

This data dictionary describes High Volume FHV trip data. Each row represents a single trip in an FHV dispatched by one of NYC’s licensed High Volume FHV bases. On August 14, 2018, Mayor de Blasio signed Local Law 149 of 2018, creating a new license category for TLC-licensed FHV businesses that currently dispatch or plan to dispatch more than 10,000 FHV trips in New York City per day under a single brand, trade, or operating name, referred to as High-Volume For-Hire Services (HVFHS). This law went into effect on Feb 1, 2019.

For a dictionary describing yellow and green taxi data, or a map of the TLC Taxi Zones, please visit [http://www.nyc.gov/html/tlc/html/about/trip\\_record\\_data.shtml](http://www.nyc.gov/html/tlc/html/about/trip_record_data.shtml).

Field Name	Description
<b>Hvfhs_license_num</b>	The TLC license number of the HVFHS base or business As of September 2019, the HVFHS licensees are the following: <ul style="list-style-type: none"> <li>• HV0002: Juno</li> <li>• HV0003: Uber</li> <li>• HV0004: Via</li> <li>• HV0005: Lyft</li> </ul>
<b>Dispatching_base_num</b>	The TLC Base License Number of the base that dispatched the trip
<b>Pickup_datetime</b>	The date and time of the trip pick-up
<b>DropOff_datetime</b>	The date and time of the trip drop-off
<b>PULocationID</b>	TLC Taxi Zone in which the trip began
<b>DOLocationID</b>	TLC Taxi Zone in which the trip ended
<b>SR_Flag</b>	Indicates if the trip was a part of a shared ride chain offered by a High Volume FHV company (e.g. Uber Pool, Lyft Line). For shared trips, the value is <b>1</b> . For non-shared rides, this field is <b>null</b> .  <b>NOTE:</b> For most High Volume FHV companies, only shared rides that were requested AND matched to another shared-ride request over the course of the journey are flagged. However, Lyft (hvfhs_license_num='HV0005') also flags rides for which a shared ride was requested but another passenger was not successfully matched to share the trip—therefore, trips records with SR_Flag=1 from those two bases could indicate EITHER a trip in a shared trip chain OR a trip for which a shared ride was requested but never matched. Users should anticipate an overcount of successfully shared trips completed by Lyft.  Note also that Juno does not offer shared trips at this time.
