Statement of Basis and Purpose of Proposed Rule

On December 23, 2011 Governor Cuomo signed into law chapter 602 of the Laws of 2011, and on February 17, 2012, signed into law chapter 9 of the Laws of 2012, which amended the previous statute. This legislation allows New York City to issue up to 18,000 transferable licenses to for-hire vehicles authorizing them to pick up passengers by street hail anywhere outside Manhattan (except for the airports) and in Manhattan north of West 110th Street and north of East 96th Street. Up to 6,000 of these licenses for Street Hail Liveries can be issued in the first year of the program. Twenty percent of these licenses will be set aside for wheelchair accessible vehicles (City subsidies for accessible vehicle purchase/upgrades will be available).

These proposed rules will implement the state legislation, which outlines the characteristics of and the services that the new Street Hail Vehicles will provide to New York City residents and visitors. The state legislation and the proposed rules aim to improve access to safe, legal and convenient street hail service for the 6.7 million New York City residents who live outside of the neighborhoods where yellow taxi service is generally available.

The proposed rule changes are organized as follows:

1. Amendment to Definitions (Chapter 51) to incorporate Street Hail Liveries
2. Amendment to For-Hire Service (Chapter 59B) to outline requirements for base stations authorized to affiliate Street Hail Liveries
3. New chapter on Street Hail Livery Service outlining licensing, service and vehicle requirements
4. Amendments to Medallion Taxicab Drivers (Chapter 54) to incorporate requirements for drivers of Street Hail Liveries
5. New chapter on Technology Vendors creating a new licensee type for vendors of taxicab technology for Street Hail Liveries.

This statement first provides some background on existing street hail service availability and passenger demand for this service, and explains the rationale for the Street Hail Livery program. It then discusses the purpose of some of the more specific rules being proposed to implement the program.

Background: Brooklyn, the Bronx, Queens, Staten Island, & Northern Manhattan Lack Street Hail Service

Currently, yellow taxis with medallions issued by the TLC are the only vehicles authorized to pick up passengers by street hail anywhere in the city. However, according to recent GPS data collected by TLC, 95% of all yellow taxi street hail pickups are in Manhattan’s Central Business District (CBD) and at La Guardia or JFK airports. The demand for street hail service in Northern Manhattan, Brooklyn, Bronx, Queens and Staten Island neighborhoods, where 80% of the City’s population lives, but where yellow taxis choose not to go, is met (illegally) by livery vehicles, which are licensed to pick up passengers only by prearrangement. TLC staff who recently observed passengers hailing rides at various locations outside Manhattan counted 65 street hails per hour at Mermaid and Stillwell Avenues in Brooklyn, 39 per hour at Jamaica Avenue and Parsons Boulevard in Queens, and 19 per hour at Grand Concourse and 149th Street in the Bronx. All street-hails observed by TLC were picked up by livery vehicles.
The current licensing and street hail regulations mean that:

- Livery drivers who pick passengers up from the street by hail to meet the existing demand, but do so without notification from the base, are put in the position of routinely violating the law.
- Business districts outside of the Manhattan CBD are at a competitive disadvantage because their clients and customers do not have access to safe, legal and convenient street hail service for travel between meetings or home from shopping trips.
- Residents who use the street-hail service from livers are not protected by nor benefit from key features of yellow taxicab service:
  - **Set Fares:** Fares, determined in a livery street-hail pickup by haggling between the driver and the passenger (who is often uncomfortable with this arrangement), are not metered or otherwise regulated and leave passengers vulnerable to over-charging.
  - **Safety and Security:** Licensed livery vehicles can be difficult for street hail passengers to distinguish from unlicensed vehicles. Many passengers seeking to hail a livery on the street are exposed, without their knowledge, to uninsured and possibly unsafe vehicles and to drivers with unknown safety records.
  - **Convenience and Customer Service:** Most livery vehicles have no GPS locator, which can make it hard to help street-hail passengers recover lost property. Most livery vehicles do not offer passengers the convenience of paying by debit or credit card, an extremely popular feature among yellow taxi passengers.
  - **Wheelchair Access:** Only a minute fraction of existing livery vehicles are accessible to wheelchair users. Although there are currently TLC rules in place that require the for-hire industry to provide service to wheelchair users, the service currently available is insufficient to meet wheelchair users’ mobility needs.

