wall# without transparency shall be subject to the provisions for Type 1 blank walls set forth in Section 37-361 (Blank wall thresholds), and any #street wall# exceeding the particular thresholds set forth in such Section shall provide visual mitigation elements in accordance with the provisions of paragraphs (a) or (b)(1) of Section 37-362 (Mitigation elements).

(ii) For #zoning lots# within flood hazard areas, in lieu of the requirements of paragraph (b)(4)(i) of this Section, the provisions of Section 64-22 (Transparency Requirements) shall apply, and

(iii) For any #street wall# greater than 40 feet in width that does not require glazing, as specified in paragraphs (b)(4)(i) or (b)(4)(ii) of this Section, as applicable, the facade, measured between a height of two feet above the level of the adjoining sidewalk and a height of 12 feet above the level of the first finished floor above #curb level#, shall incorporate design elements, including lighting and wall art, or physical articulation.

74-965  
Conditions  

In Industrial Business Incentive Areas, applications for #floor area# increases pursuant to Section 74-963 (Permitted floor area increase) and modifications pursuant to Section 74-964 (Modifications in conjunction with a floor area increase), are subject to the following conditions:  

*e* *e* *e*

(e) Ground floor design  

In all Industrial Business Incentive Areas, the following shall apply:

(1) the ground floor level #street walls#, and ground floor level walls fronting on a publicly accessible open space of a #development# or horizontal #enlargement# provided pursuant to paragraph (f) of this Section, shall be glazed in accordance with the provisions of Section 37-34 (Minimum Transparency Requirements), with transparent materials which may include #show windows#, transom windows or glazed portions of doors. Such transparent materials shall occupy at least 50 percent of the surface area of such #street wall#, measured between a height of two feet above the level of the adjoining sidewalk or publicly accessible open space and a height of 12 feet above the level of the first finished floor above #curb
The floor level behind such transparent materials shall not exceed the level of the window sill for a depth of at least four feet, as measured perpendicular to the street wall. The ground floor transparency requirements of this paragraph (b)(4)(i) (e)(1) shall not apply to uses listed in Use Groups 11, 16, 17 and 18, or to accessory loading berths or garage entrances; or provided that any portion of the ground floor level street wall without transparency shall be subject to the provisions for Type 1 blank walls set forth in Section 37-361 (Blank wall thresholds), and any street wall exceeding the particular thresholds set forth in such Section shall provide visual mitigation elements in accordance with the provisions of paragraphs (a) or (b)(1) of Section 37-362 (Mitigation elements).

(2) for zoning lots within flood hazard areas, in lieu of the requirements of paragraph (e)(1) of this Section, the provisions of Section 64-22 (Transparency Requirements) shall apply; and

(2) for any street wall greater than 40 feet in width that does not require glazing, as specified in paragraphs (e)(1) or (e)(2) of this Section, as applicable, the facade, measured between a height of two feet above the level of the adjoining sidewalk and a height of 12 feet above the level of the first finished floor above curb level, shall incorporate design elements, including lighting and wall art, or physical articulation.

87-40
SPECIAL REGULATIONS FOR GROUND FLOOR LEVEL

* * *

87-41
Streetscape Requirements in the Core and South Subdistricts

* * *

87-412
Transparency requirements in the Core and South Subdistricts

In the Core and South Subdistricts, for non-residential uses located at the ground floor level, any portion of a ground floor level street wall that is subject to the floor area requirements of paragraph (b) of Section 87-411 (Ground floor uses) shall be glazed in accordance with the transparency requirements for designated retail streets set forth in Section 37-34 (Minimum Transparency Requirements), except that:
(a) in the South Subdistrict, where the #ground floor level street wall# is occupied by #uses# in Use Groups 16, 17 or 18, up to 50 percent of the length of such #ground floor level street wall# may be exempt from such transparency requirements, provided that any #street wall# width exceeding 50 feet with no transparent elements on the #ground floor level# shall provide planting or screening (a) or (e) of Section 87-415 (Special streetscape provisions for certain blank walls) for at least 75 percent of such blank wall in accordance with the provisions of (a)(1) or (b)(1) of Section 37-362 (Mitigation elements) pursuant to the provisions for Type 1 blank walls set forth in Section 37-361 (Blank wall thresholds); and

(b) in #flood zones#, for #buildings# utilizing the provisions of paragraph (a) of Section 64-21 (Ground Floor Use) or Section 64-222 (Ground floor use), where no transparent materials or #building# entrances or exits are provided on the #ground floor level street wall# below a height of four feet above the level of the adjoining sidewalk for a continuous width of at least 25 feet, visual mitigation elements shall be provided in accordance with paragraph (a) of Section 87-415 for such blank wall the provisions for Type 2 blank walls set forth in Section 37-361, except that only paragraph (b)(1) of Section 37-362 shall apply to such blank wall.

For the purposes of applying the provisions of Section 37-34, locations subject to the provisions of paragraph (b) of Section 87-411 shall be considered designated retail streets.

*   *   *

87-414
Special provisions applicable within the flood zone
Special streetscape provisions for certain blank walls

[Note: Existing text to be deleted]

In the Core and South Subdistricts, the provisions of Section 64-336 (Alternative height measurement in Commercial and Manufacturing Districts) shall be modified so that where the #flood resistant construction elevation# is between four feet and 12 feet above #curb level#, #building# height may be measured from a reference plane 12 feet above #curb level#, and any minimum base height requirements may be measured from #curb level#. The requirements of Section 64-642 (Transparency requirements for buildings utilizing alternative height measurement) shall apply to #buildings# utilizing these alternative height measurement provisions.

[Note: Text moved from 87-415 and modified]
The provisions of this Section shall apply to a ground floor level building frontage, or any portion thereof, facing a street, shore public walkway, upland connection, or fire apparatus access road provided pursuant to the provisions of Section 87-61 (Special Provisions for Certain Fire Apparatus Access Roads), where visual mitigation elements shall be provided in accordance with the provisions for Type 2 blank walls set forth in Section 37-361 (Blank wall thresholds).

87-415
Special streetscape provisions for certain blank walls
Special open area provisions

[Existing text to be deleted and substituted by Section 37-36]

The provisions of this Section shall apply to a ground floor level building frontage, or any portion thereof, facing a street, shore public walkway, upland connection, or fire apparatus access road provided pursuant to the provisions of Section 87-61 (Special Provisions for Certain Fire Apparatus Access Roads), where no transparent materials or entrances or exits are provided on the ground floor level below a height of four feet above the level of the adjoining sidewalk, or grade, as applicable, for a continuous width of at least 25 feet. For the purpose of this Section, such a building wall, or portion thereof, shall be referred to as a “blank wall” and visual mitigation elements shall be provided in accordance with this Section.

At least 50 percent of the linear footage of any blank wall on a ground floor level building frontage shall be treated by one or more of the visual mitigation elements specified in this Section. Where a building wall front upon a street, such visual mitigation elements shall be provided on the zoning lot, except that the depth of an area containing such elements within the zoning lot need not be greater than three feet, when measured perpendicular to the street line. Where a blank wall exceeds a street wall width of 50 feet, at least 25 percent of such street wall width shall be planted in accordance with the provisions of paragraph (a) of this Section, and where a blank wall exceeds a height of 10 feet, as measured from the level of the adjoining grade, for a width of more than 25 feet, at least 50 percent of such street wall width shall provide wall treatments in accordance with the provisions of paragraph (e) of this Section. The maximum width of a portion of the ground floor level blank wall without visual mitigation elements shall not exceed 10 feet. However, such blank wall limitation shall not include portions of street walls occupied by entrances or exits to accessory off-street parking facilities and public parking garages, where permitted, entryways to required loading berths, where permitted, or doors accessing emergency egress stairwells and passageways.

Visual mitigation elements:
(a) **Planting**

Any combination of perennials, annuals, decorative grasses or shrubs shall be provided in planting beds, raised planting beds or planter boxes in front of the street wall. Each foot in width of a planting bed, raised planting bed or planter box, as measured parallel to the street wall, shall satisfy one linear foot of frontage mitigation requirement. Such planting bed shall extend to a depth of at least three feet, inclusive of any structure containing the planted material. Any individual planted area shall have a width of at least five feet, and the height of such planting, inclusive of any structure containing the planted materials, shall be at least three feet.

(b) **Benches**

Fixed benches with or without seatbacks shall be provided in front of the street wall. Unobstructed access shall be provided between such benches and an adjoining sidewalk or required circulation paths. Each linear foot of bench, as measured parallel to the street wall, shall satisfy one linear foot of frontage mitigation requirement. Any individual bench shall have a width of at least five feet, and no more than 20 feet of benches may be used to fulfill such requirement per 50 feet of frontage.

(c) **Bicycle racks**

Bicycle racks, sufficient to accommodate at least two bicycles, shall be provided in front of the street wall, and oriented so that the bicycles are placed parallel to the street wall. Each bicycle rack so provided shall satisfy five linear feet of frontage mitigation requirement. No more than three bicycle racks may be used to fulfill such requirement per 50 feet of frontage.

