**RELATED TAX LOTS FORMING A UNIT**  
**FOR CONSOLIDATED REVIEW**

**INSTRUCTIONS:** You must notify the Tax Commission if you want two or more non-condo tax lots, operated as an economic unit or otherwise related for purposes of valuation, to be reviewed together as a consolidated unit. The lots must be contiguous or near one another and under common ownership or control. The Tax Commission will provide you with a 2016 List of Related Tax Lots informing you of the units for consolidated review that you or your firm reported in 2016. File a marked copy of that list on or before **March 24, 2017** to notify the Tax Commission of the related lots on which you seek consolidated review in 2017. Failure to file the marked list or TC166 will result in deletion from our records of consolidated units reported in 2016. In addition, file a separate Form TC166 on or before **March 24, 2017** to report each new consolidated unit of related lots. If a consolidated income and expense statement was filed in 2017, the covered lots must be on the marked 2016 list or on Form TC166. File an application for every related lot within a unit to obtain a consolidated hearing and review. File TC166 separately; do not attach it to an application form. If you use TC166 to report related lots, check the appropriate boxes below to indicate the status of the unit as new, the same as 2016, or changed. **NOTE:** You may be asked to explain changes to the consolidated group. Non-filing, late filing or mistakes in the tax lots identified as a unit may result in denial or deferral of review if consolidated review is required. Sign and date the form below. Make a copy and present it when filing the original to obtain proof of filing.

**Do not include any condominium lots on Form TC166 or your marked 2016 List of Related Tax Lots.** Condominium hearings are scheduled according to the condominium number assigned by the Department of Finance, not TC166. Delete all condominium lots when you mark your 2016 List of Related Tax Lots.
