New York City Department of Transportation Street Design Checklist
"NYC Admin Code §19 - 182.2"

Pursuant to §19-182.2, this checklist was created by New York City Department of Transportation ("DOT") as a standard checklist of safety-enhancing street design elements that the department must consider for all Major Transportation Projects. A Major Transportation Project (MTP) is a project that, after construction will alter four or more consecutive blocks or 1,000 consecutive feet of street, whichever is less, involving a major realignment of roadway, including either the removal of vehicular lane(s) or full time removal of parking lane(s), or the addition of vehicle lane(s).

DOT is required to post such standard checklists on its website prior to the implementation of each MTP. DOT may amend the standard checklist by rule only to promote vehicular, pedestrian and bicycle safety.

Project Name: 5 Ave (110 St - 120 St)

1. ADA Accessibility: Preexisting Feature

2. Bus Bulbs: Not Included In Project
   - Location does not meet technical criteria for a Bus Bulb

3. Bus Lanes: Not Included In Project
   - Due to resource constraints, a Bus Lane will not be installed at this time

4. Daylighting: Included In Project

5. Dedicated Vehicle Loading and Unloading Zones: Not Included In Project
   - Adjacent land uses do not require Dedicated Vehicle Loading and Unloading Zone(s)
   - During the public review process, DOT heard concerns from community members and/or elected officials about Dedicated Vehicle Loading and Unloading Zone(s) and decided not to pursue these loading/unloading zones at this location at this time

6. Narrow Vehicle Lanes (10ft or Less): Not Included In Project
   - This location is a bus route, 11' travel lanes are standard

7. Pedestrian Safety Islands: Included In Project

8. Protected Bicycle Lane: Included In Project

9. Signal-Protected Pedestrian Crossings: Included In Project

10. Signal Retiming: Included In Project

11. Wide Sidewalks (8ft or Greater): Not Included In Project
    - Sidewalk Widening at this location is not feasible/needed at this time based on professional engineering judgment
