(b) Automated parking facilities
For automated parking facilities, off-street reservoir space at the vehicle entrance shall be provided at the rate set forth in paragraph (a) of this Section.

Each individual parking location where a driver is permitted to leave a vehicle for transfer to a mechanized automobile storage and retrieval unit shall constitute one reservoir space. Additional reservoir spaces may be located where drivers queue to access such locations for vehicle transfer.

In addition, the number of reservoir spaces required pursuant to this Section may be reduced where the Commissioner of Buildings determines that the operational characteristics of such automated parking facility warrant such a reduction.

(c) Automobile rental establishments

For automobile rental establishments, off-street reservoir space at the vehicle entrance shall be provided at the rate set forth in paragraph (a) of this Section.

(d) Self-parking facilities

For self-parking accessory off-street parking facilities and public parking lots where entering vehicles are required to stop before a mechanically operated barrier before entering such parking facility, such barrier shall be placed a minimum of 20 feet beyond the street line.

(5/8/13)

13-26
Pedestrian Safety and Access

For all accessory off-street parking facilities, the following safety features shall be provided at all vehicular exit points:

(a) a stop sign which shall be clearly visible to drivers. Such signage shall comply with the standards set forth in the Manual of Uniform Traffic Control Devices (MUTCD) issued by the Federal Highway Administration (FHWA) for a conventional single lane road; and

(b) a speed bump, which shall be located within the exit lane of the parking facility. Such speed bump shall:

(1) span the width of the vehicular travel lane;
(2) have a minimum height of two inches, as measured from the adjoining grade of the exit lane, and a maximum depth of 12 inches; and

(3) shall be located a minimum of four feet beyond the street line, as measured perpendicular to the street line.

(5/8/13)

13-27
Minimum and Maximum Size of Parking Facilities

For all accessory off-street parking facilities and automobile rental establishments, the minimum and maximum size requirements for the parking zone for such parking facilities shall be set forth in this Section. The access zone of such parking facilities shall not have a minimum or maximum gross surface area.

For the purpose of calculating surface area in attended parking facilities with parking lift systems, the lifted tray upon which a vehicle is stored shall constitute surface area.

(a) Attended parking facilities

(1) For attended parking facilities without parking lift systems, the minimum gross surface area, in square feet, of the parking zone shall be 180 times the number of off-street parking spaces provided, and the maximum gross surface area, in square feet, of the parking zone shall not exceed 200 times the number of off-street parking spaces provided.

(2) For attended parking facilities with parking lift systems, the minimum and maximum surface area of the portion of the parking zone allocated to non-elevated parking spaces shall be calculated at the rate set forth in paragraph (a)(1) of this Section; and the surface area, in square feet, of the portion of the parking zone allocated to elevated parking spaces shall be 153 times the number of elevated spaces able to be provided on lifted trays.

(b) Automated parking facilities

No minimum or maximum surface area requirement shall be
required in off-street parking facilities that the Commissioner of Buildings determines to be automated parking facilities.

(c) Automobile rental establishments

The maximum gross surface area, in square feet, of the parking zone of an automobile rental establishment, shall be established at the rate set forth in paragraph (a) of this Section.

(d) Self-park facilities

The gross surface area, in square feet, of the parking zone of a self-parking accessory off-street parking facility shall be a minimum of 300 times the number of off-street parking spaces provided, and a maximum of 350 times the number of off-street parking spaces provided. However, an area of less than 300 square feet, but in no event less than 200 square feet, may be considered as one space, where the layout and design of the parking area are adequate to permit convenient access and maneuvering in accordance with regulations promulgated by the Commissioner of Buildings.

Such minimum and maximum parking zone requirements of this Section may be modified by the Chairperson of the City Planning Commission pursuant to the certification set forth in Section 13-431 (Reduction of minimum facility size).

(5/8/13)

13-30 OFF-STREET LOADING REGULATIONS IN THE MANHATTAN CORE

All accessory off-street loading berths provided as part of developments, enlargements, extensions or changes of use in the Manhattan Core after May 8, 2013, shall comply with the applicable provisions of this Section, inclusive.

