

# Design Regulations for Commercial & Community Facility Parking Lots

## Text Amendment

Adopted by City Planning Commission 10/31/2007  
Adopted by City Council 11/28/07

Matter in underline is new, to be added; matter in ~~strikeout~~ is to be deleted; matter with # # is defined in Section 12-10;

\* \* \* indicates where unchanged text appears in the Zoning Resolution

\* \* \*

### Article II

#### Chapter 5: Accessory Off-Street Parking and Loading Regulations

\* \* \*

#### 25-60

##### ADDITIONAL REGULATIONS FOR PERMITTED OR REQUIRED ACCESSORY OFF-STREET PARKING SPACES

\* \* \*

#### 25-62

##### Size and Location of Spaces

\* \* \*

#### 25-622

##### Location of parking spaces in lower density growth management areas

The provisions of this Section shall apply to all #residential developments# in R1, R2, R3, R4A and R4-1 Districts within #lower density growth management areas#.

\* \* \*

#### 25-623

##### Location of parking spaces for community facility uses

R1 R2 R3 R4 R5 R6 R7 R8 R9 R10

In all districts, as indicated, the provisions of this Section 25-623 shall apply to all #developments# and #enlargements# that provide an open parking area #accessory# to #community facility uses#. All such #developments# and #enlargements# shall submit a site plan to the Department of Buildings showing the location of all parking spaces, curb cuts, and compliance with the maneuverability standards set forth in paragraphs (b) and (c) of Section 36-58. For the purposes of this Section, #developments# and enlargements# shall be defined as follows:

- (a) #developments# shall only include those in which 70 percent or more of the #floor area# on the #zoning lot# is occupied by a #community facility use#, and
- (b) #enlargements# shall include only those that result in:
  - (1) a total number of parking spaces #accessory# to #community facility uses# on the #zoning lot# that is at least 20 percent greater than the number of such spaces existing on (date of enactment); or
  - (2) a total amount of #floor area# on the #zoning lot# that is at least 20 percent greater than the amount of #floor area# existing on (date of enactment), and where at least 70 percent of the #floor area# on the #zoning lot# is occupied by #community facility uses#.

The provisions of this Section shall not apply to surface parking located on the roof of a #building#, indoor parking garages, #public parking garages#, structured parking facilities, or #developments# in which at least 70 percent of the #floor area# or #lot area# on a #zoning lot# is used for automotive #uses# listed in Use Group 9 or 16.

For the purpose of this Section, an “open parking area” shall mean that portion of a #zoning lot# used for the parking or maneuvering of vehicles, including service vehicles, which is not covered by a #building#. Open parking areas shall also include all required landscaped areas within and adjacent to the open parking area.

\* \* \*

**25-63  
Location of Access to the Street**

\* \* \*

**25-632  
Driveway and curb cut regulations in lower density growth management areas**

The provisions of this Section shall apply to all #residential developments# within all #lower density growth management areas#, except that these provisions shall not apply to any #zoning lot# occupied by only one #single-family detached residence# with at least 60 feet of frontage along one #street# and, for such residences on #corner lots#, with at least 60 feet of frontage along two #streets#.

\* \* \*

#### **25-634**

#### **Curb cut regulations for community facilities**

R1 R2 R3 R4 R5 R6 R7 R8 R9 R10

In all districts, as indicated, any #development# or #enlargement# containing a #community facility use# with an unenclosed parking area shall comply with the provisions of this Section:

Curb cuts serving one travel lane shall have a maximum width of twelve feet excluding splays, and curb cuts serving two travel lanes shall have a maximum width of 24 feet excluding splays. For parking lots with more than 100 parking spaces, curb cuts of up to 30 feet excluding splays, shall be permitted.

However, where Fire Department regulations set forth in the Administrative Code of the City of New York require curb cuts of greater width, such curb cuts may be increased to the minimum width acceptable to the Fire Department.

For #zoning lots# with 100 feet or less of #street frontage#, only two curb cuts shall be permitted. For every additional 50 feet of #street# frontage one additional curb cut shall be permitted.

A minimum distance of 18 feet from any other curb cut on the same or adjacent #zoning lots# shall be maintained, except where the Commissioner of Buildings determines that, due to the location of curb cuts constructed prior to (date of amendment) on adjacent #zoning lots#, there is no way to locate the curb cut 18 feet from such adjacent existing curb cuts.

\* \* \*

#### **25-65**

#### **Surfacing**

R1 R2 R3 R4 R5 R6 R7 R8 R9 R10

In all districts as indicated, all open off-street parking spaces shall be surfaced with asphaltic or portland cement concrete, or other hard surfaced dustless material , at least four inches thick, except that where required parking spaces are located in #side lot ribbons#, hard surfaced ribbons may be permitted. However, permeable paving materials may be used in open parking areas where the Commissioner of Buildings determines that such materials are appropriate.

**25-66**

**Screening**

R1 R2 R3 R4 R5 R6 R7 R8 R9 R10

- (a) In all districts, as indicated, except where such districts are located in #lower density growth management areas#, all open off-street parking areas or groups of individual garages with 10 spaces or more, that are located either at natural grade or on a roof, shall be screened from all adjoining #zoning lots#, including such #zoning lots# situated across a #street#, by either:
- (1) a strip at least four feet wide, densely planted with shrubs or trees that are at least four feet high at the time of planting and that are of a type which may be expected to form a year-round dense screen at least six feet high within three years; or
  - (2) a wall or barrier or uniformly painted fence of fire-resistant material at least six feet high, but not more than eight feet above finished grade (or above the roof level, if on a roof). Such wall, barrier or fence may be opaque or perforated, provided that not more than 50 percent of the face is open.

For community facilities located in R1, R2, R3, R4 or R5 Districts, except for any parking that is located on a roof, all such parking shall be screened pursuant to paragraph (a)(1) of this Section.

In addition, such screening shall be maintained in good condition at all times, may be interrupted by normal entrances or exits and shall have no #signs# hung or attached thereto other than those permitted in Section 22-323 (Signs for parking areas).

- (b) In #lower density growth management areas#, all open parking areas with five or more spaces shall be screened from adjoining #zoning lots# by a landscaped strip at least four feet wide densely planted with evergreen shrubs at least four feet high at time of planting, and of a type that may be expected to form a year-round dense screen at least six feet high within three years. Such screening shall be maintained in good condition at all times.