(d) **Tables and chairs**

Fixed tables and chairs shall be provided in front of the street wall. Each table shall have a minimum diameter of two feet, and have a minimum of two chairs associated with it. Each table and chair set so provided shall satisfy five linear feet of frontage mitigation requirement.

(e) **Wall treatment**

Wall treatment, in the form of permitted signs, graphic or sculptural art, rustication, decorative screening or latticework, or living plant material, shall be provided along the street wall. Each linear foot of wall treatment shall constitute one linear foot of frontage mitigation requirement. Such wall treatment shall extend to a height of at least 10 feet, as
measured from the level of the adjoining sidewalk or grade, and have a minimum width of 10 feet, as measured parallel to the #street wall#.

[Text moved from Section 87-416]

(a) For Parcels 1, 2, 3 and 4, as shown on Map 1 in the Appendix to this Chapter, the open area between the #street wall# of a #building# fronting on the #Major Deegan Expressway street line# and the western edge of such Expressway, shall be subject to the provisions of Section 28-23 (Planting Areas), whether the ground floor is occupied by #residential uses# or non-#residential uses#. Such provisions shall be modified by the provisions of this Section.

(1) Primary circulation path

A circulation path, with a width of at least 13 feet or the width of such open area, whichever is less, and the western edge of such path shall be provided within five feet of a #street wall# facing the #Major Deegan Expressway street line#. Such circulation path shall extend along the entire frontage of the #zoning lot#, and shall be constructed in accordance with Department of Transportation standards for sidewalks.

(2) Planting

At least 20 percent, but not more than 50 percent of the required open area shall be planted with any combination of perennials, annuals, decorative grasses, shrubs or trees in planting beds, raised planting beds or planter boxes. Such planting bed shall extend to a depth of at least three feet, inclusive of any structure containing the planted material, and any individual planted area shall have a width of at least five feet. For planting located east of the circulation path required pursuant to this paragraph (a), the maximum linear length of any individual planting bed shall not exceed 50 feet.

(3) Other amenities

The remainder of the open area may contain any combination of:

(i) streetscape amenities including, but not limited to, benches or tables and chairs

(ii) entertainment amenities including, but not limited to, water features, playgrounds, dog runs, game tables, courts or skateboard parks; and
(iii) streetscape-enhancing amenities including, but not limited to, trees in tree pits, and lighting, or sculptural artwork.

All streetscape and entertainment amenities provided in accordance with paragraphs (a)(3)(i) and (a)(3)(ii) of this Section shall be connected to the primary circulation path required by paragraph (a) of this Section through secondary circulation paths, paved with permeable materials, each with a minimum width of six feet. Any planting associated with an amenity including, but not limited to, playgrounds and dog runs, as applicable, may exceed the amount set forth in paragraph (b) of this Section.

Any open area not otherwise allocated to amenities or secondary circulation paths shall also be paved with permeable materials. The minimum clear space between any planted areas required by paragraph (b) of this Section, any amenity provided under this paragraph, or any combination thereof, shall be six feet.

(4) Fencing

In no event shall chain link fencing or barbed or razor wire be permitted in any open area provided pursuant to this Section. No fences may exceed a height of four feet.

(b) In the event that Parcel 1 is developed with mixed buildings, sidewalks shall be provided on such parcel as follows:

(1) Sidewalks with a width of at least 15 feet shall be provided along the entire Exterior Street and East 149th Street frontage of a zoning lot.

(2) In locations where the width of the sidewalk within the street is less than 15 feet, a sidewalk widening shall be provided on the zoning lot such that the combined width of the sidewalk within the street and the sidewalk widening equals at least 15 feet. However, existing buildings remaining on the zoning lot need not be removed in order to comply with this requirement.

All sidewalks and sidewalk widening shall be constructed or improved to Department of Transportation standards and shall connect at grade to the adjoining public sidewalks.

87–416
Special open area provisions

[Existing text moved to Section 87-415]

(a) For Parcels 1, 2, 3 and 4, as shown on Map 1 in the Appendix to this Chapter, the open area between the #street wall# of a #building# fronting on the #Major Deegan Expressway street line# and the western edge of such Expressway, shall be subject to the provisions of Section 28-23 (Planting Areas), whether the ground floor is occupied by #residential uses# or non-#residential uses#. Such provisions shall be modified by the provisions of this Section.

(1) Primary circulation path

A circulation path, with a width of at least 13 feet or the width of such open area, whichever is less, and the western edge of such path shall be provided within five feet of a #street wall# facing the #Major Deegan Expressway street line#. Such circulation path shall extend along the entire frontage of the #zoning lot#, and shall be constructed in accordance with Department of Transportation standards for sidewalks.

(2) Planting

At least 20 percent, but not more than 50 percent of the required open area shall be planted with any combination of perennials, annuals, decorative grasses, shrubs or trees in planting beds, raised planting beds or planter boxes. Such planting bed shall extend to a depth of at least three feet, inclusive of any structure containing the planted material, and any individual planted area shall have a width of at least five feet. For planting located east of the circulation path required pursuant to this paragraph (a), the maximum linear length of any individual planting bed shall not exceed 50 feet.

(3) Other amenities

The remainder of the open area may contain any combination of:

(i) streetscape amenities including, but not limited to, benches or tables and chairs

(ii) entertainment amenities including, but not limited to, water features, playgrounds, dog runs, game tables, courts or skate park

(iii) streetscape enhancing amenities including, but not limited to, trees in tree
pits, and lighting, or sculptural artwork.

All streetscape and entertainment amenities provided in accordance with paragraphs (a)(3)(i) and (a)(3)(ii) of this Section shall be connected to the primary circulation path required by paragraph (a) of this Section through secondary circulation paths, paved with permeable materials, each with a minimum width of six feet. Any planting associated with an amenity including, but not limited to, playgrounds and dog runs, as applicable, may exceed the amount set forth in paragraph (b) of this Section.

Any open area not otherwise allocated to amenities or secondary circulation paths shall also be paved with permeable materials. The minimum clear space between any planted areas required by paragraph (b) of this Section, any amenity provided under this paragraph, or any combination thereof, shall be six feet.

(4) Fencing

In no event shall chain link fencing or barbed or razor wire be permitted in any open area provided pursuant to this Section. No fences may exceed a height of four feet.

(b) In the event that Parcel 1 is developed with mixed buildings, sidewalks shall be provided on such parcel as follows:

(1) Sidewalks with a width of at least 15 feet shall be provided along the entire Exterior Street and East 149th Street frontage of a zoning lot.

(2) In locations where the width of the sidewalk within the street is less than 15 feet, a sidewalk widening shall be provided on the zoning lot such that the combined width of the sidewalk within the street and the sidewalk widening equals at least 15 feet. However, existing buildings remaining on the zoning lot need not be removed in order to comply with this requirement.

All sidewalks and sidewalk widenings shall be constructed or improved to Department of Transportation standards and shall connect at grade to the adjoining public sidewalks.

General Provisions

The provisions of this Chapter shall apply within the #Special Hudson Yards District#. The regulations of all other chapters of this Resolution are applicable, except as superseded, supplemented or modified by the provisions of this Chapter. In the event of a conflict between the provisions of this Chapter and other regulations of this Resolution, the provisions of this Chapter shall control. However, in #flood zones#, in the event of a conflict between the provisions of this Chapter and the provisions of Article VI, Chapter 4 (Special Regulations Applying in Flood Hazard Areas, Flood Zones), the provisions of Article VI, Chapter 4 shall control.
Chapter 4
Special Sheepshead Bay District

94-00
GENERAL PURPOSES

94-02
General Provisions

In harmony with the general purposes of the Special Sheepshead Bay District and in accordance with the provisions of this Chapter, certain specified regulations of the districts on which the Special Sheepshead Bay District is superimposed are made inapplicable and special regulations are substituted therefor. The City Planning Commission, by special permit, may grant certain uses and may authorize bulk modifications within the Special District as set forth in this Chapter. Except as modified by the express provisions of this Special District, the regulations of the underlying zoning districts remain in effect.

In the waterfront area, the provisions of the Special Sheepshead Bay District are modified in accordance with the provisions of Section 62-13 (Applicability of District Regulations).

In flood zones, in the event of a conflict between the provisions of this Chapter and the provisions of Article VI, Chapter 4 (Special Regulations Applying in Flood Hazard Areas - Flood Zones), the provisions of Article VI, Chapter 4 shall control.

Chapter 5
Special Transit Land Use District

95-00
GENERAL PURPOSES
95-02
General Provisions

#Special Transit Land Use Districts# are mapped in the vicinity of existing or proposed subway stations. Except as modified by the express provisions of this Chapter, the regulations of the underlying district remain in effect.

Whenever this Special District overlaps another Special District and imposes contradictory regulations, the provisions of the #Special Transit Land Use District# shall apply. Nothing contained in this regulation shall be understood to supersede Landmark or Historic District designations of the New York City Landmarks Preservation Commission.

In #flood zones#, in the event of a conflict between the provisions of this Chapter and the provisions of Article VI, Chapter 4 (Special Regulations Applying in Flood Zones), the provisions of Article VI, Chapter 4 shall control.

*   *   *

Chapter 6
Special Clinton District

96-00
GENERAL PURPOSES

*   *   *

96-02
General Provisions

Except as modified by the express provisions of this Chapter, the regulations of the underlying districts, or as modified by the #Special Midtown District#, remain in effect.

