Appendix C: City Environmental Quality Review (CEQR)

Table 1 - Environmental Requirements

Effective date of most recently amended section of Appendix C, Table 1: 2/28/19
### CITY ENVIRONMENTAL QUALITY REVIEW (CEQR) ENVIRONMENTAL REQUIREMENTS

**Table 1 - (E) Designations**

**Tax Lot** changes that may have occurred since the establishment of a particular (E) designation may not be reflected in this table. If the property in question is located on the same **Tax Block** as an (E) designation, review of the related CEQR documentation is recommended. For convenience, for (E) designations applied to a condominium, the condominium billing tax lot number is displayed instead of the individual condominium unit tax lot numbers.

**Application No.** - refers to a ULURP or non-ULURP application (containing six numbers followed by a three or four letter suffix) for a zoning map or text amendment, special permit, authorization or certification or to a Board of Standards and Appeals application (containing the letters “BZ”) for a special permit or variance.

**Lot Remediation Date** - refers to the date of the duly issued notice from the NYC Office of Environmental Remediation indicating that no investigative/remedial work is required for any current or future development of the lot.