The provisions of paragraphs (a) and (b) above shall not apply at the #street line# of #zoning lots# where the planting requirements of Section 37-921 (Perimeter landscaping) apply.

**25-67**

**Parking Lot Landscaping**

R1 R2 R3 R4 R5 R6 R7 R8 R9 R10

In all districts, as indicated, the provisions of Section 37-90, inclusive, shall apply to all #developments# and #enlargements#, as defined in this Section, that provide an open parking area #accessory# to #community facility uses# that contain 18 or more spaces or are greater than 6,000 square feet in area.

For the purposes of this Section, #developments# and #enlargements# shall be defined as follows:

- (a) #developments# shall only include those in which 70 percent or more of the #floor area# on the #zoning lot# is occupied by a #community facility use#, and
- (b) #enlargements# shall include only those that result in:
- (1) a total number of parking spaces #accessory# to #commercial# or #community facility use# on the #zoning lot# that is at least 20 percent greater than the number of such spaces existing on (date of enactment);  
or
- (2) a total amount of #floor area# on the #zoning lot# that is at least 20 percent greater than the amount of #floor area# existing on (date of enactment), and where at least 70 percent of the #floor area# on the #zoning lot# is occupied by #commercial# or #community facility uses#.

The provisions of this Section shall not apply to surface parking located on the roof of a

#building#, indoor parking garages, #public parking garages#, structured parking facilities, or #developments# in which at least 70 percent of the #floor area# or #lot area# on a #zoning lot# is used for automotive #uses# listed in Use Group 9 or 16.

For the purpose of this Section an “open parking area” shall mean that portion of a #zoning lot# used for the parking or maneuvering of vehicles, including service vehicles, which is not covered by a #building#. Open parking areas shall also include all required landscaped areas within and adjacent to the open parking area.

Notwithstanding the provisions of this Section, where parking requirements are waived pursuant to Sections 25-33 on #zoning lots# subdivided after (the applicable date of the amendment), and parking spaces #accessory# to #community facility uses# or curb cuts accessing #community facility uses# are shown on the site plan required pursuant to Section 25-623, the provisions of Section 37-921 (Perimeter landscaping) shall apply.

\* \* \*

### **Article III**

#### **Chapter 6: Accessory Off-Street Parking and Loading Regulations**

\* \* \*

##### **36-023**

##### **Applicability of regulations in C4-1 Districts**

In C4-1 Districts, for #zoning lots# having a #lot area# in excess of 4 acres, all #group parking facilities# that are #accessory# to new commercial #developments# or #enlargements# shall be subject to authorization by the City Planning Commission to assure that the layout of such parking spaces is arranged and located in relation to the #use# or #uses# to which such spaces are #accessory#, so as to provide adequate ingress, egress and circulation with respect to abutting #streets# or #uses#.

The Commission may also authorize a reduction of the parking requirement of Section 36-21 (General Provisions) by an amount not to exceed 50 percent, provided that the Commission finds that the applicant has demonstrated that the proposed parking is sufficient for the #use# proposed.

Furthermore, notwithstanding the applicability requirements of paragraph (a) of Section 36-58 (Parking Lot Maneuverability and Curb Cut Regulations) and Section 37-91 (Applicability), the Commission shall find that #developments# or #enlargements# of any size comply with the maneuverability and landscaping provisions of Sections 36-58 and 37-90 (PARKING LOTS), inclusive. For #enlargements#, the Commission may authorize modifications or waivers of such provisions, provided the Commission finds

that:

- (a) the maneuverability and curb cut regulations have been complied with to the maximum extent practicable;
- (b) the amount of perimeter landscaped areas have been provided to the maximum extent practicable,
- (c) the amount of interior planting islands and their distribution throughout the parking lot have been provided to the maximum extent practicable, and
- (d) perimeter landscaped areas and interior planting islands have been engineered to absorb storm water runoff to the maximum extent practicable.

The Commission may request reports from licensed engineers and landscaped architects in considering such modifications.

\* \* \*

**36-55**

**Surfacing**

C1 C2 C3 C4 C5 C6 C7 C8

In all districts as indicated, all open #accessory# off-street parking spaces or permitted public parking lots shall be graded, constructed, surfaced and maintained so as to provide adequate drainage and to prevent the release of dust, in accordance with rules and regulations promulgated by the Commissioner of Buildings.

Any area intended to be used permanently for an open #accessory group parking facility# shall be surfaced with asphaltic or portland cement concrete, or other hard surfaced dustless material, at least four inches thick. However, permeable paving materials may be used in open parking areas where the Commissioner of Buildings determines that such materials are appropriate.

**36-56**

**Screening**

C1 C2 C3 C4 C5 C6 C7 C8

In all districts, as indicated, all open off-street parking areas with 10 spaces or more, which are located on #zoning lots# adjacent to the boundary of a #Residence District#, either at natural grade or on a roof:

- (a) shall be screened from all adjoining #zoning lots# in #Residence Districts#, including such #zoning lots# situated across a #street#, by either:
  - (1) a strip at least four feet wide, densely planted with shrubs or trees at least four feet high at the time of planting, and which are of a type which may be expected to form a year-round dense screen at least six feet high within three years; or
  - (2) a wall or barrier or uniformly painted fence of fire resistant material at least six feet high, but not more than eight feet above finished grade (or above the roof level, if on a roof). Such wall, barrier or fence may be opaque or perforated, provided that not more than 50 percent of the face is open;

This paragraph (a) shall not apply at the #street line# of #zoning lots# where the requirements of Section 37-921 (Perimeter landscaping) apply.

- (b) shall be maintained in good condition at all times;
- (c) may be interrupted by normal entrances or exits; and
- (d) shall have no #signs# hung or attached thereto other than those permitted in Sections 32-62 (Permitted Signs) or 32-63 (Permitted Advertising Signs).

\* \* \*

### **36-58**

#### **Parking Lot Maneuverability and Curb Cut Regulations**

C1 C2 C3 C4 C5 C6 C7 C8

- (a) Applicability

In all districts, as indicated, the provisions of this Section 36-58 shall apply to all #developments# and #enlargements# as defined in this Section that provide an open parking area #accessory# to #commercial# or #community facility uses#. All such #developments# and #enlargements# shall submit a site plan to the Department of Buildings showing the location of all parking spaces, curb cuts,

and compliance with the maneuverability standards set forth in this Section. For the purposes of this Section, #developments# and enlargements# shall be defined as follows:

- (1) #developments# shall only include those in which 70 percent or more of the #floor area# on the #zoning lot# is occupied by a #commercial# or #community facility use#, and
- (2) #enlargements# shall include only those that result in:
  - (i) a total number of parking spaces #accessory# to #commercial# or #community facility use# on the #zoning lot# that is at least 20 percent greater than the number of such spaces existing on (date of enactment); or
  - (ii) a total amount of #floor area# on the #zoning lot# that is at least 20 percent greater than the amount of #floor area# existing on (date of enactment), and where at least 70 percent of the #floor area# on the #zoning lot# is occupied by #commercial# or #community facility uses#.

The provisions of this Section shall not apply to surface parking located on the roof of a #building#, indoor parking garages, #public parking garages#, structured parking facilities, or #developments# in which at least 70 percent of the #floor area# or #lot area# on a #zoning lot# is used for automotive #uses# listed in Use Group 9 or 16.

In addition, all #public parking lots# shall comply with the curb cut requirements of paragraph (c).

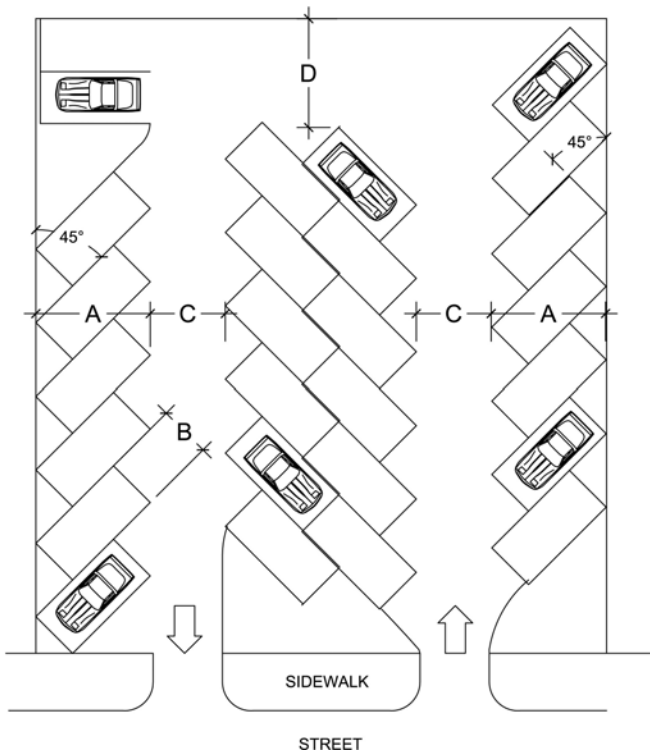

For the purpose of this Section, an “open parking area” shall mean that portion of a #zoning lot# used for the parking or maneuvering of vehicles, including service vehicles, which is not covered by a #building#. Open parking areas shall also include all required landscaped areas within and adjacent to the open parking area.

(b) Parking Lot Maneuverability

All open parking areas shall comply with the maneuverability standards set forth in the following table.

	A	B	C	D
Angle of Park	Min.Length	Min. Width	Min. Aisle	Min. Turnaround
0*	8'-6"	20'-0"	13'-2"	N/A
0**	8'-6"	20'-0"	23'-3"	N/A
45	17'-1"	8'-6"	12'-10"	18'-0"
50	17'-8"	8'-6"	13'-2"	17'-6"
55	18'-1"	8'-6"	13'-7"	17'-3"
60	18'-5"	8'-6"	14'-6"	17'-0"
65	18'-7"	8'-6"	15'-4"	17'-3"
70	18'-8"	8'-6"	16'-5"	17'-6"
75	18'-7"	8'-6"	17'-10"	18'-0"
90	18'-0"	8'-6"	22'-0"	22'-0"

\* \* \*

**Article III**  
**Chapter 7: Special Regulations**

\* \* \*

**37-90**  
**PARKING LOTS**

**37-91**  
**Applicability**

C1 C2 C3 C4 C5 C6 C7 C8

In all districts, as indicated, the provisions of this Section 37-90, inclusive, shall apply to all #developments# and #enlargements#, as defined in this Section, that provide an open parking area #accessory# to #commercial# or #community facility uses# that contain 18 or more spaces or are greater than 6,000 square feet in area.

For the purposes of this Section, #developments# and #enlargements# shall be defined as follows:

- (a) #developments# shall only include those in which 70 percent or more of the #floor area# on the #zoning lot# is occupied by a #commercial# or #community facility use#, and
- (b) #enlargements# shall include only those that result in:
  - (1) a total number of parking spaces #accessory# to #commercial# or #community facility use# on the #zoning lot# that is at least 20 percent greater than the number of such spaces existing on (date of enactment);  
or
  - (2) a total amount of #floor area# on the #zoning lot# that is at least 20 percent greater than the amount of #floor area# existing on (date of enactment), and where at least 70 percent of the #floor area# on the #zoning lot# is occupied by #commercial# or #community facility uses#.

All #public parking lots# shall comply with the provisions of Section 37-921 (Perimeter

landscaping).

The provisions of Section 37-90, inclusive, shall not apply to surface parking located on the roof of a #building#, indoor parking garages, #public parking garages#, structured parking facilities, or #developments# in which at least 70 percent of the #floor area# or #lot area# on a #zoning lot# is used for automotive #uses# listed in Use Group 9 or 16.

For the purpose of Section 37-90, inclusive, an “open parking area” shall mean that portion of a #zoning lot# used for the parking or maneuvering of vehicles, including service vehicles, which is not covered by a #building#. Open parking areas shall also include all landscaped areas required pursuant to this Section within and adjacent to the open parking area.

Notwithstanding the provisions of this Section 37-91 (Applicability), where parking requirements are waived pursuant to Sections 25-33, 36-23 or 44-23, as applicable, on #zoning lots# subdivided after (the applicable date of the amendment), and parking spaces #accessory# to #commercial# or #community facility uses# or curb cuts accessing #commercial# or #community facility uses# are shown on the site plan required pursuant to Sections 36-58, the provisions of Section 37-921 (Perimeter landscaping) shall apply.

A detailed plan or plans prepared by a registered landscape architect demonstrating compliance with the provisions of Section 37-90, inclusive, shall be submitted to the Department of Buildings. Such plans shall include grading plans, drainage plans and planting plans, and sections and elevations as necessary to demonstrate compliance with the provisions of this Section.

Any application for a special permit certified by the Department of City Planning or application for an authorization referred by the Department of City Planning for public review prior to (the applicable date of the amendment), may be continued pursuant to the regulations in effect at the time of certification or referral and, if granted by the City Planning Commission and, where applicable, the City Council, may be #developed# or #enlarged# pursuant to the terms of such permit or authorization, including minor modifications thereto and, to the extent not modified under the terms of such permit or authorization, in accordance with the regulations in effect at the time such application was certified or referred for public review.

### 37-92

#### Landscaping

### 37-921

#### Perimeter landscaping

All open parking areas with 18 spaces or more or 6,000 square feet or more in area that front upon a #street# shall be screened at the #street line# by a perimeter landscaped area at least seven feet in width measured perpendicular to the #street line#. Such perimeter landscaped area may be interrupted only by vehicular entrances and exits. Walkways may also traverse the perimeter landscaped area in order to provide a direct connection between the public sidewalk and a walkway within or adjacent to the open parking area. In the event a perimeter landscaped area is greater than seven feet in width, the first seven feet adjacent to the open parking area must comply with paragraphs (a) and (b) of this Section. The remainder of the landscaped perimeter area may comply with paragraphs (a) and (b) or be comprised of any combination of grass, groundcover, shrubs, trees or other living plant material.

The perimeter landscaped area shall comply with the following requirements:

(a) Grading, Drainage and Soil

The open parking area shall be graded to allow stormwater runoff to drain into all required perimeter landscaped areas and planting islands required pursuant to Section 37-922. The perimeter landscaped area shall be comprised of soil with a depth of at least two and a half feet measured from the adjoining open parking area. Beneath such soil, filter fabric and one foot of gravel shall be provided. Proper drainage rates shall be attained through underdrains that are connected to detention storage that meets the drainage and flow requirements of the Department of Environmental Protection or through infiltration through the surrounding soil volume. If underdrains are not provided, soil boring tests shall be conducted by a licensed engineer to ensure that ponded surface water is drained in at least 24 hours. The perimeter landscaped area shall have an inverted slope to allow a minimum of six inches and a maximum of one foot of stormwater ponding, and surface ponding must drain in at least 24 hours. To allow for adequate drainage, elevated catchbasins shall be placed in the planting island above the ponding level. A raised curb shall edge the perimeter landscaped area, shall be at least six inches in height and shall contain inlets at appropriate intervals to allow stormwater infiltration from the open parking area.

However, where the Commissioner of Buildings determines that due to the natural sloping topography of the #development# site the drainage provisions of this paragraph (a) would be unfeasible for a perimeter landscaped area, such drainage provisions may be waived. In lieu thereof, such perimeter landscaped area shall be comprised of soil with a depth of at least three feet measured from the adjoining open parking area. A raised curb shall edge the perimeter landscaped area and be at least six inches in height. The planting requirements of

paragraph (b) of this Section shall apply to such perimeter landscaped areas, except that plantings need not be selected from the lists in Section 37-983.

(b) Plantings

(1) Parking lot frontage

The first two feet of the planting island fronting the open parking area shall be comprised of mulch and densely planted with groundcover above jute mesh to stabilize the inverted slope. This area may be used as an automobile bumper overhang area and may be included in calculating the required depth of an abutting parking space. All required groundcover shall be selected from the list in Section 37-983.

(2) Sidewalk frontage

The remainder of the perimeter landscaped area shall be densely planted with shrubs at a distance of 24 inches on center and maintained at a maximum height of three feet above the surface of the adjoining public sidewalk. All required shrubs shall be selected from the list in Section 37-983.

(3) Trees

One two-inch caliper tree shall be provided for every 25 feet of open parking area #street# frontage. Fractions equal to or greater than one-half resulting from this calculation shall be considered to be one tree. Such perimeter trees shall be staggered wherever possible with #street# trees, but in no event shall perimeter trees be planted closer than 15 feet on center or within three feet to a perimeter screening area curb. Furthermore, a radius distance of at least 20 feet shall be maintained between trunks of perimeter trees and #street# trees. If such distances cannot be maintained, the perimeter tree shall be waived in that location. However, if a #street# tree cannot be planted in the public sidewalk adjacent to the perimeter screening area because the Department of Parks and Recreation has determined that it is unfeasible to plant a tree in such location, such tree shall be planted instead within the perimeter screening area adjacent to such portion of the public sidewalk and credited towards the amount of perimeter trees required pursuant to this paragraph. However, any perimeter tree within 15 feet of an elevated rail line or elevated highway shall be waived. All required perimeter trees shall be selected from the list in Section 37-981.

(c) Obstructions

Utilities and #signs# permitted in Sections 32-62 (Permitted Signs), 32-63 (Permitted Advertising Signs) or 42-52 (Permitted Signs) may be located in the perimeter screening area. Ornamental fencing, excluding chain link fencing, with a surface area at least 50 percent open is permitted in the perimeter screening area, provided such fencing does not exceed four feet in height and is located at least five feet from the #street line#.

