STATEMENT OF BASIS AND PURPOSE OF RULE

The TLC is proposing rules that would amend or add new sections to the existing rules governing the transfer of licenses for Street Hail Livery vehicles (also known as Boro Taxis or green cabs).

Historical Background of the Existing Boro Taxi Rules

On December 23, 2011 Governor Cuomo signed into law chapter 602 of the Laws of 2011, and on February 17, 2012, signed into law chapter 9 of the Laws of 2012 ("HAIL LAW"), which amended the previous statute. This legislation permits New York City to issue up to 18,000 transferable licenses to for-hire vehicles, authorizing them to pick up passengers by street hail anywhere outside Manhattan (except for the airports) and in Manhattan north of West 110th Street and north of East 96th Street.

The TLC promulgated rules that implemented the state legislation and became effective on June 2, 2012. The rules established the characteristics of the services that the new Street Hail Vehicles will provide to New York City residents. The purpose of the state legislation and the rules was to establish a new class of for-hire license which would improve access to safe, legal and convenient street hail service for New York City residents who live outside of the neighborhoods where yellow taxi service is generally available.

To date, the TLC has issued a total of 7,992 Street Hail Livery Licenses (SHL), including wheelchair accessible licenses. Since the inception of the SHL Licenses the TLC has had the opportunity to evaluate the processes and procedures relating to the licensing, issuance, enforcement and transfer of these licenses. There are two areas in which the TLC has encountered issues in administering SHL licenses: (1) Livery Passenger Enhancement Project (LPEP) providers have reported that subsequent to the legitimate transfer of an SHL license to a third party the original vehicle may remain affiliated with the license while a second vehicle is also affiliated with the SHL license; (2) there are no existing rules which codify the TLC’s current practice of permitting the administrator of an estate to operate a deceased SHL license holder’s license.

After a review of these areas and feedback from the stakeholders, the TLC believes that certain modifications of the rules governing the SHL licensing and transfer process are warranted to better align with licensing requirements and address problems encountered by stakeholders.

Specifically, the proposed rules:

1. Require the removal of the LPEP system and taximeter from a Vehicle affiliated with an SHL License when that SHL License has been revoked, surrendered or not renewed.
2. Require that a notification be provided to the LPEP provider at least 30 days prior to the transfer of a SHL License.
3. Require that all SHL Licensees who seek to transfer their SHL License must resolve all summonses, outstanding fines and penalties owed to the TLC.
4. Establish procedures by which an estate may temporarily operate the SHL License of a deceased owner until a qualified applicant is found to purchase the license.

The Commission’s authority for this rule is found in section 2303 of the New York City Charter and section 19-503 of the Administrative Code of the City of New York, as well as in the Hail Law.