The #Special Midtown District# and its regulations, where applicable in the #Special Clinton District#, shall also apply and shall supplement or supersede regulations as set forth in this Chapter pursuant to Section 96-22 (Special Regulations for Eighth Avenue Perimeter Area). In the event of any conflict or discrepancy between the regulations, the more restrictive regulations shall apply in accordance with Section 11-22 (Application of Overlapping Regulations). This portion of the Special Purpose District is designated on the #zoning map# by the letters “CL-MiD.”
In flood zones, in the event of a conflict between the provisions of this Chapter and the provisions of Article VI, Chapter 4 (Special Regulations Applying in Flood Hazard Areas - Flood Zones), the provisions of Article VI, Chapter 4 shall control.

* * *

Chapter 8
Special West Chelsea District

98-00
GENERAL PURPOSES

* * *

98-02
General Provisions

The provisions of this Chapter shall apply to any zoning lot, or portion thereof, within the Special West Chelsea District, except that the provisions of Sections 98-11 (Special Regulations for Developments and Enlargements Above, Beneath or Adjacent to the High Line) and 98-16 (Air Space Over a Railroad or Transit Right-of-way or Yard) shall also apply to any zoning lot south of the Special West Chelsea District over which the High Line passes. The regulations of all other Chapters of this Resolution are applicable, except as superseded, supplemented or modified by the provisions of this Chapter. In the event of a conflict between the provisions of this Chapter and other regulations of this Resolution, the provisions of this Chapter shall control. However, in flood zones, in the event of a conflict between the provisions of this Chapter and the provisions of Article VI, Chapter 4 (Special Regulations Applying in Flood Hazard Areas - Flood Zones), the provisions of Article VI, Chapter 4 shall control.

* * *

ARTICLE X
SPECIAL PURPOSE DISTRICTS

* * *
Chapter 3
Special Planned Community Preservation District

* * *

103-10
GENERAL PROVISIONS

In harmony with the general purpose and intent of this Resolution and the general purposes of the Special Planned Community Preservation District, no development, enlargement, or substantial alteration of landscaping or topography, shall be permitted within the Fresh Meadows, Harlem River Houses and Parkchester areas, except by special permit of the City Planning Commission, pursuant to Sections 103-11 (Special Permit for Bulk and Parking Modifications) and 103-12 (Special Permit for Landscaping and Topography Modifications).

No demolition of buildings shall be permitted within the Fresh Meadows, Harlem River Houses and Parkchester areas, unless it is an unsafe building and demolition is required pursuant to the provisions of Chapter 26, Title C, Part I, Article 8, of the New York City Administrative Code, or its successor, except that such demolition may be permitted pursuant to a development plan for which a special permit has been granted under the provisions of Sections 103-11 and 103-12.

In a C8-4 District, however, a demolition permit may be issued for any building that is less than 10,000 square feet and was constructed after December 31, 1955, but prior to July 18, 1974. Special regulations for the Sunnyside Gardens area are set forth in Section 103-20, inclusive.

In flood zones, in the event of a conflict between the provisions of this Chapter and the provisions of Article VI, Chapter 4 (Special Regulations Applying in Flood Zones), the provisions of Article VI, Chapter 4, shall control.

* * *

Chapter 4
Special Manhattanville Mixed Use District

104-00
GENERAL PURPOSES

* * *
104-02  
General Provisions  

In harmony with the general purposes and content of this Resolution and the general purposes of the #Special Manhattanville Mixed Use District#, the regulations of this Chapter shall apply within the Special District. The regulations of all other Chapters of this Resolution are applicable, except as superseded, supplemented or modified by the provisions of this Chapter. In the event of a conflict between the provisions of this Chapter and other regulations of this Resolution, the provisions of this Chapter shall control. However, in #flood zones#, in the event of a conflict between the provisions of this Chapter and the provisions of Article VI, Chapter 4 (Special Regulations Applying in Flood Hazard Areas - Flood Zones), the provisions of Article VI, Chapter 4 shall control.

* * *

104-30  
Special Height and Setback Requirements  

In the #Special Manhattanville Mixed Use District#, the height and setback regulations of the underlying C6 Districts shall not apply. In lieu thereof, the height and setback provisions of this Section, inclusive, shall apply in C6 Districts. In Subdistrict B, special height regulations for the underlying M1-2 District are set forth in Section 104-31, et seq.

In Subdistrict A, the height of all #buildings or other structures# shall be measured from the #base plane#. However, the provisions for establishing #base planes# set forth in Section 12-10 (DEFINITIONS) shall not apply. In lieu thereof, #base planes# are specified for each Parcel as shown on Map 5 (Parcel Designation and Maximum Building Heights) in Appendix A of this Chapter. The level of the #base plane# is designated for each such Parcel in Appendix B of this Chapter. However, in #flood zones#, the level of the #base plane# shall be the #flood-resistant construction elevation#.

Wherever a #mandatory widened sidewalk line# is shown on Map 3 (Widened Sidewalk Lines) in Appendix A of this Chapter, such line shall be used instead of the #street line# for all purposes of Section 104-30, et seq.

The City Planning Commission may modify, by special permit, the special height and setback requirements of this Section pursuant to Section 104-60 (MODIFICATION OF SPECIAL BULK REQUIREMENTS AND TRANSFER OF FLOOR AREA BY SPECIAL PERMIT).
Chapter 5
Special Natural Area District

105-00
GENERAL PURPOSES

105-02
General Provisions

In harmony with the general purpose and intent of this Resolution and the general purposes of the #Special Natural Area District#, the regulations of the districts upon which this Special District is superimposed are supplemented or modified in accordance with the provisions of this Chapter, in order to protect outstanding #natural features# described herein. Except as modified by the express provisions of this Chapter, the regulations of the underlying district remain in effect. The provisions of this Chapter shall apply to:

When a #zoning lot# existing on the effective date of the Special District designation is subdivided into two or more #zoning lots#, an application shall be submitted to the Commission for review and approval pursuant to Section 105-90 (FUTURE SUBDIVISION).

In #flood zones#, in the event of a conflict between the provisions of this Chapter and the provisions of Article VI, Chapter 4 (Special Regulations Applying in Flood Zones), the provisions of Article VI, Chapter 4, shall control.

Chapter 6
Special Coney Island Mixed Use District
106-00
GENERAL PURPOSES

*     *     *

106-01
General Provisions

In harmony with the general purpose and intent of this Resolution and the general purpose of the #Special Coney Island Mixed Use District# and in accordance with the provisions of this Chapter, regulations of the #Special Coney Island Mixed Use District# shall replace and supersede the existing district regulations. In #flood zones#, in the event of a conflict between the provisions of this Chapter and the provisions of Article VI, Chapter 4 (Special Regulations Applying in Flood Hazard Areas Flood Zones), the provisions of Article VI, Chapter 4 shall control.

*     *     *

Chapter 7
Special South Richmond Development District

107-00
GENERAL PURPOSES

*     *     *

107-02
General Provisions

In harmony with the general purpose and intent of this Resolution and the general purpose of the #Special South Richmond Development District#, the regulations of the districts upon which this Special District is superimposed are supplemented or modified in accordance with the provisions of this Chapter. Except as modified by the express provisions of this Chapter, the regulations of the underlying districts remain in effect. In #flood zones#, in the event of a conflict between the provisions of this Chapter and the provisions of Article VI, Chapter 4 (Special Regulations Applying in Flood Hazard Areas Flood Zones), the provisions of Article VI, Chapter 4 shall control. Additional provisions applicable in #flood zones# are set forth in Section 107-092 (Applicability of Article VI, Chapter 4).
107-09
Applicability of Article VI, Chapter 2

The Chairperson of the City Planning Commission may, by certification, modify or waive a required #visual corridor#, as defined in Section 62-11, with respect to #developments#, including minor modifications thereto, that contain #designated open space# and a portion of the #waterfront esplanade#, where such #development# is conditioned upon a restrictive declaration that includes a site plan for such #development#, including provisions for public access to such #designated open space# and #waterfront esplanade#, provided that at least one required #visual corridor# continues to be provided pursuant to the restrictive declaration.

107-091
Applicability of Article VI, Chapter 2

[Note: Text moved from Section 107-09]

The Chairperson of the City Planning Commission may, by certification, modify or waive a required #visual corridor#, as defined in Section 62-11, with respect to #developments#, including minor modifications thereto, that contain #designated open space# and a portion of the #waterfront esplanade#, where such #development# is conditioned upon a restrictive declaration that includes a site plan for such #development#, including provisions for public access to such #designated open space# and #waterfront esplanade#, provided that at least one required #visual corridor# continues to be provided pursuant to the restrictive declaration.