**37-922**

**Interior landscaping**

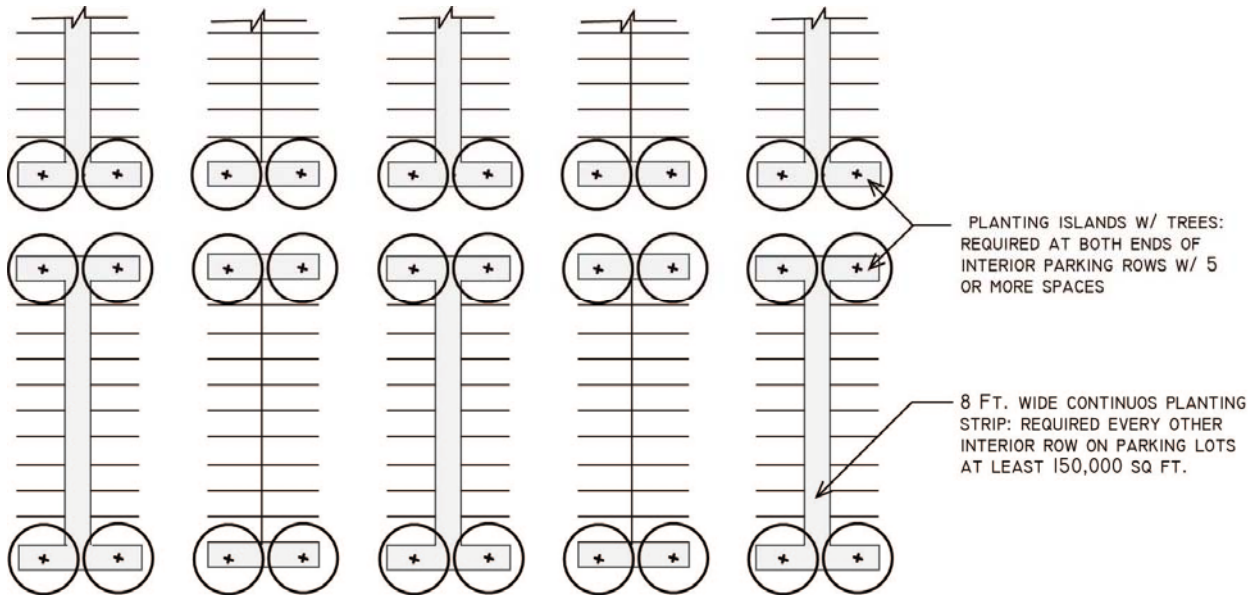

All open parking areas of 36 or more parking spaces or at least 12,000 square feet in area shall provide at least one tree for every eight parking spaces. Fractions equal to or greater than one-half resulting from this calculation shall be considered to be one tree. Such trees shall be in addition to the trees required in the perimeter screening area. Each such tree shall have a minimum caliper of three inches and be located in a planting island with a minimum area of 150 square feet of pervious surface.

(a) Distribution

The following distribution rules shall apply:

- (1) Each end space in a row of five or more parking spaces shall fully abut a planting island or a perimeter landscaped area along the long dimension of such end space
- (2) No more than 15 parking spaces shall be permitted between planting islands, or a planting island and a perimeter landscaped area; and
- (3) For open parking areas at least 150,000 square feet in area, in addition to the requirements set forth in subparagraphs (1) and (2), every other row of parking spaces in which each space does not fully abut a perimeter landscaped area shall abut a planting island. Such planting island shall have a minimum width of eight feet and extend along the entire length of such row of parking spaces. Such planting islands may be traversed by walkways no more than three feet wide and spaced at least 50 feet apart.

Illustrative Diagram 1

- (4) Planting islands required pursuant to subparagraph (1) and (3) may be discontinued where a pedestrian access lane is provided that serves no more than five parking spaces required by the Americans with Disabilities Act.

Illustrative Diagram 2

- (5) Compliance with subparagraphs (1) and (2) may be waived where the Commissioner of Buildings determines that tree planting in such locations would conflict with loading operations. Such trees shall be planted elsewhere in the open parking area.

(b) Grading, Drainage and Soil

The open parking area shall be graded to allow stormwater runoff to drain into all planting islands required pursuant to this Section 37-922 and perimeter landscaped areas required pursuant to Section 37-921. Planting islands shall have an inverted slope to allow a minimum six inches and a maximum of one foot of stormwater ponding, and surface ponding must drain in at least 24 hours. To allow for adequate drainage, elevated catchbasins shall be placed in the planting island above the ponding level. Planting islands shall be comprised of soil with a depth of at least two and a half feet measured from the surface of the adjoining open parking area. Beneath such soil, filter fabric and one foot of gravel shall be provided. Proper drainage rates shall be attained through underdrains that are connected to detention storage that meets the drainage and flow requirements of the Department of Environmental Protection or through

infiltration through the surrounding soil volume. If underdrains are not provided, soil boring tests shall be conducted by a licensed engineer to ensure that ponded surface water is drained in at least 24 hours. A raised curb shall edge the planting island, shall be at least six inches in height and shall contain inlets at appropriate intervals to allow stormwater infiltration from the open parking area.

However, where the Commissioner of Buildings determines that due to the natural sloping topography of the #development# site the drainage provisions of this paragraph (b) would be unfeasible for an interior planting island, such drainage provisions may be waived. In lieu thereof, such planting island shall be comprised of soil with a depth of at least three feet measured from the adjoining open parking area. A raised curb shall edge the perimeter landscaped area and be at least six inches in height. The planting requirements of paragraph (c) of this Section shall apply to such planting islands, except that plantings need not be selected from the lists in Section 37-983.

(c) Plantings

The first two feet of the planting island fronting the open parking area shall be comprised of mulch and densely planted with groundcover above jute mesh to stabilize the inverted slope. This area may be used as an automobile bumper overhang area and may be included in calculating the required depth of an abutting parking space. The remaining area of the planting island shall be densely planted with shrubs, maintained at a maximum height of three feet, at a distance of 24 inches on center. Planting islands which are bisected by pedestrian access lanes serving Americans with Disabilities Act parking spaces (as shown in Illustrative Diagram 2) shall provide groundcover in lieu of shrubs. Each required tree shall be centered in a planted area measuring at least eight feet by eight feet. Multiple trees are allowed in a single planting island provided they are spaced no closer than 25 feet on center and there is at least 150 square feet of pervious area for each tree. Any area with a dimension of less than two feet shall not contribute to such 150 square foot minimum area. Required trees shall be located first in planting islands at the ends of parking rows required pursuant to subparagraph (a)(1), and then in planting islands that break up parking rows with more than 15 spaces required pursuant to subparagraph (a)(2). Any remaining required trees may be located in the continuous planting island required pursuant to subparagraph (a)(3) or located in other planting islands within the open parking area. All required trees, shrubs and groundcovers shall be selected from the list in Sections 37-982 and 37-983.

37-93

**Maintenance**

All on site landscaping shall be maintained in good conditions at all times. Landscaped areas must be kept free of litter, and drainage components maintained in working order. In the event of the loss of any on site landscaping, the owner of the #zoning lot# shall replace such landscaping by the next appropriate planting season. All landscaped areas must contain a built in irrigation system or supply hose bibs within 100 feet of all planting islands.