In addition to the provisions of this Section, additional restrictions on loading berths in the Manhattan Core are found in the following Special Purpose Districts:

(a) the Special Midtown District, as set forth in Sections 81-311 (Prohibitions of off-street parking or off-street loading facilities), 81-44 (Curb Cut Restrictions), 81-624 (Curb cut restrictions and loading berth requirements) and 81-84 (Mandatory Regulations and Prohibitions);
(b) the #Special Lincoln Square District#, as set forth in Section 82-50 (OFF-STREET PARKING AND OFF-STREET LOADING REGULATIONS);

(c) the #Special Battery Park City District#, as set forth in Sections 84-143 and 84-342 (Off-street loading); and

(d) the #Special Lower Manhattan District#, as set forth in Sections 91-52 (Curb Cut Regulations) and 91-53 (Waiver of Requirements for Accessory Off-street Loading Berths).

(5/8/13)

13-31
Modification of Minimum Size of Loading Berth

For all permitted or required #accessory# loading berths, the minimum length requirements for hospitals and related facilities or prisons; hotels, offices or court houses; #commercial uses#; and wholesale, #manufacturing# or storage #uses#, set forth in Sections 36-681 (Size of required berths) and 44-581 (Size of required loading berths), shall be 37 feet.

(5/8/13)

13-32
Floor Area Exemption

In addition to the #floor area# exemption for #accessory# off-street loading berths set forth in Section 12-10 (DEFINITIONS), for #buildings# with a total #floor area# in excess of 100,000 square feet, up to 300 square feet of floor space may be exempted from the definition of #floor area# where such #buildings# allocate a permanent space for dumpster storage, and such storage space has a minimum dimension of 12 feet by 25 feet. Such dumpster storage space shall be adjacent to a #building’s# loading berth.

(5/8/13)

13-33
Modification of Provisions for a Zoning Lot With Uses Subject to Different Loading Requirements
The provisions of Sections 36-63 and 44-53 (Special Provisions for a Single Zoning Lot With Uses Subject to Different Loading Requirements) shall not apply.

(5/8/13)

13-34
Location of Access to the Street

In addition to the provisions of Sections 25-75, 36-682 and 44-582 (Location of access to the street), no entrance or exit to an accessory off-street loading berth shall be located on a street with a roadbed width that is less than 20 feet, as measured curb to curb.

(5/8/13)

13-35
Modification of Loading Berth Requirements

The provisions of Sections 25-75 (Location of Access to the Street), 36-65 and 44-55 (Waiver of Requirements for All Zoning Lots Where Access Would Be Forbidden) shall be modified to allow the Commissioner of Buildings to reduce or waive the applicable loading berth requirements, provided that:

(a) the zoning lot only has frontage upon a street, or portion thereof, where curb cuts or entrances and exits to accessory off-street loading berths are not permitted;

(b) the zoning lot has frontage along a street where curb cuts accessing a loading berth are otherwise permitted, but there is no access to such zoning lot from the street due to the presence of:

(1) a building, existing on May 8, 2013, containing residences;

(2) a non-residential building, existing on May 8, 2013, that is three or more stories in height; or

(3) a building designated as a landmark or considered a contributing building in an Historic District designated by the Landmarks Preservation Commission; or
(c) there are subsurface conditions, ventilation requirements from below-grade infrastructure or other site planning constraints that would make accommodating such loading berths infeasible.

In the case of paragraph (c), as set forth in this Section, the Commissioner shall require a loading berth of not less than 33 feet in depth, if such a berth can be accommodated in consideration of the relevant site restraints. The Commissioner of Buildings may request reports from licensed engineers or registered architects in considering such reduction or waiver.

(5/8/13)

13-40
CERTIFICATIONS, AUTHORIZATIONS AND SPECIAL PERMITS IN THE MANHATTAN CORE

(5/8/13)

13-41
General Provisions

The City Planning Commission may grant certifications, authorizations and special permits in accordance with Section 13-40, inclusive. All such special permits and authorizations, in addition to meeting the requirements, conditions and safeguards prescribed by the Commission as specified in this Section, shall conform to and comply with all of the applicable regulations, except as otherwise specified herein.

