November 15th

City Council Vote
Early 2022

Design Engagement Process
November to March 2022

Draft Design Guidelines
March 2022

CAPA Process
Begins late Spring
Permanent Open Restaurants Program

DOT administers both sidewalk & roadway seating program

Available citywide

More robust, fine tuned sidewalk clear path & roadway siting criteria

Interagency coordination on enforcement issues
- DOT will enforce barriers, clear path, ADA compliance, amplified sound devices (speakers, radios, etc…)
- NYPD will continue to enforce noise
- DSNY will continue to be responsible for garbage removal
- DOT will work with DOHMH to enforce food safety rules
Permanent Design Guidelines: Goals

**Accessibility:** Require setups that are inclusive to all users.

**Safety:** Put safety first, providing access for emergency vehicles and ensuring that setups contribute to safe streets for all users.

**Flexibility:** Promote coordination between setups and the wide variety of activity on NYC streets from emergency utility work, to transportation planning, to maintenance and sanitation.

**Equity:** Inclusive parameters for all restaurants citywide to have an opportunity to participate.

**Appearance & Neighborhood Context:** Promote clean, attractive and well-maintained setups that enhance the local community and work well in varying street and neighborhood contexts.
Permanent Design Guidelines: Engagement

Interagency Coordination
Regular ongoing Meetings

Topic-Based Roundtables
AlfrescoNYC w/ Industry Professionals

Public Survey
