

**NEW YORK CITY FIRE DEPARTMENT
JOB VACANCY NOTICE**

CIVIL SERVICE TITLE Computer Specialist SW L-I	Title Code # 13632
OFFICE TITLE Quality Assurance (QA) Analyst	SALARY \$72,260-Minimum salary for full-time employees with less than 2 years of City Service \$83,099-Maximum salary for full-time employees with more than 2 years of City Service
BUREAU/DIVISION/UNIT Technology Development & Systems/BFP/Revenue Management Systems	LOCATION 9 MetroTech Center, Brooklyn, New York

JOB DESCRIPTION

Under the direction of the Lead Quality Assurance Analyst, the QA Analyst will be a member of a Quality Assurance team responsible for all technical and functional quality assurance activities for the Fire Inspection Revenue and Enforcement System (FIRES) (Accela/FPIMS replacement system). The QA Analyst will work with application developers and end-users to monitor data quality of daily, routine data processing; perform application code reviews; test FIRES application functions including, functional testing, system integration testing, and regression testing; and validate other system functions according to functional and technical requirements. The QA team will be responsible preparing test plans and schedules, writing test cases and scripts, automating and overseeing test execution, defect tracking, defining quality assurance metrics, and performing other system data and code quality audits.

QUALIFICATION REQUIREMENTS:

1. A baccalaureate degree from an accredited college, including or supplemented by 24 semester credits in computer science or a related computer field and two years of satisfactory full-time computer software experience in computer systems development and analysis, applications programming, database administration, systems programming, data communications, including one year in a project leader capacity or as a major contributor on a complex project; or
2. A four-year high school diploma or its educational equivalent and six years of satisfactory full-time computer software experience as described in "1" above, including one year in a project leader capacity or as a major contributor on a complex project; or
3. Education and/or experience equivalent to "1" or "2" above. College education may be substituted for up to two years of the required experience in "2" above on the basis that 60 semester credits from an accredited college is equated to one year of experience. A master's degree in computer science or a related computer field may be substituted for one year of the required experience in "1" or "2" above. However, all candidates must have at least a four-year high school diploma or its educational equivalent and at least one year of satisfactory full-time experience in a project leader capacity or as a major contributor on a complex project

PREFERRED SKILLS:

Minimum of 1 year of experience with Java, PL/SQL, Commercial Off The Shelf (COTS) products (experience with Accela software a plus).
Experience with reporting tools (Crystal, Oracle, or SSRS).
Experience with Oracle databases.
Strong verbal and written communication skills.
Good working knowledge with Microsoft Office Products (Word, Project, Power Point, Excel, and Visio) and Toad. Experience with automated test tracking tools a plus.

Please note that only candidates considered for an interview will be contacted.

TO APPLY:
