

# Carlton Avenue Landscaped Median

Project Overview  
July 2007

# Project Location

# Pre-2007 Conditions

- One-way north bound with 70-foot wide roadbed
- 90-degree angled parking on west curb
  - 71 parking spaces total

# 2007 Bike Lane Conditions

- Two-way, one lane each direction for both cars and bicycles
- Parallel parking on west curb
  - 30 parking spaces total

# Proposed 13' Median Conditions

- Add 13-foot median landscaped with trees and bushes in substantial tree pits
- One additional row of parallel parking along east curb of median
  - + 41 parking spaces, 71 total on west curb and median (same as west curb before bike lanes)

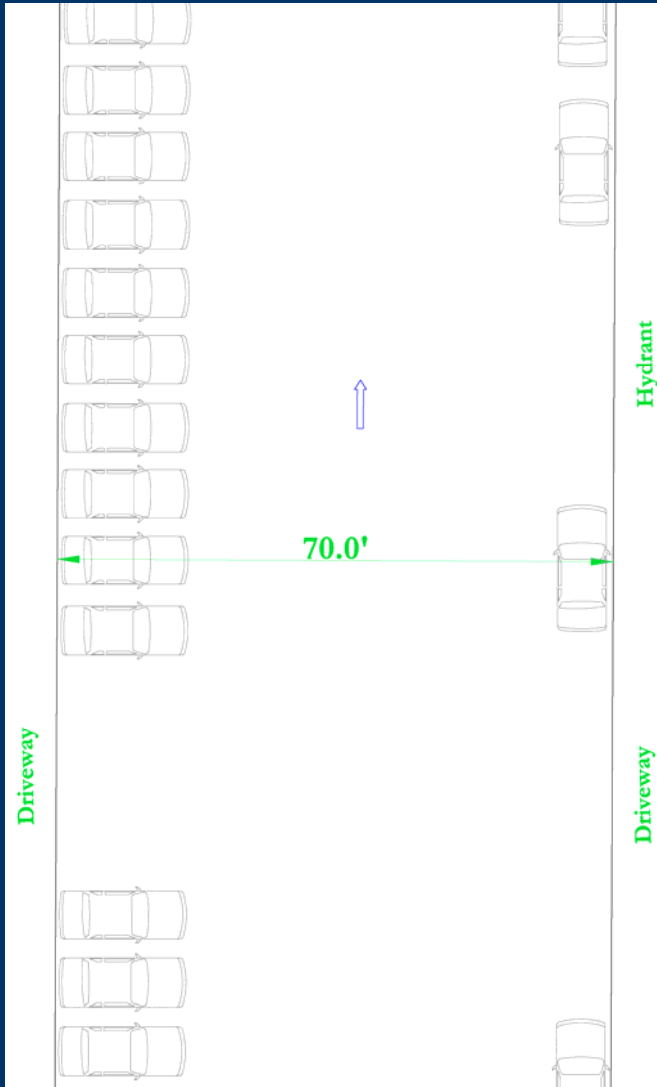

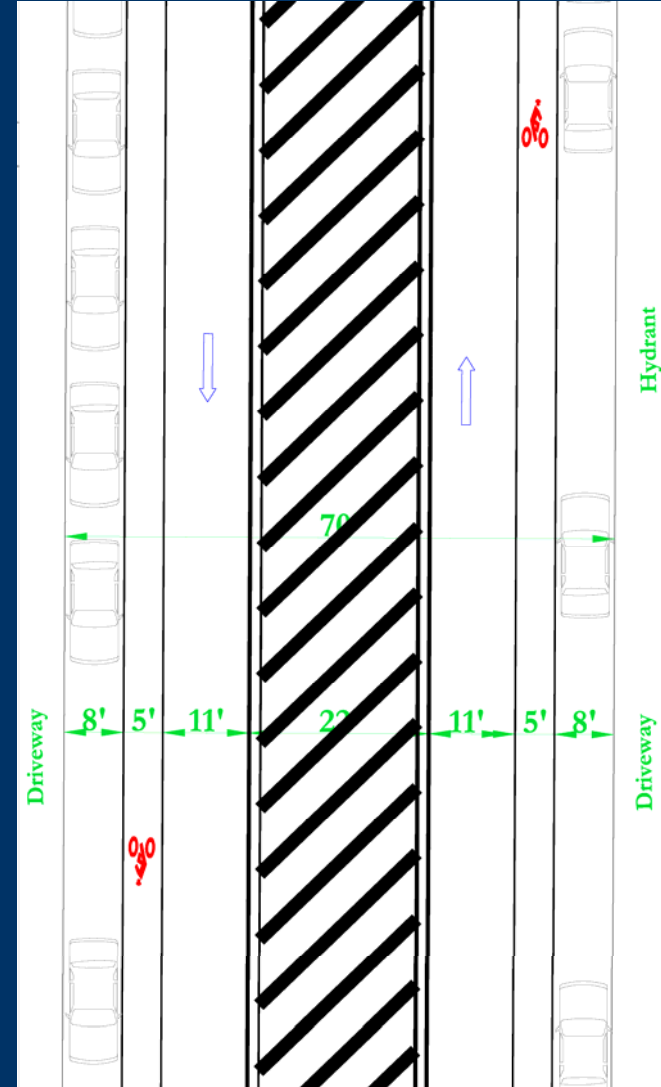

# Parking Comparison

Design Scenarios	Total Parking (west curb and median)
Previous Angled Parking	71
Existing Bike Lane Design	30
Proposed Raised 13' Median	71

# Design Comparison

Pre-2007 Angled Parking

Current Bike Lane

# Design Comparison, 13' Median