(5/8/13)

13-42
Requirements for Applications

An application to the City Planning Commission for the grant of a certification, authorization or special permit under the provisions of Section 13-40 shall include a site plan showing the location of all existing and proposed buildings or other structures on the zoning lot, the location of all vehicular entrances and exits and off-street parking spaces, and such other information as may be required by the Commission.
13-43
Certifications in the Manhattan Core

13-431
Reduction of minimum facility size

An off-street parking facility in the Manhattan Core may provide a gross unobstructed surface area less than the minimum size required by Section 13-27 (Minimum and Maximum Size of Parking Facilities) upon certification by the Chairperson of the City Planning Commission to the Commissioner of Buildings that the proposed layout of such parking facility, including, but not limited to, the arrangement of parking spaces, travel aisles and reservoir spaces, where applicable, is sufficient to accommodate the requisite vehicular navigation and turning movements associated with such a facility. In order to make such a determination, the applicant shall provide the Chairperson with dimensioned plan drawings that depict the proposed vehicular movement through the facility, including any relevant maneuverability or turning radius information.

Where the Chairperson certifies that an accessory off-street parking facility may be reduced in size because vehicles will be limited in length, such restriction shall be noted on the certificate of occupancy.

13-432
Floor area exemption for automated parking facilities

Floor space used for off-street parking spaces in an accessory automated parking facility, up to a height of 40 feet above curb level, shall be exempt from the definition of floor area upon certification of the Chairperson of the City Planning Commission to the Commissioner of Buildings that:

(a) the entire automated parking facility will be contained within a completely enclosed building;
(b) the portion of the #street wall# of such #automated parking facility# below a height of 14 feet, as measured above #curb level#, complies with the screening provisions of Section 13-221 (Enclosure and screening requirements), and the portion of the #street wall# above a height of 14 feet, will be similar in composition to the portion of the #building’s street wall# immediately above such #automated parking facility#, including, but not limited to, the choice of building materials and arrangement and amount thereof; and

(c) such #automated parking facility# is within a #building# with a #floor area ratio# of at least 2.0.

Any application for such certification shall include relevant plan, elevation and section drawings demonstrating compliance with the provisions of this Section.

A copy of an application for certification pursuant to this Section shall be sent by the Department of City Planning to the affected Community Board, which may review such proposal and submit comments to the Chairperson of the City Planning Commission. If the Community Board elects to comment on such application, it must be done within 30 days of receipt of such application. The Chairperson will not act on such application until the Community Board’s comments have been received, or the 30 day comment period has expired, whichever is earlier.

(5/8/13)

13-44
Authorizations in the Manhattan Core

(5/8/13)

13-441
Curb cuts

The City Planning Commission may authorize, subject to the applicable zoning district regulations, curb cuts located on a #wide street#, provided the Commission finds that a curb cut at such a location:

(a) is not hazardous to traffic safety;

(b) will not create or contribute to serious traffic congestion, or unduly inhibit vehicular movement;
(c) will not adversely affect pedestrian movement;

(d) will not interfere with the efficient functioning of bus lanes, specially designated streets or public transit facilities; and

(e) will not be inconsistent with the character of the existing streetscape.

The Commission may prescribe appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding area.

(5/8/13)

13-442
Limited increase in parking spaces for existing buildings without parking

The City Planning Commission may, by authorization, allow an off-street parking facility in the Manhattan Core with a maximum capacity of 15 spaces in an existing building developed without the provision of parking, provided that the conditions of paragraph (a) and the findings of paragraph (b) of this Section are met.

(a) Conditions

As a condition for approval, the parking facility shall comply with the applicable provisions of Section 13-20 (SPECIAL RULES FOR MANHATTAN CORE PARKING FACILITIES), except that such parking facility need not comply with the provisions of Section 13-221 (Enclosure and screening requirements).

(b) Findings

The Commission shall find that:

(1) the location of the vehicular entrances and exits to the parking facility will not unduly interrupt the flow of pedestrian traffic associated with uses or public facilities, including access points to mass transit facilities in close proximity thereto, or result in any undue conflict between pedestrian and vehicular movements, due to the entering and leaving movement of vehicles;
(2) the location of the vehicular entrances and exits to such parking facility will not interfere with the efficient functioning of streets#, including any lanes designated for specific types of users or vehicles, due to the entering and leaving movement of vehicles;

(3) such use# will not create or contribute to serious traffic congestion and will not unduly inhibit surface traffic and pedestrian flow; and

(4) such parking facility will not be inconsistent with the character of the existing streetscape.

