## APPENDICES

Appendices are numbered to correspond with the analyses conducted for the Environmental Impact Statement (EIS); e.g., Criteria Air Pollutants is Chapter 8 of the EIS and consistent with this, the Criteria Air Pollutants is Appendix 8. Some analysis areas do not have an appendix. As Chapter 17, "Construction," has multiple appendices which have been numbered in accordance with the subsection they fall under within the chapter. Following is a Table of Contents for the appendices for the proposed Phase III Upgrade and carbon and polymer addition facilities at the Hunts Point Water Pollution Control Plant.
