Industry Notice #10-30
For Immediate Release

Important Notice

ATTENTION: ALL CURRENT AND FORMER DDS CUSTOMERS

You are receiving this notice because you have signed a contract with Digital Dispatch Systems Inc., now known as DDS Wireless International, Inc. (DDS)

This notice is a reminder that the TLC has set a deadline of next Friday – December 31, 2010 – for you to sign an agreement with one of the two other contractors who provide TPEP systems and services – Mobile Knowledge Corp. (CMT) and VeriFone, Inc. (VTS). Note: You may only sign up with one of these vendors.

If you have not already signed up with either CMT or VTS, you must contact them (at the numbers provided below) to choose the one you wish to contract with for TPEP systems and services, as soon as possible but in any case prior to December 31, 2010.

CMT: (718) 937-4444
VTS: (718) 752-1656 x255

In addition, you will be required to switch your TPEP systems to either CMT or VTS and have them installed as of your first vehicle inspection on and following February 1, 2011. (Those vehicles that are due for inspection in May 2011, will be required to have their vehicles inspected for purposes of TPEP system installation in April 2011.)

Contact DDS at (718) 361-2345 to learn the location of a DDS authorized de-installation center. (Note: DDS may not charge you an early termination fee for switching to either of these other TPEP contractors.)

The Agreement between DDS and the City of New York to provide TPEP systems and services expired on September 30, 2010. However, DDS is contractually obligated to service and maintain its systems until the end of a transition period (which TLC is targeting for April 30, 2011).