107-092
Applicability of Article VI, Chapter 4

[Note: Text to substitute paragraph (b) of Section 64-A352]

For #zoning lots# in #flood zones# with #single-# or #two-family detached residences# utilizing the provisions for #cottage envelope buildings#, as defined in Section 64-11 (Definitions), the provisions of this Chapter pertaining to minimum #lot area#, #lot width#, and minimum sizes of #front yards# and #side yards# shall not apply, and in lieu thereof, the underlying district regulations shall apply for the purposes of determining the applicability of the definition of #cottage envelope buildings#, and the particular amount of relief permitted pursuant to Section 64-33 (Cottage Envelope Buildings), inclusive.
Chapter 8
Special Hunts Point District

108-00
GENERAL PURPOSES

* * *

108-01
General Provisions

In harmony with the general purposes and content of this Resolution and the general purposes of the Special Hunts Point District, the provisions of this Chapter shall apply to all developments and enlargements within the Special Hunts Point District. The regulations of all other Chapters of this Resolution are applicable except as modified, supplemented or superseded by the provisions of this Chapter. In the event of a conflict between the provisions of this Chapter and other regulations of this Resolution, the provisions of this Chapter shall control. However, in flood zones, in the event of a conflict between the provisions of this Chapter and the provisions of Article VI, Chapter 4 (Special Regulations Applying in Flood Hazard Areas Flood Zones), the provisions of Article VI, Chapter 4, shall control.

116-02
General Provisions

In harmony with the general purposes and content of this Resolution and the general purposes of the #Special Stapleton Waterfront District#, the provisions of this Chapter shall apply to all #developments#, #enlargements# and changes of #use# within the #Special Stapleton Waterfront District#. The regulations of all other Chapters of this Resolution are applicable except as modified, supplemented or superseded by the provisions of this Chapter. In the event of a conflict between the provisions of this Chapter and other regulations of this Resolution, the provisions of this Chapter shall control. However, in #flood zones#, in the event of a conflict between the provisions of this Chapter and the provisions of Article VI, Chapter 4 (Special Regulations Applying in Flood Zones), the provisions of Article VI, Chapter 4 shall control, except in Subarea E of this Chapter.

Within the #Special Stapleton Waterfront District#, the regulations of the underlying R6, C2-2, C4-2A and M2-1 Districts shall apply, as modified in this Chapter.

*     *     *
116-05
Applicability

In Subareas A, B and C, the #Esplanade#, #Pier Place# and the #Cove#, the provisions of Article VI, Chapter 2 (Special Regulations Applying in the Waterfront Area), shall not apply. In lieu thereof, the special #use#, #bulk#, #accessory# off-street parking, public access and urban design regulations of Sections 116-10 through 116-50 shall apply.

In Subarea D, the provisions of Article VI, Chapter 2 shall apply pursuant to the underlying M2-1 District regulations.

In Subarea E, the underlying provisions of Article VI, Chapter 2 shall apply, except as modified in Section 116-60 (SPECIAL REGULATIONS IN SUBAREA E), inclusive. In addition, the provisions of Article VI, Chapter 4 (Special Regulations Applying in Flood Hazard Areas - Flood Zones), shall not apply. In lieu thereof, the provisions of Section 116-623 (Height and setback regulations), shall apply.

#Lower density growth management area# regulations shall not apply in the #Special Stapleton Waterfront District#.

*   *   *

116-221
Special floor area regulations for mixed buildings

For #buildings# containing #residences#, the area in such #buildings# occupied by non-#residential uses# on the ground floor, or within two feet of the as-built level of the adjoining sidewalk, shall be excluded from the calculation of permitted #floor area# in the #building#. However, the area occupied by non-#residential uses# on the ground floor shall be included as #floor area# for other purposes including calculating:

(a) requirements for #accessory# off-street parking spaces;

(b) #accessory# off-street loading berths; and

(c) limitations on #floor area# occupied by certain #uses#.

In #flood zones#, the #floor area# exclusion permitted by this Section shall also apply to the area occupied by non-#residential uses# on the #lowest occupiable floor#, as defined in Section 64-11.

However, in #flood zones#, in the event of a conflict between the provisions of this Chapter and the provisions of Article VI, Chapter 4 (Special Regulations Applying in Flood Hazard Areas Flood Zones), the provisions of Article VI, Chapter 4 shall control.

*     *     *

124-10 SPECIAL USE REGULATIONS

124-14 Retail Continuity

The following regulations shall apply within Area A, as shown on Map 1 in the Appendix to this Chapter, to all portions of #buildings# with frontage on 126th Street, the #primary retail street#, #retail streets#, #connector streets# and, in the event that a utility easement is retained on the #block# bounded by Roosevelt Avenue and 126th Street, along the frontage of the publicly accessible open space required by paragraph (d) of Section 124-42.

(a) Ground floor #uses#

#Uses# within #stories# on the ground floor or with a floor level within five feet of #base flood elevation# the #base plane# shall be limited to #commercial uses# permitted by the underlying district, except #uses# listed in Use Groups 6B, 6E, 8C, 8D, 9B, 10B or 12D. A #building’s# frontage shall be allocated exclusively to such #uses#, except for Type 2 lobby space or entryways, provided in accordance with Section 37-33 (Maximum Width of Certain Uses), parking pursuant to Section 124-50, inclusive, and vehicular access pursuant to Section 124-53 (Curb Cut Restrictions). Such #uses# shall have a minimum
depth of 50 feet measured from any street wall facing 126th Street, the primary retail street or connector streets.

* * *

(d) Transparency

For any building, or portion thereof, developed or enlarged after November 13, 2008, each ground floor street wall shall be glazed in accordance with Section 37-34 (Minimum Transparency Requirements).

However, in locations where such ground floor street wall above the level of the adjoining sidewalk or public access area is below base flood elevation, the required glazed area shall occupy an area measured from base flood elevation.

124-15
Modification of Sign Regulations

The height of all signs shall be measured from base flood elevation. The underlying sign regulations shall apply, except as set forth in this Section.

* * *

124-30
MANDATORY IMPROVEMENTS

124-31
Standards for Streets and Blocks

* * *

124-312
New streets

The provisions of this Section shall apply to all private streets constructed after November 13, 2008.

* * *
(f) #Service streets#

All newly constructed #streets#, other than those listed in paragraphs (a) through (e) of this Section, shall be improved as a #service street#. A minimum of 50 percent of the #uses# within #stories# on the ground floor or with a floor level within five feet of #base flood elevation# the #base plane# fronting a #service street# shall contain non-#residential uses#. #Service streets# shall be provided, as follows:

* * *
127-40
DISTRICT PLAN ELEMENTS

*     *     *

127-41
Special Streetscape Regulations

*     *     *

127-412
Special provisions for blank walls

The blank wall provisions of paragraph (a)(7)(ii) of Section 62-655 (Planting and trees) shall not apply. In lieu thereof, the visual mitigation elements shall be provided in accordance with the provisions for Type 2 blank walls set forth in Section 37-361 (Blank wall thresholds), provisions of this Section, inclusive, shall apply.

Along all frontages, where no transparent materials or building entrances or exits are provided on the ground floor level street wall lower than a height of four feet above the level of the adjoining sidewalk for a continuous width of at least 25 feet, at least 75 percent of the linear footage of any such portions of a ground floor level street wall shall be treated by one or more of the following visual mitigation elements which shall be provided on the zoning lot, except where such elements are permitted within the street under other applicable laws or regulations.

(a) Planting

Any combination of perennials, annuals, decorative grasses or shrubs shall be provided in planting beds, raised planting beds or planter boxes in front of the street wall. Each foot in width of a planting bed, raised planting bed or planter box, as measured parallel to the street wall, shall satisfy one linear foot of frontage mitigation requirements. Such planted area shall extend to a depth of at least three feet, inclusive of any structure containing the planted material. Any individual planted area shall have a width of at least five feet, and the height of such planting, inclusive of any structure containing the planted materials, shall be at least three feet.

Where a blank wall exceeds a street wall width of 50 feet, at least 25 percent of such street wall width shall be planted in accordance with the provisions of this paragraph.

(b) Benches

Fixed benches with or without backs shall be provided in front of the street wall.
Unobstructed access shall be provided between such benches and an adjoining sidewalk or required circulation paths. Each linear foot of bench, as measured parallel to the #street wall#, shall satisfy one linear foot of frontage mitigation requirement. Any individual bench shall have a width of at least five feet, and no more than 20 feet of benches may be used to fulfill such requirement per 50 feet of frontage.

(c) Bicycle racks

Bicycle racks, sufficient to accommodate at least two bicycles, shall be provided in front of the #street wall#, and oriented so that the bicycles are placed parallel to the #street wall#. Each bicycle rack so provided shall satisfy five linear feet of frontage mitigation requirement. No more than three bicycle racks may be used to fulfill such requirement per 50 feet of frontage.

(d) Tables and chairs

Fixed tables and chairs shall be provided in front of the #street wall#. Each table shall have a minimum diameter of two feet, and have a minimum of two chairs associated with it. Each table and chair set so provided shall satisfy five linear feet of frontage mitigation requirement.

(e) Wall treatment

Wall treatment, in the form of permitted #signs#, graphic or sculptural art, rustication, decorative screening or latticework, or living plant material, shall be provided along the #street wall#. Each linear foot of wall treatment shall constitute one linear foot of frontage mitigation requirement. Such wall treatment shall extend to a height of at least 10 feet, as measured from the level of the adjoining sidewalk or grade, and have a minimum width of 10 feet, as measured parallel to the #street wall#.