**Purpose of Proposed Rules**

The legislation enacted in Albany, which these proposed rules implement, addresses the problems described above by authorizing the City to issue transferable Street Hail Livery licenses. Vehicles with these licenses will be permitted to pick up street hail passengers anywhere in Brooklyn, the Bronx, Staten Island, Northern Manhattan (north of W. 110th St. and north of E. 96th St.), and Queens (excluding airports). They can also pick up passengers by prearrangement anywhere except Manhattan south of W. 110th St. and E. 96th St. This will ensure that these new Street Hail Livery Vehicles serve the neighborhoods that are currently underserved by yellow taxis and protect yellow taxis from competition in the areas of the city they typically serve.

**Vehicle Requirements.** Street Hail Livers will have a variety of features, as described in these rules, to make them safer and more convenient for passengers. These features include:

1. Meters calculating a uniform fare for street-hail trips (to provide predictability for passengers, build trust between drivers and passengers, and prevent price gouging)
2. Credit and debit card readers (to make it easier for passengers to pay their fares and reduce the amount of cash drivers carry)
3. GPS locators (to assist with locating lost property and to assist TLC enforcement with preventing Street Hail Livers from making illegal pickups)
4. Distinguishing markings (a uniform color scheme, text markings, and roof light) so passengers know they are entering a legal car with a licensed driver

Accessibility. The Street Hail Livery program also expands transportation options for individuals who use wheelchairs. As per the state legislation, 20 percent of Street Hail Liveries will be required to be accessible to individuals who use wheelchairs. Individuals who purchase Street Hail Livery licenses that are part of this accessibility initiative will be eligible for a City subsidy to cover costs of upgrading their vehicles or purchasing new accessible vehicles. This will significantly expand access to both prearranged and hail service for wheelchair users, expanding these individuals' ability to travel around the city.

Driver Requirements. To ensure that Street Hail Livery drivers can safely and effectively operate a Street Hail Livery and provide excellent customer service, these proposed rules require that new Street Hail Livery drivers be licensed by the Commission and be either (1) existing licensed for-hire vehicle drivers, (2) existing licensed yellow taxi ("hack") drivers, or (3) existing licensed paratransit drivers (for accessible vehicles). Individuals who do not fall into any of the three categories above will be required to obtain a yellow taxi hack license to operate a Street Hail Livery.

Service Requirements. To ensure that the public receives good customer service in Street Hail Liveries, these rules outline the service Street Hail Livery drivers must provide. This includes many requirements that are found in the yellow taxi industry, such as rules surrounding service refusals, compliance with reasonable passenger requests, and rates charged.

Service Options. Street Hail Liveries will be permitted to provide both prearranged and street hail service. This gives drivers flexibility to adapt to fluctuations in customers' demand for each of these types of service (e.g., prearranged airport drop-offs in the early morning and street hail rides late-night). This enables drivers to maximize revenue earned and gives bases flexibility to respond to spikes and troughs in demand.

Enforcement. To protect yellow taxis in areas where they are the only vehicles authorized to pick up street hails, these rules clearly define the areas where Street Hail Liveries are not allowed to make pickups and the penalties for violating these rules. Vehicle requirements will include GPS technology that will enable TLC to detect and penalize Street Hail Liveries that make illegal pickups, putting violators' licenses in jeopardy.

Base Requirements. State legislation requires that each Street Hail Livery be affiliated with a base that is specially licensed to affiliate Street Hail Liveries. These proposed rules outline the process for bases to become licensed to affiliate a Street Hail Livery, along with these bases' responsibilities. These responsibilities include ensuring their Street Hail Livery vehicles and drivers comply with TLC rules and transmitting the 50 cent MTA surcharge on each hail ride to the MTA.