The Commission may prescribe appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding area.

(5/8/13)

13-443
Reduction in the number of required existing parking spaces

For off-street parking facilities built prior to May 8, 2013, the City Planning Commission may authorize a reduction in the number of required accessory# off-street parking spaces where the Commission finds that such reduction will not have undue adverse effects on residents, businesses or community facilities in the surrounding area, as applicable.

The Commission may prescribe appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding area.

(5/8/13)

13-45
Special Permits for Additional Parking Spaces

In accordance with the special permit provisions of Sections 13-451 through 13-455, the City Planning Commission may permit the off-street parking facilities listed in paragraph (a) of this Section, provided that such parking facilities comply with the conditions of paragraph (b) and the findings of paragraphs (c) and (d) of this Section.
(a) Eligible parking facilities

The City Planning Commission may permit, subject to the otherwise applicable zoning district regulations:

(1) #accessory# off-street parking facilities on-site or off-site, open or enclosed, with any capacity, where such facilities:

   (i) are proposed #developments# or #enlargements# with a capacity not otherwise allowed under the applicable regulations of Section 13-10 (PERMITTED OFF-STREET PARKING IN THE MANHATTAN CORE); or

   (ii) are existing prior to May 8, 2013, and increasing the number of parking spaces, pursuant to the provisions of Section 13-07 (Existing Buildings and Off-street Parking Facilities);

(2) #public parking lots#, where such facilities:

   (i) are proposed #developments# or #enlargements# with any capacity not otherwise allowed under the applicable regulations of Section 13-10;

   (ii) are existing prior to May 8, 2013, and increasing the number of parking spaces, pursuant to the provisions of Section 13-07; or

   (iii) are proposed #developments# or #enlargements# in locations not permitted by Section 13-14 (Permitted Parking in Public Parking Lots);

(3) #public parking garages#, where such facilities:

   (i) are proposed #developments# or #enlargements# in the zoning districts permitted, pursuant to paragraph (d) of Section 13-041 (Applicability of parking regulations within the Manhattan Core); or

   (ii) are existing prior to May 8, 2013, and increasing the number of parking spaces pursuant to the provisions of Section 13-07.

The Commission may also permit floor space in such #public parking garages# used for off-street parking spaces in any #story# located not more than 23 feet above #curb level# to be exempt from the definition of #floor area#, as set forth in Section 12-10.
(b) Conditions

The proposed parking facility shall comply with the applicable provisions of Section 13-20 (SPECIAL RULES FOR MANHATTAN CORE PARKING FACILITIES). Proposed #public parking garages# shall utilize the applicable regulations for #accessory# off-street parking facilities. However, applications to increase the number of parking spaces in parking facilities existing prior to May 8, 2013, need not comply with the provisions of Section 13-221 (Enclosure and screening requirements).

(c) Findings

The Commission shall find that:

(1) the location of the vehicular entrances and exits to such parking facility will not unduly interrupt the flow of pedestrian traffic associated with #uses# or public facilities, including access points to mass transit facilities in close proximity thereto, or result in any undue conflict between pedestrian and vehicular movements, due to the entering and leaving movement of vehicles;

(2) the location of the vehicular entrances and exits to such parking facility will not interfere with the efficient functioning of #streets#, including any lanes designated for specific types of users or vehicles, due to the entering and leaving movement of vehicles;

(3) such #use# will not create or contribute to serious traffic congestion and will not unduly inhibit surface traffic and pedestrian flow;

(4) for #public parking garages#, that where any floor space is exempted from the definition of #floor area#, such additional floor space is needed in order to prevent excessive on-street parking demand and relieve traffic congestion; and

(5) such parking facility will not be inconsistent with the character of the existing streetscape.