*     *     *

Chapter 8
Special St. George District

128-00
GENERAL PURPOSES
In harmony with the general purpose and intent of this Resolution and the general purposes of the #Special St. George District#, the regulations of this Chapter shall apply within the #Special St. George District#. The regulations of all other Chapters of this Resolution are applicable, except as superseded, supplemented or modified by the provisions of this Chapter. In the event of a conflict between the provisions of this Chapter and other regulations of this Resolution, the provisions of this Chapter shall control. However, in #flood zones#, in the event of a conflict between the provisions of this Chapter and the provisions of Article VI, Chapter 4 (Special Regulations Applying in Flood Hazard Areas Flood Zones), the provisions of Article VI, Chapter 4 shall control.

131-40
HEIGHT AND SETBACK REGULATIONS

* * *

131-42
Coney East Subdistrict

* * *

131-421
Coney East Subdistrict, south side of Surf Avenue

The following regulations shall apply along the south side of Surf Avenue and along those portions of streets intersecting Surf Avenue located north of a line drawn 50 feet north of and parallel to the northern street line of Bowery and its westerly prolongation.

(a) Street wall location

The street wall of a building shall be located within five feet of the street line and extend along the entire frontage of the zoning lot, except that:

(1) a sidewalk widening shall be required at the intersection of Surf Avenue and West 10th Street, extending from a point on the Surf Avenue street line 125 feet west of West 10th Street to a point on the West 10th Street street line 20 feet south of Surf Avenue. Such area shall be improved as a sidewalk to Department of Transportation standards, be at the same level as the adjoining sidewalks, and be accessible to the public at all times. Such sidewalk widening line shall be considered a street line for the purposes of applying the use and height and setback regulations of this Chapter;

(2) ground floor level recesses up to three feet deep shall be permitted for access to building entrances. However, for building entrances providing direct access to
the lowest #story# located above the #base flood elevation#, such recesses shall be permitted to have a depth of up to 10 feet provided the width of such recesses does not exceed 20 feet and the height of such recessed area is not less than 15 feet at any point as measured from the #base flood elevation#;

(3)(2) to allow for corner articulation, the #street wall# may be located anywhere within an area bounded by intersecting #street lines# and lines 15 feet from and parallel to such #street lines#;

(4)(3) to allow for portions of towers to rise without setback from grade, a portion of a #building# base below a tower may be set back 10 feet from the #street line#, provided the width of such setback area is not greater than 40 percent of the width of the #street wall# of the tower, and provided such setback area complies with the provisions of Section 131-47 (Design Requirements for Ground Level Setbacks).

*     *     *

131-423
Along all other streets

The following regulations shall apply along Wonder Wheel Way, Bowery, and all other #streets#, and portions thereof, located south of a line drawn 50 feet north of and parallel to the northern #street# line of Bowery and its westerly prolongation.

(a) #Street wall# location

The #street wall# of the #building#, or portion thereof, shall be located within five feet of the #street line#. However, for #building# entrances providing direct access to the lowest #story# located above the #base flood elevation#, a recess shall be permitted to have a depth of up to 10 feet as measured from the #street line#, provided the width of such recess does not exceed 20 feet and the height of such recessed area is not less than 15 feet at any point as measured from the #base flood elevation#;

*     *     *

131-43
Coney West Subdistrict
131-431
Coney West District, Surf Avenue

The regulations of this Section shall apply along Surf Avenue. The street wall location provisions of paragraph (a) of this Section shall also apply along streets intersecting Surf Avenue within 50 feet of Surf Avenue, and the building base regulations of paragraph (b) of this Section shall also apply along streets within 100 feet of Surf Avenue.

(a) Street wall location

The street wall of a building base shall be located on the Surf Avenue street line and extend along the entire Surf Avenue frontage of the zoning lot, except that:

(1) ground floor level recesses up to three feet deep shall be permitted for access to building entrances, except that for building entrances providing direct access to the lowest story located above the base flood elevation, such recesses shall be permitted to have a depth of up to 10 feet provided the width of such recess does not exceed 20 feet and the height of such recessed area is not less than 15 feet at any point as measured from the base flood elevation;

(2) to allow for corner articulation, the street wall may be located anywhere within an area bounded by intersecting street lines and lines 15 feet from and parallel to such street lines; and

(3) to allow for portions of towers to rise without setback from grade, a portion of a building base below a tower may be set back 10 feet from a street line, provided the width of such setback area is not greater than 40 percent of the width of the street wall of the tower and provided such setback area complies with the provisions of Section 131-47 (Design Requirements for Ground Level Setbacks).

* * *

131-432
Along all other streets, other than Riegelmann Boardwalk

The following regulations shall apply along all other streets in the Coney West Subdistrict, except within 70 feet of Riegelmann Boardwalk.
(a) #Street wall# location

The #street wall# of a #building# base, or portion thereof, beyond 50 feet of Surf Avenue, shall be located within eight feet of the #street line# except that, to allow portions of towers to rise without setback from grade, a portion of a #building# base below a tower may be set back 10 feet from the #street line#, provided the width of such setback area is not greater than 40 percent of the width of the #street wall# of the tower. In addition, for #street walls# facing Ocean Way, #building# entrances providing direct access to the lowest #story# located above the #base flood elevation# may be recessed up to a depth of 10 feet as measured from the #street line#, provided the width of such recess does not exceed 20 feet and the height of such recessed area is not less than 15 feet at any point as measured from the #base flood elevation#.

The entire area of the #zoning lot# between the #street line# and all #street walls# of the #building# and their prolongations shall be planted at ground level, or in raised planting beds that are permanently affixed to the ground, except that such plantings shall not be required at the entrances to and exits from the #building#, within driveways accessing off-street parking spaces located within, to the side, or rear of such #building#, or between #commercial uses# and the #street line#. No #zoning lot# shall be altered in any way that will either create a new non-compliance or increase the degree of non-compliance with the provisions of this Section.

* * *

131-44
Coney North Subdistrict

* * *

131-441
Coney North Subdistrict, Surf Avenue

The regulations of this Section shall apply along Surf Avenue. The #street wall# location provisions of paragraph (a) of this Section shall also apply along #streets# intersecting Surf Avenue within 50 feet of Surf Avenue, and the #building# base regulations of paragraph (b) of this Section shall also apply along #streets# within 100 feet of Surf Avenue.

(a) #Street wall# location
The #street wall# of a #building# base shall be located on the Surf Avenue #street line# and extend along the entire Surf Avenue frontage of the #zoning lot#, except that:

(1) ground floor level recesses up to three feet deep shall be permitted for access to #building# entrances. However, for #building# entrances providing direct access to the lowest #story# located above the #base flood elevation#, such recesses shall be permitted to have a depth of up to 10 feet provided the width of such recess does not exceed 20 feet and the height of such recessed area is not less than 15 feet at any point as measured from the #base flood elevation#;

(2) to allow for corner articulation, the #street wall# may be located anywhere within an area bounded by intersecting #street lines# and lines 15 feet from and parallel to such #street lines#; and

(3) to allow for portions of towers to rise without setback from grade, a portion of a #building# base below a tower may be set back 10 feet from a #street line#, provided the width of such setback area is not greater than 40 percent of the width of the #street wall# of the tower and provided such setback area complies with the provisions of Section 131-47 (Design Requirements for Ground Level Setbacks).

*     *     *

131-443
Mermaid and Stillwell Avenues

Within 100 feet of Mermaid Avenue and within 100 feet of Stillwell Avenue, except within 100 feet of Surf Avenue, all portions of a #building or other structure# shall comply with the height and setback regulations of a C2 District mapped within an R7A District, except that the #street wall# of a #building# shall be located on the #street line# and rise without setback to a minimum height of 40 feet or the height of the #building#, whichever is less, except that:

(a) ground floor level recesses up to three feet deep shall be permitted for access to #building# entrances. However, for #building# entrances providing direct access to the lowest #story# located above the #base flood elevation#, such recesses shall be permitted to have a depth of up to 10 feet provided the width of such recess does not exceed 20 feet and the height of such recessed area is not less than 15 feet at any point as measured from the #base flood elevation#;

(b) to allow for corner articulation, the #street wall# may be located anywhere within an area bounded by intersecting #street lines# and lines 15 feet from and parallel to such #street
lines#; and

(e)(b) above the level of the second #story#, up to 30 percent of the #aggregate width of street walls# may be recessed, provided no recesses are located within 15 feet of an adjacent #building# or within 30 feet of the intersection of two #street lines#, except where corner articulation is provided as set forth in paragraph (b) of this Section.

*  *  *

131-45
Mermaid Avenue Subdistrict

All portions of a #building or other structure# shall comply with the height and setback regulations of a C2 District mapped within an R7A District, except that on Mermaid Avenue, and on intersecting #streets# within 50 feet of Mermaid Avenue, the #street wall# of a #building# shall be located on the #street line# and rise without setback to a minimum base height of 40 feet or the height of the #building#, whichever is less, except that:

(a)——ground floor level recesses up to three feet deep shall be permitted for access to #building# entrances. However, for #building# entrances providing direct access to the lowest #story# located above the #base flood elevation#, such recesses shall be permitted to have a depth of up to 10 feet, provided the width of such recess does not exceed 20 feet and the height of such recessed area is not less than 15 feet at any point as measured from the #base flood elevation#;

(b)(a) to allow for corner articulation, the #street wall# may be located anywhere within an area bounded by intersecting #street lines# and lines 15 feet from and parallel to such #street lines#; and

(c)(b) above the level of the second #story#, up to 30 percent of the #aggregate width of street walls# may be recessed, provided no recesses are located within 15 feet of an adjacent #building# or within 30 feet of the intersection of two #street lines#, except where corner articulation is provided as set forth in paragraph (b) of this Section.

