Select Bus Service (SBS) Select Bus Service is New York City’s brand name for a package of improvements that result in faster and more reliable service on high-ridership bus routes. There are seven SBS routes currently operating in NYC.

**EXISTING SBS ROUTES**
since launch of service in 2008

**BUILDING A BETTER TRANSIT NETWORK**

- **15-23%** faster bus service for shorter waits and shorter rides
- **95%** bus rider satisfaction
- **↑10%** average increase in ridership along SBS routes
- **↓20%** Up to 20% reduction of crashes along SBS corridors
TRANSIT SERVICE IN SOUTH BROOKLYN

14 bus routes provide East-West service

- B1
- B2
- B3
- B4
- B6
- B7
- B8
- B9
- B11
- B36
- B64
- B82
- B100

with a combined ridership of 178,000 per day

The Bus Rapid Transit Phase II Study (2009) identified the south Brooklyn east-west corridor as a priority service need.

Key issues raised at the 2009 public workshops included the following:
- Bus trips are long and slow
- Many parts of south Brooklyn are underserved by transit
- A bus trip across south Brooklyn can take up to 2 hours
WAYS TO IMPROVE BUS SERVICE

Dedicated Bus Lanes

Signal Priority for Buses

Faster bus rides

Buses spend less time stopped at red lights

Reduced traffic conflicts between buses and other traffic

More reliable bus service

Off-Board Fare Collection

All-Door Boarding

Quicker bus boarding

Buses spend less time waiting at bus stops

Of-Board Fare Collection

All-Door Boarding
WAYS TO IMPROVE BUS SERVICE

Improved Station Amenities
- More attractive, appealing bus stops
- More comfortable wait for the bus

Real-Time Passenger Information
- Better information for riders to know when the bus is coming

Pedestrian Safety Improvements
- Better visibility for pedestrians, bus operators, and drivers
- Clearer, shorter pedestrian crossings
PROJECT GOALS

Past goals of SBS projects have included:

- Faster and more reliable bus service and better bus stops
- Improve pedestrian and traffic safety
- Improve or maintain traffic flow, parking, and loading space

What should be the goals of this project?
