NYC DOT will implement safety improvements on Queens Blvd. from Yellowstone Blvd. to Union Turnpike:

- Install protected pedestrian path and bicycle lane along both service road medians
- Redesign slip lanes between mainline and service roads
- Install new mall-to-mall crosswalks to connect service road medians
- Expand pedestrian space at intersections
- Install new signalized pedestrian crossing at 78th Ave.
- Extend westbound left turn bays at Yellowstone Blvd. and at Ascan Ave.
- Install new truck loading zones and adjust hours of existing loading zones on Queens Blvd. between Ascan Ave. and Union Turnpike

Implementation starts in June
