Metadata for Historical Zoning Map Scans:

**Source:**
These PDF maps were created from the set of past versions of each of the 126 zoning maps in the Technical Review Division's archive. This set includes map versions for each zoning map beginning with the original 1961 issue of the Zoning Resolution and ending with the most recent printed maps issued as part of "Update 11" to the Zoning Resolution in 2009.

**Scanning, Georeferencing, and Creation of Adobe PDF copies:**
Maps were scanned at 300 dpi to preserve maximum detail, georeferenced to NAD 27, New York Long Island, State Plane coordinates, and saved to grayscale TIF image files with associated world files. To facilitate viewing of the scans, they were converted to Adobe PDF format (non-georeferenced). More recent maps are direct PDF copies of the map revisions as printed in updates to the Zoning Resolution.

**Key To File-Naming Convention:**
In order to ensure proper sequencing of these time-series maps, each map is numbered according to its place in the series. The second number in the file name, following the map number, indicates the map's order in the sequence. The sequence number is followed by either an "A" number (e.g. a-1346) or a ULURP number (e.g. 950323zmm) which corresponds to a zoning change indicated in the map's legend. Maps with more than one change may have more than one "A" number or ULURP number which may not be included in the file name. As an example, the file named “08c-042-a-1347.pdf” means that this file is an Adobe PDF version of the scan of the 42nd map revision for zoning map 8c, which shows the zoning change identified by the "A" number “a-1347”. A map with multiple changes might be named “07a-012-a-0621-a-0623.pdf”, indicating that there are two changes on the map. Filenames that contain the letter “r” (e.g. 18a-015r-a-1273) identify maps that were reprinted for some reason and do not contain a new zoning change. The “r” is incremented for maps that were reprinted multiple times (e.g. r1, r2, r3, etc.). Starting with Update 4, the update number will replace the ULURP number in the file name. For example the version of map 10a printed with Update 4 would be named “10a-013-update04.pdf”.

**Notes on conversion of “A” numbers to CP (City Planning) or ULURP numbers:**
Commission reports and sketch maps are referenced solely by CP or ULURP numbers. In order to request copies of reports or sketch maps it is necessary to know the CP or ULURP number. To this end a conversion table is provided to translate the "A" numbers listed on the actual zoning maps to their corresponding CP or ULURP numbers. This table is provided in the accompanying PDF file called “ANumber-CPNumberConversion.pdf”. Use of the "A" number to identify zoning map changes has been discontinued.