(d) Additional findings

The Commission shall also find that each proposed off-street parking facility complies with the additional findings set forth in one of the following Sections, as applicable:
(1) Section 13-451 (Additional parking spaces for residential growth) shall apply to any such parking facility serving the parking needs of a predominantly #residential development# or #enlargement# on a tract of land that has or will have an area of less than 1.5 acres;

(2) Section 13-452 (Additional parking spaces for health care, arts or public assembly uses) shall apply to any such parking facility serving the parking needs of any #use# listed in paragraph (a) of Section 13-452 on a tract of land that has or will have an area of less than 1.5 acres;

(3) Section 13-453 (Additional parking spaces for economic development uses) shall apply to any such parking facility serving the parking needs of a non- #residential use# not otherwise listed in paragraph (a) of Section 13-452 on a tract of land that has or will have an area of less than 1.5 acres;

(4) Section 13-454 (Additional parking spaces for large development sites) shall apply to any such parking facility serving the parking needs of a #large-scale development# or any other #development# or #enlargement# on a tract of land that has or will have an area of at least 1.5 acres; or

(5) Section 13-455 (Additional parking spaces for existing accessory off-street parking facilities) shall apply to any such #accessory# parking facility existing prior to May 8, 2013.

In determining the amount of additional parking spaces to grant pursuant to such additional findings, the Commission may take into account levels of vacancy in existing off-street parking facilities within the area of the proposed parking facility.

(5/8/13)

13-451
Additional parking spaces for residential growth

The City Planning Commission may permit a parking facility listed in paragraph (a) of Section 13-45 (Special Permits for Additional Parking Spaces), where such parking facility serves the parking needs of a predominantly #residential development# or
#enlargement#, provided that, in addition to the conditions and findings set forth in Section 13-45, the Commission shall find that either:

(a) the number of off-street parking spaces in such proposed parking facility is reasonable and not excessive in relation to recent trends in close proximity to the proposed facility with regard to:

(1) the increase in the number of #dwelling units# ; and

(2) the number of both public and #accessory# off-street parking spaces, taking into account both the construction, if any, of new off-street parking facilities and the reduction, if any, in the number of such spaces in existing parking facilities. In making this determination, the Commission may take into account off-street parking facilities for which building permits have been granted, or which have obtained City Planning Commission special permits pursuant to Section 13-45; or

(b) the proposed ratio of parking spaces to #dwelling units# in the proposed #development# or #enlargement# does not exceed:

(1) 20 percent of the total number of #dwelling units#, where such units are located within Community District 1, 2, 3, 4, 5 or 6; or

(2) 35 percent of the total number of #dwelling units#, where such units are located within Community District 7 or 8.

The Commission may prescribe appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding area.

(5/8/13)

13-452
Additional parking spaces for health care, arts or public assembly uses

The City Planning Commission may permit a parking facility listed in paragraph (a) of Section 13-45 (Special Permits for Additional Parking Spaces), where such parking facility would serve the parking needs of a health care, arts or public assembly #use#, provided that, in addition to the conditions and findings set
forth in Section 13-45, the Commission shall find that:

(a) the proposed parking facility is either in close proximity to or on the same zoning lot as one or more of the following uses:

1. a hospital or related facility, as listed in Use Group 4;
2. a museum, as listed in Use Group 3;
3. a theater, as listed in Use Group 8, or other performing arts venue; or
4. an arena, auditorium, trade exposition or stadium, as listed in Use Group 12 or, where permitted by special permit, pursuant to Section 74-41 or other government agency approvals;

(b) an increased number of permitted off-street parking spaces in such proposed parking facility is essential to the operation of such health care, arts or public assembly uses; and

(c) reasonable measures to minimize parking demand have been identified. For existing or enlarged health care, arts or public assembly uses, such measures shall have been implemented, where feasible, prior to application, and a commitment by the applicant shall be made, in a form acceptable to the Commission, to continue and, where necessary, improve upon and supplement such measures. For new health care, arts or public assembly uses, such measures shall be committed to in a form acceptable to the Commission.

The Commission may prescribe appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding area.

(5/8/13)

13-453
Additional parking spaces for economic development uses

The City Planning Commission may permit a parking facility listed in paragraph (a) of Section 13-45 (Special Permits for Additional Parking Spaces), where such parking facility serves the parking needs of a non-residential use not otherwise listed in
paragraph (a) of Section 13-452, provided that, in addition to the conditions and findings set forth in Section 13-45, the Commission shall find that:

(a) the proposed parking facility is in close proximity to or on the same zoning lot as a commercial use, community facility use or manufacturing use that is of significant importance to the economic well-being of the City of New York;

(b) an increased number of permitted off-street parking spaces in such proposed parking facility is essential to the operation of such use; and

(c) reasonable measures to minimize parking demand have been identified. For existing or enlarged uses, such measures shall have been implemented, where feasible, prior to application, and a commitment by the applicant shall be made, in a form acceptable to the Commission, to continue and, where necessary, improve upon and supplement such measures. For new uses, such measures shall be committed to in a form acceptable to the Commission.

