WHEREAS the CB#2, Man. decision was made in light of an extensive study by the NYC Dept. of Transportation which concluded that widening the sidewalks three feet on each side of the street would have "no negative impact on the level of service for vehicular traffic"; and

WHEREAS CB#2, Man. made its 1998 resolution contingent on three issues which the applicant, the Village Alliance, was called upon to respond to:

1. Finding that the proposed widening would not disturb subsurface utilities along 8th St.
2. Preparation by the applicant of a detailed 8th Street Streetscape Improvement Plan.
3. Evidence of the applicant's consideration of input from the community at large in preparing its plan; and

WHEREAS the Village Alliance presented testimony and documentation showing compliance with each of these contingencies; and

WHEREAS 81 test pits along the north and south sides of 8th Street from Avenue of the Americas to Broadway did not expose any subsurface utilities that would prevent the moving of the curbline and the widening of the sidewalk; and

WHEREAS, based on the study for the final plan, the sidewalk widenings on each side of the street are being reduced from 3 feet to 2 1/2 feet; and

WHEREAS, based on community input the curbline at each of the six bus stops along 8th Street will not be extended thus creating a special bus-stop area where the roadway will only be 2 1/2 narrower than it is presently, and

WHEREAS the final plan presented by the Village Alliance increases the number of street trees in the effected area from 9 to 63, and street trees are an amenity desired by most of the residents and merchants in this area; and

WHEREAS the final plan also increases the number of street lights in the effected area from 17 to 32, with historic light poles, and additional lighting is another amenity desired by most of the residents and merchants in this area; and

WHEREAS the proposed timetable of the construction of the sidewalk extensions is 4 to 6 months, during which time there will be no interruption of pedestrian, vehicular or bus access on 8th Street; and

WHEREAS the Village Alliance has reached out extensively to the community at large since the full Board’s approval in 1998, through the mailing and distribution of four newsletters to residents, merchants and property owners with updates on the plan; two meetings with 8th Street merchants where the plan was presented and discussed; two Annual Meetings to which the public was invited to review both working plans and the final plans, and a public invitation extended to all community members to visit the Village Alliance office to review proposed materials, colors and design concepts; and

WHEREAS CB#2, Man. reiterates its commitment in the 1998 resolution and in earlier resolutions by the Board, that it is unalterably opposed to sidewalk cafes along 8th St.;

WHEREAS the Landmarks Preservation Commission's publication *The Certificate of Appropriateness Public Hearing: Information for Applicants* states that "applicants are strongly encouraged to contact the Community Board to arrange for review of the proposal before the public hearing"; and

WHEREAS the applicant did not contact the Community Board or appear before the Landmarks Committee to present this application; now

THEREFORE, BE IT RESOLVED that CB#2, Man. recommends denial of this application in the absence of this important step in the review process.

Vote: Passed, with 42 Board members in favor and 1 in opposition.

10. LPC Item: 23 - 70 Bedford Street (Commerce/7th Ave. South) A Federal-style house built in 1806-07 and altered in the 20th century. Application is to renovate the building and construct rear yard and rooftop additions.

WHEREAS, prior to the official landmarks designation of the Greenwich Village Historic District, this building was honored in 1966 with a bronze plaque from the New York Community Trust for its uniqueness; and

WHEREAS, members of the community and the local block association objected to the scope of the project; and

WHEREAS, the front elevation, site plan, and the mechanicals on the roof were not presented; and

WHEREAS, the proposed infill will change the volume of the original building and obscure the original Federal-style side wall; and

WHEREAS, the enlargement would envelope the old building with a new structure; and

WHEREAS, the rear façade, which is visible from 7th Avenue South, is not in keeping with the architectural character of the building; and

WHEREAS, the proposed infill for the side alley provides no historic preservation purpose, since the alley originally would have been an open passageway, possibly with a gate.

THEREFORE, BE IT RESOLVED that CB#2, Man. recommends denial of this application.

Vote: Passed, with 42 Board members in favor and 1 in opposition.

11. LPC Item: 24 - 403 Bleecker Street (W. 11th) A vernacular style rowhouse built in 1860 designed by Van Buren. Application is to install a storefront.

WHEREAS, a number of aspects of this application are commendable; but

WHEREAS, the use of black granite for the base, the extensive presence of so much glass and the delicate 1-3/4” mullions are, cumulatively, too modern for Bleecker Street;

THEREFORE, BE IT RESOLVED that CB#2, Man. recommends the applicant come back with a more traditional design for the storefront.

Vote: Passed, with 42 Board members in favor and 1 in opposition.

12. LPC Item: 25 - 7 Macdougal Alley A studio/shop built in 1899 designed by Day. Application is to replace the windows and porch hood, and alter the mezzanine level façade.

WHEREAS, the replacement of aluminum windows with wooden double-hung windows and the enlarging of the window on the left side to its original size are commendable; but

WHEREAS, many of the charming details that were added in 1899 when the stable was converted to an artist’s studio would be lost; and

WHEREAS, the original atelier skylight would be replaced and the porch hood would be removed;
THEREFORE, BE IT RESOLVED that CB#2, Man. recommends denial of this application.

Vote: Passed, with 42 Board members in favor and 1 in opposition.

13.625 Broadway  Held over.

14. LPC Item: 28 - 134 Seventh Avenue South A commercial building built in 1937. Application is to establish a master plan governing the future installation of storefronts and awnings.

WHEREAS, this is commendable initiative; but

WHEREAS, a master plan calls for consistency, and to mix retractable with fixed awnings is inconsistent;

THEREFORE, BE IT RESOLVED that CB#2, Man. recommends approval of this application with a desire to see all the awnings of one type, preferably retractable.

Vote: Passed, with 42 Board members in favor and 1 in opposition.

15. LPC Item: 27 - 134 Seventh Avenue South A commercial building built in 1937. Application is to establish a master plan governing the future installation of storefronts and awnings.

WHEREAS, this is commendable initiative; but

WHEREAS, a master plan calls for consistency, and to mix retractable with fixed awnings is inconsistent;

THEREFORE, BE IT RESOLVED that CB#2, Man. recommends approval of this application with a desire to see all the awnings of one type, preferably retractable.

Vote: Passed, with 42 Board members in favor and 1 in opposition.

16. LPC Item: 26 - 88 Bedford Street (Commerce) A house built in 1851 and altered in the 20th century. Application is to construct a stoop and entryway.

WHEREAS, the addition of the stoop to the streetscape is welcomed; but

WHEREAS, the configuration of the front door panels and the style of the newel posts and the hand railings for the stoop stairs are historically inaccurate; and

WHEREAS, the color of the door to the backyard should match the color of the main front door; and

WHEREAS, a proposed gate at the front of the stoop is not appropriate and community members suggested that a simple chain serves just as well to discourage trespassers; and

WHEREAS, since there is a twin building at 25 Charlton Street, that building should be used as a model for this project;

THEREFORE, BE IT RESOLVED that CB#2, Man. recommends approval for the construction of a stoop, but urges further refinements of the details.

Vote: Passed, with 42 Board members in favor and 1 in opposition.
