Northern Blvd
Broadway To 114 Street
2021 Street Improvement Projects and Beyond
Spring, 2021
Project Area

- Project limits: Broadway – 114 St, 2.7 mile section of Northern Blvd
- Busy commercial and residential area
- M & R Subway lines at Broadway, 7 Subway line to the south along Roosevelt Ave, Q66 local bus along Northern Blvd
- Vision Zero Priority Corridor
- Future Vision Zero Great Streets Capital Project with $79 million awarded in City funds
Corridor Existing Conditions

- 70’ wide roadway, with two travel lanes in each direction

- Rush Hour Regulations
  - Part-time curbside travel lane operating from 7AM-10AM westbound and 4PM-7PM eastbound

- Numerous restaurants and local businesses maintain approved outdoor dining setups

- Peak traffic volumes of 1200-1500 vehicles per hour
Safety Concerns

- 7 pedestrian fatalities since 2014, and 12.6 people killed or seriously injured per mile

- 66% of pedestrians injured were crossing in the crosswalk with the walk signal, struck by a driver failing to yield

- Vision Zero Priority Corridor

Source: Fatalities: NYCDOT, Injuries: NYCDOT. KSI: Persons Killed or Severely Injured
Existing Conditions: Curb Management

Frequent unauthorized parking makes curbside Rush Hour Regulation non-functional and leads to unpredictable driver behavior.

Northern Blvd & 106 St
Existing Conditions: Wide Roadway

Rush Hour Regulations increase pedestrian crossing distances

Long crossing distances are challenging for pedestrians

Northern Blvd & 111 St
Existing Conditions: Bus Stop Spacing

- Existing Q66 route has numerous stops, leading to slow bus speeds

- Bus stops are often closer together than MTA’s average stop distance guideline of 750’

- Average corridor bus speeds of **11 mph** during peak AM and PM hours

- Close bus stop spacing hinders high-ridership routes by slowing down the bus at stops too often

- Some of the slowest speeds are in Corona/East Elmhurst, limiting efficient connections to the M & R trains at Northern Boulevard station
Outreach

• After 4 pedestrian fatalities in 2018, NYC DOT expanded its safety efforts on Northern Blvd
• Three public workshops in October 2018 with discussions and visioning for Capital Project

• Key community desires raised:
  • Improved bus service, i.e. transit signal priority, bus lanes, bus boarding islands
  • Protected bike lanes on Northern Blvd
  • Additional islands or medians with plantings, shorten crossings
  • Remove underused rush hour regulation

• DOT and State Senator Ramos solicited feedback from businesses on Northern Blvd in February, 2020
  • Businesses shared concerns about parking conditions, access to public transit, loading zones and congestion

• Continuing outreach in Spring 2021 with stakeholders including East Elmhurst Civic Association, Dorie Miller Houses and Self Help
Northern Blvd Bicycle and Transit Connections

East / West bike connections to Queens Plaza needed west of Broadway
- 34th Ave, 32nd Ave, 31St Ave are parallel routes to Northern Blvd east of Broadway
- Protected Bicycle Lane will be implemented from Broadway to Queens Plaza (2021)

Transit improvements needed east of Broadway
- Existing Q66 bus has frequent stops, slow travel times during peak
- 7 train ½ mile or more away from Northern Blvd
- Broadway M & R train is the easternmost subway stop on Northern Blvd
Safety Projects

2018
• Left Turn Traffic Calming at 7 locations
• Leading Pedestrian Intervals (LPIs) at all feasible intersections

2019
• 10 new concrete pedestrian safety islands at high crash intersections between 70 St and 92 St

2020
• 5 additional concrete pedestrian safety islands between 71 St and 112 St
• Temporary protected bicycle lane on Northern Blvd from 41st Ave to Broadway
Safety Improvements

After the installation of 9 pedestrian islands at targeted locations in 2015:

- Total injuries decreased by 12%
- Pedestrian injuries decreased by 30%

Source: NYPD AIS/TAMS Crash Database
Proposed Improvements: Curb Management

Removing Rush Hour Regulations formalizes curbside standing, loading, and parking without impeding through traffic.

Curb extensions shorten crossing distances and calm turns at cross streets.

Existing concrete islands provide pedestrian refuge.
Proposed Improvements: Bus Stop Spacing

- Stop consolidation significantly reduces time spent pulling in and out of bus stops, reducing travel time
- Faster speeds lead to more productive bus routes that make better connections with subway lines and other key bus routes
- More efficient connections with the M & R trains at the Northern Blvd station could relieve crowding on the 7 train

*Exact stop locations vary between EB and WB service

Riders remain about 2 blocks from a Q66 stop

Proposed Improvements: Bus Stop Spacing

2021 Project
• Faster bus service
• Less time spent pulling in and out of bus stops
• Brings stop spacing closer to average MTA stop distance guidelines

Future Capital Improvements
• 2021 design builds a footprint for Vision Zero Great Streets Capital Project, which will include further transit and safety improvements
Northern Blvd Great Streets Capital Vision*

- Concrete curb extensions shorten crossing distances and calm turns at intersections.
- Raised planted median provides pedestrian refuge and responds to community desire for more trees and greenery.
- Concrete bus bulbs improve bus operations by eliminating the need for the bus to pull in and out of traffic, and create more sidewalk space for bus shelters and other amenities.

*Conceptual design, subject to change
Summary and Benefits

Spring / Summer 2021

• Removing underutilized curbside rush hour lanes on Northern Blvd discourages unpredictable driving and creates space for various curbside uses
• Painted curb extensions shorten pedestrian crossing distances and encourage slower, safer turns
• Consolidation of stop spacing on the Q66 will increase bus speeds and allow space for more pedestrian safety improvements

Future Capital Improvements

• Develop further transit and pedestrian safety improvements
• $79 million in City funds already awarded to Northern Blvd

2021 SIP Proposal: Northern Blvd, Broadway – 114 St
Thank You!