*  *  *

131-49
Authorization for Exterior Ramps

The City Planning Commission may authorize modifications of the #street wall# location
provisions of this Chapter to allow exterior ramps for access from the public sidewalk to the lowest #story# above the #base flood elevation# or #flood-resistant construction elevation#, as defined in Section 64-11 (Definitions), provided the Commission finds that the design of such ramps:

(a) maximizes visibility of interior ground floor space within the #building# from the public sidewalk;
(b) incorporates amenities such as seating and planting as the Commission may find appropriate; and
(c) relates harmoniously with the design and materials of the adjacent #building# and the surrounding streetscape.

The Commission may prescribe appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding area.

Chapter 5
Special Bay Street District

135-00
GENERAL PURPOSES

*     *     *

135-04
Applicability

*     *     *

135-044
Applicability of Article VI, Chapter 4

Notwithstanding the general provisions of Section 135-01, in #flood zones#, in the event of a conflict between the provisions of this Chapter and the provisions of Article VI, Chapter 4 (Special Regulations Applying in Flood Hazard Areas – Flood Zones), the provisions of Article VI, Chapter 4 shall control.
### 135-10
**SPECIAL USE REGULATIONS**

* * *

### 135-11
**Ground Floor Use Regulations**

For the purposes of applying to this Chapter the special ground floor level streetscape provisions set forth in Section 37-30, any portion of a ground floor level street frontage along Bay Street, as well as any street frontage within 50 feet of Bay Street, shall be considered a primary street frontage. A ground floor level street frontage along any other street shall be considered a secondary street frontage. For the purposes of this Section, inclusive, defined terms shall include those in Sections 12-10 and 37-311.

The provisions of this Section shall apply to developments or ground floor level enlargements.

(a) Along primary street frontages

For buildings, or portions thereof, with primary street frontage, uses on the ground floor level, to the minimum depth set forth in Section 37-32 (Ground Floor Depth Requirements for Certain Uses), shall be limited to non-residential uses, except for Type I lobbies and entrances and exits to accessory parking spaces provided in accordance with the applicable provisions of Section 37-33 (Maximum Width of Certain Uses). Group parking facilities located on the ground floor level shall be wrapped by floor area in accordance with the provisions of paragraph (a) of Section 37-35 (Parking Wrap and Screening Requirements). Ground floor level street walls shall be glazed in accordance with the provisions set forth in Section 37-34 (Minimum Transparency Requirements).

For zoning lots with a lot area of less than 5,000 square feet existing both on June 26, 2019 and on the date of application for a building permit, the provisions of this paragraph (a) shall not apply. In lieu thereof, the provisions of paragraph (b) of this Section shall apply.

In flood zones, where no transparent materials or building entrances or exits are
provided on the ground floor level street wall below a height of four feet above the level of the adjoining sidewalk for a continuous width of at least 15 feet, visual mitigation elements shall be provided in accordance with Section 135-12 (Special Streetscape Provisions for Blank Walls) for such blank wall the provisions for Type 3 blank walls set forth in Section 37-361 (Blank wall thresholds).

* * *

135-12
Special Streetscape Provisions for Blank Walls
Physical Culture or Health Establishments

[Existing Text to be deleted and substituted by Section 37-36]

Where visual mitigation elements are required on a blank wall along the ground floor level street wall pursuant to the provisions of Section 135-11 (Ground Floor Use Regulations), at least 75 percent of the linear footage of any such blank wall shall be treated by one or more of the following visual mitigation elements:

(a) Planting

Where utilized as a visual mitigation element, any combination of perennials, annuals, decorative grasses or shrubs shall be provided in planting beds, raised planting beds or planter boxes in front of the street wall. Each foot in width of a planting bed, raised planting bed or planter box, as measured parallel to the street wall, shall satisfy one linear foot of frontage mitigation requirement. Such planting bed shall extend to a depth of at least three feet, inclusive of any structure containing the planted material. Any individual planted area shall have a width of at least five feet, and the height of such planting, inclusive of any structure containing the planted materials, shall be at least three feet.

Where a blank wall exceeds a street wall width of 50 feet, at least 25 percent of such street wall width shall be planted in accordance with the provisions of this paragraph.

(b) Benches

Where utilized as a visual mitigation element, fixed benches with or without backs shall be provided in front of the street wall. Unobstructed access shall be provided between such benches and an adjoining sidewalk or required circulation paths. Each linear foot of bench, as measured parallel to the street wall, shall satisfy one linear foot of frontage mitigation requirement.
requirement. Any individual bench shall have a width of at least five feet, and no more than 20 feet of benches may be used to fulfill such requirement per 50 feet of frontage.

(c) Bicycle racks

Where utilized as a visual mitigation element, bicycle racks, sufficient to accommodate at least two bicycles, shall be provided in front of the street wall, and oriented so that the bicycles are placed parallel to the street wall. Each bicycle rack so provided shall satisfy five linear feet of frontage mitigation requirement. No more than three bicycle racks may be used to fulfill such requirement per 50 feet of frontage.

(d) Tables and chairs

Where utilized as a visual mitigation element, fixed tables and chairs shall be provided in front of the street wall. Each table shall have a minimum diameter of two feet, and have a minimum of two chairs associated with it. Each table and chair set so provided shall satisfy five linear feet of frontage mitigation requirement.

(e) Wall treatment

Where utilized as a visual mitigation element, wall treatment, in the form of permitted signs, graphic or sculptural art, rustication, decorative screening or latticework, or living plant material, shall be provided along the street wall. Each linear foot of wall treatment shall constitute one linear foot of frontage mitigation requirement. Such wall treatment shall extend to a height of at least 10 feet, as measured from the level of the adjoining sidewalk or grade, and have a minimum width of 10 feet, as measured parallel to the street wall.

All visual mitigation elements shall be provided on the zoning lot, except where such elements are permitted within the street under other applicable laws or regulations.

135-20
SPECIAL BULK REGULATIONS

*     *     *

135-24
Special Street Wall Location Regulations

The underlying street wall location provisions are modified by the provisions of this Section.

(a) Along Bay Street

Along Bay Street, and along streets within 50 feet of their intersection with Bay Street, the following street wall regulations shall apply:

(1) At least 70 percent of the aggregate width of street walls of a building shall be located within eight feet of the street line, and shall rise without setback up to at least the minimum base height specified in Section 135-25 (Special Height and Setback Regulations), or the height of the building, whichever is lower. Pursuant to Section 135-31 (Special Visual Corridor Requirements), required visual corridors shall be considered streets.

(2) For developments or horizontal enlargements of buildings, or portions thereof, within the flood zone where no transparent materials are provided on the ground floor level street wall below a height of four feet above the level of the adjoining sidewalk, pursuant to the provisions of Sections 135-11 (Ground Floor Use Regulations) and 37-34 (Minimum Transparency Requirements) for a continuous distance of more than 25 feet, such street wall shall be located at least three feet beyond the street line. Such street wall shall not be located beyond five feet of the street line, except as permitted pursuant to Section 64-333 (Street wall location in certain districts). Such street wall shall provide visual mitigation elements in accordance with the provisions of Section 135-12 (Special Streetscape.
Provisions for Blank Walls). For Type 2 blank walls set forth in Section 37-361 (Blank wall thresholds), and any area between the street wall and the sidewalk that does not contain any planting material pursuant to the provisions of paragraph (a) of Section 135-12. Section 37-362 (Mitigation elements) shall be improved to Department of Transportation standards for sidewalks.

Chapter 6
Special Downtown Far Rockaway District

136-00
GENERAL PURPOSES

* * *

136-01
General Provisions

The regulations of this Chapter shall apply within the Special Downtown Far Rockaway District. The regulations of all other Chapters of this Resolution are applicable except as modified, supplemented or superseded by the provisions of this Chapter. In the event of a conflict between the provisions of this Chapter and other regulations of this Resolution, the provisions of this Chapter shall control.

In flood zones, in the event of a conflict between the provisions of this Chapter and the provisions of Article VI, Chapter 4 (Special Regulations Applying in Flood Zones), the provisions of Article VI, Chapter 4 shall control.

* * *

Chapter 7
Special Coastal Risk District

* * *
137-10
GENERAL PROVISIONS

The provisions of this Chapter shall apply in the #Special Coastal Risk District#. The regulations of all other Chapters of this Resolution are applicable, except as superseded, supplemented or modified by the provisions of this Chapter. In the event of a conflict between the provisions of this Chapter and other regulations of this Resolution, the provisions of this Chapter shall control.

In #flood zones#, in the event of a conflict between the provisions of this Chapter and the provisions of Article VI, Chapter 4 (Special Regulations Applying in Flood Zones), the provisions of Article VI, Chapter 4 shall control, except as specifically modified in this Chapter.