The Commission may prescribe appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding area.

(5/8/13)

13-454
Additional parking spaces for large development sites

The City Planning Commission may permit a parking facility listed in paragraph (a) of Section 13-45 (Special Permits for Additional Parking Spaces), where such parking facility serves the parking needs of a large-scale development or any other development or enlargement on a tract of land exceeding 1.5 acres, provided that, in addition to the conditions and findings set forth in Section 13-45, the Commission shall find that:

(a) where an increased number of permitted off-street parking spaces in such proposed parking facility would serve the parking needs of a predominantly residential development or enlargement, either finding (a) or finding (b) of Section 13-451 (Additional parking spaces for residential growth) is met; or

(b) where such proposed parking facility would serve the parking
needs of a predominantly non-residential development or enlargement, an increased number of permitted off-street parking spaces in such proposed parking facility is essential to the operation of the non-residential uses in such development or enlargement; and

(c) where a parking deficit is created by the relocation of parking users from off-street parking spaces that will be eliminated through the proposed development or enlargement, the availability of off-street parking in the vicinity of such proposed development or enlargement will be of insufficient capacity to accommodate such potential parking users;

(d) reasonable measures to minimize parking demand have been identified. For existing or enlarged uses, such measures shall have been implemented, where feasible, prior to application, and a commitment by the applicant shall be made, in a form acceptable to the Commission, to continue, and where necessary, improve upon and supplement such measures. For new uses, such measures shall be committed to in a form acceptable to the Commission; and

(e) where phased construction will occur in the large-scale development, or development or enlargement on a tract of land exceeding 1.5 acres, a phased parking plan has been provided that demonstrates that a reasonable and not excessive amount of additional parking spaces is provided in the proposed parking facility in relation to the amount of completed construction within each phase.

The Commission may prescribe appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding area.

(5/8/13)

13-455
Additional parking spaces for existing accessory off-street parking facilities

The City Planning Commission may permit an increase in the number of spaces in an accessory off-street parking facility existing prior to May 8, 2013, as listed in paragraph (a) of Section 13-45 (Special Permits for Additional Parking Spaces), provided that, in addition to the conditions and findings set forth in Section 13-45, the Commission shall find that:
(a) where such increased number of permitted off-street parking spaces in such existing parking facility would serve the parking needs of a #zoning lot# or #zoning lots# comprised predominantly of #residential uses#, either:

1. finding (a) of Section 13-451 (Additional parking spaces for residential growth) is met; or

2. the sum of any existing off-street parking spaces, and the proposed increase, does not exceed:

   i. 20 percent of the total number of #dwelling units#, where such units are located within Community District 1, 2, 3, 4, 5 or 6; or

   ii. 35 percent of the total number of #dwelling units#, where such units are located within Community District 7 or 8; and

   iii. the number of parking spaces that would be permitted for existing conforming non-#residential uses#, if the ratio of parking spaces to #floor area# for the applicable #use#, as specified in Section 13-10 (PERMITTED OFF-STREET PARKING IN THE MANHATTAN CORE), were applied.

Any #dwelling units# on the #zoning lot# or #zoning lots# which are #non-complying# as to density shall not be included in such calculation pursuant to paragraphs (a)(2)(i) or (a)(2)(ii) of this Section, and any #non-complying floor area# on such #zoning lot# or #zoning lots# shall be excluded in applying such ratio in paragraph (a)(2)(iii) of this Section; or

(b) where an increased number of permitted off-street parking spaces in such existing parking facility would serve the parking needs of a #zoning lot# or #zoning lots# comprised predominantly of conforming non-#residential uses#, the sum of any existing off-street parking spaces, and the proposed increase, does not exceed the number of parking spaces that would be permitted if the ratio of parking spaces to #floor area# for the applicable #use#, as specified in Section 13-10, were applied. Any #non-complying floor area# on such #zoning lot# or #zoning lots# shall be excluded in applying such ratio.