Technology Vendor Requirements. State legislation authorizes the TLC to license vendors of credit card and customer enhancements technology to Street Hail Liveries. The TLC intends to regulate these vendors because it believes that licensure is preferable to the procurement and contract approach used in the taxicab industry. Under a regulatory approach, any vendor who can meet TLC requirements can apply for a license. This will maintain vendor competition and allow the TLC to create and enforce
consistent service standards for all licensees. In addition, the TLC believes that a regulatory approach will enable it to revisit and revise standards as technology and other factors advance. Accordingly, the TLC believes that the competition permitted by a regulatory approach is key to both keeping prices affordable and improving service quality. Allowing multiple taxicab technology vendors to develop and provide taxicab technology is important for fostering innovation and giving the for-hire industries choices. Moreover, the TLC believes that the benefits of competition in the for-hire industries may ultimately feed into the taxi industry by permitting advances in technology that may benefit passengers in all the industries the TLC regulates. In order to maintain the ability for multiple vendors to provide taxicab technology—while maintaining TLC oversight and quality control—these proposed rules outline the process and standards for becoming a TLC-licensed technology vendor.

In addition to providing a service to the public, the Street Hail Livery program provides opportunities for the industries TLC regulates:

- Livery drivers and bases that choose to enter the Street Hail Livery business (which is completely optional for both vehicle owners and bases) will expand the ways in which they may legally serve the communities they have been serving for years by providing not only high-quality prearranged service, but also safe, convenient and legal street hail service.
- The street hail business that already exists in many neighborhoods outside the Manhattan CBD will be brought out of the shadows, bringing legitimacy and pride to those providing this service.
- Income-generating opportunities for drivers will increase as more customers will be enticed to take advantage of the predictability and quality of this new street hail service.

Proposed Rule Governing Driver Requirements

The Commission proposes these rules to implement the legislation authorizing Street Hail Liveries. The proposed rule governing driver requirements amends Chapter 54, Medallion Taxicab Drivers, to provide special requirements that will apply only to drivers of Street Hail Livery Vehicles. State Legislation grants TLC the authority to designate who is eligible to drive a Street Hail Livery Vehicle. This proposed rule sets forth TLC’s driver eligibility requirements and driver responsibilities while operating a Street Hail Livery. Specifically, the proposed rule provides the following:

- Eligibility requirements for driving a Street Hail Livery:
  - Taxicab Drivers are authorized to drive Street Hail Liveries
  - Paratransit Drivers are authorized to drive Accessible Street Hail Liveries
  - For-Hire Drivers are authorized to drive Street Hail Liveries for a limited period.
- Wheelchair passenger assistance training, for certain drivers of Accessible Street Hail Liveries.
- Conduct requirements for Street Hail Livery Drivers.
- Restrictions on Street Hail Livery operation.
- Fare requirements for trips in Street Hail Liveries that are begun when a driver accepts a hail from a passenger in the street (a Hail Trip), including requirement of MTA surcharge of 50 cents per Hail Trip.
- Requirements for and limitations on prearranged trips provided by Street Hail Liveries.
- Restrictions on passenger solicitation and engagement.
- Requirements for vehicle operation and maintenance.
• Requirement for Street Hail Livery Drivers to maintain accurate prearranged trip and Hail Trip records, including requirements for recording Hail Trips and prearranged trips in the Street Hail Livery Technology System (“LPEP”)1.

• Requirements for Street Hail Livery Drivers to accurately use and keep in good working order the meter, the LPEP and the roof light, and prohibitions on tampering with this equipment.

In addition, this proposed rule makes some changes to existing requirements for Taxicab Drivers, principally in terms of passenger solicitation, to better align the rules with actual conditions of operation and also to correct penalties to better align them with other Chapters of these Rules.

1 “LPEP” is an acronym for Livery Passenger Enhancements Program and the short form term for Street Hail Livery Technology System.