*     *     *

137-40
SPECIAL APPLICABILITY OF ARTICLE V

In #Special Coastal Risk District# 3, the provisions of Article V, Chapter 2 (Non-conforming Uses) shall be modified as set forth in this Section. In addition, the provisions of Article VI, Chapter 5 (Special Regulations Applying in Designated Recovery Areas) and Section 64-61 (Special Provisions for Non-conforming Uses) shall not apply.

#Non-conforming uses# may not be #enlarged# or #extended#. In addition, should 50 percent or more of the #floor area# of a #building# containing a #non-conforming use# be damaged or destroyed after September 7, 2017, the #building# may be repaired, #incidentally altered# or reconstructed only for a #conforming use#.

However, the provisions of this Section shall not apply to any #building# that was damaged to the extent of 50 percent or more due to the effects of #Hurricane Sandy#, as defined in Article VI, Chapter 4 (Special Regulations Applying in Flood Hazard Areas). The special regulations for #non-conforming buildings# of Section 64-70 shall apply to such #buildings#.

*     *     *

137-50
SPECIAL REQUIREMENTS FOR DEVELOPMENTS AND ENLARGEMENTS

In #Special Coastal Risk District# 3, no #development# or horizontal #enlargement# shall occur, except where authorized by the City Planning Commission pursuant to Sections 137-51
(Authorization for Development of Single Buildings and Enlargements) or 137-52 (Authorization for Development of Multiple Buildings), as applicable. In addition, the provisions of Article VI, Chapter 5 (Special Regulations Applying in Designated Recovery Areas) and Section 64-60 (SPECIAL REGULATIONS FOR NON-CONFORMING USES AND NON-COMPLYING BUILDINGS) shall not apply.

For the purposes of determining which authorization shall be applicable, the #zoning lot# upon which the #development# shall occur shall be considered to be a tract of land that existed under separate ownership from all adjoining tracts of land on April 24, 2017.

For the purposes of such authorizations, the alteration of any existing #building# resulting in the removal of more than 75 percent of the #floor area# and more than 25 percent of the perimeter walls of such existing #building#, and the replacement of any amount of #floor area#, shall be considered a #development#.

The provisions of Section 137-50, inclusive, shall not apply to the reconstruction of any #building# that was damaged to the extent of 50 percent or more due to the effects of #Hurricane Sandy#, as defined in Article VI, Chapter 4 (Special Regulations Applying in Flood Hazard Areas), or to the reconstruction of a garage #accessory# to a #single-family residence# or #two-family residence#.

The provisions of Section 64-92–73-71 (Special Permit for Modification of Certain Zoning Regulations) shall be inapplicable to a #building# that is #developed# pursuant to this Section, inclusive.

* * *

Chapter 8
Special East Harlem Corridors District

138-00
GENERAL PURPOSES

* * *

138-01
General Provisions

The provisions of this Chapter shall apply within the #Special East Harlem Corridors District#. The regulations of all other Chapters of this Resolution are applicable, except as superseded, supplemented or modified by the provisions of this Chapter. In the event of a conflict between the
provisions of this Chapter and other regulations of this Resolution, the provisions of this Chapter shall control.

In *flood zones*, in the event of a conflict between the provisions of this Chapter and the provisions of Article VI, Chapter 4 (Special Regulations Applying in Flood Zones), the provisions of Article VI, Chapter 4 shall control.

* * *

138-20
SPECIAL BULK REGULATIONS

* * *

138-22
Street Wall Regulations

All *developments* and *enlargements* within the *Special East Harlem Corridors District* shall comply with the *street wall* regulations of Section 35-651 (Street wall location), as specified and modified in this Section. Where M1 Districts are paired with R9 or R10 Districts, *developments* and *enlargements* within such districts shall comply with the provisions of paragraph (b) of this Section. The applicable provisions of Section 35-651 are specified and modified as follows:

(a) Along *wide streets* other than Park Avenue

Along all *wide streets* other than Park Avenue, and along *narrow streets* within 50 feet of an intersection with such *wide street*, the provisions of paragraph (b) of Section 35-651 shall apply, except that the minimum base height shall be 60 feet, or the height of the *building*, whichever is less.

(b) Along Park Avenue

Along Park Avenue and along *narrow streets* located within 100 feet of Park Avenue, the provisions of paragraph (a) of Section 35-651 shall apply, except that the minimum base height shall be 40 feet, or the height of the *building*, whichever is less.

(c) Along all other *streets*

Along all *streets* not subject to the provisions of paragraph (a) or (b) of this Section, the provisions of paragraph (a) of Section 35-651 shall apply, except that the minimum base height shall be 60 feet, or the height of the *building*, whichever is less.
(d) Within flood zones

For buildings within the flood zone, the provisions of paragraphs (a), (b) and (c) of this Section, as applicable, shall be modified as follows:

(1) for developments or horizontal enlargements, or portions thereof, where no transparent materials are provided on the ground floor level street wall below a height of four feet above the level of the adjoining sidewalk pursuant to the provisions of Section 37-34 (Minimum Transparency Requirements), for a continuous distance of more than 25 feet, such street wall shall be located at least three feet beyond the street line; and

(2) for portions of developments and enlargements where the provisions of paragraph (a) of this Section apply, such street wall shall not be located beyond five feet of the street line, except that such street wall may be located beyond such distance pursuant to the applicable provisions of paragraph (b) of Section 35-651 or of Section 64-333 (Street wall location in certain districts); and

(3) the area between such street wall and the sidewalk, or portions thereof, that do not contain any planting pursuant to the provisions of paragraph (a) of Section 138-32 (Special Streetscape Provisions for Blank Walls), paragraph (b)(1) of Section 37-362 (Mitigation elements) for at least 70 percent of the linear footage, shall be improved to Department of Transportation standards for sidewalks, be at the same level as the adjoining public sidewalk and be accessible to the public at all times. In addition, such area shall provide visual mitigation elements in accordance with the provisions of Section 138-32 Section 37-362 for at least 70 percent of the linear footage of such area per 50 feet of frontage.

* * *

138-30
STREETSCAPE REQUIREMENTS

* * *

138-31
Ground Floor Use Regulations

The special ground floor level streetscape provisions set forth in Section 37-30, shall apply to
Second Avenue, Third Avenue, Lexington Avenue, Park Avenue and East 116th Street, within the #Special East Harlem Corridors District# which, for the purposes of applying such provisions, shall be considered designated retail streets, and any portion of a #ground floor level street# frontage along the designated retail streets, as well as any #narrow street# frontage within 50 feet of such #streets#, shall be considered #primary street frontages#. A #ground floor level street# frontage along any other #street# shall be considered a #secondary street frontage#. For the purposes of this Section, defined terms shall also include those defined in Section 37-311 (Definitions).

(a) Along #primary street frontages#

For #buildings#, or portions thereof, with #primary street frontage#, #uses# on the #ground floor level#, to the minimum depth set forth in Section 37-32 (Ground Floor Depth Requirements for Certain Uses), shall be limited to non-#residential uses#, except for Type 2 lobbies and entrances and exits to #accessory# parking spaces provided in accordance with the applicable provisions of Section 37-33 (Maximum Width of Certain Uses). #Group parking facilities# located on the #ground floor level# shall be wrapped by #floor area# in accordance with the provisions of paragraph (a) of Section 37-35 (Parking Wrap and Screening Requirements). #Ground floor level street walls# shall be glazed in accordance with the provisions set forth in Section 37-34 (Minimum Transparency Requirements), except that:

(1) in M1-6 Districts paired with an R9 or R10 District, where the #ground floor level# is occupied by #uses# in Use Groups 16, 17 and 18, up to 50 percent of the #ground floor level street wall# width may be exempt from such regulations, provided that any #street wall# width exceeding 50 feet with no transparent elements on the #ground floor level# shall provide planting or screening in accordance with the provisions of paragraphs (a) or (e) of Section 138-32 (Special Streetscape Provisions for Blank Walls) for at least 75 percent of such blank wall (a)(1) or (b)(1) of Section 37-362 (Mitigation elements) is provided pursuant to the provisions for Type 1 blank walls set forth in Section 37-361 (Blank wall thresholds); and

(2) in #flood zones#, where no transparent materials or #building# entrances or exits are provided on the #ground floor level street wall# lower than a height of four feet above the level of the adjoining sidewalk for a continuous width of at least 15 feet, visual mitigation elements shall be provided in accordance with Section 138-32 for such blank wall the provisions for Type 3 blank walls set forth in Section 37-361.

138-32
**Special Streetscape Provisions for Blank Walls**
Off-street Relocation or Renovation of a Subway Stair

[Note: Existing text to be deleted and substituted by Section 37-36]

Where visual mitigation elements are required on a blank wall along the ground floor level street wall# pursuant to the provisions of Section 138-31 (Ground Floor Use Regulations), at least 75 percent of the linear footage of any such blank wall shall be treated by one or more of the following visual mitigation elements which shall be provided on the zoning lot#, except where such elements are permitted within the street# under other applicable laws or regulations. Such features, when utilized as visual mitigation elements, shall include:

(a) — Planting

Any combination of perennials, annuals, decorative grasses or shrubs shall be provided in planting beds, raised planting beds or planter boxes in front of the street wall#. Each foot in width of a planting bed, raised planting bed or planter box, as measured parallel to the street wall#, shall satisfy one linear foot of frontage mitigation requirements. Such planting bed shall extend to a depth of at least three feet, inclusive of any structure containing the planted material. Any individual planted area shall have a width of at least five feet, and the height of such planting, inclusive of any structure containing the planted materials, shall be at least three feet.

