

## Public Comment Period

January 27, 2014  
to  
February 27, 2014

## Where can I view project documents?

### Online at:

<http://www.nyc.gov/hml/oer/html/repository/RBrooklyn.shtml>

Internet access to view documents is available at the public library. The closest location is:

Greenpoint Branch  
107 Norman Avenue  
Brooklyn, NY 11222

Please call (718) 349-8504 for hours of operation

## Whom can I contact for project information?

Horace Zhang  
Project Manager  
NYCOER  
100 Gold Street, 2<sup>nd</sup> Floor  
New York, NY 10038  
(212) 788-8484  
[HZhang@dep.nyc.gov](mailto:HZhang@dep.nyc.gov)

and

Shaminder Chawla  
Deputy Director  
NYCOER  
(212) 442-3007  
[Schawla@dep.nyc.gov](mailto:Schawla@dep.nyc.gov)

## NYC VCP Cleanup Plan Available for Review and Comment

The New York City Office of Environmental Remediation (OER) provides this Fact Sheet pursuant to New York City's Voluntary Cleanup Program (VCP). An application has been submitted by PTSE Property Holdings, LLC for enrollment of the property located at 87 – 89 Grand Street in Brooklyn, New York and identified as Block 2379, Lot 40 and 42 into the VCP. The Remedial Investigation Report (RIR) details the results of an environmental investigation at the site including the nature and extent of contamination. The draft Remedial Action Work Plan (RAWP) proposes remedial actions to address contamination delineated in the RIR.

### Public Comments on the RAWP

OER is accepting public comments on the draft RAWP for 30 days until February 27, 2014. The RIR and draft RAWP are available for review at the document repositories identified in the box on the left including a public library branch and through a link to OER's website. Comments should be sent to Mr. Shaminder Chawla via mail or e-mail.

### Site Description

The Site is 4,810 square feet and is currently a three story residential building and a vacant lot. The proposed use of the Site consists of a new 5-story mixed use building, with a cellar, encompassing the entire site.

### Summary of RIR

The environmental investigation identified 12 inches of concrete followed by soils indicative of fill material up to 12 feet below ground surface (bgs). Several Semi Volatile Organic Compound (SVOCs), metals, and pesticides were detected above cleanup guidelines. Groundwater samples identified two metals at concentrations above Groundwater Quality Standards (GQS). Soil vapor samples identified several petroleum-related VOCs at low concentrations, and one chlorinated VOC within the DOH guidance matrix monitoring range.

### Summary of the Remedy

The specific elements of the remedial action will include:

- Preparation of a Community Protection Statement and performance of all required NYC VCP citizen participation activities according to an approved Citizen Participation Plan;
- Performance of a Community Air Monitoring Program for particulates and volatile organic compounds;
- Establish Unrestricted Use (Track 4) Site Specific Soil Cleanup Objectives (SCOs);
- Excavation and removal of soil/fill exceeding SCOs. The site will be excavated to a depth of approximately 13.5' below sidewalk grade for the new building;
- Transportation and off-site disposal of all soil/fill material at permitted facilities in accordance with applicable laws and regulations for handling, transport and disposal of contaminated soil;
- Collection and analysis of end-point samples to determine if the remedy attains SCOs;
- Installation of a 20-mil thick vapor barrier beneath the building slab and on foundation sidewalls up to grade;
- Capping of the entire Site with concrete building slab to prevent exposure to remaining on-Site soil/ fill;
- Submission of a RAR that describes the remedial activities, certifies that the remedial requirements have been achieved and lists any changes from this RAWP.

### Next Steps

OER will review the draft RAWP and consider all public comments submitted during the comment period before it approves a final RAWP. The approved RAWP will be placed in the public library branch and on OER's website and a second fact sheet will be issued before remedial work begins.

If you have any questions or know of any neighbor that would like to be added to the site contact list, please contact the OER Project Manager listed on the front page of this Fact Sheet. We encourage you to share this Fact Sheet with neighbors and tenants and/or post it in a prominent area of your building.