37-94

**Refuse Storage**

All site plans must show an area designated for refuse storage. Any container used for refuse storage must be enclosed and screened either within a #building# or #accessory structure#. If refuse storage is located in a container or #accessory structure# it must be located at least 50 feet from any #street line# and screened on all sides by a six foot high masonry wall, with one side consisting of an opaque, lockable gate.

37-95

**Street Tree Planting**

All #developments# or #enlargements# shall provide and maintain along the entire #street# length of the #zoning lot# one #street# tree for every 25 feet of #street# frontage of the #zoning lot#. Such trees shall be of at least three-inch caliper at the time of planting and be placed at approximately equal intervals, except where the Department of Parks and Recreation determines that such tree planting would be unfeasible. All such trees shall be planted, maintained and replaced when necessary with the approval of and in accordance with the standards of the Department of Parks and Recreation.

37-96

**Bicycle Parking**

One bicycle parking space shall be provided for every ten vehicle parking spaces, up to 200 vehicle parking spaces. Thereafter, one bicycle parking spaces shall be provided for every 100 vehicle parking spaces. Fractions equal to or greater than one-half resulting from this calculation shall be considered to be one bicycle space. Bicycle parking must be provided in inverted "U" shaped parking racks. Each rack must be located within a two foot by six foot area on the #zoning lot#. Thirty inches of maneuverable space must

be provided between parallel bicycle racks and a 96 inch wide aisle must be provided between bicycle rack areas. Each rack shall count towards two required spaces.

Bicycle racks must be provided within 50 feet of a #building's# main entrance and a minimum of 24 inches from any wall. However, if more than 40 bicycle parking spaces are required, 50 percent of such spaces may be provided at a distance of up to 100 feet from a #building's# main entrance. Department of Transportation bicycle racks provided on a fronting sidewalk may be counted toward this requirement.

### **37-97**

#### **Modifications of Design Standards**

### **37-971**

#### **Modification of Landscaping Requirements**

The requirements of Section 37-90, inclusive, may be waived in whole or in part if the Commissioner of Buildings certifies that such requirements are unfeasible due to unique geological conditions such as excessive subsurface rock conditions, underground municipal infrastructure, a high water table, or a City, State or Federal mandated brownfield remediation that requires the site to be capped. Where a high water table exists, the planting requirements of Section 37-90, inclusive, shall be complied with except such planted areas need not be designed to absorb storm water runoff.

Such waiver shall be based on a report prepared by a licensed engineer that such conditions exist.

### **37-972**

#### **Modification of Design Requirements by Authorization**

For #enlargements#, the City Planning Commission may authorize modifications or waivers of the maneuverability and curb cut standards of Section 36-58, and the landscaping requirements of Section 37-90, inclusive, for portions of the #zoning lot# occupied by existing open parking areas, provided the Commission finds that:

- (a) the maneuverability and curb cut regulations have been complied with to the maximum extent practicable;
- (b) the amount of perimeter landscaped areas have been provided to the maximum extent practicable,

(c) the amount of interior planting islands and their distribution throughout the existing open parking area have been provided to the maximum extent practicable, and

(d) perimeter landscaped areas and interior planting islands have been engineered to absorb storm water runoff to the maximum extent practicable.

The Commission may request reports from licensed engineers and landscaped architects in considering such modifications.

## ARTICLE IV MANUFACTURING DISTRICT REGULATIONS

### Chapter 4: Accessory Off-Street Parking and Loading Regulations

\* \* \*

#### 44-44 Surfacing

M1 M2 M3

In all districts, as indicated, all open #accessory# off-street parking spaces or permitted public parking lots shall be graded, constructed, surfaced and maintained so as to provide adequate drainage and to prevent the release of dust, in accordance with rules and regulations promulgated by the Commissioner of Buildings.

Any area intended to be used permanently for an open #accessory# group parking facility shall be surfaced with asphaltic or portland cement concrete, or other hard-surfaced dustless material, at least four inches thick. However, permeable paving materials may be used in open parking areas where the Commissioner of Buildings

determines that such materials are appropriate.

44-45

**Screening**

M1 M2 M3

In all districts, as indicated, all open off-street parking areas with 10 spaces or more, which are located on #zoning lots# adjacent to the boundary of a #Residence District#, either at natural grade or on a roof:

- (a) shall be screened from all adjoining #zoning lots# in #Residence Districts# (including such #zoning lots# situated across a #street#) by either:
  - (1) a strip at least four feet wide, densely planted with shrubs or trees at least four feet high at the time of planting and which are of a type which may be expected to form a year-round dense screen at least six feet high within three years; or
  - (2) a wall or barrier or uniformly painted fence of fire-resistant material at least six feet high, but not more than eight feet above finished grade (or above the roof level, if on a roof). Such wall, barrier or fence may be opaque or perforated provided that not more than 50 percent of the face is open;

This paragraph (a) shall not apply at the #street line# of #zoning lots# where the planting requirements of Section 37-921 (Perimeter landscaping) apply.

- (b) shall be maintained in good condition at all times;
- (c) may be interrupted by normal entrances or exits; and
- (d) shall have no #signs# hung or attached thereto other than those permitted in Section 42-52 (Permitted Signs).

\* \* \*

#### 44-47

### **Parking Lot Maneuverability and Curb Cut Regulations**

M1 M2 M3

In all districts, as indicated, the provisions of this Section shall apply to all #developments# and #enlargements# that provide an open parking area #accessory# to #commercial# or #community facility uses#. All such #developments# and #enlargements# shall submit a site plan to the Department of Buildings showing the location of all parking spaces, curb cuts, and compliance with the maneuverability standards shown in paragraphs (b) and (c) of Section 36-58. For the purposes of this Section, #developments# and #enlargements# shall be defined as follows:

(a) #developments# shall include only those in which 70 percent or more of the #floor area# on the #zoning lot# is occupied by a #commercial# or #community facility use#, and

(b) #enlargements# shall include only those that result in:

(1) a total number of parking spaces #accessory# to #commercial# or #community facility use# on the #zoning lot# that is at least 20 percent greater than the number of such spaces existing on (date of enactment);  
or

(2) a total amount of #floor area# on the #zoning lot# that is at least 20 percent greater than the amount of #floor area# existing on (date of enactment), and where at least 70 percent of the #floor area# on the #zoning lot# is occupied by #commercial# or #community facility uses#.