Where a blank wall exceeds a street wall# width of 50 feet, at least 25 percent of such street wall# width shall be planted in accordance with the provisions of this paragraph.

(b) — Benches

Fixed benches with or without backs shall be provided in front of the street wall#. Unobstructed access shall be provided between such benches and an adjoining sidewalk or required circulation paths. Each linear foot of bench, as measured parallel to the street wall#, shall satisfy one linear foot of frontage mitigation requirement. Any individual bench shall have a width of at least five feet, and no more than 20 feet of benches may be used to fulfill such requirement per 50 feet of frontage.

(c) — Bicycle racks

Bicycle racks, sufficient to accommodate at least two bicycles, shall be provided in front of the street wall#, and oriented so that the bicycles are placed parallel to the street wall#. Each bicycle rack so provided shall satisfy five linear feet of frontage mitigation.
requirement. No more than three bicycle racks may be used to fulfill such requirement per 50 feet of frontage.

(d) Tables and chairs

Fixed tables and chairs shall be provided in front of the street wall. Each table shall have a minimum diameter of two feet, and have a minimum of two chairs associated with it. Each table and chair set so provided shall satisfy five linear feet of frontage mitigation requirement.

(e) Wall treatment

Wall treatment, in the form of permitted signs, graphic or sculptural art, rustication, decorative screening or latticework, or living plant material, shall be provided along the street wall. Each linear foot of wall treatment shall constitute one linear foot of frontage mitigation requirement. Such wall treatment shall extend to a height of at least 10 feet, as measured from the level of the adjoining sidewalk or grade, and have a minimum width of 10 feet, as measured parallel to the street wall.

[Note: Text moved from Section 138-33]

Where a development or enlargement is constructed on a zoning lot of at least 5,000 square feet that fronts on a portion of sidewalk containing a stairway entrance or entrances into the 116th Street Station of the Lexington Avenue subway line, such development or enlargement shall be subject to the regulations of Section 37-40 (OFF-STREET RELOCATION OR RENOVATION OF A SUBWAY STAIR).

Chapter 2
Special Inwood District

142-00
GENERAL PURPOSES

*     *     *

142-01
General Provisions

The provisions of this Chapter shall apply within the #Special Inwood District#. The regulations of all other Chapters of this Resolution are applicable, except as superseded, supplemented or modified by the provisions of this Chapter. In the event of a conflict between the provisions of this Chapter and other regulations of this Resolution, the provisions of this Chapter shall control. However, in #flood zones#, in the event of a conflict between the provisions of this Chapter and the provisions of Article VI, Chapter (Special Regulations Applying in Flood Hazard Areas), the provisions of Article VI, Chapter 4 shall control.

142-10
SPECIAL USE REGULATIONS

*     *     *

142-14
Ground Floor Level Requirements

For the purposes of applying the special #ground floor level# streetscape provisions set forth in Section 37-30 to this Chapter, any portion of a #ground floor level street# frontage along #streets# designated on Map 2 (Ground Floor Use and Curb Cut Regulations) in the Appendix to this Chapter shall be considered #primary street frontages#, and shall consist of Type 1, Type 2 and Type 3 #primary street frontages#. A #ground floor level street# frontage along any other #street#
shall be considered a secondary street frontage except for frontages located within Subdistrict F. For the purposes of this Section, defined terms shall include those in Sections 12-10 and 37-311.

The provisions of this Section shall apply to developments or ground floor level enlargements.

(a) Along primary street frontages

(1) Type 1 primary street frontages

For buildings, or portions thereof, with Type 1 primary street frontage, uses on the ground floor level, to the minimum depth set forth in Section 37-32 (Ground Floor Depth Requirements for Certain Uses), shall be limited to non-residential uses, except for Type 1 lobbies and entrances and exits to accessory parking spaces provided in accordance with the applicable provisions of Section 37-33 (Maximum Width of Certain Uses). Group parking facilities located on the ground floor level shall be wrapped by floor area in accordance with the provisions of paragraph (a) of Section 37-35 (Parking Wrap and Screening Requirements). Ground floor level street walls shall be glazed in accordance with the provisions set forth in Section 37-34 (Minimum Transparency Requirements).

(2) Type 2 primary street frontages

For buildings, or portions thereof, with Type 2 primary street frontage, all uses permitted by the underlying district shall be permitted on the ground floor level, provided that group parking facilities located on the ground floor level shall be wrapped by floor area in accordance with the provisions of paragraph (a) of Section 37-35.

(3) Type 3 primary street frontages

For buildings, or portions thereof, with Type 3 primary street frontage, the following regulations shall apply to the ground floor level to a depth of 30 feet from the street line:

(i) the maximum street wall width of a bank or loan office, as listed in Use Group 6C, shall not exceed 25 feet.

However, in Subarea A1 or B1, as shown on Map 1, for buildings containing predominantly commercial or public utility vehicle storage, including accessory fuel
pumps, as listed in Use Group 16C, the screening provisions of paragraph (b) of Section 37-35 may be utilized as an alternative to such wrapping requirement and any transparency requirements need not apply.

(b) Along #secondary street frontages#

For #buildings#, or portions thereof, with #secondary street frontage#, all #uses# permitted by the underlying district shall be permitted on the #ground floor level#, provided that any off-street parking spaces on the #ground floor level# shall be wrapped or screened in accordance with Section 37-35. Entrances and exits to accessory parking facilities shall be subject to the provisions of paragraph (b) of Section 37-33.

(c) For blank walls

In #Commercial Districts# or #Manufacturing Districts#, except for portions of #zoning lots# located within Subdistrict F, any #street wall# width exceeding 50 feet with no transparent elements on the #ground floor level# shall provide planting or wall treatment in accordance with the provisions of Section 142-141 (Special Streetscape Provisions for Blank Walls) paragraphs (a)(1) or (b)(2) of Section 37-362 (Mitigation elements) shall be provided pursuant to the provisions for Type 1 blank walls set forth in Section 37-361 (Blank wall thresholds).

The level of the finished floor of such ground floor shall be located not higher than five feet above nor lower than five feet below the as-built level of the adjoining #street#.

In C4-5D Districts, and in C2 Districts mapped within R7D Districts, the provisions of Section 32-434 (Ground floor use in C4-5D and C6-3D Districts and in certain C2 Districts) shall not apply. In lieu thereof, the provisions of this Section shall apply.

142-141
Special Streetscape Provisions for Blank Walls

[Note: Existing Text to be deleted and substituted by Section 37-36]

Where visual mitigation elements are required on a blank wall along the #ground floor level street wall# pursuant to the provisions of Section 142-14 (Ground Floor Level Requirements), at least 75 percent of the linear footage of any such blank wall shall be treated by any of the following visual mitigation elements, or both.

(a) Planting
When planting is provided as a visual mitigation element, any combination of perennials, annuals, decorative grasses or shrubs shall be provided in planting beds, raised planting beds or planter boxes in front of the #street wall#. Each foot in width of a planting bed, raised planting bed or planter box, as measured parallel to the #street wall#, shall satisfy one linear foot of frontage mitigation requirement. Such planting bed shall extend to a depth of at least three feet, inclusive of any structure containing the planted material. Any individual planted area shall have a width of at least five feet, and the height of such planting, inclusive of any structure containing the planted materials, shall be at least three feet. At least 25 percent of such #street wall# width shall be planted in accordance with the provisions of this paragraph.

(b) Wall treatment

When a wall treatment is provided as a visual mitigation element, permitted signs, graphic or sculptural art, rustication, decorative screening or latticework, or living plant material, shall be provided along the #street wall#. Each linear foot of wall treatment shall constitute one linear foot of frontage mitigation requirement. Such wall treatment shall extend to a height of at least 10 feet, as measured from the level of the adjoining sidewalk or grade, and have a minimum width of 10 feet, as measured parallel to the #street wall#.

APPENDIX K: Areas with Nursing Home Restrictions

The areas shown on the maps in this APPENDIX, in addition to any portion of a #zoning lot# that is located within the #high-risk flood zone# as defined in Section 64-11 (Definitions), are subject to the restrictions set forth in Section 22-16 (Special Regulations for Nursing Homes).

These areas include:

the following islands located within the Bronx Community District 10, and Manhattan Community Districts 1, 8, and 11, respectively:

City Island;

Governors Island;

Roosevelt Island; and
Randall’s Island.

all of Queens Community District 14;

portions of the Bronx Community Districts 1, 4, 5, and 7;

portions of Brooklyn Community Districts 11, 13, 15 and 18;

portions of Queens Community Districts 10 and 13;

Portions of Community Districts located within areas with nursing home restrictions are shown on Maps 1 through 5 in this APPENDIX.
