Statement of Basis and Purpose of Rules

These proposed rules clarify that, where a taxicab or for-hire vehicle is required to have an in-vehicle camera system for security purposes, the system must be functioning and in good working order. The proposed rules also clarify that specifications and installation requirements for the in-vehicle systems are the same whether being installed in a Taxicab or a for-hire vehicle and that the required installers must have the same qualifications. The proposed rule makes no change in the provisions spelling out the circumstances in which such a system is required.

Also the proposed rule corrects an erroneous reference in Section 9B-33(a)(1), from section 9C-02 to section 9C-01. This rule amends the version of the Commission's rules that becomes effective January 1, 2011.
