

**New York City Department of Transportation Street Design Checklist
"NYC Admin Code §19 - 182.2"**

Pursuant to §19-182.2, this checklist was created by New York City Department of Transportation ("DOT") as a standard checklist of safety-enhancing street design elements that the department must consider for all Major Transportation Projects. A Major Transportation Project (MTP) is a project that, after construction will alter four or more consecutive blocks or 1,000 consecutive feet of street, whichever is less, involving a major realignment of roadway, including either the removal of vehicular lane(s) or full time removal of parking lane(s), or the addition of vehicle lane(s).

DOT is required to post such standard checklists on its website prior to the implementation of each MTP. DOT may amend the standard checklist by rule only to promote vehicular, pedestrian and bicycle safety.

Project Name: 8th Ave Phase II - 31st St to 38th St

1. **ADA Accessibility:** Preexisting Feature
2. **Bus Bulbs:** Not Included In Project
 - A Bus Bulb is not constructible
3. **Bus Lanes:** Not Included In Project
 - Reduction in vehicular travel lanes necessary to create a Bus Lane would result in vehicle congestion and operational concerns
4. **Daylighting:** Not Included In Project
 - Other treatments were installed to slow turns and/or enhance visibility
5. **Dedicated Vehicle Loading and Unloading Zones:** Included In Project
6. **Narrow Vehicle Lanes (10ft or Less):** Preexisting Feature
7. **Pedestrian Safety Islands:** Preexisting Feature
8. **Protected Bicycle Lane:** Preexisting Feature
9. **Signal-Protected Pedestrian Crossings:** Included In Project
10. **Signal Retiming:** Included In Project
11. **Wide Sidewalks (8ft or Greater):** Included In Project