The provisions of this Section shall not apply to surface parking located on the roof of a #building#, indoor parking garages, #public parking garages#, structured parking facilities, or #developments# in which at least 70 percent of the #floor area# or #lot area# on a #zoning lot# is used for automotive #uses# listed in Use Group 9 or 16.

For the purpose of this Section, an “open parking area” shall mean that portion of a #zoning lot# used for the parking or maneuvering of vehicles, including service vehicles, which is not covered by a #building#. Open parking areas shall also include all required landscaped areas within and adjacent to the open parking area.

#### 44-48

### **Parking Lot Landscaping**

M1 M2 M3

In all districts, as indicated, all #developments# and #enlargements# containing #commercial# or #community facility uses# shall comply with the provisions of Section 37-90, inclusive.

\* \* \*

**Article VI  
Chapter 2  
Special Regulations Applying in the Waterfront Area**

\* \* \*

**62-511  
Accessory residential roof parking**

On #waterfront blocks#, parking spaces #accessory# to #residential uses# may be located on the roof of a non-#residential building#, a non-#residential# portion of a #building# containing #residential use# or a portion of a #residential building# that does not contain #dwelling or rooming units#, provided that:

\* \* \*

- (c) trees are provided in accordance with Section 62-675 (Planting and trees) at the same rate as required in Section 62-553 of one tree for each ten parking spaces for parking areas at grade;

\* \* \*

**62-512  
Accessory residential off-site parking**

For #developments# on #waterfront blocks#, the provisions of Section 25-52 and 36-42 (Off-Site Spaces for Residences) shall be modified so as to permit all permitted or required #accessory# spaces to be located on a separate #zoning lot# provided that:

\* \* \*

- (g) in all districts, trees shall be provided in accordance with Section 62-675 at the same rate as required in Section 62-553 of one tree for each ten parking spaces for on-site facilities within a #waterfront block#.

\* \* \*

**62-553**

**Tree planting requirements on waterfront blocks**

All open parking areas on #waterfront blocks# shall provide one shade tree, existing or newly planted, for each ten parking spaces. Such trees shall be located in planting areas pursuant to Section 62-675 either along the perimeter of or within the parking area. The tree planting requirements shall not apply to #accessory# parking for WD #uses# or other #uses# in Use Groups 16, 17 or 18 when located in C8 or #Manufacturing Districts#.

**62-554- 62-553**

**Screening requirements for parking facilities on waterfront blocks**

- (a) All open parking areas on #waterfront blocks# shall be screened from all adjoining #zoning lots#, ~~including such #zoning lots# situated across a #street#~~, and from any public access area on the #zoning lot# pursuant to Section 62-675 (Planting and trees). Open parking areas shall also be screened from all #zoning lots# situated across a #street# pursuant to Section 62-675, except where the provisions of Section 37-921(Perimeter landscaping) apply. Screening may be interrupted only by vehicular or pedestrian entrances.

\* \* \*

**Article X - Special Purpose Districts**

**Chapter 5**

**Special Natural Area District**

\* \* \*

**105-432**

**Modification of yard, height and setback regulations, and parking location regulations**

For any #development# or #enlargement# that does not qualify under provisions of Section 105-701 (Applicability of large-scale residential development regulations), the City Planning Commission may authorize variations in required #front#, #rear# or #side yards#, parking lot landscaping or maneuverability requirements, location of parking, driveways or curb cuts and required space between #buildings# on the same #zoning lot#, and may modify height and setback regulations for the purpose of preserving

#natural features#, provided the Commission finds that:

- (a) the proposed placement of #buildings# and arrangement of #open space# will not have significant adverse effects upon the light, air and privacy for existing #development# in adjacent areas or the opportunities therefore in future #development#; and
- (b) will preserve significant #natural features#.

The Commission may condition such authorizations upon the joint submission of acceptable plans for #development# or #enlargement# of two or more adjacent #zoning lots# by the owners thereof.

\* \* \*

## Article X

### Chapter 7: Special South Richmond Development District

\* \* \*

107-483

#### Planting and screening for open parking areas

##### Tree planting requirements

One tree of three-inch caliper or more preexisting or newly planted, shall be provided for each four parking spaces. Such trees may be located ~~on~~ in the perimeter landscaped area of the parking area, ~~and not more than five feet therefrom~~ or in planting islands within the parking area.

However, where 30 or more parking spaces are provided, at least 50 percent of the required trees shall be located within planting islands within the parking area. Such planting islands shall have a minimum area of 150 square feet of pervious surface and comply with the requirements of paragraphs (a), (b) and (c) of Section 37-922 (Interior landscaping).

~~Planting islands shall have at least a 25 square feet of porous material per tree in their planting areas. Tree selection shall be in accordance with APPENDIX B (Tree Selection Tables).~~

~~Around the perimeter of a planting island there shall be metal stanchions, metal walls or~~

~~other protective devices, at least 18 inches high, adequate to avoid damage to the planting island or trees therein.~~

#### Screening requirements

~~The parking area shall be screened from all adjoining #zoning lots# or #streets# by a strip of densely planted shrubs at least four feet high at the time of planting and which are of a type which may be expected to form a year round dense screen at least six feet high within three years, or by trees of three inch caliper, selected from APPENDIX B and spaced 10 feet on center. perimeter landscaped area at least seven feet in width. Such perimeter landscaped area may be interrupted only by vehicular entrances and exits. Sidewalks that provide a direct connection between the public sidewalk and a pedestrian circulation route within the parking area may also interrupt a perimeter landscaped area.~~

All screening areas shall comply with the provisions of paragraphs (a), (b) and (c) of Section 37-921 (Perimeter landscaping), except that the number of trees shall be as set forth in this Section.

In addition, such screening:

- (a) shall be maintained in good condition at all times; and
- (b) may be interrupted by normal entrances and exits.

#### Planting Waiver

Tree planting and screening requirements may be waived if the Commissioner of Buildings certifies that planting is unfeasible due to:

- (a) unique geological conditions, such as excessive subsurface rock conditions or high water table; or
- (b) underground municipal infrastructure; or
- (c) a City, State or Federal mandated brownfield remediation that requires the site to be capped.

