RE: **Murray Park Synthetic Field Reconstruction**

Dear Queens Borough Commissioner, Langsam:

On December 7, 2023, Community Board 2 held a public hearing concerning the Murray Park Field Reconstruction.

At that meeting with a quorum present a motion was made and seconded to approve the Murray Park Synthetic Field Reconstruction with the stipulation that CB 2 strongly encourages the use of real grass.

All were in favor of the motion with none opposed and no abstentions.

Please contact CB 2 if you have any questions.

Sincerely,

Debra Markell Kleinert
District Manager

Parks Murray Park Playground Reconstruction

1. The purpose of this document is to provide a detailed description of the proposed reconstruction of the Murray Park Playground. The project is intended to improve the safety and quality of the playground equipment and surrounding area.

2. The proposed reconstruction includes the replacement of existing equipment with new, safer equipment. This includes the installation of new slides, swings, and climbing structures. The equipment will be made of high-quality materials and will be designed to meet current safety standards.

3. In addition to the equipment replacement, the project also includes the installation of new safety surfacing. The surfacing will be made of a soft, impact-absorbing material that will reduce the risk of injury from falls. The surfacing will be installed in all areas where children are likely to fall.

4. The project also includes the installation of new benches and picnic tables. The benches and picnic tables will be made of high-quality materials and will be designed to be durable and easy to maintain. They will be installed in areas where children and adults are likely to sit.

5. The project also includes the installation of new lighting. The lighting will be installed in areas where children are likely to play, and it will be designed to be energy-efficient and long-lasting. The lighting will be installed in a way that will provide adequate illumination for all areas of the playground.

6. The project also includes the installation of new signage. The signage will be installed in areas where children are likely to play, and it will be designed to be clear and easy to read. The signage will be installed in a way that will provide information about the playground rules and regulations.

7. The project also includes the installation of new landscaping. The landscaping will be installed in areas where children are likely to play, and it will be designed to be attractive and easy to maintain. The landscaping will be installed in a way that will provide shade and shelter for children and adults.

8. The project also includes the installation of new fencing. The fencing will be installed in areas where children are likely to play, and it will be designed to be safe and secure. The fencing will be installed in a way that will prevent children from leaving the playground area.

9. The project also includes the installation of new water features. The water features will be installed in areas where children are likely to play, and they will be designed to be fun and safe. The water features will be installed in a way that will provide a cooling and refreshing experience for children and adults.
