

New York City Department of Transportation Street Design Checklist "NYC Admin Code §19 - 182.2"

Pursuant to §19-182.2, this checklist was created by New York City Department of Transportation ("DOT") as a standard checklist of safety-enhancing street design elements that the department must consider for all Major Transportation Projects. A Major Transportation Project (MTP) is a project that, after construction will alter four or more consecutive blocks or 1,000 consecutive feet of street, whichever is less, involving a major realignment of roadway, including either the removal of vehicular lane(s) or full time removal of parking lane(s), or the addition of vehicle lane(s).

DOT is required to post such standard checklists on its website prior to the implementation of each MTP. DOT may amend the standard checklist by rule only to promote vehicular, pedestrian and bicycle safety.

Project Name: Schermerhorn St (Clinton St to Flatbush Ave)

- 1. ADA Accessibility:** Preexisting Feature
- 2. Bus Bulbs:** Not Included In Project
 - There are no bus stops at this location
- 3. Bus Lanes:** Not Included In Project
 - There are no buses at this location
- 4. Daylighting:** Included In Project
- 5. Dedicated Vehicle Loading and Unloading Zones:** Preexisting Feature
- 6. Narrow Vehicle Lanes (10ft or Less):** Not Included In Project
 - Narrow Vehicle Lanes are not feasible/needed at this location at this time based on professional engineering judgment
- 7. Pedestrian Safety Islands:** Not Included In Project
 - A Pedestrian Safety Island is not feasible/needed at this location at this time based on professional engineering judgment
 - Other pedestrian safety feature(s) exist at this location
- 8. Protected Bicycle Lane:** Included In Project
- 9. Signal-Protected Pedestrian Crossings:** Included In Project
- 10. Signal Retiming:** Included In Project
- 11. Wide Sidewalks (8ft or Greater):** Preexisting Feature