Such waiver shall be based on a report prepared by a licensed engineer that such conditions exist.

For #developments# in #Residential Districts#, trees provided in accordance with the provisions of this Section may be counted for the purposes of meeting the requirements of Section 107-322, paragraph (a). Furthermore, for #developments# in #Commercial# or #Manufacturing Districts# which provide trees in accordance with the provisions of this Section, the requirements of Section 107-322, paragraph (a), shall not apply.

\* \* \*

## 107-68

### Modification of Group Parking Facility and Access Regulations

For a permitted #commercial#, #community facility# or #manufacturing use#, the City Planning Commission may authorize more than 30 #accessory# off-street parking spaces, and for any #use#, may modify access restrictions with regard to curb cuts as set forth in paragraph (a) of Section 107-251 (Special provisions for arterials) or paragraph (a) of Section 107-252 (Special provisions for park streets). In order to grant such authorization, the Commission, upon a review of the site plan, shall find that:

- (a) vehicular access and egress are located and arranged so as to draw a minimum of vehicular traffic to and through local #streets# in nearby #residential# areas;
- (b) where vehicular access and egress are located on an #arterial# or #park street#, such location affords the best means for controlling the flow of traffic generated by such #use# to and from such #arterial# or #park street#, and does not unduly interfere with pedestrian traffic; and
- (c) the location of such vehicular access and egress permits better site planning.

The Commission may prescribe appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding area and may, in appropriate cases, condition its authorization upon compliance with an approved site and landscaping plan. The Commission may also permit modifications to parking lot landscaping and maneuverability requirements only if such modifications preserve vegetation and natural topography.

\* \* \*

## Article XI

### Chapter 2: Special City Island District

\* \* \*

## 112-124

### Screening and tree planting requirements for all parking lots with 10 or more spaces

All new or #enlarged# parking lots with 10 or more spaces shall comply with the provisions of this Section.

#### (a) Screening requirements

#Accessory# parking spaces that adjoin #zoning lots# with #residential uses# shall be screened by an opaque wall or fence extending not less than six feet but not higher than eight feet above finished grade, or alternatively, by a planting strip at least five feet wide and densely planted with evergreen shrubs at least four feet high at time of planting, and of a variety expected to reach a height of six feet within three years, or by both. No chain link fences shall be permitted.

#Accessory# parking spaces that adjoin #zoning lots# with non-#residential uses# shall be screened by an opaque wall or fence extending at least four feet high but not higher than six feet above finished grade, or alternatively by a planting strip at least five feet wide and densely planted with evergreen shrubs at least two and one-half feet high at time of planting. Open chain link fences shall be permitted only within such planting strip, and such fences shall extend at least four feet but not more than six feet above finished grade.

~~#Accessory# parking spaces that front upon a #street# shall be screened in accordance with the provisions of paragraphs (a), (b) and (c) of Section 37-921 (Perimeter landscaping). by a strip at least five feet wide and densely planted with evergreen shrubs to be maintained at all times at a height not less than two and one half feet and not more than four feet. In addition, fences not higher than four feet, with a surface area at least 50 percent open, shall be permitted, except that chain link fences shall not be allowed. All permitted fences shall be located behind landscaped areas when viewed from the street.~~

#### (b) Tree planting requirements

~~One tree with a minimum caliper of three inches at time of planting shall be provided for every 10 parking spaces. Fractions equal to or greater than three-quarters of a tree shall be counted as an additional tree. All such trees shall be planted at approximately equal intervals and located in planting beds at least six feet square, either adjacent to planting strips required pursuant to paragraph (a) of this Section or in planting islands within the parking lot. A raised curb at least six inches in height shall separate all planting beds from the paved surface of the parking lot. All trees shall be planted in accordance with the standards of the~~

~~Department of Parks and Recreation, and replaced when necessary.~~

In addition, such screening shall be maintained in good condition at all times, may be interrupted by normal entrances or exits and shall have no #signs# hung or attached thereto other than those permitted in Sections 32-62 (Permitted Signs), 32-63 (Permitted Advertising Signs) or 42-52 (Permitted Signs).

\* \* \*

## **Article XI – Special Purpose Districts**

### **Chapter 6**

#### **Special Stapleton Waterfront District**

\* \* \*

#### **116-30**

#### **SPECIAL ACCESSORY OFF-STREET PARKING AND LOADING REGULATIONS**

\* \* \*

#### **116-35**

#### **Screening and Tree Planting Requirements for Parking Facilities**

The provisions of this Section shall apply to any new or #enlarged# open off-street parking facility with ten spaces or more, except where the provisions of Section 37-90 (PARKING LOTS), inclusive, apply.

\* \* \*

## **Article XI - Special Purpose Districts**

### **Chapter 9**

#### **Special Hillside Preservation District**

\* \* \*

#### **119-312**

#### **Authorization of certain uses within the Special Hillside Preservation District**

The City Planning Commission may grant authorizations for #commercial uses#, #community facility uses#, #group parking facilities# of 30 cars or more and for #enlargements# to any such #uses# and facilities.

In order to grant such authorizations, the Commission, upon review of the site plan, shall find that:

- (a) the proposed #development#, #enlargement# or #site alteration# will not disturb the drainage pattern and soil conditions of the area;
- (b) the proposed #development#, #enlargement# or #site alteration# has minimal impact on the existing natural topography and vegetation and blends harmoniously with it;
- (c) such #development#, #enlargement# or #site alteration# is so located as not to impair the essential character of the surrounding area;
- (d) the design of such #development#, #enlargement# or #site alteration# takes full advantage of all special characteristics of the site;
- (e) vehicular access and egress for such #development#, #enlargement# or #site alteration# is located and arranged so as to draw a minimum of vehicular traffic to and through local #streets# in nearby #residential# areas; and
- (f) where vehicular access and egress is located on an arterial, such location affords the best means for controlling the flow of traffic generated by such #development# to and from such arterial.

The City Planning Commission may permit modifications to parking lot landscaping and maneuverability requirements for ~~A~~ applications for such authorizations of #group parking facilities# for over 30 cars or for #enlargements# to #group parking facilities# if such modifications preserve vegetation and natural topography. ~~shall be referred to the Department of Transportation for its report with respect to anticipated traffic congestion.~~

\* \* \*
